## UNIT 1

### FOUNDATIONS OF MATERNAL, NEWBORN, AND WOMEN'S HEALTH CARE ..... 2

#### CHAPTER 1

##### Philosophy and Framework for Women's Reproductive and Sexual Health 5

<b>Shifting Paradigms and Current Context</b>	6
Changes in Family Structures and Relationships	6
Changes in Sociocultural Influences	8
Changes in Political Viewpoints	9
<b>North American Health Care Systems</b>	9
Canadian Health Care System	10
The U.S. Health Care System	10
<b>Health Promotion and Health Statistics</b>	12
Nutritional Status and Body Weight	12
Exercise	12
Prenatal Care	12
Birth and Fertility Rates	15
Maternal Morbidity	15
Maternal Mortality	16
<b>Critical Thinking, Ethically Based Practice, and Evidence-Based Care</b>	17
Ethical Decision Making	18
Informed Consent	21
Nursing and Women's Health Research	24
Evidence-Based Practice	25

#### CHAPTER 2

##### Health Promotion 29

<b>Health Promotion</b>	31
Nursing Approaches to Health Promotion	31
Health Theories and Models	33
<b>Health Assessment and Screening</b>	35
Diet, Exercise, and Lifestyle	35
Psychosocial Health	43
Cardiovascular Health	47
Diabetes Mellitus	50
Menstrual Health	52
Sexual and Reproductive Health	54
Cultural Beliefs Regarding Health Promotion Issues	68

Environmental Factors Related to Health Issues	71
<b>Physical Examination</b>	71
<b>Nursing and Collaborative Care Roles Related to Health Promotion</b>	72
Health Screening	72
Immunizations	76

#### CHAPTER 3

##### Nutrition for Adolescent and Adult Women 85

<b>Nutrients</b>	86
Macronutrients	87
Micronutrients	88
<b>Nutritional Assessment</b>	92
Assessing Dietary Intake	92
Assessing Nutritional Status	95
Assessing Factors That Influence Food Choices	96
<b>Nutritional Variations for Various Groups</b>	98
Pregnancy	98
Lactation	102
Adolescence	105
Adulthood and Older Adulthood	109

#### CHAPTER 4

##### Medical Alterations in Women During Adolescence and Adulthood 115

<b>Genetic Disorders</b>	117
Sickle Cell Disease	117
Thalassemia	118
Cystic Fibrosis	119
Tay-Sachs Disease	119
<b>Autoimmune Disorders</b>	119
Rheumatoid Arthritis	120
Myasthenia Gravis	121
Systemic Lupus Erythematosus	122
<b>Diabetes Mellitus</b>	123
Classification	123
Assessment Findings	123
Collaborative Management	124
<b>Cardiovascular Disease</b>	125
Assessment Findings	125
Collaborative Management	125
<b>Cerebrovascular Accident</b>	126
Assessment Findings	127

Collaborative Management 127

**Sexually Transmitted Infections 127**

Chlamydia 127

Gonorrhea 129

Syphilis 130

Genital Herpes 130

Human Papillomavirus (Genital Warts) 131

Bacterial Vaginosis 132

Trichomoniasis 133

Yeast Infection (Candidiasis) 134

Human Immunodeficiency Virus (HIV) 136

Hepatitis 138

**Benign Breast Disorders 139**

Breast Pain (Mastalgia) 139

Breast Infections 140

Fibrocystic Changes 140

Fibroadenoma 141

Nipple Discharge 141

**Malignant Breast Disorders 142**

Breast Carcinoma 142

Inflammatory Breast Cancer (IBC) 153

**Menstrual Disorders 154**

Amenorrhea 154

Dysmenorrhea 154

Dysfunctional Uterine Bleeding 155

Premenstrual Syndrome 155

**Reproductive Tract Alterations 155**

Pelvic Inflammatory Disease 155

Endometriosis 157

Leiomyomas (Uterine Fibroids, Myomas) 158

Endometrial Hyperplasia 159

Uterine Cancer 159

Benign Ovarian Cysts 160

Ovarian Cancer 161

Benign Cervical Alterations 163

Cervical Dysplasia 163

Cervical Cancer (CIS) 164

Vulvar Cancer 165

**Pelvic Relaxation Alterations 166**

**Urinary Tract Disorders 166**

Cystitis 166

Interstitial Cystitis 167

Urinary Incontinence 167

**CHAPTER 5**

**Mental Health Concerns for Women in Adolescence and Adulthood 173**

**Conceptual Models in Mental Health Care 174**

Psychoanalytic Models 175

Behavioral Models 175

Sociocultural Models 178

Feminist Models 178

Biologic Models 178

**Common Psychiatric Challenges in Women 178**

Depression and Related Disorders 179

Anxiety, Stress, and Anxiety Disorders 182

Schizophrenia 184

Eating Disorders 186

Intimate Partner Violence 189

Substance Abuse 195

**Psychopharmacologic Therapy During Pregnancy or Lactation 196**

Determining Risks and Benefits 197

Commonly Used Agents for Psychiatric Disorders 197

**Nursing Care and Mental Health and Illness in Women 198**

Discussing Informed Consent 199

Documenting Risks Versus Benefits 199

Promoting Community and Psychosocial Interventions 200

Teaching Stress Management 200

Assisting With Access to Health Care 200

Promoting Health Literacy: A Critical Role for Nurses 201

**CHAPTER 6**

**Sexuality and Reproduction 207**

**Sexual and Reproductive Development Across the Lifespan 208**

Conception Through Infancy 209

Childhood 212

Pubescence and Adolescence 213

Adulthood 221

Middle and Older Adulthood 222

**Cultural Perspectives 223**

White (Caucasian) North Americans 223

Asian North Americans 223

Hispanic North Americans 223

African Americans 225

**Positive and Negative Aspects of Sexual Practices and Behaviors 225**

**Sexual Orientation and Related Issues 226**

Gay Identity Development 226

Psychosocial and Cultural Issues 228

**Sexual and Reproductive Rites of Passage 231**

Female Circumcision 232

Male Circumcision 232

**CHAPTER 7**

**Family Formation 237**

**Definitions of Family 238**

Families Viewed as Systems 238

Nonsystem Views of Family 246

**Family Arrangements and Structures 247**

Traditional Nuclear and Two-Parent Families 248

Single-Parent Families 248

Families With Same-Sex Parents 248

Adolescent Parents 250

Blended Families 251

Families of Mothers Older Than 35 252

Extended Families 253

Grandparents as Primary Caregivers 253

**Cultural Perspectives 253**

Hispanic Culture 254

Asian Culture 255

Jewish Culture 255

Native American Culture 256

African American Culture 257

Muslim Culture 257  
**Families Growing Through Adoption 258**  
 Birth or Biological Parents 258  
 Pre-Adoptive Parents 258  
 Types of Adoption 259  
 Special Circumstances With Adoption 261

**UNIT 2**

**SPECIAL REPRODUCTIVE AND HEALTH CONCERNS ..... 272**

**CHAPTER 8**

**Fertility Control and Contraception 275**

**Historical Perspectives 277**  
**Types of Contraceptive Methods 278**  
 Barrier Methods 278  
 Hormonal Methods 286  
 Intrauterine Methods 291  
 Behavioral Methods 292  
 Surgical Methods 294  
 Emergency Contraception 296

**CHAPTER 9**

**Voluntary Pregnancy Termination 307**

**Historical Perspectives 308**  
 Ancient Times 308  
 Middle Ages and Beyond 308  
 Modern Changes 309  
**Religious Perspectives 309**  
**Current Legal and Political Climate 310**  
 The United States 310  
 Canada 310  
**Nursing Perspectives, Roles, and Responsibilities 310**  
 Decision-Making Process 311  
 Methods of Pregnancy Termination 312  
 Aftercare 316

**CHAPTER 10**

**Fertility Challenges 321**

**Historical Perspectives 322**  
**Religious and Cultural Perspectives 323**  
 Jewish Perspectives 323  
 Muslim Perspectives 323  
 Catholic Perspectives 323  
**Myths, Facts, and Resources 323**  
**Causes of Infertility 326**  
 Biologic Factors 326  
 Environmental Factors 327  
 Lifestyle Factors 327  
 Physical Factors and Classification 328  
 Other Causes of Infertility 331  
 Infertility of Unknown Cause 331

**CHAPTER 11**

**Genetics, Embryology, and Preconceptual/  
 Prenatal Assessment and Screening 355**

**Genetics and Cell Biology 356**  
 Chromosomes, Genes, and DNA 357

Mitosis and Meiosis 358  
 Gametogenesis 360  
 Fertilization and Implantation 362  
**Embryology and Fetal Development 363**  
 Pre-embryonic Development 363  
 Embryonic Development 371  
 Fetal Development 377  
**Preconception Health Assessment  
 and Screening 379**  
 Genetic Services 379  
 Health History Assessment 388  
 Information Sharing 398  
 Anticipatory Care 401  
**Prenatal Screening and Diagnostic Procedures 401**  
 Maternal Serum Marker Screening 402  
 Ultrasound Evaluation 408  
 Invasive Diagnostic Tests 411  
 Preimplantation Genetic Diagnosis  
 and Related Technologies 417  
 Evaluation of the Placenta and Fetal Well-Being 419  
**Postnatal Screening and Diagnostic Procedures 419**  
 Newborn Screening Programs 420  
 Dysmorphology Assessment 421

**UNIT 3**

**PREGNANCY ..... 430**

**CHAPTER 12**

**Process of Pregnancy 433**

**Variations in Responses to Pregnancy 434**  
 Age-Related Variations 435  
 Sociocultural Variations 436  
 Religious Variations 441  
**Physiologic Changes in Pregnancy 443**  
 Weight 443  
 Cardiovascular System 443  
 Hematologic System 444  
 Respiratory System 445  
 Gastrointestinal System 445  
 Integumentary System 445  
 Endocrine System 446  
 Reproductive System 446  
 Urinary System 448  
 Musculoskeletal System 449  
 Physiologic Differences Related to Age and  
 Race/Ethnicity 449  
**Psychological and Emotional Changes  
 in Pregnancy 451**  
 Reactions of Woman and Partner 451  
 Reactions of Grandparents-to-Be 451  
 Reactions of Other Children 451  
**Signs of Pregnancy 452**  
 Presumptive Signs 452  
 Probable Signs 453  
 Positive Signs 454  
**Antepartal Health Assessment 455**

Initial Prenatal Maternal Health Assessment 455  
 Follow-Up Maternal Assessments 466  
 Assessment of Fetal Activity and Well-Being 466  
**Anticipatory Guidance Related to Pregnancy 476**  
 Urinary Frequency 477  
 Fatigue and Sleep Problems 479  
 Breast Sensitivity and Other Discomforts 479  
 Gastrointestinal Problems 480  
 Vascular Problems 480  
 Dyspnea 480  
 Leukorrhea and Vaginal Problems 480  
 Round Ligament Pain 481  
 Carpal Tunnel Syndrome 481  
 Supine Hypotension Syndrome 481  
 Backache 481  
 Bathing 481  
 Working 482  
 Travel 482  
 Exercise 482  
 Dental Care 482  
 Sexual Concerns 483  
 Clothing 483  
 Nutrition 484  
 Pets 484  
 Teratogens 484  
**Community and Home Concerns 485**

**CHAPTER 13**  
**High-Risk Pregnancy 491**

**Pregnancy Risk Assessment 493**  
 Psychosocial Risk Factors 493  
 Economic Risk Factors 493  
 Nutrition-Related Risk Factors 494  
 Family-Related Considerations 495  
**Common Interventions in High-Risk Pregnancy 496**  
 Fetal Health Surveillance 496  
 Bedrest 496  
**Health Complications in Pregnancy 497**  
 Asthma 498  
 Cystic Fibrosis 500  
 Cardiovascular Disease 500  
 Anemia 503  
 Autoimmune Diseases 504  
 Infections 505  
 Renal and Urinary Problems 510  
 Diabetes Mellitus 511  
 Psychosocial Disorders and Problems 517  
 Obesity 520  
**Common Gestational Complications 521**  
 Hyperemesis Gravidarum 522  
 Hypertensive Problems 523  
 HELLP Syndrome 529  
 Preterm Premature Rupture of Membranes 531  
 Cervical Insufficiency/Incompetence 532  
 Disseminated Intravascular Coagulopathy (DIC) 533  
 Placental Alterations 534  
 Adolescent Pregnancy 538  
 Multiple Pregnancy 539  
 Perinatal Loss 541

**CHAPTER 14**  
**Educational Preparation for Pregnancy, Childbirth, and Parenthood 551**

**Childbirth Education 552**  
 Historical Perspectives 554  
 Modern Approaches to Childbirth 555  
**Common Themes in Childbirth Education and Preparation 556**  
 Pain Assessment 557  
 Research Investigations 557  
**Variations in Childbirth Education 559**  
 Childbirth Education Programs, Providers, and Approaches 559  
 Media, Internet, and Other Resources 563  
 Access to Childbirth Education 563  
 Continuity of Health Promotion 563

**UNIT 4**

**LABOR AND CHILDBIRTH .....580**

**CHAPTER 15**  
**Labor and Childbirth 583**

**Prelabor 585**  
 Signs of Approaching Labor 585  
 True Versus "False" Labor 587  
 Emotional Experience of Impending Labor 587  
 Sociocultural Aspects Related to Impending Labor and Birth 587  
 Collaborative Management 588  
**Labor and Birth 588**  
 Etiology of Labor 588  
 Processes of Labor and Birth 591  
 Mechanisms of Labor 594  
 Maternal Responses to Labor 596  
 Fetal Responses to Labor 598  
 Stages and Phases of Labor 602

**CHAPTER 16**  
**High-Risk Labor and Childbirth 629**

**Risk Assessment and Identification 631**  
**Dysfunctional Labor (Dystocia) 632**  
**Problems With the Powers 632**  
 Hypertonic Uterine Contractions 632  
 Hypotonic Uterine Contractions 633  
 Pathologic Retraction and Constriction Rings 633  
 Inadequate Voluntary Expulsive Forces 634  
 Precipitous Labor 634  
**Problems With the Passenger 634**  
 Breech Presentation 635  
 Other Malpresentations 637  
 Occipitoposterior Position 638  
 Shoulder Dystocia 639  
 Excessive Fetal Size or Fetal Abnormalities 641  
**Problems With the Passageway 643**  
 Pelvic Shape Problems 643  
 Contracted Pelvis 643

**Preterm Labor 643**  
 Etiology and Risk Factors 643  
 Assessment Findings 644  
**Postterm Pregnancy and Labor 646**  
**Hemorrhagic Problems 647**  
**Placental Problems 647**  
 Placenta Previa 647  
 Placental Abruption 647  
 Other Placental Anomalies 648  
**Uterine Rupture 648**  
**Prolapsed Umbilical Cord 648**  
**Amniotic Fluid Embolism 650**  
**Multiple Pregnancy 650**  
**Maternal Obesity 651**  
**Female Circumcision 652**  
**Birth-Related Procedures Common in High-Risk Labor and Birth 653**  
 Cervical Ripening and Labor Induction 653  
 Amnioinfusion 659  
 Forceps-Assisted Birth 659  
 Vacuum-Assisted Birth 660  
 Cesarean Birth 662  
 Vaginal Birth After Cesarean 666

**CHAPTER 17  
 Pharmacologic Pain Management of Labor 671**

**Physiology of Labor Pain 672**  
 Pain Terminology 673  
 Variations in Labor Pain 673  
**Psychology of Pain 674**  
**Theories of Pain 676**  
 Gate Control Theory 676  
 Chemical Pain Control Theory 676  
**Influences on Pain and Pain Management 677**  
 Cultural Considerations 677  
 Legal and Ethical Perspectives 678  
 Drug Pharmacokinetics 679  
**Types of Pharmacologic Pain Management 679**  
 Sedative Hypnotics 679  
 Analgesic Compounds 680  
 Anesthesia 682

**UNIT 5**

**POSTPARTUM PERIOD AND NEWBORN CARE ..... 706**

**CHAPTER 18  
 Fourth Stage of Labor and Postpartum Period 709**

**Physiologic Changes 710**  
 Weight 710  
 Cardiovascular System 711  
 Hematologic System 711  
 Respiratory System 712  
 Gastrointestinal System 712  
 Integumentary System 712  
 Endocrine System 712  
 Reproductive System 713  
 Urinary System 714

**Psychological Changes and Maternal Adjustment 715**  
 Immediate Reactions 716  
 Theories of Change 716  
 Sleep Deprivation and Exhaustion 716  
 Emotional State 717

**CHAPTER 19  
 The High-Risk Postpartum Woman 745**

**Focused Assessments for Clients With Postpartum Complications 747**  
**Bleeding Complications 747**  
 Early Postpartum Hemorrhage 748  
 Late Postpartum Hemorrhage 755  
**Postpartum Infections 756**  
 Infection of the Uterus and Surrounding Tissues 757  
 Other Genital Tract Infections 759  
 Septic Pelvic Thrombophlebitis 760  
 Wound Infections 760  
 Urinary Tract Infection 762  
 Mastitis 765  
**Thromboembolic Complications 766**  
**Peripartum Cardiomyopathy 768**  
**Reproductive Anatomic Complications 769**  
 Pelvic Problems 769  
 Uterine Alterations 770  
 Cystocele and Rectocele 771  
 Psychological Complications 773  
 Postpartum Blues 774  
 Postpartum Depression 776  
 Postpartum Panic Disorder 778  
 Postpartum Psychosis 779

**CHAPTER 20  
 The Healthy Newborn 785**

**From Fetus to Newborn 787**  
 Review of Fetal Circulation 787  
 Respiratory and Circulatory Transitions at Birth 787  
**Immediate Nursing Management of the Newborn 790**  
 Prenatal and Intrapartal History 790  
 Preparedness for Resuscitation 790  
 Assessment During the First Moments After Birth 792  
 Apgar Scoring 793  
**Early Newborn Care Procedures 795**  
 Identification 797  
 Weight 797  
 Measurements 797  
 Gestational Age Assessment 798  
 Infant Classification 800  
 The First Bath 803  
 Medication Administration 806  
 Full Physical Examination 809  
**The Newborn Transitional Period 811**  
 Behavioral Changes 811  
 Behavioral States 811  
 Behavioral Cues 820  
 Neonatal Sensory Abilities 820  
 Physiologic Adaptations 822  
 Promoting Normal Transition 831  
**Ongoing Assessments 836**

**Basic Care of the Healthy Newborn 836**  
 Cultural Aspects 841  
 Care of the Newborn Following Home Birth 841  
 Infant Security 841  
 Temperature Assessment 844  
 Use of the Bulb Syringe 844  
 Voiding and Stooling 845  
 Diapering 845  
 Cord Care 845  
 Clothing 845  
 Wrapping 847  
 Holding 847  
 Comforting 847  
 Parental Stress 849  
 Sleep Positioning and Sudden Infant Death Syndrome 849  
 Bathing the Newborn 850  
**Additional Parent Education 850**  
 Circumcision 850  
 Immunizations 851  
 Signs of Newborn Illness 856  
 Car Seats 856  
 Siblings 858  
 Pet Safety 858  
 Dangers of Secondhand Smoke 858  
 Household Safety 859  
**Readiness for Hospital Discharge 859**  
 Newborn Metabolic Screening 861  
 Auditory Screening 861  
 Postdischarge Follow-Up 865

**CHAPTER 21**

**Newborn Nutrition 871**

**The Feeding Decision 872**  
 Practical Considerations 873  
 Sexual and Emotional Considerations 875  
 Racial, Ethnic, and Cultural Influences 876  
 Client Teaching and Collaborative Interventions 876  
**Breastfeeding 877**  
 Benefits of Breastfeeding 877  
 Contraindications to Breastfeeding and Conditions Requiring Adjustments 879  
 Physiology of Milk Production 880  
 Composition 880  
 Medicinal Supplementation for Breastfed Infants 882  
 Donor Human Milk 882  
**Formula Feeding 894**  
 Composition 894  
 Considerations Related to Formula Type 894  
 Additives 897  
 Client Teaching and Collaborative Interventions 898  
**Other Feeding Delivery Strategies 901**  
 Parenteral and Enteral Nutrition 901  
 Cup Feeding 901  
 Finger Feeding 902  
 Nursing Supplementer 902  
 Syringe Feeding 902  
**Measures of Successful Feeding 903**  
 Fluid Intake 903  
 Wet Diapers 903

Stools 903  
 Weight Gain and Growth 904  
**Problems Related to Feeding 904**  
 Jaundice 904  
 Thrush 904  
 Gastroesophageal Reflux 905  
 Colic 905  
 Water Intoxication 906

**CHAPTER 22**

**The High-Risk Newborn 911**

**Newborn Risk Identification 913**  
**Problems Related to Size and Gestational Age 913**  
 SGA Newborn 915  
 LGA Newborns 917  
 Preterm Newborn 918  
 Postterm Newborns 924  
**Hyperbilirubinemia 943**  
**Fetal Alcohol Syndrome 948**  
**Congenital Anomalies 948**  
 Congenital Heart Disease 950  
 Congenital Diaphragmatic Hernia 956  
 Neural Tube Defects 958  
 Congenital Defects of the Abdominal Wall 960  
 Cleft Lip and Cleft Palate 961  
 Esophageal and Tracheal Defects 966  
 Imperforate Anus 969  
 Skeletal Anomalies 970  
 Developmental Dysplasia of the Hip 971  
 Genitourinary Anomalies 973

**UNIT 6**

**MENOPAUSE AND BEYOND .....980**

**CHAPTER 23**

**The Menopausal Experience 983**

**Physiologic Basis of Naturally Occurring Perimenopause and Menopause 984**  
**Potential Changes Related to Perimenopause and Menopause 985**  
 Menstrual Cycle 985  
 Vasomotor Symptoms 987  
 Genitourinary Symptoms 987  
 Fertility 987  
 Mental Health Changes 987  
 Cardiovascular Disease 988  
 Osteopenia and Osteoporosis 988  
 Breast Cancer 988  
 Other Alterations 988

**CHAPTER 24**

**The Older Postmenopausal Woman 1007**

**Communicating With the Older Woman 1009**  
 Using Interviewing Skills 1009  
 Obtaining a Health History 1010  
 Addressing Barriers to Communication 1011

**Comprehensive Assessment for  
the Older Woman 1011**

Lifestyle	1012
