

Peter J. Hesketh
Editor

BioNanoFluidic MEMS

Springer

Contents

1 Nanotechnology: Retrospect and Prospect	1
James D. Meindl	
2 Synthesis of Oxide Nanostructures	11
Chenguo Hu, Hong Liu and Zhong Lin Wang	
3 Nanolithography	37
Raghunath Murali	
4 Nano/Microfabrication Methods for Sensors and NEMS/MEMS	63
Peter J. Hesketh	
5 Micro- and Nanomanufacturing via Molding	131
Harry D. Rowland and William P. King	
6 Temperature Measurement of Microdevices using Thermoreflectance and Raman Thermometry	153
Thomas Beechem and Samuel Graham	
7 Stereolithography and Rapid Prototyping	175
David W. Rosen	
8 Case Studies in Chemical Sensor Development	197
Gary W. Hunter, Jennifer C. Xu and Darby B. Makel	
9 Engineered Nanopores	233
Amir G. Ahmadi and Sankar Nair	
10 Engineering Biomaterial Interfaces Through Micro and Nano- Patterning	251
Joseph L. Charest and William P. King	
11 Biosensors Micro and Nano Integration	279
Ravi Doraiswami	

About the Cover	291
Index	293
