part 1

Introduction to Investments 1

chapter 1

Introduction 1

Nature of Investing 2

Buy Low, Sell High 2

Building Wealth over Time 3

Types of Financial Assets 4

Cash Reserves 4

Bonds 5

Stocks 5

Historical Performance 6

Investment Objectives 9

Investing for Retirement 9

Investing to Meet Other Financial Goals 10

Investing Is Not a Game 10

Theory of Finance 11

Theory Provides a Road Map 11

Key Investment Concepts 11

Analysis and Behavior 12

Investment Superstars 12

Asset Valuation 13

Behavior of Stock Market Participants 14

Information—A Key to Investment Success 15

Financial Information on the Web 15

Financial Newspapers 17

Financial Periodicals 17

Becoming an Investment Professional 18

Financial Job Market Overview 18

Brokerage Business 19

Investment Management 20

Financial Planning 20

Investment Banking 20

Summary 21

Self-Test Problems 22

Questions and Problems 23

Investment Application: Will You Be a Millionaire? 25

chapter 2

Equity Markets 27

Major U.S. Securities Exchanges 28

Capital Markets 28

New York Stock Exchange 28

American Stock Exchange 31

Over-the-Counter Markets 32

Nasdaq National Market 32

Nasdaq SmallCap Market 34

The Over-the-Counter Bulletin Board 34

Electronic Communications Networks 35

U.S. Large-Company Stock Indexes 35

Dow Jones Industrial Average 35

Global Stock Indexes 46

Major Global Stock Market Indexes 46

Morgan Stanley Capital International Indexes 46

Securities Market Regulation 48

Important Legislation 48

Self-Regulatory Organizations 49

Market Surveillance 50

Securities Arbitration 51

Circuit Breakers and Curbs 51

Investor Associations 53

American Association of Individual Investors 53

Investment Clubs 53

Summary 54

Self-Test Problems 55

Questions and Problems 55

Investment Application: Buying Stocks without a Broker 57

chapter 3

Buying and Selling Equities 60

Simple Buy-Sell Decisions 61

Bid-Ask Spreads 61

Types of Orders 62

Order Routing 63

Trading Pitfalls 64

Hyperactive Trading 64

Online Brokerage and Trading Activity 65

The Illusion of Knowledge 65

The Illusion of Control 66

| | |
|---|-----------|
| Buying on Margin | 67 |
| Margin Accounts | 67 |
| Margin Call Risk | 68 |
| Other Problems with Leverage | 70 |
| Selling Short | 70 |
| How to Profit from Falling Prices | 70 |
| Margin Call Risk for Short Sellers | 73 |
| Simple Investment Strategies | 74 |
| Dollar-Cost Averaging | 74 |
| Dollar-Cost Averaging for Retirement | 77 |
| Buying Initial Public Offerings | 77 |
| Types of Security Offerings | 77 |
| Underwriting Process | 78 |
| Regulatory Requirements | 79 |
| IPO Market | 81 |
| Postissue Performance of IPOs | 81 |
| Understanding the IPO Market | 82 |
| Summary | 83 |
| Self-Test Problems | 84 |
| Questions and Problems | 85 |
| Investment Application: Are Investors Foolish? | 87 |

chapter 4

Risk and Return 89

| | |
|--|------------|
| Financial Returns | 90 |
| Thinking about Returns | 90 |
| Arithmetic Average versus Geometric Mean | 91 |
| Comparing Returns | 92 |
| Historical Returns | 93 |
| Stocks versus Fixed-Income Securities | 93 |
| Inflation Problem | 94 |
| Cumulative Returns | 96 |
| Taxes and Investment Returns | 97 |
| Tax Costs | 97 |
| Capital Gains and Dividend Taxes | 97 |
| Tax Deferral Benefits | 98 |
| Risk Concepts and Measurement | 98 |
| Valuation Risk | 98 |
| Risk Measurement Concepts | 99 |
| Holding-Period Returns | 102 |
| Sources of Volatility | 104 |
| Company Risk | 104 |
| Stock Market Risk | 105 |
| Bond Market Risk | 106 |
| Portfolio Theory | 107 |
| Basic Assumptions | 107 |
| Portfolio Risk and Return | 108 |
| Optimal Portfolio Choice | 111 |
| Investor Perceptions of Risk | 113 |
| Choosing Financial Assets | 113 |
| Making Decisions after Gains and Losses | 113 |
| Comparing Risky Investments | 114 |
| Mental Accounting | 114 |

| | |
|---|------------|
| Summary | 115 |
| Self-Test Problems | 116 |
| Questions and Problems | 117 |
| Investment Application: Investing for Retirement | 119 |

part 2

Market Efficiency and Investor Behavior 122

chapter 5

Asset Pricing Theory and Performance Evaluation 122

| | |
|---|------------|
| Asset Pricing | 123 |
| Traditional Theory | 123 |
| New Behavioral Approaches | 123 |
| Capital Asset Pricing Model | 124 |
| History | 124 |
| Basic Assumptions | 124 |
| Lending and Borrowing | 125 |
| Expected Return and Risk | 126 |
| Capital Market Line | 126 |
| Security Market Line | 128 |
| Security Characteristic Line | 129 |
| Using CAPM to Find Undervalued Stocks | 131 |
| Portfolio Risk and CAPM | 132 |
| Empirical Estimation of Beta | 133 |
| Model Specification Problems | 133 |
| Data Interval Problems | 135 |
| Nonstationary Beta Problem | 136 |
| Multifactor Models | 136 |
| Multifactor CAPM or APT Approaches | 136 |
| Fama-French Three-Factor Model | 138 |
| Behavioral Influences | 139 |
| Assessing Portfolio Performance | 140 |
| Portfolio Characteristics | 140 |
| Alpha and Beta | 140 |
| Is Alpha and Beta Information Useful? | 141 |
| Risk-Adjusted Performance | 142 |
| Sharpe Ratio | 142 |
| Treyner Index | 142 |
| Comparing the Sharpe Ratio and Treynor Index | 143 |
| Summary | 144 |
| Self-Test Problems | 145 |
| Questions and Problems | 146 |
| Investment Application: Long-Term Capital Management: How Do You Say "Oops"? | 150 |

chapter 6

Efficient-Market Hypothesis 151

| | |
|---------------------------------|------------|
| Efficient-Market Concept | 152 |
| Treatise on Coin Flipping | 153 |
| Efficient Markets | 153 |

| | |
|---|------------|
| The Efficient-Market Hypothesis | 154 |
| Basic Premise | 154 |
| Levels of Market Efficiency | 155 |
| Time Series of Stock Prices | 157 |
| Indexes Are Correlated over Time | 157 |
| Daily Returns | 158 |
| Booms and Busts | 160 |
| Random Walk Theory | 162 |
| Random Walk Concept | 162 |
| Patterns and the Gambler's Fallacy | 162 |
| Data-Snooping Problem | 163 |
| Investment Performance | 164 |
| Measuring Relative Performance | 164 |
| The Loser's Game | 165 |
| Role of Investment Professionals | 166 |
| Challenges to the EMH | 167 |
| Excess Volatility | 167 |
| Bubbles | 169 |
| Investment Fraud | 171 |
| Microcap Fraud | 171 |
| Fraud on the Internet | 172 |
| Summary | 173 |
| Self-Test Problems | 174 |
| Questions and Problems | 175 |
| Investment Application: How Much Is a Tulip Worth? | 177 |

chapter 7

| | |
|---|------------|
| Market Anomalies | 179 |
| Testing the EMH | 180 |
| Theory Is a Tool | 180 |
| Joint Test Problem | 180 |
| Practical Relevance | 181 |
| Fundamental Anomalies | 181 |
| Small-Cap Effect (or Myth?) | 181 |
| Value Effects | 183 |
| Calendar Anomalies | 184 |
| January Effect | 184 |
| Day Effects | 186 |
| Yearly Seasonality | 186 |
| Event Studies | 187 |
| Announcement Effects | 187 |
| Cumulative Abnormal Returns | 189 |
| Announcement Anomalies | 191 |
| Earnings Announcements | 191 |
| Stock-Split Announcements | 191 |
| S&P Listing | 194 |
| Is the EMH Valid? | 196 |
| What Are the Riddles | 196 |
| Perspectives from Behavioral Finance | 198 |
| Summary | 200 |
| Self-Test Problems | 201 |
| Questions and Problems | 202 |
| Investment Application: The "Dogs of the Dow" Myth | 205 |

chapter 8

| | |
|---|------------|
| Psychology and the Stock Market | 209 |
| Behavioral Finance | 210 |
| New Perspective | 210 |
| Cognitive Errors | 210 |
| Prospect Theory | 212 |
| Mental Shortcuts | 213 |
| Familiarity Bias | 213 |
| Representativeness Bias | 216 |
| Gambler's Fallacy and Mental Accounting | 218 |
| Gambler's Fallacy | 218 |
| Consequences of Mental Accounting | 219 |
| Psychological Limitations | 220 |
| Regret Aversion | 220 |
| Behavioral Portfolios | 222 |
| Self-Deception | 223 |
| Overconfidence | 223 |
| Cognitive Dissonance | 224 |
| Social Influences | 226 |
| Social Interaction and Investing | 226 |
| Herding | 227 |
| How to Avoid Investment Pitfalls | 227 |
| Investment Rules of Thumb | 227 |
| Plan for Investment Success | 229 |
| Summary | 229 |
| Self-Test Problems | 230 |
| Questions and Problems | 231 |
| Investment Application: Combating Psychological Biases to Help Investors | 233 |

part 3

Investment Analysis 235

chapter 9

| | |
|---|------------|
| Business Environment | 235 |
| Dimensions of the Economy | 236 |
| Macroeconomic Environment | 236 |
| Microeconomic Environment | 236 |
| Major Forces Driving the Economy | 237 |
| Demographics | 237 |
| Productivity | 239 |
| International Trade | 240 |
| Macroeconomic Forecasting | 242 |
| Business Cycles | 242 |
| Economic Indicators | 243 |
| Sentiment Surveys | 246 |
| Changing Expectations | 246 |
| Industries and Sectors | 247 |
| Industry Classification | 247 |
| Competitive Environment | 247 |

Legal Environment 252
Regulation of the Competitive Environment 252
Antitrust Policy 253

Corporate Governance 254
Ownership versus Control 254
Incentive Compensation 255
Managerial Monitoring 255
Ownership Structure 257

Summary 259

Self-Test Problems 260

Questions and Problems 261

Investment Application: Corporate Governance at Microsoft 263

chapter 10

Financial Statement Analysis 266

Buying Part of a Business 267
Business Ownership 267
Investment versus Speculation 267

Company Financial Statement Analysis 268
Balance Sheet 268
Income and Cash Flow Statements 269
Footnotes and Auditor Opinion 272
Problems with Accounting Information 272

Financial Ratios 273

Profit Measures 273
Elements of ROE 275

Assessing Firm Performance 276

Operating Efficiency 276
Financial Leverage 277
Financial Liquidity 277

Relative Performance 278

Market Capitalization 278
Industry Comparison 279

Valuation Indicators 280

P/E Ratio 280
P/B Ratio and Dividend Yield 281
Economic Value 282

Can Financial Statements Be Trusted? 283

Accounting Fraud 283
Accounting Restatements 284

Summary 285

Self-Test Problems 286

Questions and Problems 288

Investment Application: Is Coca-Cola a “Perfect” Business? 290

chapter 11

Value Stock Investing 293

Value Stock Philosophy 294
Conservative Approach 294
What Is a Value Stock? 294

Fundamental Value 296

Estimating Fundamental Value 296

Estimating Future Stock Prices 297
Dividend Discount Model 299
Constant-Growth Model 299
Estimating Required Return 300
An Example of Fundamental Valuation 301

Graham and Dodd Approach 302

Benjamin Graham 302
Margin of Safety 303
Stock Selection Criteria 303
Buffettology 304

Dividends and Value Investing 306

Dividends Mitigate Risk 306
Dividend Growth 307
Dividends and Profitability 309

Value Investing Strategies 310

Focus on Bargains 310
Quality at a Reasonable Price 311
Contrarian Investment Philosophy 312

Implementing a Value Strategy 314

Computer Stock Screens 314
Advantages and Limitations 315

Summary 317

Self-Test Problems 318

Questions and Problems 319

Investment Application: Should You Buy Stock in a Mickey Mouse Organization? 322

chapter 12

Growth Stock Investing 326

Growth Stocks 327

Forward-Looking Analysis 327
Seeking Opportunity 327

Growth Stock Characteristics 328

Essential Features 328
Fertile Fields for Growth 328
Sales Growth 329
EPS Growth 331
Dividend Growth 331
Conservative Financial Structure 332

Pitfalls to Growth 334

Customer Loyalty Risk 334
Merger Risk 334
Regulation Risk 335
Price Risk 336

Valuing Growth 337

Variable-Growth Model 337
PEG: Growth at a Reasonable Price 339
Cash Flow Model 342

Technology Stock Investing 343

Tech Stock Advantages 343
Tech Stock Risks 344

Growth versus Value 345

Growth and Value Indexes 345

Growth Stocks Can Appear Too Attractive 349

Representativeness Bias 349

Financial Analyst Bias 349

Summary 351

Self-Test Problems 352

Questions and Problems 354

Investment Application: The “Nifty 50” 356

chapter 13

Technical Analysis 359

What Is Technical Analysis? 360

Supply-Demand Focus 360

Visual Approach 360

Theory versus Practice 362

Plotting the Market 364

Support and Resistance 364

Transaction Cost Problem 366

Dow Theory 367

Importance of Investor Psychology 367

Dow Theory Doctrine 367

Chart Formations 369

Price Patterns 369

Market Cycles 370

Volume 372

Volume Measures 372

Money Flows 373

Technical Indicators 375

Market Breadth 375

Market Imbalance 375

Momentum 376

Momentum Indicators 376

Momentum Interpretation 378

Sector Timing 378

Market-Cap Rotation 378

Industry Group Rotation 379

Sentiment Indicators 381

Survey Indicators 381

Buy-Sell Indicators 382

Is Technical Analysis Useful? 383

Useful in Application? 383

Useful for Framing Investment Decisions? 384

Summary 384

Self-Test Problems 386

Questions and Problems 387

Investment Application: Extreme Return

Reversal in the Stock Market 389

part 4

Fixed Income 392

chapter 14

Bond Instruments and Markets 392

Bond Market Overview 393

Amount of Public and Private Debt 393

Tracking the Bond Market 394

Trading Activity 396

How to Read Bond Tables 397

Bond Listings 397

Corporate Bonds 398

Treasury Bonds 399

Municipal Bond Market 399

Corporate Bonds 400

Uses of Corporate Debt 400

Corporate Bond Characteristics 400

Credit-Quality Risk 402

Bond Ratings 402

High-Yield Bonds 403

U.S. Treasury Securities 405

Treasury Securities Market 405

T-Bills, T-Notes, and T-Bonds 405

Agency and Asset-Backed Securities Markets 407

Agency Securities 407

Mortgage-Backed Securities 408

Other Asset-Backed Securities 408

Money Market 410

Market Characteristics 410

Money Market Instruments 411

Municipal Bonds 411

Tax Advantages 411

Municipal Bond Types 412

Bond Market Information and Innovation 413

Bond Information 413

Bond Innovations 414

Summary 414

Self-Test Problems 415

Questions and Problems 417

Investment Application: Bills, Notes, Bonds, and

Inflation 419

chapter 15

Bond Valuation 422

Bond Valuation Concepts 423

Economic Characteristics of Bonds 423

Present Value of a Bond 424

Bond Pricing 424

Yield to Maturity 426

Common Maturities 426

Expected-Yield Calculation 426

Call Provisions 428

Interest Rate Risk 430

Changing Market Conditions 430

Factors That Change Prevailing

Interest Rates 432

The Term Structure of Interest Rates 433

Duration and Convexity 434

Duration Concept 434

Duration and Bond Prices 435
Convexity 437
Convertible Bonds 440
Convertible Bond Features 440
Convertible Bond Valuation 441
Bond Investment Strategies 442
Why Invest in Bonds? 442
Asset Allocation 442
Maturity-Based Strategies 445
Summary 445
Self-Test Problems 447
Questions and Problems 449
Investment Application: How to Buy Bonds 451

part 5

Investment Management 453

chapter 16

Mutual Funds 453

Mutual Fund Basics 454

What Is a Mutual Fund 454
Mutual Fund Types 455
Sources of Information 455

Advantages and Disadvantages 459

Mutual Fund Advantages 459
Mutual Fund Disadvantages 460

Mutual Fund Performance 461

Sources of Investment Return 461
Mutual Fund Expenses 462
How Mutual Fund Costs Affect Returns 463
Style Boxes 465
Evaluating Fund Performance 467

Mutual Fund Organization 470

Governance Structure 470
Mutual Funds as Tournaments 471
Do Winners Repeat? 471

Specialized Funds 472

Exchange-Traded Funds 472
Closed-End Funds 474
Hedge Funds 475

Taxes 476

Taxes on Distributions 476
Tax Efficiency 477

Summary 479

Self-Test Problems 480

Questions and Problems 482

Investment Application: Warren Buffett: The 5^o Investor 484

chapter 17

Global Investing 487

Global Investing Benefits 488

xxiv

Attractive Opportunities 488

Diversification Benefits 489

Tracking Global Markets 491

Global Market Indexes 491

Morgan Stanley Capital International 492

Developed and Emerging Markets 495

Countries versus Sectors 497

Global Investing Risks 498

Market Volatility 498

Political Risk 500

Currency Risk 500

Investor Protection 502

Home Bias 502

Role of Familiarity 502

Foreign Bias 503

Global Investment Opportunities 504

Multinational Investment Strategy 504

American Depositary Receipts 505

Foreign Bonds 505

Global Mutual Funds 507

International iShares 508

Summary 509

Self-Test Problems 510

Questions and Problems 512

Investment Application: The Templeton Touch 514

chapter 18

Option Markets and Strategies 516

Option Markets 517

Origin and Evolution 517

Characteristics of Exchange-Traded Options 518

Option Market Characteristics 520

Option Basics 521

Option Concept 521

Transaction Type and Option Style 522

Settlement 522

Option Types 523

Stock Options 523

Index Options 524

Debt Options 524

Option Strategies 525

Call Strategies 525

Put Strategies 527

Combinations 529

Option Pricing 530

Pricing Concepts 530

Black-Scholes Option Pricing Model 533

CBOE Option Calculator 536

Option Risk Concepts 537

Behavioral Considerations in Option Markets 538

Overpayment Problem 538

Overconfidence Problem 539

Summary 540

Self-Test Problems 541
Questions and Problems 542
Investment Application: Taking a Leveraged Bet on Microsoft Corp. 545

chapter 19

Futures Markets 546

Futures Trading 547

Market Origin 547

Market Development 549

Future Characteristics 550

Asset Specification 550

Contractual Provisions 550

Futures on Stocks 554

Options on Futures 554

Futures Trading Process 555

U.S. Futures Exchanges 555

Clearing and Margin Requirements 556

Futures Trading Example 557

Hedging 559

Hedgers versus Speculators 559

Hedging Concepts 560

Hedging Example 561

Program Trading 563

Futures Pricing 564

Law of One Price 564

Investor Risk Considerations 566

Futures Market Regulation 567

Commodity Futures Trading Commission 567

National Futures Association 568

Summary 569

Self-Test Problems 570

Questions and Problems 571

Investment Application: Weather Futures 574
