

# Vision, Perception, and Cognition

A Manual for the Evaluation and Treatment  
of the Adult With Acquired Brain Injury

Fourth Edition

Barbara Zoltan

SLACK Incorporated

# Contents

<i>Dedication</i> .....	v
<i>Acknowledgments</i> .....	xi
<i>About the Author</i> .....	xiii
<i>Foreword</i> .....	xv
<i>Preface</i> .....	xvii

## **Chapter 1: Theoretical and Additional Factors Guiding Evaluation and Treatment.....1**

### **Section I: Theoretical Basis .....1**

Theory as a Basis for Evaluation and Treatment.....	1
Frames of Reference Utilizing a Restorative Conceptual Base: Bottom-Up Approaches.....	5
Frames of Reference Utilizing an Adaptive Conceptual Base: Top-Down Approaches.....	12

### **Section II: Additional Factors Guiding Evaluation and Treatment.....20**

Client-Centered Practice.....	20
Client and Family Education.....	21
The Client's Learning Capacity and Its Influence on Performance.....	23
Evidence-Based Practice.....	25
Clinical Reasoning.....	26

## **Chapter 2: General Evaluation Issues.....35**

Top-Down and Bottom-Up Assessments.....	35
Occupation-Based Evaluations.....	36
Quantitative (Static) Assessment.....	36
Qualitative Assessment.....	37
Clinical Observation.....	37
Interviewing.....	38
Dynamic Assessment.....	38
Test Reliability.....	39
Test Validity.....	41
Standardization.....	41
Test Scoring.....	42
Administration of Tests.....	43
Evaluation Choice.....	44

## **Chapter 3: Visual Processing Skills.....47**

Modified Information Processing Theory.....	49
Warren's Hierarchical Model of Visual Processing.....	50
Evaluation and Treatment of Visual Skills.....	51
General Guidelines for Visual Processing Skills Evaluation.....	52
Pupillary Response.....	53
Visual Acuity.....	55
Contrast Sensitivity.....	60
Ocular Alignment.....	61
Visual Fields.....	64
Oculomotor Control.....	70
Visual Fixation.....	71
Saccadic Eye Movements.....	72
Smooth Pursuit Eye Movements.....	76
Organized Scanning.....	77
Convergence and Accommodation.....	81
Diplopia.....	86
Visual Inattention.....	87
Visual/Vestibular Processing.....	96

<b>Chapter 4: Apraxia</b> .....	<b>109</b>
Ideomotor Apraxia.....	112
Ideational Apraxia.....	113
Limb-Kinetic Apraxia.....	121
Oral Apraxia.....	122
Constructional Apraxia.....	123
Dressing Apraxia.....	128
<b>Chapter 5: Body Scheme Disorders</b> .....	<b>133</b>
Body Scheme.....	133
Autotopagnosia.....	134
Unilateral Body Neglect.....	140
Anosognosia.....	142
Right-Left Discrimination.....	143
Finger Agnosia.....	145
<b>Chapter 6: Visual Discrimination Skills</b> .....	<b>151</b>
Form Discrimination.....	151
Depth Perception (Stereopsis).....	153
Figure-Ground Perception.....	155
Spatial Relations.....	160
Topographical Disorientation.....	163
Additional Test Batteries of Visual Discrimination/Perception.....	165
<b>Chapter 7: Agnosia</b> .....	<b>171</b>
Visual Agnosia.....	172
Visual Object Agnosia.....	174
Prosopagnosia.....	176
Simultagnosia.....	178
Color Agnosia.....	179
Metamorphopsia.....	179
Visual-Spatial Agnosia.....	179
Topographagnosia.....	179
Environmental Agnosia.....	180
Tactile Agnosia.....	180
Auditory Agnosia.....	183
Apractognosia.....	184
Agnosias Related to Body-Scheme Disorders.....	185
<b>Chapter 8: Orientation and Attention</b> .....	<b>189</b>
Orientation.....	189
Attention.....	193
<b>Chapter 9: Memory</b> .....	<b>207</b>
Sensory, Perceptual, and Working Memory.....	207
Implicit and Explicit Memory.....	209
Declarative and Nondeclarative (Procedural) Memory.....	209
Prospective Memory.....	209
Semantic and Episodic Memory.....	210
Long-Term Memory.....	210

<b>Chapter 10: Executive Function .....</b>	<b>233</b>
Executive Function .....	233
<b>Section I: Evaluation and Treatment of Self-Awareness and Monitoring .....</b>	<b>236</b>
<b>Section II: Evaluation and Treatment of Executive Function .....</b>	<b>249</b>
Initiation.....	249
Planning and Organization.....	251
Problem Solving.....	258
Decision Making.....	265
Categorization .....	266
Mental Flexibility .....	269
Abstraction.....	271
Generalization and Transfer.....	273
<b>Section III: Occupation-Based Evaluations of Executive Function .....</b>	<b>277</b>
<b>Chapter 11: Acalculia .....</b>	<b>291</b>
Acalculia .....	291
<b>Chapter 12: Factors That Influence the Client’s Vision, Perception, and Cognition ....</b>	<b>299</b>
The Relationship of Age to Visual, Perceptual, and Cognitive Evaluation and Treatment.....	299
Sleep Disorders .....	303
Motivation .....	303
Depression.....	304
Behavior and Personality Changes.....	305
Additional Factors Affecting Performance.....	306
<b>Chapter 13: The Use of Computers and Computerized Technology in Visual,.....</b>	<b>311</b>
<b>Perceptual, and Cognitive Retraining</b>	
Computers .....	311
Computerized Technology.....	312
<i>Appendix A: Common Statistical Terms and Analyses Used in Clinical Research Studies .....</i>	<i>319</i>
<i>Appendix B: Evaluation Index.....</i>	<i>321</i>
<i>Appendix C: Glossary of Terms.....</i>	<i>323</i>
<i>Index.....</i>	<i>331</i>
