Preface xi

I Marking the Territory, Understanding the Challenges 1

1. The Nature of Emergency Medicine 5
Karen S. Cosby and Pat Croskerry

2. The History of Safety in Health Care 8
Robert L. Wears and Charles A. Vincent

3. Patient Safety and Continuous Quality Improvement—A User's Guide 12
Samuel Campbell

4. A Safe Culture in the Emergency Department 17
Mark T. Fleming and Pat Croskerry

II Organizational Approaches to Safety 23

5. Sensemaking, High-reliability Organizing, and Resilience 27
Marlys K. Christianson and Kathleen M. Sutcliffe

6. Information Flow and Problem Solving 34
Ron Westrum

7. The Healthy Emergency Department 41
Laura Pimentel

III Understanding Success and Failure 45

8. Approaches to Understanding Success and Failure 49
Charles A. Vincent and Sally Adams

9. Developing Taxonomies for Adverse Events in Emergency Medicine 58
Karen S. Cosby

10. Principles of Incident Reporting 70
Dorothy Jones and William Runciman

11. Incident Monitoring in the Emergency Department 75
John Vinen and Karen S. Cosby

12. Reporting and Investigating Events 81
Sidney W.A. Dekker

IV Designing and Managing the Safe Emergency Department 85

13. Critical Processes in the Emergency Department 89
Carey D. Chisholm and Pat Croskerry

14. Human Factors Engineering and Safe Systems 96
Rollin J. Fairbanks and Andrew W. Gellatly

15. Emergency Department Design and Patient Safety: Tracking the Trade-offs 106
Shawna Perry and Kendall K. Hall

16.
Medical Informatics and Patient Safety 111
Jos Aarts and Farah Magrabi

17.
Laboratory Error and the Emergency Department 119
Pat Croskerry

18.
Ensuring Reliable Follow-up of Critical Test Results in the Emergency Department Setting 126
Gordon D. Schiff and Allen B. Kachalia

19.
Radiology in the Emergency Department: Patient Safety Issues with Digital Imaging 133
Rollin J. Fairbanks, Shawna Perry, Michael Venturino, and Frank L. Zwemer

20.
Medication Safety in Health Care Systems 138
David U and Michael R. Cohen

21.
Medication Safety in the Emergency Department 144
Howard A. Peth, Jr.

22.
Emergency Department Overcrowding, Patient Flow, and Safety 149
Joseph R. Twanmoh

23.
Coordinating Critical Care from the Emergency Department to the Intensive Care Unit 158
Lillian L. Emlet and David T. Huang

24.
Discharging Safely from the Emergency Department 163
Pat Croskerry, Samuel Campbell, and Alan J. Forster

V It's About the Team, It's About Communication 173

25.
Teams and Teamwork in Emergency Medicine 177
Matthew M. Rice

26.
Communication in Emergency Medical Teams 181
Enrico Coiera

27.
Teamwork in Medicine: Crew Resource Management and Lessons from Aviation 188
David M. Musson

28.
Authority Gradients and Communication 195
Karen S. Cosby

29.
Transitions in Care: Safety in Dynamic Environments 201
Shawna Perry

VI Safe Medical Practice 205

30.
Critical Decision Making in Chaotic Environments 209
Scott D. Weingart

31.
Critical Thinking and Reasoning in Emergency Medicine 213
Pat Croskerry

32.
Cognitive and Affective Dispositions to Respond 219
Pat Croskerry

33.
Thinking in a Crisis: Use of Algorithms 228
John A.H. Williamson and William Runciman

34.
Knowledge Translation 235
Michael J. Yeoh

35.
Procedures and Patient Safety 242
George James Kovacs

VII Optimizing Human Performance 247

36.
Outcome Feedback and Patient Safety 251
Curtis Lavoie and Pat Croskerry

37.
Shiftwork, Fatigue, and Safety in Emergency Medicine 259
Pat Croskerry

38.
Individual Factors in Patient Safety 269
Pat Croskerry and David M. Musson

VIII Educating for Safety 277

39. Patient Safety Curriculum 281
Karen S. Cosby

40. Medical Simulation 288
Marc J. Shapiro and William F. Bond

41. Morbidity and Mortality Conference and Patient Safety in Emergency Medicine 295
Stephen M. Schenkel

42. The Cognitive Autopsy: Gaining Insight into Diagnostic Failure 302
Pat Croskerry

43. Training for Patient Safety in Invasive Procedures: A Novel Use of Real Clinical Video Clips 308
Colin F. MacKenzie, F. Jacob Seagull, Yan Xiao, and Peter F. Hu

IX The Aftermath of Medical Failure 315

44. A Health Care Advocate's Journey 317
Georgina L. Hunter

45. Disclosure of Error 324
Merril A. Pauls

46. Recovering from Error: Apologies 333
Richard C. Boothman and Amy C. Blackwell

47. Health Care Providers: The Second Victims of Medical Error 338
Albert W. Wu, Janel Sexton, and Julius Cuong Pham

X Regulating Safety 343

48. The Role of Licensing Boards and Regulatory Agencies in Patient Safety 345
Susan M. Nedza

49. International Perspectives on Regulation of Patient Safety in the Emergency Care Setting 351
Elaine C. Gibson

50. Patient Safety and the Liability Crisis 357
Larry D. Weiss

51. Blunt End Approaches to Patient Safety: The Joint Commision's National Patient Safety Goals and Other Approaches 361
Stephen M. Schenkel

XI Leading a Safe Department 367

52. The Department Chair's Role in Developing a Safe Emergency Department 371
James G. Adams

53. Leadership Behaviors and Safety in the Emergency Department 375
Rhona H. Flin, Steven J. Yule, and Shawna Perry

54. Leadership in the Management and Design of Safe, Reliable Systems 382
Julianne M. Morath, Thomas R. Hellmich, Donald R. Morath, and Glenn F. Billman

55. Nursing Leadership for Safety 393
Jan Bahner, Debbie Berry, and June K. Hooker

XII Forging a Path for Safety 397

56. Forging a Path for Safety 399
The Editors
