

Cell and Tissue Based Molecular Pathology

Raymond R. Tubbs
Mark H. Stoler

a volume in the series

FOUNDATIONS IN DIAGNOSTIC PATHOLOGY

series editor: **John R. Goldblum**

SECTION I. MOLECULAR PRINCIPLES

Chapter 1
Molecular Biology Basics for the Pathologist 3
Ilka Warshawsky

Chapter 2
Quality Assurance of Molecular Assays 10
Wayne W. Grody

SECTION II. MOLECULAR TOOLS AND TECHNIQUES

Chapter 3
Overview of Molecular Diagnostic Techniques and Instrumentation 19
Daniel H. Farkas and Carol A. Holland

Chapter 4
Conventional and Real-Time Polymerase Chain Reaction 33
Aaron Bossler and Vivianna Van Deerlin

Chapter 5
Loss of Heterozygosity 50
Jennifer L. Hunt

Chapter 6
Direct Genome Sequencing in Diagnostic Pathology 56
Gurunathan Murugesan and Gary W. Procop

Chapter 7
Array-based Comparative Genomic Hybridization in the Analysis of Genomic Alterations in Human Disease 63
Marek Skacel, Anna Ambu Siva, and Raymond R. Tubbs

Chapter 8
Expression Arrays: Discovery and Validation 70
Neal M. Poulin and Torsten O. Nielsen

Chapter 9
Epigenetics: DNA Hypermethylation in Cancer 84
Bin Yang

Chapter 10
Tissue Microarrays 91
Ziad Peerwani

Chapter 11
Fluorescence in Situ Hybridization 104
James R. Cook

Chapter 12
Bright-Field In Situ Hybridization 114
Ricardo V. Lloyd, Xiang Qian, and Long Jin

Chapter 13
Immunoglobulin and T-Cell Receptor Gene Rearrangement 127
Margaret L. Gulley

Chapter 14
Monitoring of Minimal Residual Hematologic Disease 135
Cuihong Wei, Jeffrey H. Lipton, and Suzanne Kamel-Reid

Chapter 15
Molecular Detection of Circulating Tumor Cells 145
Karen L. Kaul

Chapter 16
Intraoperative Molecular Staging Using Real-Time Polymerase Chain Reaction 153
Tony E. Godfrey

SECTION III. DIAGNOSTIC MOLECULAR PATHOLOGY APPLICATIONS

Chapter 17

Molecular Cytopathology 167

Karen S. Gustafson and Douglas P. Clark

Chapter 18

**Molecular Diagnosis of Infectious
Agents in Tissue 181**

Randall T. Hayden and Gary W. Procop

Chapter 19

Molecular Neuropathology 195

Richard Prayson

Chapter 20

**Molecular Pathology of the Cardio-
vascular System 214**

Carmela D. Tan and E. Rene Rodriguez

Chapter 21

Molecular Pulmonary Pathology 241

Samuel Yousem and Sanja Dacic

Chapter 22

Molecular Dermatopathology 249

*Alexander J.F. Lazar, Jason W. Nash, and Abdul
Hafeez Diwan*

Chapter 23

**Molecular Gastrointestinal, Liver,
and Pancreatic Pathology 269**

Rish K. Pai, Rebecca Wilcox, and John Hart

Chapter 24

Molecular Endocrine Pathology 296

Jennifer L. Hunt

Chapter 25

Molecular Hematopathology 305

James R. Cook

Chapter 26

**Molecular Pathology of Bone and
Soft Tissue Tumors 325**

*Brian P. Rubin, Alexander J.F. Lazar, and Andre
M. Oliveira*

Chapter 27

**Molecular Pathology of Breast
Cancer 360**

David G. Hicks

Chapter 28

**Molecular Genitourinary
Pathology 379**

*Donna E. Hansel, Cristina Magi-Galluzzi, and
Ming Zhou*

Chapter 29

**Molecular Gynecologic
Pathology 393**

*Monica Prasad Hayes, Edyta C. Pirog, and Lora
Hedrick Ellenson*

Chapter 30

Pediatric Molecular Pathology 411

Robin LeGallo

Index 431
