

Language and Literacy Development

What Educators Need to Know

James P. Byrnes
Barbara A. Wasik

Part I. Introductory Issues

1	Introduction	3
	Overview of Topics	4
	General Approach of This Book	5
2	Brain Development, Language, and Literacy	11
	Further Explorations of Cytoarchitecture: Cell Types and Brain Layers	12
	Seven Major Processes of Brain Development	14
	Factors Affecting Brain Development	20
	Conclusions and Caveats	30

Part II. The Development of Spoken Language Competence

3	An Overview of Spoken Language Competence	37
	The “Nature of” Question: What Does It Mean to Say That a Child Has Spoken Language Competence?	39
	The Relevance Question: Why Should Teachers Care about Whether Children Acquire Spoken Language Competence?	43
	The Developmental Trends Question: How Does Spoken Language Competence Change over Time?	44
	The Developmental Mechanisms Question: What Factors Promote Changes in Spoken Language Competence?	50
	The Deficiencies Question: Are There Populations of Children or Adults Who Lack Some or All of the Key Skills of Spoken Language Competence? Do These Individuals Experience Problems When They Learn to Read or after They Have Learned to Read?	55
4	The Development of Phonological Skills	57
	The “Nature of” Question: What Does It Mean to Say That a Child Has Phonological Processing Competence?	59

Part V. Instructional Techniques and Programs

12	General Principles of Effective Instruction	339
	Effective Teachers Are Skilled Decision Makers in the Classroom	340
	Domain-General Principles of Effective Instruction	343
	Summary: Identifying Effective Approaches	354
13	Language and Literacy Programs That Work	356
	Interventions That Develop Emergent Literacy Skills	357
	Interventions That Develop Reading Skills	366
	Interventions That Develop Comprehension Skills	375
	Final Thoughts	377
	References	379
	Index	417
