

# Essentials of GEOLOGY

Second Edition

STEPHEN  
MARSHAK

## PREFACE xvii

### Prelude

#### *And Just What Is Geology?* 1

- P.1 In Search of Ideas 1
- P.2 The Nature of Geology 2
- P.3 Themes of This Book 4

#### BOX P.1 SCIENCE TOOLBOX: *The Scientific Method* 6

### Chapter 1

#### *The Earth in Context* 8

- 1.1 Introduction 8
- 1.2 The Modern Image of the Universe 9
- 1.3 Forming the Universe 9
- 1.4 Making Order from Chaos 12
- 1.5 We Are All Made of Stardust 14

*Featured painting: The Birth of the Earth-Moon System* 16–17

- 1.6 Welcome to the Earth System and Its Neighborhood 20
- 1.7 The Atmosphere 21
- 1.8 Land and Oceans 22
- 1.9 What Is the Earth Made of? 23
- 1.10 Discovering That the Earth Has Layers 25
- 1.11 What Are the Layers Made of? 27

#### BOX 1.1 THE REST OF THE STORY: *Meteors and Meteorites* 28

- 1.12 The Lithosphere and the Asthenosphere 29
- Featured painting: The Earth, from Surface to Center* 30–31

### Chapter 2

#### *The Way the Earth Works: Plate Tectonics* 35

- 2.1 Introduction 35
- 2.2 Wegener's Evidence for Continental Drift 36
- 2.3 Paleomagnetism and Apparent Polar-Wander Paths 39

#### BOX 2.1 SCIENCE TOOLBOX: *Some Fundamentals of Magnetism* 40

- 2.4 Setting the Stage for the Discovery of Sea-Floor Spreading 45

- 2.5 Harry Hess and His "Essay in Geopoetry" 48
  - 2.6 Marine Magnetic Anomalies: Evidence for Sea-Floor Spreading 48
  - 2.7 Deep-Sea Drilling: Further Evidence 53
  - 2.8 What Do We Mean by Plate Tectonics 53
  - 2.9 Divergent Plate Boundaries and Sea-Floor Spreading 56
  - 2.10 Convergent Plate Boundaries and Subduction 59
  - 2.11 Transform Plate Boundaries 63
  - 2.12 Special Locations in the Plate Mosaic 64
  - 2.13 The Birth and Death of Plate Boundaries 68
  - 2.14 What Drives Plate Motion? 69
  - 2.15 The Velocity of Plate Motions 71
- Featured Painting: The Theory of Plate Tectonics* 72–73

### Chapter 3

#### *Patterns in Nature: Minerals* 78

- 3.1 Introduction 78
- 3.2 What Is a Mineral? 79

#### BOX 3.1 SCIENCE TOOLBOX: *Some Basic Definitions from Chemistry* 80

- 3.3 Beauty in Patterns: Crystals and Their Structure 81
- 3.4 How Can You Tell One Mineral From Another? 85
- 3.5 Organizing Our Knowledge: Mineral Classification 89
- 3.6 Something Precious—Gems! 91

#### BOX 3.2 THE REST OF THE STORY: *Where Do Diamonds Come From?* 92

### Interlude A

#### *Rock Groups* 95

- A.1 Introduction 95
- A.2 What Is Rock? 96
- A.3 Rock Occurrences 97
- A.4 The Basis of Rock Classification 97
- A.5 Studying Rock 100

## Chapter 4

### ***Up from the Inferno: Magma and Igneous Rocks*** 102

- 4.1 Introduction 102
- 4.2 The Formation of Magma 104
- 4.3 What Is Magma Made Of? 105
- 4.4 The Movement of Magma and Lava 107

#### **BOX 4.1 THE REST OF THE STORY:** *Bowen's Reaction Series* 108

- 4.5 Extrusive Versus Intrusive Environments 109
- 4.6 Transforming Magma into Rock 111  
*Featured Painting: The Formation of Igneous Rocks* 114–15
- 4.7 Igneous Rock Textures 116
- 4.8 Classifying Igneous Rocks 117

## Chapter 5

### ***A Surface Veneer: Sediments, Soils, and Sedimentary Rocks*** 121

- 5.1 Introduction 121
- 5.2 Weathering: The Formation of Sediment 122
- 5.3 Soil 128
- 5.4 Classes of Sedimentary Rocks 131
- 5.5 Sedimentary Structures 138
- 5.6 Sedimentary Environments 143
- 5.7 Sedimentary Basins 147  
*Featured Painting: The Formation of Sedimentary Rocks* 148–49
- 5.8 Diagenesis 150

## Chapter 6

### ***Metamorphism: A Process of Change*** 153

- 6.1 Introduction 153
- 6.2 What Is a Metamorphic Rock? 154
- 6.3 Causes of Metamorphism 154
- 6.4 Types of Metamorphic Rocks 158
- 6.5 The Intensity of Metamorphism 161

#### **BOX 6.1 THE REST OF THE STORY:** *Metamorphic Facies* 163

- 6.6 Metamorphism in the Context of Plate Tectonics 164

#### **BOX 6.2 THE HUMAN ANGLE: Pottery Making— An Analog for Thermal Metamorphism** 167

*Featured Painting: Environments of Metamorphism* 168–69

- 6.7 Bringing Metamorphic Rocks Back to the Earth's Surface 170
- 6.8 Where Do You Find Metamorphic Rocks? 171

## Interlude B

### ***The Rock Cycle*** 174

- B.1 Introduction 174
- B.2 A Case Study of the Rock Cycle 175
- B.3 Rates of Movement Through the Rock Cycle 175
- B.4 What Drives the Rock Cycle in the Earth System? 177  
*Featured Painting: Rock-Forming Environments and the Rock Cycle* 178–79

## Chapter 7

### ***The Wrath of Vulcan: Volcanic Eruptions*** 180

- 7.1 Introduction 180
- 7.2 The Products of Volcanic Eruptions 182
- 7.3 The Architecture and Shape of Volcanoes 186  
*Featured Painting: Volcano* 188–89
- 7.4 Eruptive Styles: Will It Flow, or Will It Blow? 190

#### **BOX 7.1 THE HUMAN ANGLE:** *Volcanic Explosions to Remember* 192

- 7.5 Plate Boundary and Rift Eruptions 194
- 7.6 Hot-Spot Eruptions 194
- 7.7 Volcanoes in the Landscape 197
- 7.8 Beware: Volcanoes Are Hazards! 198
- 7.9 Protection from Vulcan's Wrath 201
- 7.10 Volcanoes and Climate 202
- 7.11 Volcanoes on Other Planets 203

## Chapter 8

### ***A Violent Pulse: Earthquakes*** 206

- 8.1 Introduction 206
- 8.2 Causes of Earthquakes 207
- 8.3 Seismic Waves 212
- 8.4 Measuring and Locating Earthquakes 212  
*Featured Painting: Faulting in the Crust* 216–17
- 8.5 Where and Why do Earthquakes Occur? 220
- 8.6 Damage from Earthquakes 226
- 8.7 Predicting the “Big One” 234
- 8.8 Earthquake Engineering and Zoning 237

## Interlude C

### **Seeing Inside the Earth** 240

- C.1 Introduction 240
- C.2 The Movement of Seismic Waves Through the Earth 240
- C.3 The Reflection and Refraction of Wave Energy 241
- C.4 Discovering the Crust-Mantle Boundary 242
- C.5 Defining the Structure of the Mantle 243
- C.6 Discovering the Core-Mantle Boundary 244
- C.7 Discovering the Nature of the Core 244
- C.8 Fine-Tuning Our Image of the Earth's Layers 245
- C.9 An Integrated View of the Earth: New Discoveries 246

## Chapter 9

### **Crags, Cracks, and Crumples: Crustal Deformation and Mountain Building** 248

- 9.1 Introduction 248
- 9.2 Mountain Belts and the Concept of Orogeny 249
- 9.3 Rock Deformation in the Earth's Crust 249
- 9.4 Joints: Natural Cracks in Rocks 254

**BOX 9.1 THE REST OF THE STORY:**  
*Describing the Orientation of Structures* 254

- 9.5 Faults: Fractures on Which Sliding Has Occurred 256
- 9.6 Folds: Curving Rock Layers 258
- 9.7 Tectonic Foliation in Rocks 260
- 9.8 Uplift and the Formation of Mountain Topography 261  
*Featured Painting: The Collision of India with Asia* 264–65
- 9.9 Causes of Mountain Building 267
- 9.10 Cratons and the Deformation within Them 268
- 9.11 Measuring Mountain Building in Progress 270

## Interlude D

### **Memories of Past Life: Fossils and Evolution** 273

- D.1 The Discovery of Fossils 273
- D.2 Fossilization 274
- D.3 Classifying Life 278
- D.4 Classifying Fossils 278

- D.5 The Fossil Record 279
- D.6 Is the Fossil Record Complete? 280
- D.7 Evolution and Extinction 280

## Chapter 10

### **Deep Time: How Old Is Old?** 283

- 10.1 Introduction 283
- 10.2 The Concept of Geologic Time 284
- 10.3 Physical Principles for Defining Relative Age 284
- 10.4 Adding Fossils to the Story: Fossil Succession 285
- 10.5 Unconformities: Gaps in the Record 287
- 10.6 Stratigraphic Formations and Their Correlation 289
- 10.7 The Geologic Column 293
- 10.8 Numerical Age and the Radiometric Clock 295

*Featured Painting: The Record in Rocks: Reconstructing Geologic History* 298–99

**BOX 10.1 THE REST OF THE STORY:**  
*Carbon-14 Dating* 300

- 10.9 Adding Numerical Ages to the Geologic Column 301
- 10.10 The Age of the Earth 302
- 10.11 Picturing Geologic Time 304

## Chapter 11

### **A Biography of Earth** 306

- 11.1 Introduction 306
- 11.2 The Hadean Eon: Hell on Earth? 307
- 11.3 The Archean Eon: The Birth of the Continents and the Appearance of Life 308
- 11.4 The Proterozoic Eon: Transition to the Modern World 310
- 11.5 The Phanerozoic Eon: Life Diversifies, and Today's Continents Form 313
- 11.6 The Paleozoic Era: From Rodinia to Pangaea 313

**BOX 11.1 SCIENCE TOOLBOX:** *Stratigraphic Sequences and Sea-Level Change* 315

- 11.7 The Mesozoic Era: When Dinosaurs Ruled 319
- 11.8 The Cenozoic Era: The Final Stretch to the Present 322  
*Featured Painting: The Evolution of Earth* 326–27

## Chapter 12

### **Riches in Rock: Energy and Mineral Resources 329**

- 12.1 Introduction 329
- 12.2 Sources of Energy in the Earth System 330
- 12.3 Oil and Gas 330
- 12.4 Making an Oil Reserve 331
- 12.5 Oil Exploration and Production 334

#### **BOX 12.1 THE REST OF THE STORY:**

##### *Types of Oil and Gas Traps 335*

- 12.6 Alternative Reserves of Hydrocarbons 336
- 12.7 Coal: Energy from the Swamps of the Past 338
- 12.8 Nuclear Power 341
- 12.9 Other Energy Sources 343
- 12.10 Energy Choices, Energy Problems 345  
*Featured Painting: Power from the Earth 348–49*
- 12.11 Introducing Mineral Resources 350
- 12.12 Metals, Ores, and Ore Deposits 350
- 12.13 Ore-Mineral Exploration and Production 355
- 12.14 Nonmetallic Mineral Resources 356
- 12.15 Global Mineral Needs 357

#### **BOX 12.2 THE HUMAN ANGLE:**

##### *The Sidewalks of New York 357*

*Featured Painting: Forming and Processing Earth's Mineral Resources 360–61*

## Interlude E

### **An Introduction to Landscapes, and the Hydrologic Cycle 364**

- E.1 Introduction 364
- E.2 Shaping the Earth's Surface 364
- E.3 Factors Controlling Landscape Development 366
- E.4 The Hydrologic Cycle 367  
*Featured Painting: The Hydrologic Cycle 368–69*
- E.5 Landscapes of Other Planets 370

#### **BOX E.1 GEOLOGIC CASE STUDY:**

##### *Water on Mars? 371*

## Chapter 13

### **Unsafe Ground: Landslides and Other Mass Movements 373**

- 13.1 Introduction 373
- 13.2 Types of Mass Movement 374

#### **BOX 13.1 GEOLOGIC CASE STUDY: *The Storegga Slide and the North Sea Tsunamis 377***

- 13.3 Why Do Mass Movements Occur? 380
- 13.4 How Can We Protect Against Mass-Movement Disasters? 384  
*Featured Painting: Mass Movement 386–87*

## Chapter 14

### **Streams and Associated Flooding: The Geology of Running Water 391**

- 14.1 Introduction 391
- 14.2 Draining the Land 392
- 14.3 Discharge and Turbulence 395
- 14.4 The Work of Running Water 396
- 14.5 How Streams Change Along Their Length 398
- 14.6 Streams and Their Deposits in the Landscape 400
- 14.7 The Evolution of Drainage 404
- 14.8 Raging Waters 408  
*Featured Painting: River Systems 410–11*
- 14.9 Rivers: A Vanishing Resource? 414

## Chapter 15

### **Restless Realm: Oceans and Coasts 418**

- 15.1 Introduction 418
- 15.2 Landscapes Beneath the Sea 419
- 15.3 Ocean Water and Currents 423

#### **BOX 15.1 SCIENCE TOOLBOX: *The Coriolis Effect 425***

- 15.4 The Tides Go Out . . . The Tides Come In . . . 426
- 15.5 Wave Action 427
- 15.6 Where Land Meets Sea: Coastal Landforms 431
- 15.7 Causes of Coastal Variability 438
- 15.8 Coastal Problems and Solutions 439  
*Featured Painting: Oceans and Coasts 440–41*

## Chapter 16

### **A Hidden Reserve: Groundwater 450**

- 16.1 Introduction 450
- 16.2 Where Does Groundwater Reside? 451
- 16.3 Permeability: The Ease of Flow 452
- 16.4 The Water Table 452
- 16.5 Groundwater Flow 454
- 16.6 Tapping the Groundwater Supply 456

16.7	Hot Springs and Geysers	457
<b>BOX 16.1 THE HUMAN ANGLE: Oases 459</b>		
16.8	Groundwater Usage Problems	461
16.9	Caves and Karst: A Spelunker's Paradise	464
	<i>Featured Painting: Caves and Karst Landscapes 466–67</i>	

## Chapter 17

### ***Dry Regions: The Geology of Deserts*** 473

17.1	Introduction	473
17.2	What Is a Desert?	474
17.3	Types of Deserts	475
<b>BOX 17.1 THE REST OF THE STORY: Convection in the Atmosphere and Generation of Prevailing Wind 476</b>		
17.4	Weathering and Erosional Processes in Deserts	478
17.5	Depositional Environments in Deserts	482
17.6	Desert Landscapes	485
	<i>Featured Painting: The Desert Realm 486–87</i>	
17.7	Desert Problems	489

## Chapter 18

### ***Amazing Ice: Glaciers and Ice Ages*** 493

18.1	Introduction	493
18.2	The Nature of Glaciers	494
18.3	Carving and Carrying by Ice	502
18.4	Deposition Associated with Glaciation	505
	<i>Featured Painting: Glaciers and Glacial Landforms 510–11</i>	
18.5	Other Consequences of Continental Glaciation	512
18.6	Periglacial Environments	515
18.7	The Pleistocene Ice Ages	516
<b>BOX 18.1 THE HUMAN ANGLE: So You Want to See Glaciation? 518</b>		
18.8	The Causes of Ice Ages	520
18.9	Will There be Another Glacial Advance?	522

## Chapter 19

### ***Global Change in the Earth System*** 525

19.1	Introduction	525
19.2	Unidirectional Changes	526
19.3	Physical Cycles	528
19.4	Biogeochemical Cycles	529
19.5	Global Climate Change	530

### **BOX 19.1 THE HUMAN ANGLE: *Global Climate Change and the Birth of Legends* 533**

19.6	Anthropogenic Changes in the Earth System	535
	<i>Featured Painting: The Earth System 538–39</i>	
19.7	The Future of the Earth: A Scenario	543

<b>Appendix</b>	Scientific Background: Matter and Energy	A-1
-----------------	--	-----

<b>Metric Conversion Chart</b>	A-12
