

# UNDERSTANDING Zoonotic Diseases

Janet Amundson Romich

# Contents

PREFACE	ix
ACKNOWLEDGMENTS	xiii
ABOUT THE AUTHOR	xv
Chapter 1	Zoonotic Disease History 1
	Overview 1
	The History of Zoonoses 2
	Origins of Zoonoses 3
	Transmission of Zoonoses 4
	Classification of Diseases 6
	Epidemiology and Zoonoses 7
	Agencies Monitoring Zoonoses 8
	Zoonoses and Job Safety 9
	Review Questions 10
	References 12
Chapter 2	Principles of Immunity and Diagnostic Techniques 13
	Overview 13
	Innate Defense Mechanisms 14
	Acquired Defense Mechanisms 19
	Immunodiagnosics 29
	Diagnostic Techniques Involving Genetic Material 35
	Summary 37
	Review Questions 37
	References 39
Chapter 3	Bacterial Zoonoses 40
	Overview 40
	The Taxonomic Scheme 41
	Prokaryotic versus Eukaryotic Microbes 42
	Introduction to Bacteria 42
	Anthrax 49
	Bite Wounds 59
	Brucellosis 64

Campylobacteriosis	73
Cat-Scratch Disease	79
Clostridial Infections	85
Erysipeloid	98
<i>E. Coli</i> Infection	104
Glanders	117
Leprosy	122
Leptospirosis	126
Listeriosis	134
Melioidosis	141
Ornithosis	146
Pasteurellosis	153
<i>Plague and Yersiniosis</i>	157
Rat-Bite Fever	167
Salmonellosis	171
Shigellosis	183
Staphylococcal Infections	188
Streptococcal Infections	196
Tuberculosis	205
Vibriosis and Cholera	218
Review Questions	227
References	233

#### Chapter 4 Tick-Borne Bacterial Zoonoses 239

Overview	239
Ticks	240
Lyme Disease	251
Relapsing Fever	261
Tularemia	268
Rickettsial Infections	273
Ehrlichiosis/Anaplasmosis	278
Q Fever	288
Rocky Mountain Spotted Fever	292
Review Questions	298
References	300

#### Chapter 5 Fungal Zoonoses 303

Overview	303
Types of Fungi	304
What Do Fungi Look Like to the Naked Eye?	304
What Do Fungi Look Like Under the Microscope?	304
How Do Fungi Reproduce?	306
How Do Fungi Obtain Nutrients?	306
How Do Fungi Cause Infection?	307
Dermatophytoses	307
Sporotrichosis	316

Review Questions 325

References 327

## Chapter 6 Parasitic Zoonoses 329

Overview 329

Protozoan Zoonoses 341

Cestode Zoonoses 394

Nematode Zoonoses 413

Trematode Zoonoses 456

Arthropod Disease 471

Review Questions 487

References 493

## Chapter 7 Viral Zoonoses 498

Overview 498

Types of Viruses 500

How Do Viruses Replicate? 503

How Do Viruses Cause Disease? 506

How are Viral Diseases Diagnosed? 506

Arboviruses 507

Arenaviruses 509

Bunyaviruses 512

Coronaviruses 524

Filoviruses 529

Flaviviruses 530

Herpesviruses 543

Orthomyxoviruses 553

Paramyxoviruses 565

Picornaviruses 575

Poxviruses 585

Reoviruses 596

Rhabdoviruses 602

Togaviruses 616

Review Questions 626

References 632

## Chapter 8 Prion Zoonoses 638

Overview 638

Epizootiology and Public Health Significance 641

Transmission 643

Pathogenesis 644

Management and Control in Animals 648

Management and Control in Humans 649

Summary 650

Review Questions 651

References 653

## APPENDICES

- A. Foodborne Zoonoses 655
- B. Zoonoses by Animal Species 656
- C. Biologic Safety Levels 663
- D. Nationally Notifiable Zoonotic Infectious Diseases of the  
United States—2007 665

GLOSSARY 667
