

# Oscillation Theory of Partial Differential Equations

Norio Yoshida

World Scientific

# Contents

<i>Preface</i>	vii
1. Oscillation of Elliptic Equations	1
1.1 Nodal Oscillation of Linear Elliptic Equations . . . . .	1
1.2 Superlinear Elliptic Equations . . . . .	4
1.3 Sublinear Elliptic Equations . . . . .	9
1.4 Perturbed Elliptic Equations . . . . .	14
1.5 Elliptic Equations with Variable Coefficients . . . . .	20
1.6 Higher Order Elliptic Equations I . . . . .	27
1.7 Higher Order Elliptic Equations II . . . . .	32
1.8 Notes . . . . .	37
2. Oscillation of Parabolic Equations	39
2.1 Boundary Value Problems . . . . .	39
2.2 Initial Value Problems . . . . .	44
2.3 Notes . . . . .	48
3. Oscillation of Hyperbolic Equations	51
3.1 Boundary Value Problems . . . . .	51
3.2 Initial Value Problems . . . . .	62
3.3 Characteristic Initial Value Problems . . . . .	65
3.4 Ultrahyperbolic Equations . . . . .	75
3.5 Bianchi Equations . . . . .	78
3.6 Higher Order Hyperbolic Equations . . . . .	85
3.7 Notes . . . . .	90
4. Oscillation of Beam Equations	91

4.1	Extensible Beam Equations . . . . .	91
4.2	Timoshenko Beam Equations . . . . .	96
4.3	Notes . . . . .	100
5.	Functional Elliptic Equations	101
5.1	Equations with Deviating Arguments . . . . .	101
5.2	Notes . . . . .	106
6.	Functional Parabolic Equations	109
6.1	Equations with Functional Arguments . . . . .	109
6.2	Boundary Value Problems . . . . .	116
6.3	Forced Oscillation I . . . . .	124
6.4	Forced Oscillation II . . . . .	136
6.5	Impulsive Parabolic Equations . . . . .	145
6.6	Parabolic Systems I . . . . .	152
6.7	Parabolic Systems II . . . . .	161
6.8	Notes . . . . .	176
7.	Functional Hyperbolic Equations	179
7.1	Hyperbolic Equations with Delays . . . . .	179
7.2	Equations with Forcing Terms I . . . . .	185
7.3	Equations with Forcing Terms II . . . . .	192
7.4	Impulsive Hyperbolic Equations . . . . .	198
7.5	Higher Order Equations . . . . .	207
7.6	Hyperbolic Systems I . . . . .	221
7.7	Hyperbolic Systems II . . . . .	227
7.8	Notes . . . . .	237
8.	Picone Identities and Applications	239
8.1	Half-Linear Elliptic Equations I . . . . .	239
8.2	Half-Linear Elliptic Equations II . . . . .	250
8.3	Half-Linear Damped Elliptic Equations . . . . .	257
8.4	Forced Superlinear Elliptic Equations . . . . .	265
8.5	Superlinear-Sublinear Elliptic Equations . . . . .	270
8.6	Quasilinear Parabolic Equations . . . . .	275
8.7	Parabolic Systems . . . . .	282
8.8	Applications to Riccati Method . . . . .	291
8.9	Notes . . . . .	303
