

COMPREHENSIVE CHEMOMETRICS

Chemical and Biochemical Data Analysis

Linear Regression Modeling • Non-linear Regression

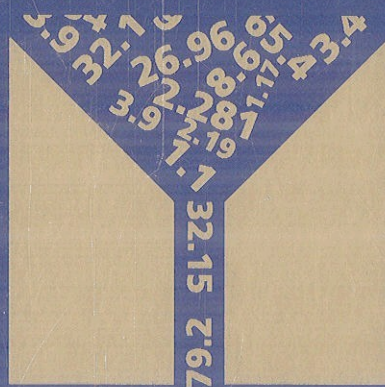

• Classification • Feature Selection • Multivariate Robust Techniques

Section Editors: J. Kalivas, L. Buydens, B. Lavine, P. van Espen

Volume

3

Editors-in-Chief
Steven D. Brown
Romà Tauler
Beata Walczak

Contents of Volume 3

Contributors to Volume 3	vii
Preface	xi
Editors in Chief	xii
Contents of All Volumes	xiii
Section Editors	xvii

Linear Regression Modeling

3.01 Calibration Methodologies	1
J. H. Kalivas, <i>Idaho State University, Pocatello, ID, USA</i>	
3.02 Regression Diagnostics	33
J. Ferré, <i>Rovira i Virgili University, Tarragona, Spain</i>	
3.03 Validation and Error	91
A. C. Olivieri, <i>Universidad Nacional de Rosario, Rosario, Argentina</i> N. M. Faber, <i>Chemometry Consultancy, Beek-Ubbergen, The Netherlands</i>	
3.04 Preprocessing Methods	121
M. Zecaiter, <i>GlaxoSmithKline, R & D, Hertfordshire, UK</i> D. Rutledge, <i>Laboratoire de Chimie Analytique (LAQA), Paris, France</i>	
3.05 Variable Selection	233
R. K. H. Galvão, <i>Instituto Tecnológico de Aeronáutica, São José dos Campos, SP, Brazil</i> M. C. U. Araújo, <i>Universidade Federal da Paraíba, João Pessoa, PB, Brazil</i>	
3.06 Missing Data	285
F. Arteaga, <i>Catholic University of Valencia San Vicente Ferrer, Valencia, Spain</i> A. J. Ferrer-Riquelme, <i>Technical University of Valencia, Valencia, Spain</i>	
3.07 Robust Calibration	315
M. Hubert, <i>Katholieke Universiteit Leuven, Leuven, Belgium</i>	
3.08 Transfer of Multivariate Calibration Models	345
S. D. Brown, <i>University of Delaware, Newark, DE, USA</i>	
3.09 Three-Way Calibration	379
K. S. Booksh, <i>University of Delaware, Newark, DE, USA</i> B. Bronk and J. Czege, <i>Air Force Research Laboratory, Wright Patterson Air Force Base, OH, USA</i>	

Non-Linear Regression

3.10 Model-Based Data Fitting	413
M. Maeder, N. McCann and S. Norman, <i>University of Newcastle, Callaghan, NSW, Australia</i>	

3.11	Kernel Methods J. Suykens, <i>Katholieke Universiteit Leuven, Leuven, Belgium</i>	437
3.12	Linear Approaches for Nonlinear Modeling H. Chen and B. R. Bakshi, <i>Ohio State University, Columbus, OH, USA</i>	453
3.13	Other Methods in Nonlinear Regression B. Li, B. R. Bakshi, and P. K. Goel, <i>Ohio State University, Columbus, OH, USA</i>	463
3.14	Neural Networks F. Marini, <i>Sapienza University of Rome, Rome, Italy</i>	477

Classification

3.15	Classification: Basic Concepts B. K. Lavine, <i>Oklahoma State University, Stillwater, OK, USA</i> W. S. Rayens, <i>University of Kentucky, Lexington, KY, USA</i>	507
3.16	Statistical Discriminant Analysis B. K. Lavine, <i>Oklahoma State University, Stillwater, OK, USA</i> W. S. Rayens, <i>University of Kentucky, Lexington, KY, USA</i>	517
3.17	Decision Tree Modeling in Classification S. D. Brown and A. J. Myles, <i>University of Delaware, Newark, DE, USA</i>	541
3.18	Feed-Forward Neural Networks B. K. Lavine, <i>Oklahoma State University, Stillwater, OK, USA</i> T. R. Blank, <i>Instrumentation Metrics, Chandler, AZ, USA</i>	571
3.19	Validation of Classifiers B. K. Lavine, <i>Oklahoma State University, Stillwater, OK, USA</i>	587

Feature Selection

3.20	Feature Selection: Introduction B. K. Lavine, <i>Oklahoma State University, Stillwater, OK, USA</i>	601
3.21	Multivariate Approaches: UVE-PLS V. Centner, <i>EffiChem, Lysice, Czech Republic</i>	609
3.22	Multivariate Approaches to Classification using Genetic Algorithms B. K. Lavine, <i>Oklahoma State University, Stillwater, OK, USA</i> C. E. Davidson, <i>Science and Technology Corporation, Edgewood, MD, USA</i>	619
3.23	Feature Selection in the Wavelet Domain: Adaptive Wavelets D. A. Donald, <i>BSES Limited, Gordonsvale, Q.L.D., Australia</i> Y. L. Everingham, J. W. McKinna, and D. Coomans, <i>James Cook University, Townsville, Q.L.D., Australia</i>	647

Multivariate Robust Techniques

3.24	Robust Multivariate Methods in Chemometrics P. Filzmoser, <i>Vienna University of Technology, Vienna, Austria</i> S. Serneels, <i>Shell Research and Technology Centre, Amsterdam, The Netherlands</i> R. Maronna, <i>National University of La Plata, La Plata, Argentina</i> P. J. Van Espen, <i>University of Antwerp, Antwerp, Belgium</i>	681
