List of Case Studies

xxvii

PART ONE PRINCIPLES AND CONCEPTS

1. Economics, Institutions, and Development: A Global Perspective	3
How the Other Three-Quarters Live	3
Economics and Development Studies	8
The Nature of Development Economics	8
Why Study Development Economics? Some Critical Questions	10
The Important Role of Values in Development Economics	12
Economies as Social Systems: The Need to Go Beyond Simple Economics	14
What Do We Mean by Development?	15
Traditional Economic Measures	15
The New Economic View of Development	16
Sen's "Capabilities" Approach	17
Three Core Values of Development	20
The Three Objectives of Development	22
Conclusions	23
□ Case Study: The Economy of Brazil	25
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	29
2. Diverse Structures and Common Characteristics of Developing Nations	33
Defining the Developing World	34
The Structural Diversity of Developing Economies	37
Size and Income Level	40
Historical Background	40
Physical and Human Resources	41
Ethnic and Religious Composition	42

Relative Importance of the Public and Private Sectors	43
Industrial Structure	43
External Dependence: Economic, Political, and Cultural	44
Political Structure, Power, and Interest Groups	45
Common Characteristics of Developing Nations	46
Low Levels of Living	46
A Holistic Measure of Living Levels: The Human Development Index	57
Low Levels of Productivity	63
High Rates of Population Growth and Dependency Burdens	65
Substantial Dependence on Agricultural Production and Primary-Product Exports	66
Prevalence of Imperfect Markets and Incomplete Information	69
Dominance, Dependence, and Vulnerability in International Relations	70
Conclusion	71
□ Case Study: The Economy of Nigeria	72
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	74

3. Historic Growth and Contemporary Development: Lessons and Controversies	78
The Growth Game	78
The Economics of Growth: Capital, Labor, and Technology	79
Capital Accumulation	79
Population and Labor Force Growth	80
Technological Progress	82
Conclusion	84
The Historical Record: Kuznets's Six Characteristics of Modern Economic Growth	85
High Rates of Per Capita Output and Population Growth	86
High Rates of Total Factor Productivity Increase	86
High Rates of Economic Structural Transformation	88
High Rates of Social and Ideological Transformation	88
International Economic Outreach	89
Limited International Spread of Economic Growth	89
Conclusions: The Interdependence of Growth Characteristics	90
The Limited Value of the Historical Growth Experience: Differing Initial Conditions	91
Physical and Human Resource Endowments	91
Relative Levels of Per Capita Income and GNP	92
Climatic Differences	92
Population Size, Distribution, and Growth	93
The Historical Role of International Migration	93
The Growth Stimulus of International Trade	96

Basic Scientific and Technological Research and Development Capabilities	97
Stability and Flexibility of Political and Social Institutions	97
Are Living Standards of Developing and Developed Countries Converging?	99
Conclusions	101

□ Case Study: The Economy of Malaysia	103
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	105

4. Classic Theories of Development: A Comparative Analysis 110

Classic Theories of Economic Development: Four Approaches	111
---	-----

Development as Growth, and the Linear-Stages Theories	112
---	-----

Rostow's Stages of Growth	112
---------------------------	-----

The Harrod-Domar Growth Model	113
-------------------------------	-----

Obstacles and Constraints	115
---------------------------	-----

Necessary versus Sufficient Conditions: Some Criticisms of the Stages Model	116
---	-----

Structural-Change Models	116
---------------------------------	-----

The Lewis Theory of Development	116
---------------------------------	-----

Structural Change and Patterns of Development	121
---	-----

Conclusions and Implications	122
------------------------------	-----

The International-Dependence Revolution	123
--	-----

The Neocolonial Dependence Model	124
----------------------------------	-----

The False-Paradigm Model	125
--------------------------	-----

The Dualistic-Development Thesis	126
----------------------------------	-----

Conclusions and Implications	126
------------------------------	-----

The Neoclassical Counterrevolution: Market Fundamentalism	128
--	-----

Challenging the Statist Model: Free Markets, Public Choice, and Market-Friendly Approaches	128
---	-----

Traditional Neoclassical Growth Theory	130
--	-----

Conclusions and Implications	131
------------------------------	-----

Classic Theories of Development: Reconciling the Differences	132
--	-----

□ Case Study: The Economy of Kenya	134
---	-----

<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	137
---	-----

Appendix 4.1 The Solow Neoclassical Growth Model	141
---	-----

***5. Contemporary Models of Development and Underdevelopment** 145

The New Growth Theory: Endogenous Growth	146
--	-----

Motivation for the New Growth Theory	146
--------------------------------------	-----

The Romer Model	148
-----------------	-----

Criticisms of the New Growth Theory	150
-------------------------------------	-----

Underdevelopment as a Coordination Failure	150
--	-----

*Optional chapter that may be studied in part, or skipped, without losing the thread of the arguments of later chapters.

Multiple Equilibria: A Diagrammatic Approach	153
Starting Economic Development: The Big Push	157
The Big Push: A Graphical Model	159
Why the Problem Cannot Be Solved by a Super-entrepreneur	165
Further Problems of Multiple Equilibria	166
Kremer's O-Ring Theory of Economic Development	170
The O-Ring Model	170
Implications of the O-Ring Theory	174
Summary and Conclusions: Multiple Equilibria and Coordination Failures	175
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	178
■ Comparative Case Study: South Korea and Argentina	
Contributions of Alternative Approaches to Development	187

PART TWO PROBLEMS AND POLICIES: DOMESTIC

A Note to the Student	192
6. Poverty, Inequality, and Development	195
Measuring Inequality and Poverty	197
Measuring Inequality	197
Measuring Absolute Poverty	205
Poverty, Inequality, and Social Welfare	209
What's So Bad about Inequality?	209
Dualistic Development and Shifting Lorenz Curves: Some Stylized Typologies	211
Kuznets' Inverted-U Hypothesis	214
Growth and Inequality	219
Absolute Poverty: Extent and Magnitude	221
Growth and Poverty	224
Economic Characteristics of Poverty Groups	229
Rural Poverty	229
Women and Poverty	230
Ethnic Minorities, Indigenous Populations, and Poverty	234
The Range of Policy Options: Some Basic Considerations	235
Areas of Intervention	236
Policy Options	237
Summary and Conclusions: The Need for a Package of Policies	242
□ Case Study: The Economy of India	243
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	245
Appendix 6.1 Appropriate Technology and Employment Generation: The Price-Incentive Model	252
Appendix 6.2 The Ahluwalia-Chenery Welfare Index	255

7. Population Growth and Economic Development: Causes, Consequences, and Controversies	259
The Basic Issue: Population Growth and the Quality of Life	260
A Review of Numbers: Population Growth—Past, Present, and Future	261
World Population Growth through History	261
Structure of the World’s Population	264
The Hidden Momentum of Population Growth	269
The Demographic Transition	272
The Causes of High Fertility in Developing Countries: The Malthusian and Household Models	275
The Malthusian Population Trap	275
Criticisms of the Malthusian Model	277
The Microeconomic Household Theory of Fertility	280
The Demand for Children in Developing Countries	283
Some Empirical Evidence	284
Implications for Development and Fertility	284
The Consequences of High Fertility: Some Conflicting Opinions	285
Population Growth Is Not a Real Problem	285
A Deliberately Contrived False Issue	287
A Desirable Phenomenon	287
Population Growth Is a Real Problem	288
The Empirical Argument: Seven Negative Consequences of Population Growth	290
Goals and Objectives: Toward a Consensus	291
Some Policy Approaches	293
What Developing Countries Can Do	293
What the Developed Countries Can Do: Resources, Population, and the Global Environment	297
How Developed Countries Can Assist Developing Countries with Their Population Programs	298
Conclusion	299
□ Case Study: The Economy of China	300
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	303
 8. Urbanization and Rural-Urban Migration: Theory and Policy	 308
The Migration and Urbanization Dilemma	308
Urbanization: Trends and Projections	309
The Role of Cities	316
Industrial Districts	317
Efficient Urban Scale	319
The Urban Giantism Problem	320
First City Bias	322
Causes of Urban Giantism	322

The Urban Informal Sector	324
Policies for the Urban Informal Sector	327
Women in the Informal Sector	331
Urban Unemployment	332
Migration and Development	334
Toward an Economic Theory of Rural-Urban Migration	336
A Verbal Description of the Todaro Model	337
A Diagrammatic Presentation	340
Five Policy Implications	342
Summary and Conclusions: The Shape of a Comprehensive Migration and Employment Strategy	345
□ Case Study: The Economy of Mexico	348
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	351
Appendix 8.1 A Mathematical Formulation of the Todaro Migration Model	357
9. Human Capital: Education and Health in Economic Development	360
The Central Roles of Education and Health	360
Education and Health as Joint Investments for Development	362
International Trends and Convergence in Health and Education	363
Improving Health and Education: Why Increasing Income Is Not Sufficient	366
Investing in Education and Health: The Human Capital Approach	369
Child Labor	372
The Gender Gap: Women and Education	376
Consequences of Gender Bias in Health and Education	377
Educational Systems and Development	379
Educational Supply and Demand: The Relationship Between Employment Opportunities and Educational Demands	380
Social versus Private Benefits and Costs	382
Distribution of Education	386
Education, Inequality, and Poverty	388
Education, Internal Migration, and the Brain Drain	391
Health Systems and Development	392
Measurement and Distribution	392
Disease Burden	393
Malaria and Parasitic Worms	396
HIV and AIDS	397
Health and Productivity	400
Health Systems Policy	403
Policies for Health, Education, and Income Generation	405
□ Case Study: The Economy of Egypt	407
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	410

10. Agricultural Transformation and Rural Development	418
The Imperative of Agricultural Progress and Rural Development	418
Agricultural Stagnation and Growth Since 1950	420
The Structure of Agrarian Systems in the Developing World	424
Two Kinds of World Agriculture	424
Peasant Agriculture in Latin America, Asia, and Africa	426
Conclusions	437
The Important Role of Women	437
The Economics of Agricultural Development: Transition from Peasant Subsistence to Specialized Commercial Farming	440
Subsistence Farming: Risk Aversion, Uncertainty, and Survival	441
The Transition to Mixed and Diversified Farming	447
From Divergence to Specialization: Modern Commercial Farming	448
Conclusions	449
Toward a Strategy of Agricultural and Rural Development: Some Main Requirements	449
Improving Small-Scale Agriculture	450
Conditions for Rural Development	452
❑ Case Study: The Economy of Bangladesh	455
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	457
11. The Environment and Development	463
Economics and the Environment	463
Environment and Development: The Basic Issues	464
Sustainable Development and Environmental Accounting	464
Population, Resources, and the Environment	466
Poverty and the Environment	466
Growth versus the Environment	466
Rural Development and the Environment	467
Urban Development and the Environment	467
The Global Environment	468
The Scope of Environmental Degradation: An Overview	468
Rural Development and the Environment: A Tale of Two Villages	471
Traditional Economic Models of the Environment	474
Privately Owned Resources	474
Common Property Resources	476
Public Goods and Bads: Regional Environmental Degradation and the Free-Rider Problem	478
Limitations of the Public-Good Framework	480
Urban Development and the Environment	480
The Ecology of Urban Slums	480
Industrialization and Urban Air Pollution	482
Problems of Congestion and the Availability of Clean Water and Sanitation	485

The Need for Policy Reform	487
The Global Environment: Rain Forest Destruction and Greenhouse Gases	488
Policy Options in Developing and Developed Countries	490
What Less Developed Countries Can Do	490
How Developed Countries Can Help LDCs	492
What Developed Countries Can Do for the Global Environment	494
<input type="checkbox"/> Case Study: The Economy of Pakistan	497
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	499
<input checked="" type="checkbox"/> Comparative Case Study: Bangladesh and Nigeria	
Poverty Policy	503

PART THREE PROBLEMS AND POLICIES: INTERNATIONAL

Globalization: An Introduction to Part Three	510
--	-----

12. Trade Theory and Development Experience 515

International Trade and Finance: Some Key Issues	515
Five Basic Questions about Trade and Development	518
Importance of Exports to Different Developing Nations	520
Demand Elasticities and Export Earnings Instability	520
The Terms of Trade and the Prebisch-Singer Thesis	522
The Traditional Theory of International Trade	525
Comparative Advantage	526
Relative Factor Endowments and International Specialization: The Neoclassical Model	527
Trade Theory and Development: The Traditional Arguments	531
Some Criticisms of Traditional Free-Trade Theory in the Context of Developing-Country Experience	532
Fixed Resources, Full Employment, and the International Immobility of Capital and Skilled Labor	533
Fixed, Freely Available Technology and Consumer Sovereignty	537
Internal Factor Mobility and Perfect Competition: Increasing Returns, Imperfect Competition, and Controlled Markets	538
The Absence of National Governments in Trading Relations	540
Balanced Trade and International Price Adjustments	542
Trade Gains Accruing to Nationals	542
Some Conclusions on Trade and Economic Development: The Limits of Theory	543
<input type="checkbox"/> Case Study: The Economy of Taiwan	548
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	550

13. The Trade Policy Debate: Export Promotion, Import Substitution, and Economic Integration	555
Trade Strategies for Development: Export Promotion versus Import Substitution	556
Export Promotion: Looking Outward and Seeing Trade Barriers	557
Import Substitution: Looking Inward but Still Paying Outward	562
The IS Industrialization Strategy and Results	564
Foreign-Exchange Rates, Exchange Controls, and the Devaluation Decision	571
Summary and Conclusions: Trade Optimists and Trade Pessimists	575
Trade Pessimist Arguments	575
Trade Optimist Arguments	576
Reconciling the Arguments: The Data and the Consensus	577
South-South Trade and Economic Integration: Looking Outward and Inward	578
The Growth of Trade among Developing Countries	578
Economic Integration: Theory and Practice	579
Regional Trading Blocs and the Globalization of Trade	581
Trade Policies of Developed Countries: The Need for Reform	583
Rich-Nation Tariff and Nontariff Trade Barriers and the 1995 Uruguay Round GATT Agreement	584
The Problem of Adjustment Assistance	587
Domestic Economic Policies	588
<input type="checkbox"/> Case Study: The Economy of South Korea	589
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	592
14. Balance of Payments, Developing-Country Debt, and the Macroeconomic Stabilization Controversy	597
The Balance of Payments Account	598
General Considerations	598
A Hypothetical Illustration: Deficits and Debts	600
Financing and Reducing Payments Deficits	602
Some Initial Policy Issues	602
Recent Trends in LDC Balance of Payments	604
The 1980s' Debt Crisis	605
Background and Analysis	604
Origins of the Debt Crisis	608
Attempts at Alleviation: Macroeconomic Instability, IMF Stabilization Policies, and Their Critics	613
The IMF Stabilization Program	613
Tactics for Debt Relief	615
Has the Debt Problem Disappeared? Winners and Losers	617

Conclusions	618
□ Case Study: The Economy of Venezuela	620
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	622
Appendix 14.1 A Brief History and Analysis of the International Monetary Fund and the World Bank	626
15. Foreign Finance, Investment, and Aid: Controversies and Opportunities	634
The International Flow of Financial Resources	634
Private Foreign Direct Investment and the Multinational Corporation	635
Multinational Corporations: Size, Patterns, and Trends	636
Private Foreign Investment: Some Pros and Cons for Development	638
Private Portfolio Investment: Boon or Bane for LDCs?	644
Foreign Aid: The Development Assistance Debate	647
Conceptual and Measurement Problems	647
Amounts and Allocations: Public Aid	648
Why Donors Give Aid	653
Why LDC Recipients Accept Aid	657
The Growing Role of Nongovernmental Organizations (NGOs)	658
The Effects of Aid	659
Conclusions: Toward a New View of Foreign Aid	660
□ Case Study: The Economy of Indonesia	662
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	665
■ Comparative Case Study: Thailand and the Philippines	670
Trade Strategy	670

PART FOUR POSSIBILITIES AND PROSPECTS

16. Development Policymaking and the Role of the State	679
The Planning Mystique	680
The Nature of Development Planning	681
Basic Concepts	681
Planning in Mixed Developing Economies	681
The Rationale for Development Planning	682
The Planning Process: Some Basic Models	684
Aggregate Growth Models: Projecting Macro Variables	685
Multi-Sector Models and Sectoral Projections	687
Project Appraisal and Social Cost-Benefit Analysis	688
Conclusions: Planning Models and Plan Consistency	692

The Crisis in Planning: Problems of Implementation and Plan Failures	692
Theory versus Practice	693
Reasons for Plan Failures	694
Government Failure and the Resurgent Preference for Markets over Planning	696
The Market Economy	698
Sociocultural Preconditions and Economic Requirements	698
Role and Limitations of the Market in LDCs	700
The “Washington Consensus” on the State in Development and Its Limitations	702
Toward a New Consensus	704
Development Political Economy: Theories of Policy Formulation and Reform	706
Understanding Voting Patterns on Policy Reform	707
Institutions and Path Dependency	709
Democracy versus Autocracy: Which Facilitates Faster Growth?	710
Trends in Governance and Reform	711
Tackling the Problem of Corruption	711
Decentralization	714
Development Participation	715
Development Policy and the State: Concluding Observations	717
□ Case Study: The Economy of Ghana	720
□ Case Study: The Economy of the Philippines	724
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	726

17. Finance and Fiscal Policy for Development 732

The Role of the Financial System	733
The Painful Road to Macroeconomic Stability	734
Differences between MDC and LDC Financial Systems	735
The Role of Central Banks	738
The Emergence of Development Banking	741
The Role of Informal Finance and Group Lending for Small-Scale Enterprise	742
Reforming Financial Systems	745
Financial Liberalization, Real Interest Rates, Savings, and Investment	745
Financial Policy and the Role of the State	747
Debate on the Role of the Stock Markets	749
Fiscal Policy for Development	751
Macro-stability and Resource Mobilization	751
Taxation: Direct and Indirect	751
Public Administration: The Scarcest Resource	756

State-Owned Enterprises	758
Improving the Performance of SOEs	760
Privatization: Theory and Experience	761
Military Expenditures and Economic Development	763
Significance and Economic Impact	763
The End of the Cold War: Disarmament, Conflict Resolution, and Human Development	766
□ Case Study: The Economy of South Africa	768
<i>Concepts for Review · Questions for Discussion · Notes · Further Reading</i>	772
■ Comparative Case Study: Chile and Poland	
Privatization: What, When, and to Whom?	779
Glossary	787
Name Index	815
Subject Index	825

Please note that the revised and updated Chapter 18, Critical Issues for the Twenty-First Century: Globalization, the Environment, Africa, and International Economic Reform, now appears online at <http://www.aw.com/todaro>.
