

# SEED TECHNOLOGY READYRECKONER

K. RAMAMOORTHY  
K. SIVASUBRAMANIAM

# CONTENTS

<b>CHAPTER 1</b>	<b>SEED CERTIFICATION.....</b>	<b>1</b>
TABLE 1:	Seed Chemical Composition of Crops (%).....	1
TABLE 2:	Pollination Behaviour of Seed Crops.....	2
TABLE 3:	Seed Rate and Seed Multiplication Ratios .....	3
TABLE 4:	Genetic Purity Standards .....	4
TABLE 5:	Isolation Distance for Foundation / Certified Seed Crops.....	5
TABLE 6:	Minimum Isolation Distance for Certified Seed Stage (Abridged).....	8
TABLE 7:	Land Requirements for Seed Crops .....	9
TABLE 8:	Prescribed Days for Seed Crop Inspection.....	11
TABLE 9:	Specific Inspection Observation for Seed Crops .....	12
TABLE 10:	Prescribed Number of Counts for Seed Crops.....	16
TABLE 11:	Prescribed Number of Plants / Heads per count for Seed Crops.....	16
TABLE 12:	Instant Table for Counting Off-types during Field Inspections.....	16
TABLE 13:	Prescribed Requirements for Border Rows.....	17
	Modification of Maize Isolation Distance using Border Rows.....	17
TABLE 14:	Objectionable Weeds for Seed Crops.....	18
TABLE 15:	Designated Diseases of Seed Crops .....	19
TABLE 16:	Inseparable other Crops for Seed Crops.....	22
TABLE 17:	Recommended Screen Sizes for Seed Crops .....	22

TABLE 18:	Seed Storage Potential of Various Seeds .....	25
TABLE 19:	ISI Colour Standards for Certification Tags .....	25

## CHAPTER 2 SEED TESTING ..... 26

TABLE 1:	Standards for Seed Lot and Sample Size .....	26
TABLE 2:	Sample Size for Pelleted Seeds and Seed Tapes (Number) .....	29
TABLE 3:	Minimum Standards for Physical Purity (%).....	29
TABLE 4:	Minimum Standards for Inert Matter (%) .....	30
TABLE 5:	Minimum Standards for Germination (%) .....	31
TABLE 6:	Other Distinct Variety (ODV) Standards for Crop Seeds (Varieties and Hybrids have the Same Standards).....	33
TABLE 7:	Minimum Number of Primary Samples for Seeds Stored in Containers.....	34
TABLE 8:	Minimum Number of Primary Samples for Seeds Stored in Bulk.....	34
TABLE 9:	Seed Standards for Seed Borne Diseases (Varieties and Hybrids have the Same Standards) .....	35
TABLE 10:	Internal and External Seed Borne Diseases (Varieties and Hybrids have the Same Standards) .....	36
TABLE 11:	Designated Weed Seed Standards (Varieties and Hybrids have the Same Standards).....	37
TABLE 12:	Submitted Sample Size for Moisture Estimation.....	38
TABLE 13:	Crops for which Grinding is Obligatory for Moisture Estimation .....	38
TABLE 14:	Crops for which Low Constant Temperature is Recommended for Moisture Estimation- 103 °C for 17 H. ....	39
TABLE 15:	Crops for which High Constant Temperature Method is Recommended for Moisture Estimation - 130 ° C For 1 H.....	39
TABLE 16:	Pre-drying Moisture Content of Various Crops for Moisture Estimation .....	39

<b>TABLE 17:</b>	ISTA Standards of Germination Requirements (Varieties and Hybrids have the Same Standards) .....	40
<b>TABLE 18:</b>	Specifications for Germination Media - Paper .....	44
	Determination of Capillary Rise of Germination Paper .....	44
<b>TABLE 19:</b>	Specifications for Germination Media - Sand .....	45
<b>TABLE 20:</b>	Tetrazolium Testing – Preparation and Assessment .....	45
<b>TABLE 21:</b>	Minimum Seed Moisture Content Specified for Cloth Bag Storage.....	48
<b>TABLE 22:</b>	Minimum Seed Moisture Content Specified for Moisture Vapor Proof Packing .....	49
<b>TABLE 23:</b>	Crops where Huskless Seeds are Determined .....	50
<b>TABLE 24:</b>	Crops where Hard Seeds are Included in Germination Assessment .....	50
<b>TABLE 25:</b>	Dormancy Chart for Seeds .....	50
<b>TABLE 26:</b>	Seed Standards for Vegetative Propagules .....	53
<b>TABLE 27:</b>	International Seed Analysis Certificates .....	56

### **CHAPTER 3 WORKED OUT EXAMPLES IN CERTIFICATION AND TESTING OF SEEDS ..... 57**

1.	Determination of Seed Replacement Rate.....	57
2.	Calculation of Seed Number per kilo .....	58
3.	Calculation of Viable Seeds per kilo of Seed .....	59
4.	Determination of Number of Plantable Seedlings per kilo.....	59
5.	Planning for Seed Production of Varieties and Hybrids .....	60
6.	Pre-determination for Field Inspection of Varieties / Hybrids .....	66
7.	Calculation of Seed Moisture Content .....	70
8.	Calculation of Per Cent Physical Purity .....	72
9.	Calculation of Germination Per cent .....	72
10.	Calculation of Pure Live Seed .....	74
11.	Calculation of Pure Live Seed index.....	74
12.	Calculation of Heterogeneity Value (H value) .....	74
13.	Calculation of 100 Seed Weight.....	79
14.	Pearson Square for Blending.....	80

**CHAPTER 4. SEED LEGISLATIONS ..... 84**

1. Abstract of Seeds Act, 1966.....	84
2. Abstract of Seeds Rules, 1968.....	85
3. Abstract of Seeds (Amendment) Act, 1972.....	87
4. Abstract of Seeds (Amendment) Rules, 1973.....	88
5. Abstract of Seeds (Amendment) Rules, 1974.....	88
6. Abstract of Seeds (Amendment) Rules, 1981.....	88
7. Abstract of Seeds (Control) Order, 1983 .....	88
8. Abstract of Essential Commodities Act, 1955.....	89
9. Abstract of Plants, Fruits and Seeds (Regulation of Import into India) Order 1989.....	90
10. Abstract of Revised Seeds Act 2000 (Proposed). .....	90
11. Abstract of the Protection of Plant Varieties and Farmers Right Act, 2001 .....	92
12. Abstract of the Protection of Plant Varieties and Farmers Right Rules, 2003 .....	97

**GLOSSARY ..... 101**

**APPENDICES ..... 106**

1. Botanical Name and Common Name of Agricultural and Horticultural Crops.....	106
2. Tolerance Table for Purity (%).....	110
3. Tolerance Table for other Seeds (by number).....	111
4. Weighing Specifications for Purity Analysis .....	112
5. Tolerance Table for Germination (%).....	113
6. Tolerance Table for Moisture estimation .....	114
7. Tabulated H Values .....	115
8. Proforma for Assessing Quality of a sample.....	116
9. Conversion Tables .....	118
