

Environmental Impacts of Pasture-based Farming

Edited by
Richard W. McDowell

Contents

Contributors	vii
Foreword	ix
Preface	xi
Acknowledgements	xiii
Part I	
1 Greenhouse Gas Emissions	1
<i>C.A.M. de Klein, C. Pinares-Patino and G.C. Waghorn</i>	
2 Impacts of Pastoral Grazing on Soil Quality	33
<i>S.P. Cuttle</i>	
3 Land–Water Interactions: Impacts on the Aquatic Environment	75
<i>R.J. Wilcock</i>	
4 Socio-economic Issues in Pasture-based Farming	98
<i>D. Bewsell and C. Dake</i>	
Part II	
5 Impact of Livestock Grazing on Extensively Managed Grazing Lands	122
<i>W.H. Schacht and P.E. Reece</i>	

6	Environmental Effects of Sheep Farming <i>J.T. Scott and F.A. Robertson</i>	144
7	Pressures on Beef Grazing in Mixed Production Farming <i>A.N. Sharpley and C. West</i>	187
8	The Environmental Impacts of Non-irrigated, Pasture-based Dairy Farming <i>R.M. Monaghan</i>	209
9	Impacts of Irrigated Dairying on the Environment <i>D. Nash and K. Barlow</i>	232
10	The Impact of Hybrid Dairy Systems on Air, Soil and Water Quality: Focus on Nitrogen and Phosphorus Cycling <i>P.J.A. Kleinman and K. Soder</i>	249
