

Ira S. Richards

Principles and Practice of

TOXICOLOGY

in Public Health

Contents

Preface	vii
Acknowledgments	ix

SECTION I INTRODUCTION

Chapter 1	
Toxicology and Its Roots as a Science	3
Chapter 2	
Chemical Properties and Information	
Resources on Hazardous Chemicals	11
Chapter 3	
Toxicity and the Factors That Modify Toxic Responses	45
Chapter 4	
Biological Poisons: Plant and Animal Toxins	55
Chapter 5	
Environmental Pollutants and Their Fate	79

SECTION II TOXICOLOGY PRINCIPLES

Chapter 6	
Dose and Response	105
Chapter 7	
Absorption of Toxicants and Models of Disposition	115
Chapter 8	
Distribution, Storage, and Elimination of Toxicants	129
Chapter 9	
Biotransformation	139

Chapter 10	
Chemical-Induced Mutagenesis	155
Chapter 11	
Chemicals and Cancer	167

SECTION III SYSTEMIC TOXICITY

Chapter 12	
Role of the Immune System	193
Chapter 13	
Skin	203
Chapter 14	
The Liver and Kidneys	213
Chapter 15	
The Cardiovascular System	225
Chapter 16	
The Respiratory System	239
Chapter 17	
The Nervous System	255

SECTION IV TOXICOLOGY PRACTICE

Chapter 18	
The Practice of Toxicology	271
Chapter 19	
Regulatory Considerations	279
Chapter 20	
Toxicity Testing	305
Chapter 21	
Uses and Limitations of Product Labeling for Public Safety	351
Chapter 22	
Toxicology Principles in the Management of Acute Poisonings	365
Chapter 23	
Risk Assessment and the Perception of Risk	375
Chapter 24	
Making Informed Decisions	393
Glossary of Terms	403
Index	447
