

# PROCEEDINGS

of the International Conference on

## Tea Production and Tea Products

**Organized by**

Mae Fah Luang University, Thailand

**November 26-28, 2008**

Mae Fah Luang University, Chiang Rai, Thailand

# TABLE OF CONTENTS

<b>PREFACE</b>	<b>iii</b>
<b>CONFERENCE PROGRAM</b>	<b>ix</b>
<b>1. KEYNOTE LECTURES</b>	
Current Status and Future Development of Global Tea Production and Tea Products <i>Dr. Alastair Hicks</i>	<b>3</b>
Tea Production and Tea Products in China: Current Status and Future Prospects <i>Prof. Dr. Jinshui Wu, Prof. Runlin Xiao, Huaqin Xu,         and Xiao Cheng</i>	<b>21</b>
Tea Production and Tea Products in India: Current Status and Future Prospects <i>Dr. N. Muraleedharan</i>	<b>27</b>
<b>2. COUNTRY REPORTS</b>	
Current Status and Future Development of Tea Production and Tea Products in Indonesia <i>Dr. Atik Dharmadi</i>	<b>39</b>
Current Status and Future Development of Tea Production and Tea Products in Japan <i>Mr. Yuichi Yamaguchi</i>	<b>49</b>
Current Status and Future Development of Tea Production and Tea Products in Malaysia <i>Mr. Someer Mukherjee</i>	<b>59</b>
Current Status and Future Development of Tea Production and Tea Products in Sri Lanka <i>Dr. I. Sarath B. Abeysinghe</i>	<b>63</b>
Current Status and Future Development of Tea Production and Tea Products in Taiwan <i>Dr. Mu-Lien Lin</i>	<b>71</b>
Current Status and Future Development of Tea Production and Tea Products in Vietnam <i>Dr. Nguyen Van Toan</i>	<b>79</b>
Current Status and Future Development of Tea Production and Tea Products in Thailand <i>Dr. Panom Winyayong</i>	<b>89</b>
<b>3. INVITED PAPERS</b>	
Aspects of the Antioxidant Chemistry of Teas Investigated by Electron Paramagnetic Resonance (EPR) Spectroscopy <i>Dr. Bernard A. Goodman, Joyce Ferreira Severino,         Thomas G. Reichenauer and Katharina, F. Pirkea</i>	<b>101</b>
New Approaches to Sustainable Tea Production in Hunan: Ecological Management of Tea Gardens <i>Prof. Runlin Xiao, Huaqin Xu, Chengwen Shen and Xiao Cheng</i>	<b>119</b>

#### 4. FULL PAPERS

Analysis of Polycyclic Aromatic Hydrocarbons in Tea Samples Using a Gas Chromatography/Flame Ionization Detector <i>Wichuda Tongpoosawan and Napa Tangtreamjitmun</i>	127
Susceptability Testing of Commercial Green Tea in Chiang Rai against pathogenic bacteria <i>R.A. Kristanti, S. Sampanvejsobha, and N. Punbusayakul</i>	137
Development of Instant Mango Tea <i>Raj nibhas Samakradhamrongthai and Niramom Utama-Ang</i>	145
Chemical Qualities of Green Teas Produced in Chiang Rai, Thailand <i>Theerapong Theppakorn and Kanjana Yamee</i>	151
Effect of Tea Type, Extract Water Temperature and Factory Size on Chemical Properties of Tea <i>Duadsantia S. and Tinakorn Na Ayutthaya K</i>	159

#### 5. ABSTRACTS

Collection, Morphology and Characterization of Local Tea in Chiang Mai and Mae Hong Son Province <i>C. Korsamphan, P. Puddhanon, B. Warril, S. La-ongsr and C. Kaewphoowat</i>	165
Effect of Solid State Fermentation of Pu-Erh Tea on the Components and Antioxidant Activity of Polysaccharides <i>J.-S. Gong, X.-J. Hu, C.-X. Peng, H.-J. Zhou, G.-Y., Dong, B.-C. Li</i>	166
Smart Farm Technology and Opportunities for Tea Plantation <i>N. Tongrod, A. Tuantranont, and T. Kerdcharoen</i>	167
A Review of Agricultural Sensors and Opportunities for Use in Tea Orchards <i>T. Kerdcharoen</i>	168
Stability of Catechins in Green Tea Drinks <i>S. Natakankitkul, T. Toida, and M. Suttajit</i>	169
Secondary Metabolite Production of Tea Callus <i>in vitro</i> <i>A. Pramudyanto, S. Srisuwan, and S. Sampanvejsobha</i>	170
Microclimate Monitoring in Vineyards Based on Zigbee sensor Networks <i>N. Watthanawisuth, T. Kerdcharoen, and A. Tuantranont</i>	171
James Bond Electronic Nose for Estimation of Thai Tea Aroma <i>C. Wongchoosuk, M. Lutz, A. Tuantranont and T. Kerdcharoen</i>	172
Prediction of Crop Yield Based on Machine Vision: A Case Study in Vineyard and Opportunities for Tea Orchard <i>P. Khongchuay, S. Phongsuphap, and T. Kerdcharoen</i>	173
Kinetics of Assam Green Tea Extraction <i>R. Wati, S. Sampanvejsobha, and N. Rungraeng</i>	174
The Effect of Extraction Methods on Essential Chemical Compounds in Green Tea Extract <i>T. Manawakun, N. Rungreang, and S. Sampanvejsobha</i>	175
The Effect of Glass Transition Temperature on Stickiness of Green Tea Powder Undergoing Spray Drying Process <i>U. Samsi, N. Rungraeng, S. Sampanvejsobha, and P. Wongs</i>	176

A Zigbee Environmental Monitoring System	177
<i>M. Lutzl, A. Tuantranont, and T. Kerdcharoen</i>	
Manganese Concentration in Chiang Rai Tea Infusion: Effects of Type of Tea and Tea Infusion Conditions	178
<i>P. Promnart, S. Suteerapataranon, and J. K. Syers</i>	
<b>6. TECHNICAL REMARKS</b>	
<i>Professor Dr. J. Keith Syers</i>	181
<b>7. FAREWELL REMARKS</b>	
<i>Dr. Ted Tesprateep</i>	185
<b>8. APPENDIX</b>	
List of Participants	189
