

# WATER WELLS AND PUMPS

Second Edition

A M MICHAEL • S D KHEPAR • S K SONDHI

*Preface to the Second Edition*

vii

*Preface to the First Edition*

ix

## **1. GROUND WATER RESOURCES DEVELOPMENT AND UTILIZATION 1**

- 1.1 The Hydrologic Cycle 2
- 1.2 Types of Water-Bearing Formations 3
- 1.3 Types of Soil Water 6
- 1.4 Hydrologic Units 7
- 1.5 Minerals and Rocks 7
- 1.6 Influence of Physiography and Climate on Ground Water Availability 9
- 1.7 Hydro-Geological Formations 11
- 1.8 Ground Water Investigations 15
- 1.9 Ground Water Quality 19
- 1.10 Types of Water Wells 28
- 1.11 Ground Water Resource Assessment 29
- 1.12 Status of Ground Water Development in India 30
- 1.13 Artificial Recharge of Ground Water 31
- 1.14 Conjunctive Use of Ground Water with Canal Water 42
- 1.15 Legal Aspects of Ground Water Management 42
- 1.16 Ground Water Pollution 44

*References 47*

*Short Questions 48*

## **2. HYDRAULICS OF WELLS**

**52**

- 2.1 Definitions 52
- 2.2 Aquifer Characteristics Influencing Yield of Wells 54
- 2.3 Steady State Radial Flow 58
- 2.4 Unsteady State Flow 68
- 2.5 Pumping Tests 81
- 2.6 Well Interference 88

*References 90*

*Problems 92*

*Short Questions 93*

### **3. OPEN WELLS**

**98**

- 3.1 Open Wells in Unconsolidated Formations 99
- 3.2 Open Wells in *Hard Rock Formations* 120
- 3.3 Deepening of Open Wells 124
- 3.4 Increasing the Yield of Open Wells 135
- 3.5 Failure of Open Wells Due to Excessive Pumping 141
- 3.6 Sanitary Protection of Wells 141

*References* 147

*Problems* 148

*Short Questions* 148

### **4. TUBE WELLS AND THEIR DESIGN**

**151**

- 4.1 Types of Tube Wells 151
- 4.2 Selection of the Type of Tube Well 168
- 4.3 Plastic Pipes for Tube Well Casings and Strainers 168
- 4.4 Design of Tube Wells 174
- 4.5 Sanitary Protection of Tube Wells 190
- 4.6 Design of Skimming Wells 194

*References* 197

*Short Questions* 199

### **5. TUBE WELL CONSTRUCTION**

**203**

- 5.1 Construction of Bored and Driven Tube Wells 203
- 5.2 Tube Well Drilling Equipment and Methods 206
- 5.3 Percussion Drilling 207
- 5.4 Hydraulic Rotary Drilling 221
- 5.5 Drilling with Down-the-Hole Hammer and Air Rotary Drills 247
- 5.6 Miscellaneous Drilling Methods 264
- 5.7 Choice of Drilling Method 270
- 5.8 Installation of Well Screens and Checking Well Alignment 273
- 5.9 Sealing of Brackish and Saline Aquifer Horizons 278

*References* 280

*Short Questions* 281

### **6. DEVELOPMENT AND TESTING OF TUBE WELLS**

**285**

- 6.1 Objectives of Well Development 285
- 6.2 Methods of Well Development 287
- 6.3 Use of Dispersing Agents in Well Development 303
- 6.4 Development of a Cavity Tube Well 303
- 6.5 Choice of Well Development Method 303
- 6.6 Testing of Tube Wells 305

*References* 307  
*Problems* 308  
*Short Questions* 308

## **7. REHABILITATION OF SICK AND FAILED TUBE WELLS 311**

- 7.1 Evaluation of Well Performance for Diagnosing Cause of Failure 311
- 7.2 Influence of Faulty Design, Construction and Operation on Well Failures 313
- 7.3 Photographic Evaluation of Well Failures 316
- 7.4 Mechanical Failures and Use of Fishing Tools 317
- 7.5 Corrosion and Incrustation of Well Screens 322

*References* 336  
*Short Questions* 337

## **8. MAN AND ANIMAL POWERED WATER LIFTS AND POSITIVE DISPLACEMENT PUMPS 340**

- 8.1 Manually Operated Water Lifts 341
- 8.2 Animal Powered Water Lifts 356
- 8.3 Positive Displacement Pumps 365

*References* 385  
*Problems* 386  
*Short Questions* 387

## **9. VARIABLE DISPLACEMENT PUMPS AND ACCESSORIES 390**

- 9.1 Classification of Variable Displacement Pumps 390
- 9.2 Centrifugal Pumps 391
- 9.3 Friction Head in Pipe System 398
- 9.4 Total Pumping Head 399
- 9.5 Cavitation 405
- 9.6 Power Requirements in Pumping 407
- 9.7 Pump Characteristic Curves 411
- 9.8 System Head Curve 418
- 9.9 Selection of Centrifugal Pumps 419
- 9.10 Accessories for Horizontal Volute Centrifugal Pumps 426
- 9.11 Economical Pipe Size Selection 435
- 9.12 Selection of Pump Drive 436

*References* 437  
*Problems* 438  
*Short Questions* 439

**10. CENTRIFUGAL PUMPS: DESIGN, INSTALLATION, OPERATION, MAINTENANCE AND TROUBLESHOOTING 444**

- 10.1 Design of Centrifugal Pumps 444
- 10.2 Centrifugal Pump Installation 471
- 10.3 Centrifugal Pump Operation 492
- 10.4 Maintenance and Trouble-Shooting 493

*References 500*

*Problems 502*

*Short Questions 502*

**11. DEEP WELL TURBINE AND SUBMERSIBLE PUMPS 506**

- 11.1 Vertical Turbine Pumps 506
- 11.2 Submersible Pumps 533

*References 546*

*Short Questions 546*

**12. PROPELLER, MIXED FLOW AND JET PUMPS 549**

- 12.1 Propeller Pumps 549
- 12.2 Mixed Flow Pumps 561
- 12.3 Jet Pumps 564

*References 575*

*Short Questions 576*

**13. APPLICATION OF NON-CONVENTIONAL ENERGY SOURCES IN PUMPING 578**

- 13.1 Windmills 579
- 13.2 Hydro-Power 596
- 13.3 Hydraulic Ram 597
- 13.4 Solar Pumps 621
- 13.5 Biogas 625
- 13.6 Unique Requirements in Adopting Non-Conventional Energy Sources in Water Pumping 629
- 13.7 Benefit-Cost Ratio of Pumping Plants Operated by Alternate Energy Sources 631

*References 631*

*Problems 633*

*Short Questions 633*

<b>14. TECHNO-ECONOMIC EVALUATION OF PROJECTS ON WELLS AND PUMPS</b>	<b>637</b>
14.1 Availability of Ground Water Resources	637
14.2 Design of Wells and Selection of Equipment for Pumping	647
14.3 Economic Evaluation	647
