MASTERING MAYA® 2009

Eric Keller
with Eric Allen

SYBEX®
AUTODESK® MAYA PRESS

Contents

Introduction ..... *xxiii*

Chapter 1 • Working in Maya **1**

Maya Nodes 1
- Using the Hypergraph 2
- The Connection Editor 6
- Using the Outliner 11
- Display Options in the Outliner 15
- The Channel Box 16
- The Attribute Editor 20
- The Hypershade 23

Maya Projects 30
- Create a New Project 31
- Edit and Change Projects 33

Assets 34
- Containers 34
- Creating Assets from Containers 40
- Using the Asset Editor 41
- Template Containers 43

File References 44
- Referencing a File 44
- Using Reference Proxies 46

The Bottom Line 49

Chapter 2 • Maya Cameras **51**

Image Size and Resolution 51
- Set Image Size 52
- Set Film Speed 54

Camera Settings 54
- Creating a Camera 55
- Camera Attributes 59
- Clipping Planes 64
- Film Back 65
- Camera Shake 67

Custom Camera Rigs 73
- Swivel Camera Rig 73
- Swivel Camera Rig Asset 75

Depth of Field and Motion Blur 79
- Depth of Field Settings 80
- Creating a Rack Focus Rig 83
- Motion Blur 87

Orthographic and Stereo Cameras 92
Orthographic Cameras 92
Stereo Cameras 93
The Bottom Line 95

Chapter 3 • NURBS Modeling in Maya 97
Image Planes 97
Creating Image Planes 99
Reference Plane Display Layers 102
Understanding NURBS 103
Understanding Curves 104
Understanding NURBS Surfaces 106
Surface Seams 109
NURBS Display Controls 110
Modeling NURBS Surfaces 110
Lofting Surfaces 114
Intersecting Surfaces 118
Trim Surfaces 121
Working with Trim Edges 122
Extruding Surfaces: Distance Extrude 125
Extruding Surfaces: Profile Extrude 128
Fillet Surfaces 131
Creating Rail Surfaces 135
Lofting across Multiple Curves 140
Live Surfaces 142
Project Curves on the Surface 145
Revolve 149
Using the Bend Deformer 152
Creating Realism 154
NURBS Tessellation 156
The Bottom Line 157

Chapter 4 • Polygon and Subdivision Surface Modeling 159
Understanding Polygon Geometry 159
Working with Smooth Mesh Polygons 160
Using Smooth Mesh Polygons 161
Selecting Components 163
Moving Components 166
Inserting Edge Loops 168
Extruding Polygons 170
Edge Creasing 172
Mirror Cut 177
Modeling with Deformers 181
Using a Lattice 181
Soft Modification Tool 185
Combining Meshes 186
Creating the Bolt Detail 186
Using Bevel Plus and Bevel Edges 190
Creating the Curves 190

Bevel Plus ... 192
Bevel Edges ... 196
Polygon Modeling with Paint Effects ... 200
Attaching Strokes to Curves ... 202
Modifying the Converted Stroke ... 203
Drawing Curves on a Live Surface ... 204
Converting NURBS Objects to Polygons ... 206
Revolve ... 207
NURBS Extrusions ... 209
Boolean Operations ... 211
Using Booleans ... 212
Sculpting Polygons Using Artisan ... 216
Sculpting Polygons ... 217
Advanced Polygon Modeling: The Head ... 223
Creating the Eye Socket ... 223
Creating the Mouth Area ... 226
Shaping the Mouth and Eye Areas ... 228
Creating the Nose ... 231
Connecting the Sections of the Face ... 233
Enhancing Lips and Eyelids ... 236
Creating the Cranium and Ear ... 238
Creating a Character ... 239
Transform Component ... 239
Offset Edge Loop Tool ... 240
Slide Edge Tool ... 240
Flip Triangle Tool ... 241
Sculpting the Head ... 242
Using Subdivision Surfaces ... 243
Working with SubDs ... 244
SubD Levels ... 246
The Bottom Line ... 249

Chapter 5 • Animation ... 251

Using Joints and Constraints ... 251
Joint Basics ... 252
Point Constraints ... 252
Aim Constraints ... 258
Inverse Kinematics ... 260
IK Handle Tool ... 261
Create a Master Control ... 264
Keyframe Animation ... 266
Creating Keyframes ... 267
Auto Keyframe ... 269
Move and Scale Keyframes on the Timeline ... 270
Copy, Paste, and Cut Keyframes ... 271
The Graph Editor ... 273
Animation Curves ... 274
Editing Animation Curves ... 279
Weighted Tangents ... 283

Additional Editing Tools ... 284
Breakdowns and In-Betweens ... 287
Pre- and Post-Infinity ... 288
Playblast and F Check ... 290
Create and View a Playblast ... 290
Driven Keys ... 291
Creating a Driven Key ... 292
Looping Driven Keys ... 293
Copying and Pasting Driven Keys ... 295
Animation Using Expressions ... 297
Conditional Statements in Expressions ... 299
Motion Path Animation ... 301
Create a Motion Path ... 301
Animating Constraints ... 303
Dynamic Parenting ... 303
Animation Layers ... 306
Create an Animation Layer ... 307
Layer Mode ... 308
Other Options in the Layer Editor ... 310
Layer Hierarchy ... 311
Merging Layers ... 314
The Bottom Line ... 315

Chapter 6 • Animating with Deformers ... 317

Animate Facial Expressions ... 317
Blend Shape Targets ... 320
Create Blend Shapes ... 324
Paint Blend Shape Weights ... 326
Adding Targets ... 328
Create a Custom Mouth Control Slider ... 329
Connect the Slider to the Blend Shape ... 331
Create Blend Shape Sequences ... 335
Create the Base Mesh ... 335
Create the Blend Shape Targets ... 338
Create the Blend Shape Sequence ... 339
Use Lattices ... 340
Create a Lattice ... 340
Animating Lattices ... 342
Animate Clusters ... 345
Cluster Objects ... 345
Paint Cluster Weights ... 346
Cluster Components ... 347
Constraining Clusters ... 349
Nonlinear Deformers ... 351
The Wave ... 351
Squash ... 353
Twist ... 354
Create Jiggle Deformers ... 356
Apply Jiggle Deformers ... 356
Paint Jiggle Weights ... 357

Use the Geometry Cache ... 358
Create a Geometry Cache ... 358
Editing the Cache Playback ... 359
The Bottom Line ... 361

Chapter 7 • Rigging and Muscle Systems ... 363
Understanding Rigging ... 363
Creating and Organizing Joint Hierarchies ... 364
Create Joints ... 365
Orient Joints ... 370
Name Joints ... 374
Rotation Limits ... 375
Label Joints ... 376
Mirror Joints ... 377
Inverse Kinematic Rigs ... 379
IK Solvers ... 379
Creating a Custom Control ... 387
Pole Vector Constraint ... 391
FK/IK Blending ... 392
Skinning Geometry ... 393
Smooth Binding ... 394
Paint Skin Weights ... 396
Edit Skin Weights in the Component Editor ... 399
Copy Skin Weights ... 399
Mirror Skin Weights ... 401
Maya Muscle System ... 402
The Maya Muscle System ... 404
Using Capsules ... 405
Edit Capsule Shape ... 407
Create a Muscle Using Muscle Builder ... 408
Edit a Muscle Using Muscle Builder ... 410
Finalize the Muscle ... 411
Edit Muscle Parameters ... 412
Convert the Smooth Skin to a Muscle System ... 414
Sliding Weights ... 416
The Bottom Line ... 419

Chapter 8 • Paint Effects and Toon Shading ... 421
Using the Paint Effects Canvas ... 421
The Paint Effects Window ... 422
Painting in Scene Mode ... 426
Painting on 3D Objects ... 427
Understanding Strokes ... 431
The Anatomy of a Paint Effects Stroke ... 431
Brush Sharing ... 433
Brush Curve Nodes ... 435
Designing Brushes ... 436
Painting with the Default Paintbrush ... 436
Brush Types ... 438

Brush Profile ... 439
Coloring Strokes ... 441
Texturing Strokes ... 442
Creating Tubes ... 445
Tubes Controls ... 445
Width Scale ... 448
Tube Color ... 449
Tube Direction ... 450
Add Growth ... 452
The Growth Controls ... 452
Adding Branches and Twigs ... 453
Adding Leaves and Flowers ... 455
Shaping Strokes with Behavior Controls ... 457
Forces ... 457
Displacement, Spiral, and Bend ... 458
Animating Strokes ... 460
Animating Attribute Values ... 461
Adding Turbulence ... 463
Animating Growth ... 464
Modifiers ... 465
Rendering Paint Effects ... 465
Illumination ... 465
Shadow Effects ... 466
Rendering Strokes with mental ray ... 467
Toon Shading ... 468
Toon Fills ... 468
Toon Outlines ... 471
Using Paint Effects Presets for Toon Lines ... 472
The Bottom Line ... 473

Chapter 9 • mental ray Lights ... 475

Shadow-Casting Lights ... 475
Shadow Preview ... 476
Depth Map Shadows ... 479
mental ray Shadow Map Overrides ... 484
Ray Trace Shadows ... 485
Indirect Lighting: Global Illumination ... 487
Global Illumination ... 487
Tuning Global Illumination ... 490
Working with Photon Maps ... 493
Color Bleeding ... 494
Importons ... 494
Caustics ... 495
Caustic Light Setup ... 498
Indirect Illumination: Final Gathering ... 500
Light-Emitting Objects ... 500
Final Gathering Maps ... 504
Using Lights with Final Gathering ... 509

Image-Based Lighting 509
Enabling IBL 510
IBL and Final Gathering 510
IBL and Global Illumination 512
IBL Light Shader 513
Physical Sun and Sky 514
Enable Physical Sun and Sky 514
Editing the Sky Settings 516
mental ray Area Lights 517
Using Area Lights 517
Light Shaders 520
Physical Light Shader 520
Photometric Lights and Profiles 523
Portal Light 523
Participating Media 527
Tuning Participating Media 530
Rendering Participating Media with Indirect Lighting 531
The Bottom Line 531

Chapter 10 • mental ray Shaders 533

Ambient Occlusion 533
Create an Ambient Occlusion Shader 534
Ambient Occlusion and Bump Textures 539
Reflection Occlusion 540
Additional Ambient Occlusion Techniques 542
Shading Concepts 546
Diffusion 546
Reflection 547
Refraction 547
The Fresnel Effect 548
Using Reflections and Refraction Blur 551
Reflection Blur 551
Refraction Blur 552
Basic mental ray Shaders 553
DGS Shaders 554
Dielectric Material 559
mental ray Base Shaders 561
Car Paint Materials 565
Using the Car Paint Material 566
The MIA Material 569
Using the MIA Material Presets 570
Creating Thick and Thin Glass and Plastic 573
Other MIA Material Attributes 574
Controlling Exposure with Tone Mapping 575
Using Exposure Shaders 575
Rendering Contours 577
Enable Contour Rendering 577
The Bottom Line 580

Chapter 11 • Texture Mapping 583
UV Texture Layout 583
What Are UV Texture Coordinates? 583
Creating UV Texture Coordinates 586
Mapping the Scalp 587
Creating UV Shells 592
Flipped and Overlapping UVs 593
Smooth UV Tool 597
UV Smudge and UV Lattice Tools 598
Automatic Mapping 601
UV Mapping the Face 602
Sewing UV Shells 605
Unfolding UVs 609
Arranging UV Shells 612
UV Snapshot 613
Additional UV Mapping Considerations 614
Transferring UVs 614
Multiple UV Sets 615
UV Mapping Alternatives 615
Bump and Normal Mapping 616
Bump Maps 617
Applying the Bump Texture to the Model 621
3D Paint Tool 623
Rendering Textures Using the Optimized Format 624
Normal Maps 625
Creating Normal Maps 626
The Search Envelope 629
Applying Normal Maps 632
Displacement Mapping 635
Creating Terrain with Displacement Maps 635
Converting Displacement to Polygons 638
Displacement Maps for Characters 638
Combined Displacement and Bump Maps 640
PSD Networks 641
Subsurface Scattering 645
Fast, Simple Skin Shader Setup 645
Subsurface Scattering Layers 649
Subsurface Specularity 650
Texture Mapping NURBS Surfaces 652
Convert Texture to File Texture 652
The Bottom Line 657

Chapter 12 • Rendering for Compositing 659
Render Layers 659
Creating Render Layers 661
Render Layer Overrides 664
Creating Overrides for Rendering Cameras 667
Using Different Shaders on Render Layers 668

Material Overrides ... 669
Render Layer Blend Modes ... 670
Render Passes ... 675
Creating an Ambient Occlusion Pass ... 676
Creating Reflection, Specular, Depth, and Shadow Passes ... 681
Render Pass Contribution Maps ... 683
Lights and Contribution Maps ... 686
Render Pass Sets ... 687
Batch Rendering ... 689
File Tokens ... 689
Specifying Frame Range ... 693
Renderable Cameras ... 693
File Formats and the Frame Buffer ... 694
Starting a Batch Render ... 694
Command-Line Rendering ... 696
Creating a Batch Script ... 700
mental ray Quality Settings ... 701
Tessellation and Approximation Nodes ... 702
Anti-Aliasing and Sampling ... 704
Filtering ... 707
Rasterizer ... 707
Raytrace Acceleration ... 708
Diagnose BSP ... 709
The Bottom Line ... 710

Chapter 13 • Introducing nParticles ... 711

Creating nParticles ... 711
Drawing nParticles Using the nParticle Tool ... 712
Spawning nParticles from an Emitter ... 714
Emitting nParticles from a Surface ... 717
Filling an Object with nParticles ... 719
nParticle Collisions ... 724
Passive Collision Objects ... 724
Liquid Simulation ... 728
Creating Liquid Behavior ... 729
Converting nParticles to Polygons ... 733
Shading the nParticle Mesh ... 735
Texture Emission Attributes ... 736
Surface Emission ... 737
Using Wind ... 742
The Wind Settings ... 742
Shading and Hardware Rendering nParticles ... 745
Creating an nCache ... 747
Using the Hardware Render Buffer ... 748
nParticles and Fields ... 750
Using Multiple Emitters ... 751
Volume Axis Curve ... 754
Working with Force Fields ... 758

Painting Field Maps ... 761
Using Dynamic Fields ... 763
Rendering Particles with mental ray ... 767
Setting nParticle Shading Attributes ... 767
The Bottom Line ... 770

Chapter 14 • Advanced nDynamic Effects ... 771
nCloth ... 771
Creating nCloth Objects ... 772
nCloth Nodes ... 774
nCloth Presets ... 776
Stickiness ... 778
nConstraints ... 779
Pressure ... 784
Additional Techniques ... 785
Create an nCache ... 786
Using nCloth with nParticles ... 787
nParticles and Goals ... 787
Using nCloth as a Goal ... 791
Collision Events ... 793
Tearable nConstraints ... 794
nCloth and Rigid Body Simulations ... 795
Rigid nCloth Objects ... 796
Set nCloth Start Frame ... 801
nCloth and Fields ... 802
Traditional Rigid Body Dynamics ... 805
Baking Simulations ... 807
nParticle Instancing ... 809
Particle Debris ... 809
nParticles and Fields ... 812
nParticle Size and Mass ... 814
Instancing Geometry ... 817
nParticle Expressions ... 819
Randomizing Instance Index ... 820
Connecting Instance Size to nParticle Mass ... 822
Rotation Expressions ... 826
Creating Smoke Effects ... 828
Using the Cloud nParticle Style ... 828
The Bottom Line ... 832

Chapter 15 • Fur, Hair, and Clothing ... 835
Add Fur to Characters ... 835
Prepare Polygons for Maya Fur ... 836
Create a Fur Description ... 837
Edit the Fur Description: Baldness ... 838
Edit the Fur Description: Direction ... 845
Edit the Fur Description: Length ... 847

Test Render Fur ... 850
Apply a Color Map ... 852
Map Offsets and Multipliers ... 853
Additional Fur Attributes ... 854
Add Dynamic Motion to Fur ... 856
Attach a Fur Description to Hair Curves ... 856
Render Fur Using mental ray ... 857
Render Fur Using Raytracing ... 858
Dynamic Curves ... 859
Use Dynamic Curves with IK Splines ... 859
Create an IK Spline Handle from the Dynamic Curve ... 863
Use Forces ... 864
Add Hair to a Character ... 865
Apply Hair to a Surface ... 865
Hair Collisions ... 868
Hair Collision Constraints ... 871
Hair Shape ... 872
Style Hair ... 876
Start and Rest Positions ... 876
Paint Follicle Attributes ... 877
Style Hair with Fields ... 879
Modify Curves ... 880
Curling, Noise, Sub Clumping, and Braids ... 881
Hair Constraints ... 881
Create a Constraint ... 882
Render Hair ... 885
Color Hair ... 885
Tips for Rendering Hair ... 885
Create Clothing for Characters ... 886
Model Clothes for nCloth ... 886
Convert Smooth Mesh Polygons to nCloth ... 887
Add a Transform Constraint ... 889
Use Component Constraints ... 890
Connect Buttons to the Shirt ... 893
Paint nCloth Properties ... 895
Paint a Vertex Property Map ... 895
The Bottom Line ... 897

Chapter 16 • Maya Fluids ... 899

Use Fluid Containers ... 899
Use 2D Containers ... 900
Use Fields with Fluids ... 902
Fluid Examples ... 904
Use 3D Containers ... 904
Create a Reaction ... 905
Fluid Emitters ... 905
Add Velocity ... 908
Add Fuel ... 910

Render Fluid Containers . . . 912
Texturing Fluids . . . 912
Glowing Fluids . . . 913
Lighting Fluids . . . 915
Fluids and nParticles . . . 916
Add Sparks to a Flame . . . 916
Create a Pond . . . 919
Set Up the Pond . . . 919
Create a Wake . . . 921
Use Boats . . . 922
Convert Fluids to Polygons . . . 924
Create an Ocean . . . 927
The Ocean Shader . . . 927
The Bottom Line . . . 930

Chapter 17 • MEL and Python . . . 931
Use a MEL Command . . . 931
MEL Interfaces . . . 931
MEL Scripting Techniques . . . 934
Learning From the Script Editor . . . 935
Create a MEL Script File . . . 941
Add Attributes with MEL . . . 943
Add an Image Sequence to the Sprites . . . 947
Add Expressions Using MEL . . . 949
Create a Conditional Statement . . . 952
Create a Loop . . . 954
Procedures . . . 957
Make a Procedure from a Script . . . 958
Use a Procedure within a Script . . . 959
Global Procedures . . . 962
Use Python . . . 962
Use Maya Commands within Python . . . 962
The Bottom Line . . . 963

Appendix A • The Bottom Line . . . 965

Appendix B • About the Companion DVD . . . 993

Index . . . 997
