Editors

# RESEARCH ESSENTIALS

An Introduction to  
Designs and Practices

# CONTENTS

<b>Tables, Figures, and Exhibits</b>	<b>xvii</b>
<b>Preface</b>	<b>xix</b>
<b>Introduction</b>	<b>xxiii</b>
<b>The Editors</b>	<b>xxvii</b>
<b>The Authors</b>	<b>xxix</b>
<b>1 RESEARCH ETHICS AND THE USE OF HUMAN PARTICIPANTS</b>	<b>1</b>
<i>K. Larson</i>	
Key Ideas	1
Ethical Standards	3
The Genesis of Research Standards	3
Federal Regulations for Ethical Research	4
Institutional Review Boards	5
Minimizing Risks to Participants	6
Informed Consent	6
Deception	9
Debriefing	11
Confidentiality and Anonymity	12
Publishing Research	13
Social Consequences of Unethical Research	14
Reading and Evaluating Studies	15
Summary	15
Key Terms	15
Further Readings and Resources	16
<b>2 UNDERSTANDING LITERATURE REVIEWS</b>	<b>19</b>
<i>G. McAllister and A. Furlong</i>	
Key Ideas	19
What Is a Literature Review?	20
Basic Elements of a Literature Review	21
Types of Literature Reviews	22
Literature Reviews and Rigor	24
How to Read a Literature Review	25
Value of the Studies	27
Readability	27
Writing a Literature Review	29
Muck About	29
Set Your Parameters	29

Conduct Your Research	30
Analyze the Literature	30
Focus on the Purpose of Your Literature Review	31
Write Up the Literature Review	31
Summary	32
Key Terms	32
Further Readings and Resources	33
<b>3 ESSENTIAL ELEMENTS OF EXPERIMENTAL AND QUASI-EXPERIMENTAL RESEARCH</b>	<b>35</b>
<i>W. E. Martin Jr. and K. D. Bridgmon</i>	
Key Ideas	35
Experimental Research Today	36
Essential Elements of Experimental Research	37
Processes of Designing and Conducting Experimental Research	38
Formulating Experimental Conditions and Procedures	41
Reducing Imprecision in Measurement	44
Controlling Extraneous Experimental Influences	47
Experimental Designs	50
Randomized Posttest Only Control Group Design	51
Randomized Pretest-Posttest Control Group Design	51
Randomized Multiple Treatments and Control with Pretest Design	51
Randomized Longitudinal Design	51
External Validity	52
Quasi-Experimental Research	54
Nonequivalent Control Group Design	54
Untreated Control Group Design with Dependent Pretest and Posttest	
Samples Using a Double Pretest	54
Multiple Time-Series Design	55
Summary	56
Key Terms	56
Further Readings and Resources	57
<b>4 NONEXPERIMENTAL QUANTITATIVE RESEARCH</b>	<b>59</b>
<i>G. Belli</i>	
Key Ideas	59
Overview of Nonexperimental Research	60
Variables and Their Measurement	61
Defining Variables	62
Phrasing Questions	64
Classifying Nonexperimental Research	64
Classification Based on Purpose (Dimension 1)	65
Classification Based on Time (Dimension 2)	66
Combining Classification Dimensions	68

Causal Explanations and Nonexperimental Studies	71
Requirements for Causality	72
Ruling Out Alternative Hypotheses	73
Analysis and Interpretation in Nonexperimental Studies	75
Summary	76
Key Terms	76
Further Readings and Resources	77
<b>5 A PRIMER OF SURVEY METHODS</b>	<b>79</b>
<i>M. Berends and G. Zottola</i>	
Key Ideas	79
What Is Survey Research?	80
Surveys You Know	80
The Research Process	81
Choosing a Topic	82
Focusing the Research: Concepts and Constructs	82
Hypotheses, Variables, and Operationalization	82
Independent Versus Dependent Variables	83
Writing Good Survey Questions	84
Piloting and Cognitive Interviews	87
Sampling, Response Rates, and Nonresponse	88
Probability or Random Sampling	89
Simple, Stratified, and Systemic Samples	89
Nonprobability Sampling	90
Response Rates and Nonresponse	91
Is the Framework Intact?	92
Data Reduction	92
Types of Surveys	93
Face-to-Face Interviews	93
Telephone Surveys	94
Mail Surveys	95
Internet and Web-Based Surveys	95
Ethical Issues in Survey Research	96
Ways to Ensure Confidentiality and Increase Anonymity	96
Informed Consent	97
Ethics Beyond Data Collection	98
Summary	98
Key Terms	99
Further Readings and Resources	99
<b>6 QUANTITATIVE DATA ANALYSIS</b>	<b>103</b>
<i>M. T. Quartaroli</i>	
Key Ideas	103
What Do Those Numbers Mean?	104

Meanings of Numbers	104
Summarizing Data: Descriptive Statistics	105
Frequency Distributions	105
Distribution Patterns	107
Types of Numerical Data	111
Measures of Central Tendency	113
Measures of Variability	117
Measures of Relative Position	120
Measures of Relationship	122
Descriptive Statistics Are Important	124
Generalizing Results: Inferential Statistics	124
Tests of Significance	125
Selection of the Statistical Tests	126
Using Inferential Statistics for Decision Making	127
Evaluating Reports with Quantitative Data	128
Summary	129
Key Terms	129
Further Readings and Resources	130
<b>7 UNDERSTANDING META-ANALYSES</b>	<b>131</b>
<i>G. V Glass</i>	
Key Ideas	131
What Is Meta-Analysis?	132
Meta-Analysis Illustrated	132
Evaluating Meta-Analyses	138
Another Example	140
Summary	143
Key Terms	143
Further Readings and Resources	144
<b>8 EVALUATING HISTORICAL RESEARCH</b>	<b>145</b>
<i>L. M. Hines</i>	
Key Ideas	145
Basics of Historical Research	146
How Are Questions Posed, or “So What?”	148
Intriguing and Important Questions	148
Filling a Gap	149
Interpretive Differences	149
Exploring Current Policy	150
What Data Are Used, or “How Do You Know?”	151
Primary Sources	152
Secondary Sources	156
What Is the Interpretation, or “Why Do You Think That?”	157
Foci of Historical Studies	157

Perspective on History	159
Categories of Analysis	160
Types of Historical Research	160
Learning More	162
Summary	163
Key Terms	163
Further Readings and Resources	164
<b>9 CASE STUDY RESEARCH</b>	<b>165</b>
<i>S. D. Lapan and S. W. J. Armfield</i>	
Key Ideas	165
Purposes of Program Case Studies	167
Program Case Study Designs	168
One-Shot or Snapshot Design	168
Longitudinal Design	168
Comparison Design	169
Identifying the Case	169
Planning and Conducting Case Studies	170
Case Study Example: The Sentinel Middle School TILE Program	171
Case Study Question 1: Influence on Instructional Planning	173
Case Study Question 2: Student Thinking in Classroom Discussions	174
Common Case Study Characteristics	177
Learning from Case Studies	177
Trusting Case Study Reports	178
Summary	179
Key Terms	179
Further Readings and Resources	179
<b>10 PROGRAM EVALUATION</b>	<b>181</b>
<i>S. D. Lapan and C. M. Haden</i>	
Key Ideas	181
What Is Evaluation?	182
The Logic of Evaluation	182
Qualitative Versus Quantitative Data	183
Forms of Evaluation	183
Definition of a Program	184
Purposes of Program Evaluation	185
Program Evaluation History	186
How Is Evaluation Done?	187
Evaluation Agreement	188
Criteria and Standard Selection	188
Measuring Through Data Collection	190
Synthesizing and Reporting Study Results	193
Trusting Program Evaluation Findings	194

Ethics in Evaluation Studies	195
Judging Program Evaluation Studies	196
Evaluator Qualifications	196
Evaluation Planning	197
Evaluation Design	197
Evaluation Process	197
Data Richness	198
Study Validity	198
Study Report	199
Study Use	199
Summary	200
Key Terms	200
Further Readings and Resources	200
<b>11 ETHNOGRAPHY RESEARCH</b>	<b>203</b>
<i>F. J. Riemer</i>	
Key Ideas	203
Groping in the Dark	204
What Is Ethnography Research?	204
Ethnography Is Descriptive	206
Ethnographic Methods	207
Data Collection	209
Risks of Ethnography Research	210
Ethnographic Data Analysis	211
Writing Up Field Notes	213
Writing Up Ethnography Research	214
Problems of Representation	215
Reading Ethnography	217
What Should a Reader Do?	217
Practice Your Reading Skills	218
Summary	218
Key Terms	218
Further Readings and Resources	219
<b>12 FEMINISM(S): CRITIQUE AND TRANSFORMATION</b>	<b>223</b>
<i>R. Lalik and C. B. Felderman</i>	
Key Ideas	223
Feminism in Academic and Popular Discourse	224
Variability Among Feminisms	225
Waves of Feminism	225
African American Feminists Broaden the Conversation	226
Feminism(s) and the Critique of Science	228
Critique Related to Women's Participation in Scientific Endeavors	229

Critique Related to the Erasure of Knowledge About Successful Women Scientists	229
Critique Related to the Patriarchal Nature of Science	230
Critique Related to the Epistemology of Science	231
Possibilities for a Feminist Epistemology	232
Feminism(s) and Research Method and Methodology	235
Resisting a Doctrine of Neutrality	235
Interrupting Efforts to Simplify and Universalize Knowledge	236
Studying How Women and Other Marginalized People Experience Life	237
Researching with Intention to Transform Society	238
Summary	239
Key Terms	239
Further Readings and Resources	240
<b>13 USING MULTIPLE METHODS APPROACHES</b>	<b>243</b>
<i>P. A. Schutz, S. L. Nichols and K. A. Rodgers</i>	
Key Ideas	243
What is Multimethod Research?	244
Potential Benefits of Multimethod Research	245
An Early Comment on the Benefits of Multiple Methods Research	245
Adaptability of Multimethod Research	246
Strength and Quality of Inferencing	248
Summary of Benefits	251
Multimethod Research Design	251
Designs	252
Sampling Schemes	254
Multimethod Sampling	255
Research Design Conclusion	256
Summary	256
Key Terms	257
Further Readings and Resources	257
<b>14 QUALITATIVE DATA ANALYSIS</b>	<b>259</b>
<i>M. T. Quartaroli</i>	
Key Ideas	259
Words, Words, Words—Now What?	260
Organizing the Data	261
Describing the Data	264
Coding the Data	264
How Patterns Emerge	267
Representing the Findings	269
Writing Memos	269
Creating Vignettes	269

Developing Metaphors	269
Creating Diagrams or Displays	270
Building Theory	270
Data Analysis Is Iterative	271
Evaluating Reports with Qualitative Data	271
Summary	273
Key Terms	273
Further Readings and Resources	273
<b>15 APPLYING RESEARCH METHODS TO PROFESSIONAL PRACTICE</b>	<b>275</b>
<i>D. Hopkins and E. Ahtaridou</i>	
Key Ideas	275
What Is Action Research?	276
Models of Action Research	278
Kemmis Model	278
Elliott Model	278
Ebbutt Model	280
Methods of Action Research	282
Developing a Focus	283
Practitioner Reflection in Action	283
Data Collection Methods	284
A Framework for Data Analysis	289
Data Collection	289
Validation	289
Interpretation	290
Action	290
Summary	291
Key Terms	292
Further Readings and Resources	292
<b>16 RESEARCH, POLICY, AND PRACTICE: THE GREAT DISCONNECT</b>	<b>295</b>
<i>D. C. Berliner</i>	
Key Ideas	295
Origins of Faith and Apostasy in Research as a Guide to Practice	296
Examples of the Problem	298
Case 1	298
Case 2	299
Case 3	300
Case 4	301
Why the Disconnect?	302
The Privacy Problem	302
The Changed Roles Problem	303
The Problem of Complexity in Classrooms and Other Social Settings	303
The Problem of Science When It Delves into the Arts	304

The Problem of Quality in Research	305
The Problem of Relevance	306
The Problem of Accessibility to Ideas by Practitioners	307
The Problems of Stability and Instability in the Education System	307
How Might Things Change?	309
Summary	312
Key Terms	313
