Features	xv
Preface	xvi
About the Authors	xxiii

Abnormal Behavior

2

The Concerns of Abnormal Psychology

Describing Abnormal Behavior	3
Explaining Abnormal Behavior	4
Predicting Abnormal Behavior	4
Controlling Abnormal Behavior	5

Determining Abnormality

Distress	8
Deviance	8
Dysfunction	8
Dangerousness	9

Contextual and Cultural Limitations in Defining Abnormal Behavior

CONTROVERSY: Is Mental Illness a Myth and a Political Construction?	12
---	----

The Frequency and Burden of Mental Disorders

Stereotypes About the Mentally Disturbed

Historical Perspectives on Abnormal Behavior

Prehistoric and Ancient Beliefs	16
Naturalistic Explanations (Greco-Roman Thought)	16

3	Reversion to Supernatural Explanations (the Middle Ages)	17
	The Rise of Humanism (the Renaissance)	19
	The Reform Movement (Eighteenth and Nineteenth Centuries)	20

7 Causes: Early Viewpoints

The Biological Viewpoint	21
The Psychological Viewpoint	22

Contemporary Trends in Abnormal Psychology

The Drug Revolution in Psychiatry	23
The Push by Psychologists for Prescription Privileges	24
The Development of Managed Health Care	24
An Increased Appreciation for Research	25
The Influence of Multicultural Psychology	26
CRITICAL THINKING: I Have It, Too: The Medical Student Syndrome	28

Implications

Summary

Models of Abnormal Behavior

30

One-Dimensional Models of Mental Disorders

Using Models to Describe Psychopathology	33
--	----

A Multipath Model of Mental Disorders

Dimension One: Biological Factors

The Human Brain	37
Biochemical Theories	38
Genetic Explanations	40
Biology-Based Treatment Techniques	41
Multipath Implications of Biological Explanations	43

32 Dimension Two: Psychological Factors

Psychodynamic Models	44
Behavioral Models	47
Cognitive Models	51
Humanistic and Existential Models	53
Multipath Implications of Psychological Explanations	55

Dimension Three: Social Factors

Social Relational Models	56
--------------------------	----

Family, Couples, and Group Perspectives	56
Social-Relational Treatment Approaches	57
Criticisms of Social-Relational Models	57

Dimension Four: Sociocultural Factors

Gender Factors	58
Socioeconomic Class	59
Race/Ethnicity: Multicultural Models of Psychopathology	59

CONTROVERSY: Problems in Using Racial and Ethnic Group References	60
Criticisms of the Multicultural Model	61
CRITICAL THINKING: Applying the Models of Psychopathology	62
Implications	64
Summary	65

Assessment and Classification of Abnormal Behavior 66

Reliability and Validity	67	The Classification of Abnormal Behavior	83
The Assessment of Abnormal Behavior	68	Diagnostic and Statistical Manual of Mental Disorders (DSM)	83
Observations	68	DSM-IV-TR Mental Disorders	85
Interviews	69	Evaluation of DSM Classification System	85
Psychological Tests and Inventories	71	Objections to Classification and Labeling	90
CONTROVERSY: Should the Rorschach Be Used in Making Assessments?	74	Implications	91
Neurological Tests	80	Summary	92
The Ethics of Assessment	81		
CRITICAL THINKING: Can We Accurately Assess the Status of Members of Different Cultural Groups?	82		

The Scientific Method in Abnormal Psychology 93

The Scientific Method in Clinical Research	96	Genetic Linkage Studies	110
CRITICAL THINKING: Attacks on Scientific Integrity	97	The Endophenotype Concept	110
Characteristics of Clinical Research	97	Other Concepts in Biological Research	111
CONTROVERSY: Repressed Memories: Issues and Questions	99	Epidemiological and Other Forms of Research	112
Experiments	100	Ethical Issues in Research	113
The Experimental Group	101	Implications	114
The Control Group	101	Summary	115
The Placebo Group	102		
Additional Concerns in Clinical Research	102		
Correlations	103		
CRITICAL THINKING: Researcher Allegiance: A "Wild Card" in Comparative Research	105		
Analogue Studies	106		
Field Studies	107		
Single-Participant Studies	108		
The Case Study	108		
The Single-Participant Experiment	109		
Biological Research Strategies	110		
The Human Genome Project	110		

Anxiety Disorders

117

Understanding Anxiety Disorders from a Multipath Perspective

119

Biological Dimension 119

Psychological Dimension 122

Social and Sociocultural Dimensions 123

Phobias

124

Social Phobias 125

Specific Phobias 127

Etiology of Phobias 128

CONTROVERSY: Fear or Disgust? 129

Treatment of Phobias 131

Panic Disorder and Agoraphobia

133

Panic Disorder 133

Agoraphobia 134

Etiology of Panic Disorder and Agoraphobia 134

Treatment of Panic Disorder 136

CRITICAL THINKING: Panic Disorder Treatment:

Should We Focus on Internal Control? 138

Generalized Anxiety Disorder

138

Etiology of Generalized Anxiety Disorder 139

Treatment of Generalized Anxiety Disorder 140

Obsessive-Compulsive Disorder

141

Obsessions 142

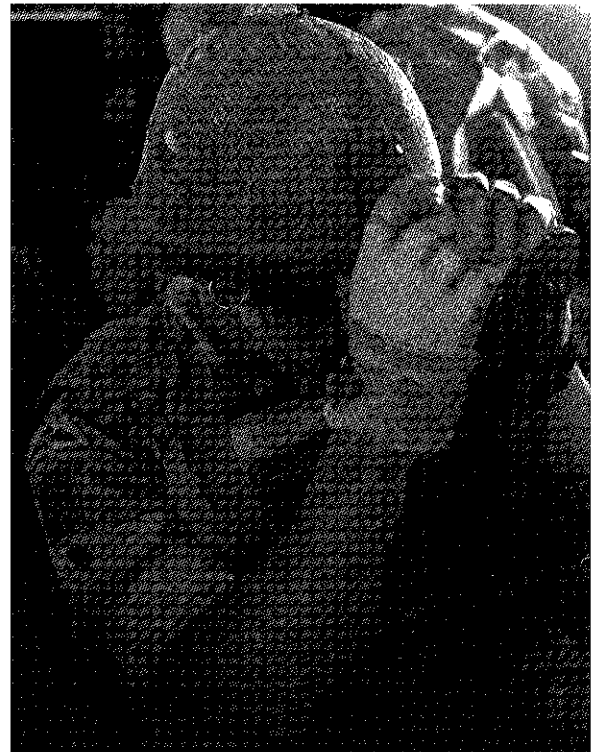

Compulsions 142

Etiology of Obsessive-Compulsive Disorder 143

Treatment of Obsessive-Compulsive Disorder 146

Implications 147

Summary 147

Dissociative Disorders and Somatoform Disorders

149

Dissociative Disorders

150

Dissociative Amnesia 150

Dissociative Fugue 153

Depersonalization Disorder 153

Dissociative Identity Disorder (Multiple-Personality
Disorder) 154

CRITICAL THINKING: Culture and Somatoform and
Dissociative Disorders 156

Etiology of Dissociative Disorders 157

CONTROVERSY: "Suspect" Techniques Used to Treat
Dissociative Identity Disorder 160

Treatment of Dissociative Disorders 161

Somatoform Disorders

162

Somatization Disorder 164

Conversion Disorder 164

CRITICAL THINKING: Factitious Disorder and Factitious
Order by Proxy 165

Pain Disorder 167

Hypochondriasis 167

Body Dysmorphic Disorder 168

Etiology of Somatoform Disorders 169

Treatment of Somatoform Disorders 172

Implications 173

Summary 174

Stress Disorders

175

Acute and Posttraumatic Stress Disorders

Diagnosis of Acute and Posttraumatic Stress Disorders 176

Etiology of Acute and Posttraumatic Stress Disorders

Biological Dimension 178

Psychological Dimension 179

Social Dimension 180

Sociocultural Dimension 180

Treatment of Acute and Posttraumatic Stress Disorders

Physical Stress Disorders: Psychophysiological Disorders

CRITICAL THINKING: The Hmong Sudden Death Syndrome 183

Characteristics of Psychophysiological Disorders 183

Coronary Heart Disease 183

Hypertension 184

176 Migraine, Tension, and Cluster Headaches 186

Asthma 188

Stress and the Immune System 190

CONTROVERSY: Can Laughter or Humor Influence the Course of a Disease? 191

177

Etiology of Psychophysiological Disorders 192

Biological Dimension 192

Psychological Dimension 194

Social Dimension 196

Sociocultural Dimension 196

181

Treatment of Psychophysiological Disorders 197

Relaxation Training 197

182

Biofeedback 198

Cognitive-Behavioral Interventions 198

Implications 199

Summary 200

Personality Disorders

201

Diagnosing Personality Disorders

Disorders Characterized by Odd or Eccentric Behaviors

Paranoid Personality Disorder 205

CRITICAL THINKING: Is There Gender Bias in Diagnosing Mental Disorders? 207

Schizoid Personality Disorder 208

Schizotypal Personality Disorder 208

Disorders Characterized by Dramatic, Emotional, or Erratic Behaviors

Antisocial Personality Disorder 210

Borderline Personality Disorder 212

Histrionic Personality Disorder 215

Narcissistic Personality Disorder 216

Disorders Characterized by Anxious or Fearful Behaviors

Avoidant Personality Disorder 217

Dependent Personality Disorder 218

Obsessive-Compulsive Personality Disorder 219

Multipath Analysis of One Personality Disorder: Antisocial Personality Disorder

Biological Dimension 221

203 Psychological Dimension 224

Social Dimension 225

205

Sociocultural Dimension 226

Treatment of Antisocial Personality Disorder 227

CONTROVERSY: Impulse Control Disorders 228

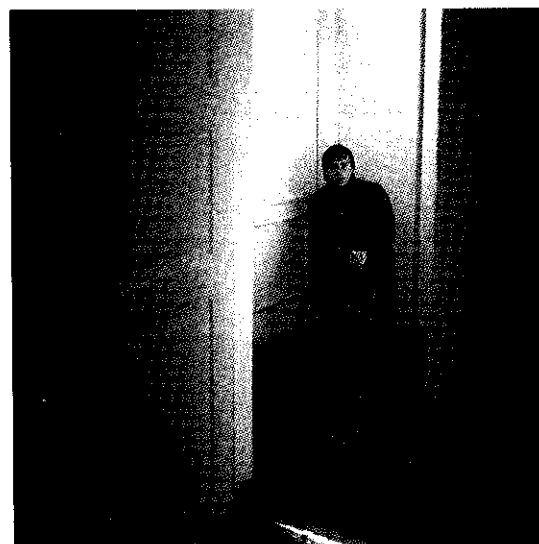

Implications 230

Summary 231

210

217

221

Substance-Related Disorders

232

Substance-Use Disorders

Depressants or Sedatives 236

Stimulants 241

Hallucinogens 244

Etiology of Substance-Use Disorders

Biological Dimension 247

Psychological Dimension 249

CONTROVERSY: Is Drug Addiction a Disease? 250

Social Dimension 252

CRITICAL THINKING: Is Drug Use an Indicator of Disturbance? 253

Sociocultural Dimension 254

235 Intervention and Treatment of Substance-Use Disorders

255

Pharmacological Approach 255

Cognitive and Behavioral Approaches 257

Self-Help Groups 258

CONTROVERSY: Controlled Drinking 259

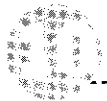

Multimodal Treatment 259

Prevention Programs 260

Effectiveness of Treatment 261

Implications 262

Summary 262

Sexual and Gender Identity Disorders

264

What Is "Normal" Sexual Behavior?

CONTROVERSY: Is Compulsive Sexual Behavior an Addiction? 267

The Study of Human Sexuality 268

The Sexual Response Cycle 268

Sexual Dysfunctions

Sexual Desire Disorders 271

Sexual Arousal Disorders 273

Orgasmic Disorders 275

Sexual Pain Disorders 275

Etiology of Sexual Dysfunctions

Biological Dimension 278

Psychological Dimension 278

Social Dimension 279

Sociocultural Dimension 279

Treatment of Sexual Dysfunctions

Biological Interventions 280

Psychological Treatment Approaches 282

Homosexuality

Aging, Sexual Activity, and Sexual Dysfunctions

Gender Identity Disorder

Etiology of Gender Identity Disorder 287

Treatment of Gender Identity Disorder 288

Is GID a Valid Psychiatric Diagnosis? 288

265 Paraphilias

288

Paraphilias Involving Nonhuman Objects 290

Paraphilias Involving Nonconsenting Persons 291

Paraphilias Involving Pain or Humiliation 293

Etiology and Treatment of Paraphilias 294

270 Rape

296

Effects of Rape 298

Etiology of Rape 299

Treatment for Rapists 299

CRITICAL THINKING: Why Do Men Rape Women? 300

276 Implications

Summary 301

280

283

284

286

Unipolar Depression

Symptoms of Unipolar Depression 304

Diagnosis and Classification of Depressive Disorders 307

CONTROVERSY: When Is One Depressed? 308

Prevalence of Unipolar Depression 309

Etiology of Unipolar Depression

Biological Dimension 310

Psychological Dimension 313

Social Dimension 317

Sociocultural Dimension 319

Treatment for Unipolar Depression

Biomedical Treatments for Depressive Disorders 323

CRITICAL THINKING: Should We Increasingly Turn to Drugs in the Treatment of Depression? 324

304 Psychotherapy and Behavioral Treatments for Depressive Disorders 324

Bipolar Disorders

327

Symptoms and Characteristics of Bipolar Disorders 327

Classification of Bipolar Disorders 328

310 Prevalence of Bipolar Disorders 329

Comparison Between Depressive and Bipolar Disorders 329

Etiology of Bipolar Disorders

329

Treatment for Bipolar Disorders

330

Implications 331

Summary 332

Suicide

Correlates of Suicide

335

CRITICAL THINKING: Why Do People Kill Themselves? 336

Facts About Suicide 337

A Multipath Perspective of Suicide

343

Biological Dimension 343

Psychological Dimension 344

Social Dimension 345

Sociocultural Dimension 346

Victims of Suicide

347

Children and Adolescents 347

Elderly People 349

Preventing Suicide

350

Clues to Suicidal Intent 351

Crisis Intervention 351

Suicide Prevention Centers 353

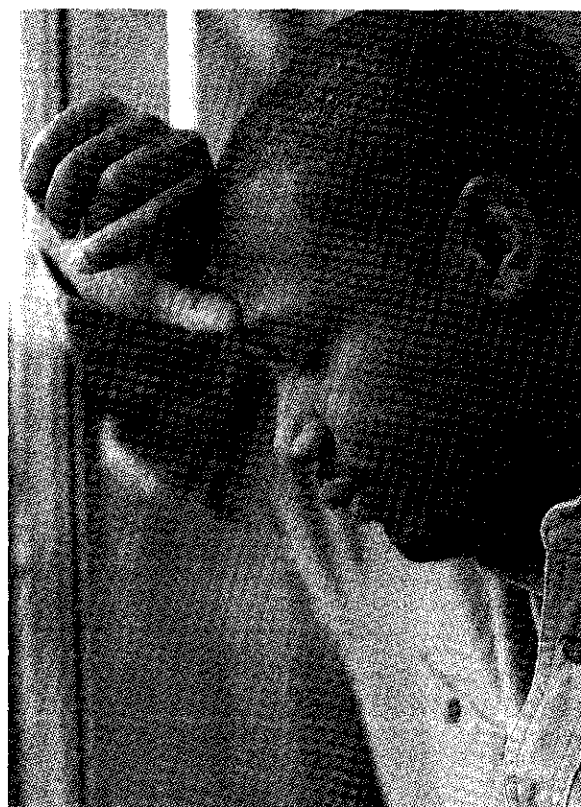

The Right to Suicide: Moral, Ethical, and Legal Issues

354

CONTROVERSY: Do People Have a Right to Die? 356

Implications 357

Summary 358

The Symptoms of Schizophrenia

361

Positive Symptoms 361

CONTROVERSY: Should We Challenge Delusions and Hallucinations? 364

Negative Symptoms 366

Cognitive Symptoms 367

Cultural Issues 367

Types of Schizophrenia

368

Paranoid Schizophrenia 369

Disorganized Schizophrenia 369

Catatonic Schizophrenia 369

Undifferentiated and Residual Schizophrenia 370

Psychotic Disorders That Were Once Considered Schizophrenia 371

Other Psychotic Disorders 371

CONTROVERSY: Delusional Parasitosis or Physical Disease? 373

The Course of Schizophrenia

373

Long-Term Outcome Studies 374

Etiology of Schizophrenia

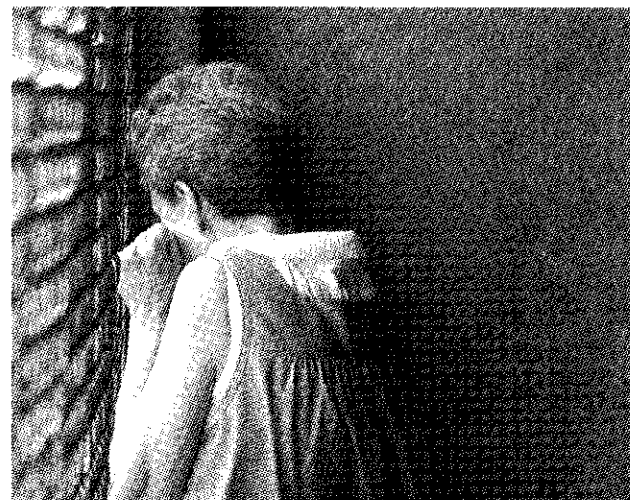

374

Biological Dimension 375

Psychological Dimension 378

Social Dimension 379

Sociocultural Dimension 381

The Treatment of Schizophrenia

383

Antipsychotic Medication 383

CONTROVERSY: Balancing Prevention and Harm 385

Psychosocial Therapy 385

Interventions Focusing on Family Communication and Education 388

Implications 389

Summary 389

Cognitive Disorders

390

The Assessment of Brain Damage

392

Cerebral Tumors 406

Types of Cognitive Disorders

393

Epilepsy 406

Use of Psychoactive Substances 408

Dementia 393

Delirium 394

Amnestic Disorders 395

Etiology of Cognitive Disorders

395

Traumatic Brain Injury 396

Aging and Disorders Associated with Aging 398

Alzheimer's Disease 400

CRITICAL THINKING: Moderators and Mediators: What Causes What? 402

Other Diseases and Infections of the Brain 404

Treatment/Prevention Considerations

408

Medication 408

Cognitive and Behavioral Approaches 409

Lifestyle Changes 409

Environmental Interventions and Caregiver Support 410

Implications 410

Summary 411

Disorders of Childhood and Adolescence

412

CONTROVERSY: Are We Overmedicating Children? 414

Pervasive Developmental Disorders 414

Autistic Disorder 415

Other Pervasive Developmental Disorders 417

Etiology 419

Prognosis 421

Treatment 421

Attention Deficit/Hyperactivity Disorders and Disruptive Behavior Disorders 422

Attention Deficit/Hyperactivity Disorders 422

Oppositional Defiant Disorder 426

Conduct Disorders 427

CRITICAL THINKING: School Violence: A Sign of the Times? 429

Elimination Disorders 431

Enuresis 431

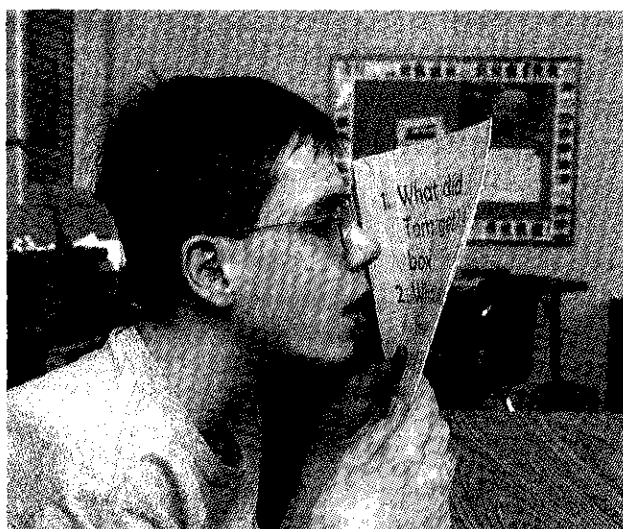

CRITICAL THINKING: Child Abuse 432

Encopresis 433

Learning Disorders

Etiology 434

Treatment 435

Mental Retardation 435

Diagnosing Mental Retardation 436

Etiology of Mental Retardation 437

Programs for People with Mental Retardation 440

Implications 442

Summary 442

Eating Disorders

443

Eating Disorders

Anorexia Nervosa 446

CRITICAL THINKING: Anorexia's Web 448

Bulimia Nervosa 449

Binge-Eating Disorders 451

Eating Disorder Not Otherwise Specified 453

Etiology of Eating Disorders

Biological Dimension 454

Psychological Dimension 455

Social Dimension 456

Sociocultural Dimension 457

CRITICAL THINKING: Is Our Society Creating Eating Disorders? 462

Treatment of Eating Disorders

Treating Anorexia Nervosa 464

444 Treating Bulimia Nervosa 466

Treating Binge-Eating Disorder 466

Obesity 467

Etiology of Obesity 469

Biological Dimension 469

CONTROVERSY: Are the BMI Index Standards Appropriate? 470

Psychological Dimension 470

Social Dimension 471

Sociocultural Dimension 471

Treatments for Obesity 471

Implications 472

464 **Summary** 472

Criminal Commitment 478

The Insanity Defense 478

Competency to Stand Trial 481

Civil Commitment 482

Criteria for Commitment 483

Procedures in Civil Commitment 484

Rights of Mental Patients 485

CRITICAL THINKING: Predicting Dangerousness: The Case
of Serial Killers and Mass Murderers 486

Right to Treatment 486

Right to Refuse Treatment 488

CONTROVERSY: Court-Ordered Assisted Treatment:
Coercion or Caring? 489

Deinstitutionalization 490

The Therapist-Client Relationship 492

Confidentiality and Privileged Communication 492

The Duty-to-Warn Principle 493

Sexual Relationships with Clients 494

Cultural Competence and the Mental Health Profession 494

Implications 496

Summary 496
