# The Fundamentals of Digital Art

Richard Colson

# Table of contents

## Introduction

How to get the most out of this book

006

010

## 2

## Live art: using response

Unmasking the digital image

Physical computing

Reverse engineering

Using feedback

Communicating digitally

Dynamic spaces

Electronics in the studio

032

034

042

046

050

052

054

058

## 1 The history & development of digital art

A timeline of digital art

Dynamic exchanges

Cultural dialogues

Cybernetic serendipity

012

014

018

024

028

## 3

## Data into art

Data as a creative asset

New displays for interpreting data

Intelligent environments

The Internet as a collaboration arena

Narratives and the database

Comparing human and computer vision

062

064

072

078

084

088

## Creative priorities for coding

|                                 |     |
|---------------------------------|-----|
| Finding a heart in the code     | 092 |
| New programming tools           | 094 |
| Relinquishing creative control  | 098 |
| Object-oriented programming     | 100 |
| Hierarchies                     | 104 |
| Computer principles for artists | 106 |

## Art and networks

|                                     |     |
|-------------------------------------|-----|
| Online networks                     | 114 |
| The roaming artist                  | 116 |
| Mischief and subversion             | 118 |
| Mixed-reality gaming                | 122 |
| Online gaming                       | 124 |
| A sense of place                    | 126 |
| Telematics and vicarious experience | 128 |
| Collaborative art using networks    | 132 |

## Digital hybrids

|                                       |     |
|---------------------------------------|-----|
| Taking creative risks with technology | 136 |
| Virtual environments                  | 138 |
| Changing interfaces                   | 140 |
| Negotiating with specialists          | 144 |
| Working across media and platforms    | 148 |
| Digital media and other practice      | 150 |

## Postscript

|                   |     |
|-------------------|-----|
| Conclusion        | 156 |
| Further resources | 158 |
| Glossary          | 160 |
| Index             | 168 |
| Acknowledgements  | 170 |
