

INTRODUCTION TO
**FORENSIC
ANTHROPOLOGY**

THIRD EDITION

STEVEN N. BYERS

Contents

Preface xiii

Foreword xvii

1 Introduction 1

Historical Background 4

Formative Period: Early 1800s to 1938 5

Consolidation Period: 1939 to 1971 7

Modern Period: 1972 to the Present 8

Forensic Anthropologists and the Medicolegal Community 9

The Forensic Anthropology Protocol and the Layout of This Book 10

Methods of Forensic Anthropology 13

Data Gathering Methods 13

Data Analysis Methods 16

Decision Tables 16

Range Charts 18

Indexes 20

Discriminant Functions 20

Regression Equations 24

Summary 26

Exercises 27

2 Basics of Human Osteology and Odontology 28

Overview of the Human Skeleton 29

Cranial Skeleton 30

Bones 31

Sutures 33

Landmarks 37

Sinuses 38

<i>Axial Skeleton and Thorax</i>	38
<i>Vertebral Column</i>	38
<i>Rib Cage</i>	41
<i>Appendicular Skeleton</i>	43
<i>Upper Limbs</i>	43
<i>Lower Limbs</i>	46
<i>Basic Topics in Osteology</i>	52
<i>Anatomy of Bone</i>	52
<i>Bone Growth</i>	53
<i>Joint Types</i>	54
<i>Overview of the Human Dentition</i>	54
<i>Summary</i>	58
<i>Exercises</i>	58

3 *Establishing the Forensic Context* 60

<i>Bone versus Nonbone</i>	61
<i>Human versus Nonhuman</i>	61
<i>Maturity Distinctions</i>	62
<i>Architectural Differences</i>	62
<i>Cranial Skeleton</i>	65
<i>Axial Skeleton and Thorax</i>	66
<i>Appendicular Skeleton</i>	68
<i>Histological Differences</i>	70
<i>Bear Paws and Pig's Teeth</i>	70
<i>Contemporary versus Noncontemporary</i>	72
<i>State of Preservation</i>	75
<i>Color</i>	75
<i>Texture</i>	77
<i>Hydration</i>	77
<i>Weight</i>	77
<i>Condition</i>	77
<i>Fragility</i>	78
<i>Soft Tissue</i>	78
<i>Body Modifications</i>	79
<i>Personal Belongings</i>	81
<i>Conditions of Interment</i>	81
<i>Summary</i>	84
<i>Exercises</i>	85

4 Recovery Scene Methods 86

<i>Preliminary Issues</i>	87
<i>Locating Remains</i>	88
Searching for Human Remains	89
Searching for Associated Materials	92
<i>Mapping Remains</i>	93
<i>Grave Excavation</i>	95
<i>Collecting Remains</i>	99
<i>Mass Disasters</i>	102
Personnel	102
Locating, Mapping, Collecting	103
Excavating Mass Graves	103
Temporary Morgue	104
Victim Information	104
DMORT	105
<i>Summary</i>	105
<i>Exercises</i>	106

5 Estimating Time Since Death 108

<i>Overview of Decomposition</i>	110
<i>Decomposition and Skeletonization</i>	112
Surface Finds	114
Warm, Moist Climates	114
Hot, Dry Climates	114
Cold Climates	118
Buried and Submerged Remains	119
<i>Animal Scavenging</i>	119
<i>Other Methods</i>	122
Forensic Entomology	122
Forensic Botany	125
Deterioration of Clothing and Other Materials	126
Chemical Methods	127
<i>Summary</i>	128
<i>Exercises</i>	128

6 Initial Treatment and Examination 130

<i>Forensic Anthropology Laboratory</i>	130
<i>Preparation of Remains</i>	132
Bulk Soft Tissue Removal	133
Disarticulation	134
Residual Soft Tissue Removal	135
Stabilizing Remains	136
<i>Reconstruction, Sorting, and Reassembly</i>	137
Reconstruction	137
Sorting	139
Reassembly	141
<i>Inventorying Remains</i>	146
<i>Summary</i>	150
<i>Exercises</i>	151

7 Attribution of Ancestry 152

<i>Anthroposcopic Traits</i>	154
Cranial Skeleton	155
Nose	156
Face	160
Vault	161
Jaws and Teeth	162
Postcranial Skeleton	164
<i>Metric Methods</i>	165
Direct Measurements	166
Indexes	167
Discriminant Functions	168
<i>Miscellaneous Ancestral Characteristics</i>	171
<i>Summary</i>	173
<i>Exercises</i>	174

8 Attribution of Sex 176

<i>Sexing the Pelvis</i>	177
Anthroposcopic Traits	178
Metric Methods	183

<i>Sexing the Skull</i>	184
Anthroposcopic Traits	185
Metric Methods	190
<i>Miscellaneous Methods</i>	192
Multiple Postcranial Bones	193
Long Limb Bone Lengths	194
Scapula	194
Humerus	194
Radius	195
Femur	197
<i>Sexing Subadults</i>	197
Auricular Surface	198
Greater Sciatic Notch	199
Other Methods	199
<i>Summary</i>	200
<i>Exercises</i>	200

9 *Estimation of Age at Death* 202

<i>Subadults</i>	202
Long Bone Lengths	203
Union of Primary Ossification Centers	207
Tooth Formation	209
Tooth Eruption	216
Epiphyseal Union	219
<i>Adults</i>	221
Pubic Symphyses	222
Auricular Surface	228
Sternal Rib Ends	233
Cranial Suture Closure	235
<i>Ectocranial Sutures</i>	236
<i>Endocranial Sutures</i>	239
<i>Palatal Sutures</i>	240
Histological Methods	241
<i>Cortical Bone Remodeling</i>	241
<i>Dental Changes</i>	244
<i>Other Methods</i>	247
<i>Summary</i>	247
<i>Exercises</i>	248

10	<i>Calculation of Stature</i>	250
	<i>Basics of Stature Reconstruction</i>	250
	<i>Full Skeleton Methods</i>	252
	<i>Long Limb Bones</i>	256
	<i>Other Skeletal Elements</i>	261
	<i>Partial Long Limb Bones</i>	262
	<i>Adjustments to Stature</i>	264
	Age of Individual	265
	Bone Shrinkage	267
	Reported versus Measured Stature	268
	<i>Summary</i>	268
	<i>Exercises</i>	269

11 ***Death, Trauma, and the Skeleton*** **270**

	<i>Cause and Manner of Death</i>	272
	<i>Basics of Bone Trauma</i>	274
	<i>Characteristics of Forces Causing Trauma</i>	280
	Direction of Force	280
	Tension	280
	Compression	281
	Torsion	281
	Bending	281
	Shearing	282
	Speed of Force	282
	Focus of Force	283
	<i>Types of Trauma</i>	283
	Blunt Force Trauma	283
	Sharp Force Trauma	284
	Projectile Trauma	284
	Miscellaneous Trauma	284
	<i>Timing of Bone Injury</i>	285
	Antemortem Trauma	285
	Perimortem Trauma	286
	Postmortem Damage	287
	<i>Summary</i>	289
	<i>Exercises</i>	289

12 *Projectile Trauma* 291

***Basics of Ammunition and Firearms* 292**

- Size 293
- Bullet Construction 294
- Projectile Velocity 294

***Basics of Bullet Travel* 295**

***Effects of Bullets on Bone* 295**

- Wound Beveling 295
- Wound Shape 296
- Wound Size 298
- Fracture Lines 300

***Bullet Wound Analysis* 302**

- Description of Wound(s) 302
- Estimation of Caliber 303
- Estimation of Bullet Construction 304
- Estimation of Velocity 304
- Estimation of Direction of Fire 305
- Estimation of Sequence 305
- Miscellaneous Estimations 306

***Pellet Wound Analysis* 307**

***Miscellaneous Projectiles* 308**

***Determining Cause and Manner of Death* 309**

***Summary* 311**

***Exercises* 312**

13 *Blunt Trauma* 314

***Characteristics of Instruments* 314**

- Size 315
- Shape 316
- Weight 316

***Types of Fractures* 317**

***Effects of Blunt Instruments* 319**

- Skull 319
- Long Bones 324
- Other Bones 324

***Wound Analysis* 325**

- Description of Wound(s) 325

Estimation of Size	327
Estimation of Shape	327
Estimation of Direction	327
Estimation of Energy	329
Estimation of Number	330
Estimation of Sequence	332
Miscellaneous Estimations	332
Determining Manner and Cause of Death	334
Summary	335
Exercises	335

14 Sharp and Miscellaneous Trauma 337

Sharp Trauma	337
Effects of Sharp Instruments	338
Punctures	340
Incisions	341
Clefts	342
Wound Analysis	344
Description of Wound(s)	345
Instrument Characteristics	345
Direction of Force	346
Number of Traumatic Events	347
Sequence of Events	348
Strangulation	348
Chemical Trauma	351
Determining Cause and Manner of Death	352
Summary	352
Exercises	353

15 Antemortem Skeletal Conditions 354

Pathological Conditions	356
Lytic Lesions	358
Proliferative Lesions	359
Deformative Lesions	362
Skeletal Anomalies	362
Accessory Bones	363

Nonfusion Anomalies	365
Accessory Foramen	370
Miscellaneous Anomalies	373
Occupational Stress Markers	374
Summary	380
Exercises	381

16 Postmortem Changes to Bone 382

Dismemberments	383
Basics of Saws and Saw Damage	384
Analysis of Saw Marks	386
<i>Basic Description</i>	386
<i>Direction of Saw Cut</i>	387
<i>Number of Teeth</i>	387
<i>Blade Width</i>	387
<i>Blade Shape</i>	387
<i>Source of Energy</i>	389
Animal Scavenging	389
Carnivores	389
Rodents	393
Fire Damage	393
Weathering	397
Burial Damage	399
Water Transport Damage	400
Miscellaneous	401
Summary	403
Exercises	404

17 Additional Aspects of Individualization 405

Facial Reproduction	405
Assessing Handedness	416
Estimating Body Weight	419
Summary	421
Exercises	421

18 Identification Using Antemortem Records 423

<i>Radiography</i>	424
Frontal Sinus	424
Other Structures	426
<i>Photographic Superimposition</i>	427
<i>Forensic Odontology</i>	430
Ancestry (Race)	431
Age	432
Sex	432
"Civilized" Teeth	433
Cause of Death	433
Antemortem Health	434
Positive Identification	436
<i>Miscellaneous Techniques</i>	440
<i>Summary</i>	441
<i>Exercises</i>	442

19 Conclusion 443

<i>Ethical Responsibilities</i>	443
<i>The Final Report</i>	446
<i>Courtroom Testimony</i>	449
<i>Future of Forensic Anthropology</i>	450
<i>Summary</i>	452
