NINTH EDITION

BARBARA LONDON | JIM STONE | JOHN UPTON

contents

<u>preface</u>	<u>viii</u>
----------------	-------------

1 getting started 2

Camera and Film	4
Getting Your Camera Ready	5
Focusing and Setting the Exposure	6
Taking Your Picture	8
What Will You Photograph?	9
Some Basic Guidelines	
to Get You Started	9
Photographing People	10
Photographing Places	12

2 camera 14

Basic Camera Controls	16
The Shutter	18
The Shutter and Light	18
The Shutter and Motion	20
Conveying Motion in a Still Photograph	22
The Aperture	24
The Aperture and Light	24
The Aperture and Depth of Field	26
Using Shutter and Aperture Together	28
Choosing a Camera	30
Keeping the Camera Steady	33
 photographer at work	
Photojournalist James Nachtwey	34

3 lens 36

From Pinhole to Lens	38
Lens Focal Length	40
Normal Focal Length	42
Long Focal Length	44
Short Focal Length	46
Zoom Lenses	48
Special-Purpose Lenses	49
Focusing Your Lens	50
Manual Focus	50
Automatic Focus	52

Focus and Depth of Field	54
Controlling Depth of Field	56
Zone Focusing	58
Focusing on the Hyperfocal Distance	59
Perspective	60
Guidelines for Buying a Lens	62
Getting the Most from Your Camera and Lens	63
 photographer at work	
Mary Ellen Mark	64

4 exposure, sensors, and film 66

Exposure Basics	68
Equivalent Exposures	68
How Exposure Meters Work	69
In-Camera Exposure Meters	70
Automatic Exposure	71
How to Meter	72
An Overall Reading of a Scene	
with Average Tones	72
Using Different Types of Meters	73
Metering High-Contrast Scenes	74
Exposing for Specific Tones	
and Bracketing	76
Hard-to-Meter Scenes	77
Responding to Light	78
Silver and Pixels	78
Selecting and Using Film	79
Exposure Latitude and Dynamic Range	80
How Much Can Exposures Vary?	80
Film and Sensor Speed	82
Speed and ISO	82
Grain and Noise	83
Extending Beyond Visible Light	84
Infrared Photographs	84
Special Purpose Films	86
Instant and Chromogenic Films	86
Polarizing Filters	87
Using Filters	88
Using Exposure	90
 photographer at work	
Advertising Photographer	
Clint Clemens	92

5 developing the negative 94

How to Process Black-and-White Roll Film	96
Equipment and Supplies You'll Need	96
Processing Chemicals	
and How to Handle Them	97
Chemical Safety	98
Processing Black-and-White Roll Film Step by Step	100
How Film Processing Affects Your Picture	106
Exposure and Development: Under, Normal, Over	108

6 printing in a darkroom 110

Black-and-White Printing	112
Equipment and Supplies for Printing	112
The Enlarger	114
Printing Papers	116
Making a Black-and-White Print Step by Step	118
A Contact Sheet: A Whole Roll at Once	118
Setting Up an Enlargement	120
A Test Strip for Your Print	122
A Trial Print—and Then a Final Print	123
Processing a Black-and-White Print	124
Evaluating Density and Contrast in a Print	128
Controlling Contrast	130
Graded- and Variable-Contrast Papers	130
Dodging and Burning	132
Cropping	134
Archival Processing for Maximum Permanence	135
Toning for Color and Other Effects	136

7 color 138

Color: Additive or Subtractive	140
Color Photographs: Three Image Layers	141
Color Characteristics	142

Color Balance	144
Color Changes Throughout the Day	144
Color Casts	146
Color Temperature	147
Filters to Balance Color	148
Developing Color Film	150
Making a Color Print From a Negative	151
Equipment and Materials You'll Need	151
Exposing a Test Print	152
Judging Density in a Print Made from a Negative	154
Judging Color Balance in a Print Made from a Negative	155
More About Color Balance and Print Finishing	157
Making a Color Print From a Transparency ...	158
Judging a Print Made from a Transparency	159
 photographer at work	
Another Angle on Sports— Walter Iooss, Jr.	160

8 setting up a digital darkroom 162

Hardware and Software	164
An Overview	164
Capturing Detail: Resolution and Bit Depth	165
Photographs Are Files	166
File Formats	166
Importing Your Images	168
Downloading and Scanning	168
Making a Scan	169
Color Management	170
Histograms	172
Anatomy of a Digital Image	172
Three Histograms for Color	173
Setting Up a Workflow	174
 photographer at work	
Digital Storyteller—Pedro Meyer	176

9 image editing 178

Digital Post-Processing and Editing: Getting Started	180
Choosing Software	180
Your Work Area and Tools	181
Setting Up an Image to Edit	182
Channels	183
Color or Black and White?	183

Adjusting Color and Value	184
Different Approaches	184
Using Levels	185
Curves	186
Adjusting All or Part of an Image	188
Selection Tools	188
Using Layers	189
Other Editing Commands	190
High Dynamic Range	190
Filters for Special Effects	191
Retouching and Sharpening	192
Compositing	194
An Image-Editing Workflow	196

10 digital printing 198

Printers and Printing	200
Printer Choices	200
Drivers and RIPs	201
Profiles and Soft Proofing	202
Papers and Inks	203
Printing Options	204
Panoramic Photographs	204
Printing in Black and White	206
Displaying Your Work	208
The Internet—Gallery and Resource	208
Ethics: How Far Can You Go?	209

11 organizing and storing your work 210

Image Storage	212
Size Matters	212
Metadata: Data About Your Files	213
Software to Keep You Organized	214
Archiving Digital Images	215
Archiving Film and Prints	216

12 print finishing and display 218

Spotting to Remove Minor Flaws	220
Mounting a Print	221
Equipment and Supplies You'll Need	221
Dry Mounting	222
Cutting an Overmat	224
Framing and Glazing	225

13 lighting 226

Direction of Light	228
Degree of Diffusion: From Hard to Soft Light	230
Available Light—Outdoors	232
Available Light—Indoors	233
Artificial Light	234
Lights and Other Lighting Equipment	234
Qualities of Artificial Light	235
The Main Light: The Dominant Source	236
The Fill Light: To Lighten Shadows	238
Lighting with Flash	240
Flash Equipment	241
Basic Flash Techniques	242
Manual Flash Exposures	244
Automatic Flash Exposures	245
Fill Flash: To Lighten Shadows	246
Controlling Background Brightness	248
Simple Portrait Lighting	250
Multiple-Light Portrait Setups	252
Lighting Textured Objects	254
Lighting Reflective Objects	255
Lighting Translucent Objects	256
Using Lighting	257
 photographer at work	
Dance Photographer Lois Greenfield ...	258

14 extending the image 260

Using Scale	262
Pictures Very Large and Very Small	262
Multiple Images	264
More is Better	264
Fabricated to be Photographed	266
The Photograph as Object	268
Using Projections	270
Making a Book	271
Alternative Processes	272
Cyanotype Printing	272
Platinum and Palladium Printing	273
Gum Bichromate Printing	274
Image Transfer	275
A Photogram: A Cameraless Picture	276
Cross Processing	278
A Sabattier Image: Part Positive, Part Negative	279

Pinhole Photography	280
How to Make a Close-Up Photograph	282
Close-Up Exposures	283
Copying Techniques	284

15 view camera 286

Inside a View Camera	288
View Camera Movements	290
Rise and Fall	290
Shift	292
Tilt	294
Swing	296
Using a View Camera to Control the Image ..	298
Controlling the Plane of Focus	299
Controlling Perspective	300
Equipment You'll Need	302
What to Do First—and Next	303
Loading and Processing Sheet Film	304

16 the zone system 306

The Zone System Scales	308
Using the Zone Scale While Metering	310
Placing a Tone, Seeing Where Other Tones Fall ..	310
How Development Controls Contrast	312
Putting It All Together	314
Roll Film and Color Film	315
 photographer at work	
Using the Zone System—John Sexton ...	316

17 seeing photographs 318

Basic Choices	320
Content	320
Framing the Subject	322
Backgrounds	324
Basic Design	326
Spot/Line	326
Shape/Pattern	328
Emphasis/Balance	330
More Choices	332
Using Contrasts of Sharpness	332
Using Contrasts of Light and Dark	334
Placing the Subject within the Frame	336
Perspective and Point of View	338
Looking at—and Talking About— Photographs	340
Showing Your Work to Editors and Others	342

18 history of photography 344

The Invention of Photography	346
Daguerreotype: “Designs on Silver Bright”	347
Calotype: Pictures on Paper	348
Collodion Wet-Plate: Sharp and Reproducible	349
Gelatin Emulsion/Roll-Film Base: Photography for Everyone	350

Color Photography	351
Early Portraits	352
Early Travel Photography	354
Early Images of War	355
Time and Motion in Early Photographs	356
The Photograph as Document	357
Photography and Social Change	358
Photojournalism	360
Photography as Art in the 19th Century	364
Pictorial Photography and the Photo-Secession	365
The Direct Image in Art	366
The Quest for a New Vision	367
Photography as Art in the 1950s and 1960s	368
Photography as Art in the 1970s and 1980s	370
A Gallery of Contemporary Photography	372

Troubleshooting	388
Glossary	399
Bibliography	404
Credits	408
Index	410
