# Adaptive MIMO Systems

Explorations for Indoor Wireless  
Communications

# Contents

<b>Preface</b>	<b>xiii</b>
<b>Abbreviations</b>	<b>xvii</b>
<b>Symbols</b>	<b>xx</b>
<b>Chapter 1: Introduction</b>	<b>1</b>
1.1 Overview of MIMO Research .....	2
1.1.1 Evolution of Wireless Communication .....	2
1.1.2 MIMO System .....	4
1.1.3 Problems of Interest to Indoor MIMO System .....	6
1.2 Aims of This Book .....	7
1.3 Literature Review .....	7
1.3.1 MIMO Channel Model .....	8
1.3.2 MIMO Channel Capacity .....	11
1.3.3 Adaptive MIMO System .....	12
1.3.4 Adaptive System for MIMO OFDM .....	14
1.4 Book Contributions .....	17
1.5 Organization of Book .....	18

<b>Chapter 2: MIMO Channel Models</b>	<b>20</b>
2.1 Fundamentals of Radio Wave Propagation in an Indoor Environment .....	20
2.2 Independent Identically Distributed Channel .....	23
2.3 Physical Channel Models.....	25
2.3.1 Single Bounce Scattering Model.....	25
2.3.2 Electromagnetic Model .....	27
2.3.3 Comparison between Single Bounce Scattering and Electromagnetic Models.....	33
2.4 Indoor MIMO Channel Measurement .....	36
2.4.1 Experimental Setup .....	36
2.4.2 MIMO Channel Model based on Measurement.....	38
2.4.3 Experimental Validation of Narrowband SBS and EM models.....	39
2.5 Wideband MIMO Channel Model.....	40
2.5.1 Characteristic of Indoor Multipath Signals .....	41
2.5.2 Modeling the Wideband MIMO channel .....	44
2.5.3 Capacity of Wideband MIMO Channel Using Different Types of PDP.....	47
2.6 Summary .....	48
 <b>Chapter 3: Channel Capacity of MIMO System</b>	 <b>49</b>
3.1 MIMO Channel Capacity.....	49
3.2 Mutual Coupling Effects on MIMO Capacity .....	51
3.2.1 Mutual Coupling Matrix.....	51
3.2.2 Modified Channel Capacity.....	52
3.2.3 Effects of Mutual Coupling.....	53
3.3 Effect of Amplifiers on MIMO Channel Capacity.....	57

3.3.1 Noise Characteristic of Amplifiers..... 58

3.3.2 SISO Channel Capacity Including Amplifier Noises..... 59

3.3.3 MIMO Channel Capacity Including Amplifier Noises ..... 61

3.3.4 Simulation Results..... 65

3.4 MIMO Capacity of an Adaptive MIMO System..... 72

    3.4.1 Full Channel Knowledge at Transmitter ..... 73

    3.4.2 Partial Channel Knowledge at Transmitter ..... 74

    3.4.3 New Transmission Scheme for Indoor Environment..... 76

    3.4.4 Design of Pre-coding Technique for Optimal MIMO Transmission .. 82

3.5 Analysis of MIMO Channel Capacity ..... 88

    3.5.1 Capacity for Fixed Received Power ..... 89

    3.5.2 Capacity for Fixed Transmitted Power ..... 90

    3.5.3 Comparison between Results of Fixed Received Power  
and Fixed Transmitted Power..... 90

3.6 Summary..... 95

**Chapter 4: Architecture of Adaptive MIMO OFDM System                    97**

4.1 Introduction to Adaptive MIMO OFDM System ..... 98

4.2 Transmitter of Adaptive MIMO OFDM System ..... 99

4.3 Receiver of Adaptive MIMO OFDM System..... 100

4.4 Feedback Channel Model ..... 106

    4.4.1 Channel Mean Feedback Model..... 107

    4.4.2 Case of Full Channel Knowledge at Transmitter ..... 108

    4.4.3 Case of Partial Channel Knowledge at Transmitter ..... 110

4.5 Bit Error Rate Approximation ..... 112

4.6 Summary..... 113

**Chapter 5: Adaptive Algorithms for MIMO OFDM System 114**

5.1 Optimization Problems ..... 115

    5.1.1 Minimizing Transmitted Power..... 115

    5.1.2 Maximizing Data Rate Transmission ..... 117

5.2 Greedy Algorithm ..... 118

    5.2.1 Minimizing Transmitted Power..... 118

    5.2.2 Maximizing Data Rate Transmission ..... 119

5.3 The Method of Lagrange Multiplier ..... 120

    5.3.1 Minimizing Transmitted Power..... 121

    5.3.2 Maximizing Data Rate Transmission ..... 123

5.4 Complexity Comparison between Greedy and Lagrange Algorithms..... 125

5.5 Performance Comparison between Greedy and Lagrange Algorithms ..... 127

    5.5.1 Processing Time Comparison..... 129

    5.5.2 Minimizing Transmitted Power..... 130

    5.5.3 Maximizing Data Rate Transmission ..... 137

5.6 Summary ..... 142

**Chapter 6: Performance of Multiuser Adaptive MIMO OFDM System**

**144**

6.1 Minimizing Transmitted Power ..... 144

    6.1.1 Bit Allocations..... 145

    6.1.2 Performance of Adaptive Algorithm..... 146

    6.1.3 BER Performance of Adaptive and Non Adaptive Systems ..... 149

    6.1.4 BER Performance of Full and Partial CSIs ..... 150

6.2 Maximizing Data Rate Transmission ..... 151

    6.2.1 Bit Allocations..... 152

6.2.2 Total Loaded Bits .....	153
6.2.3 Effect of Number of Antennas .....	154
6.3 Summary .....	155
<b>Appendix A: Water Filling Solution</b>	<b>156</b>
<b>Appendix B: Minimizing Transmitted Power in MIMO OFDM</b>	<b>158</b>
<b>Appendix C: Maximizing Data Rate Transmission in MIMO OFDM</b>	<b>161</b>
<b>Appendix D: Computational Complexity Calculation</b>	<b>164</b>
<b>Bibliography</b>	<b>168</b>
