## Unit I FOUNDATIONS FOR PROFESSIONAL PRACTICE

### CHAPTER 1

#### Introduction to Pharmacotherapeutics, 1

Kathleen Gutierrez

##### Historical Background, 1

- Mystical Period, 1
- Empirical Period, 1
- Medieval Period, 1
- Contemporary Period, 2

##### New Drug Development, 2

- Preclinical Development, 2
- Clinical Trials, 3
- Financing New Drug Development, 4

##### Naming New Drugs, 5

##### United States Drug Legislation, 5

- Federal Food, Drug, and Cosmetic Act, 6
- Sherley Amendment, 6
- Harrison Narcotic Act, 7
- Durham-Humphrey Amendment, 7
- Kefauver-Harris Amendment, 7
- Controlled Substances Act, 7

##### Canadian Drug Legislation, 8

- Canadian Food and Drugs Act, 8
- Narcotic Control Act, 9

##### Sources of Drug Information, 9

- Official Information Sources, 9
- Nonofficial Information Sources, 9

##### Key Points, 11

### CHAPTER 2

#### Clinical Reasoning in Pharmacotherapeutics, 13

Kathleen Gutierrez

##### Pharmacotherapy as Art and Science, 13

##### Collaboration, 13

- Midlevel Providers, 13
- Associate Health Care Providers, 15

##### Clinical Reasoning, 15

##### Concepts and Principles of Prescribing, 20

- Types of Drug Orders, 20
- Essential Components of Drug Orders, 20
- Prescription Writing, 21
- Record-Keeping Requirements, 22
- Substitutions, 22
- Prescription Refills, 23
- Expired Prescriptions, 23
- Prescription Labeling, 23
- Prescription Copies, 24
- Out-of-State Prescriptions, 24
- Drug Samples, 24

##### Key Points, 24

### CHAPTER 3

#### Pharmacoeconomics, 26

Kathleen Gutierrez

##### Philosophical Basis of Pharmacoeconomics, 26

- Resource Allocation, 26
- Increased Efficiency, 27

##### Pharmacoeconomics and Managed Care, 27

##### Perspectives, 28

- Society, 28
- Payor, 28
- Health Care Provider, 28
- Patient, 29

##### Pharmacoeconomics Study Designs, 29

- Cost-Benefit Analysis, 29
- Cost-Effectiveness Analysis, 29
- Cost-Utility Analysis, 30
- Cost-Minimization and Cost-of-Illness Analyses, 30

##### Analysis Strategies, 30

- Clinical Trials, 30
- Retrospective Database Analysis, 31
- Mathematical Modeling, 31

##### Methods for Pharmacoeconomic Analyses, 31

- Decision Analysis, 31
- Simulation Modeling, 32
- Statistical Analysis, 32

##### Pharmacoeconomics and Formularies, 33

- Pharmacy and Therapeutics Committees, 34

##### The Future of Pharmacoeconomics, 35

##### Key Points, 35

### CHAPTER 4

#### Pharmaceutics and Pharmacokinetics, 37

Kathleen Gutierrez

##### Phases of Drug Activity, 37

- Pharmaceutic Phase, 37

##### Pharmacokinetic Phases, 38

- Absorption, 38
- Distribution, 43
- Biotransformation, 46
- Elimination, 49

##### Chronotherapy, 51

##### Key Points, 54

##### EVIDENCE-BASED PHARMACOTHERAPEUTICS

- Reliability of Different Formulae to Predict Creatinine Clearance, 53

### CHAPTER 5

#### Pharmacodynamics, 56

Kathleen Gutierrez

##### Drug Actions Versus Drug Effects, 56

##### Drug Actions and Interactions, 56

- Receptor Theory of Drug Action, 56

---

Receptor Types, 57
Receptor Numbers and Response, 58
<b>Adverse Drug Reactions, 60</b>
Type 1 Adverse Reactions, 61
Type 2 Adverse Reactions, 62
Tolerance and Dependency, 63
<b>Drug Interactions, 64</b>
Additive Effects, 64
Synergism Versus Potentiation, 64
Drug-Food Interactions, 65
Drug-Herb Interactions, 65
Drug-Disease Interactions, 65
<b>Variables Affecting Drug Response, 65</b>
General State of Health, 65
Life-Span Considerations, 66
Body Weight, 66
Sex and Genetics, 66
<i>Body Rhythms, 66</i>
Psychosocial Considerations, 67
Dietary Considerations, 67
Smoking and Alcohol Intake, 67
Environment, 67
Drug Additives and Bioavailability, 67
Dosage and Number of Drugs Administered, 67
Administration Routes and Techniques, 68
<b>Key Points, 68</b>

---

## **CHAPTER 6**

### **Pharmacotherapeutics for Pregnant and Nursing Women, 70**

*Kathleen Gutierrez*

<b>Anatomic and Physiologic Variables, 70</b>
Reproductive System, 70
Fluid Balance, 70
Gastrointestinal System, 70
Cardiovascular System, 71
<i>Renal System, 71</i>
Respiratory System, 71
Endocrine System, 71
<b>Maternal Pharmacokinetic Considerations, 72</b>
Absorption, 72
Distribution, 72
Biotransformation, 73
Elimination, 73
<b>Fetal-Placental Pharmacokinetic Considerations, 73</b>
Absorption, 73
Distribution, 73
Properties of Placenta, 73
Biotransformation, 75
Elimination, 75
<b>Pharmacodynamics, 75</b>
Teratogenesis, 75
<b>Drugs and Lactation, 77</b>
Minimizing Infant Drug Exposure, 77
<b>Clinical Reasoning, 78</b>
<b>Key Points, 80</b>
<b>CONTROVERSY Perinatal Pharmacotherapeutics—What to Restrict? 79</b>
<i>Jonathan J. Wolfe</i>

---

## **CHAPTER 7**

### **Pharmacotherapeutics for Children and Adolescents, 82**

*Arlis Williams*

<b>Anatomic and Physiologic Variables, 82</b>
Body Composition and Size, 83
Fluid Balance, 83
Tissue Mass, 83
Head and Neck, 84
Respiratory System, 84
Cardiovascular System, 84
Gastrointestinal System, 84
Renal System, 85
Neurologic System, 85
Immune System, 85
<b>Pharmacokinetic Considerations, 85</b>
Absorption, 85
Distribution, 86
Biotransformation, 87
Elimination, 87
<b>Pharmacodynamic Considerations, 88</b>
<b>Clinical Reasoning, 88</b>
<b>Key Points, 89</b>
<b>CONTROVERSY Practical and Ethical Issues in Pediatric Clinical Trials, 82</b>

---

## **CHAPTER 8**

### **Pharmacotherapeutics for Older Adults, 91**

*Kathleen Gutierrez*

<b>The Complex Dynamics of Aging, 91</b>
Body Composition, 91
Cardiovascular System, 92
Respiratory System, 92
Gastrointestinal System, 92
Renal System, 93
Sensory-Perceptual Function, 93
Neuromuscular System, 93
Endocrine System, 93
Immune System 94
Mental Status, 94
<b>Pharmacokinetic Considerations, 94</b>
Absorption, 94
Distribution, 94
Biotransformation, 95
Elimination, 96
<b>Pharmacodynamic Considerations, 96</b>
<b>Clinical Reasoning, 97</b>
<b>Key Points, 101</b>
<b>EVIDENCE-BASED PHARMACOTHERAPEUTICS</b>
Estimating Glomerular Filtration Rate, 96
<b>CONTROVERSY Drugs and Driving? 97</b>
<i>Jonathan J. Wolfe</i>

## Unit II

### COMMUNITY PHARMACOTHERAPEUTICS

#### CHAPTER 9

##### Over-the-Counter Drugs, 103

*Elizabeth Wise Kissell*

###### Consumer Buying Practices, 103

Trends in OTC Use, 103

Factors Influencing OTC Use, 104

###### Legislative Control of OTC Drugs, 105

OTC Categories, 105

Drug Labeling, 105

Drug Packaging, 106

###### Storage, Handling, and Disposal, 107

Storage, 107

Handling, 107

Disposal, 107

###### Adherence Versus Nonadherence, 108

###### Community Resources, 108

Community Pharmacists, 108

Computer Information Systems, 108

Publications, 109

Web-Based Resources, 110

###### Clinical Reasoning, 110

Management, 113

###### Key Points, 114

##### CONTROVERSY Why Do We Still Question the Use of Generic Drugs? 112

*Jonathan J. Wolfe*

#### CHAPTER 10

##### Vitamins and Minerals, 115

*Kathleen Gutierrez*

###### Universal Considerations, 115

###### Classification of Vitamins, 115

Fat-Soluble Vitamins, 115

Water-Soluble Vitamins, 121

Minerals and Trace Elements, 127

###### Clinical Reasoning, 133

###### Key Points, 135

##### CONTROVERSY Dietary Supplements—Some Real Issues, 135

*Jonathan J. Wolfe*

#### CHAPTER 11

##### Complementary and Alternative Medicine, 137

*Kathleen Gutierrez*

###### Epidemiology and Etiology of CAM, 137

###### Categories of CAM, 137

###### Legislation and Product Claims, 138

Health Claims, 138

Nutrient Claims, 138

Structure and/or Function Claims, 138

Labeling Issues, 138

Safety Issues, 138

Impurities, Adulterants, and Variability, 139

Formulation Issues, 139

Standardization of Herbals, 140

Phytomedicinal Options, 140

Clinical Reasoning, 153

Key Points, 156

##### EVIDENCE-BASED PHARMACOTHERAPEUTICS

Cranberries for Urinary Tract Infections, 145

##### CONTROVERSY Unconventional Answers to Illness, 154

*Jonathan J. Wolfe*

#### CHAPTER 12

##### Substance Abuse, 158

*Kathleen Gutierrez*

###### Confusing Terminology, 158

###### Epidemiology of Substance Abuse, 160

###### At-Risk Populations, 160

War Veterans, 160

People with Chronic Pain, 160

Athletes, 161

Adolescents, 161

Older Adults, 161

Health Care Providers, 161

###### Commonly Abused Substances, 161

CNS Stimulants, 161

CNS Depressants, 166

Hallucinogens, 172

Other Substances of Abuse, 176

###### Clinical Reasoning, 177

###### Key Points, 180

##### CONTROVERSY Methadone: To Use or Not to Use, That is the Question, 170

#### CHAPTER 13

##### Poisonings, 182

*Elizabeth Wise Kissell*

###### Poisonings, 182

Epidemiology and Etiology, 182

###### Clinical Reasoning, 182

###### Key Points, 187

## Unit III

### DRUGS INFLUENCING THE AUTONOMIC NERVOUS SYSTEM

#### CHAPTER 14

##### Sympathetic Nervous System Drugs, 189

*Kathleen Gutierrez*

###### Functional Organization of the Nervous System, 189

Autonomic Nervous System, 189

Pharmacotherapeutic Options, 194

Adrenergic Agonists, 194

Adrenergic Blocking Drugs, 199

###### Clinical Reasoning, 199

###### Key Points, 200

---

## **CHAPTER 15**

### **Parasympathetic Nervous System Drugs, 202**

*Kathleen Gutierrez*

---

- Physiology of Parasympathetic Neurotransmission, 202**
- Dementia of the Alzheimer's Type, 202**
- Epidemiology and Etiology, 202
  - Physiology and Pathophysiology, 203
  - Pharmacotherapeutic Options, 203*
  - Cholinesterase Inhibitors, 203
  - N-methyl-D-aspartate (NMDA) Receptor Antagonist, 204
- Clinical Reasoning, 205**
- Irritable Bowel Syndrome, 209**
- Pharmacotherapeutic Options, 209*
  - Anticholinergics, 209
- Clinical Reasoning, 211**
- Stimulation and Blockade of Ganglions, 212**
- Neuromuscular Blockade, 212**
- Pharmacotherapeutic Options, 213*
  - Nondepolarizing Neuromuscular Blockers, 213
  - Depolarizing Neuromuscular Blocker, 213
- Clinical Reasoning, 216**
- Key Points, 220**
- CONTROVERSY Clinical Trials Involving Alzheimer's Disease Patients, 208**
- Sally Schnell*
- CASE STUDY Dementia of the Alzheimer's Type, 208**
- EVIDENCE-BASED PHARMACOTHERAPEUTICS**
- Cholinesterase Inhibitor Treatment for Dementia of the Alzheimer's Type, 210

## **Unit IV**

### **DRUGS INFLUENCING THE CENTRAL NERVOUS SYSTEM**

---

## **CHAPTER 16**

### **Opioid Analgesics and Related Drugs, 223**

*Sheryl J. Cator*

---

- Pain, 223**
- Epidemiology and Etiology, 223
  - Pathogenesis, 223
  - Pharmacotherapeutic Options, 225*
  - Opioid Analgesics, 225
  - Mixed Opioid Agonists-Antagonists, 230
  - Nonopioid Analgesic, 231
- Clinical Reasoning, 233**
- Key Points, 242**
- CONTROVERSY Administering Opioids to Chemically Dependent Patients, 230**
- CASE STUDY Postoperative Analgesia, 235**
- EVIDENCE-BASED PHARMACOTHERAPEUTICS**
- Management of Acute and Chronic Pain, 238

---

## **CHAPTER 17**

### **NSAIDs, DMARDs, and Related Drugs, 244**

*Sheryl J. Cator*

---

- Pathogenesis of Inflammation, 244**
- Types of Inflammation, 244
  - Pharmacotherapeutic Options, 247*
  - Nonsteroidal Antiinflammatory Drugs, 247

- Clinical Reasoning, 256**
- Rheumatoid Arthritis, 260**
- Epidemiology and Etiology, 262
  - Pathophysiology, 262
  - Pharmacotherapeutic Options, 262*
  - Disease-Modifying Antirheumatic Drugs, 262

- Clinical Reasoning, 271**
- Gout, 272**
- Epidemiology and Etiology, 272
  - Pathophysiology, 272
  - Pharmacotherapeutic Options, 273*
  - Antigout Drugs, 273
  - Uricosuric Drugs, 274
  - Newer Drugs for Gout, 275

- Clinical Reasoning, 276**
- Key Points, 277**
- EVIDENCE-BASED PHARMACOTHERAPEUTICS**
- NSAIDs and Myocardial Infarction, 249
- CONTROVERSY Salicylates and Reye's Syndrome: When to Use Aspirin? 257**
- Jonathan J. Wolfe*
- CASE STUDY Disease-Modifying Antirheumatic Drugs, 261**
- 

## **CHAPTER 18**

### **Anesthetics, 279**

*Kathleen Gutierrez*

---

- Pharmacotherapeutic Options, 279*
- Infiltrative Anesthetics, 279
- Conscious Sedation, 284**
- Pharmacotherapeutic Options, 284*
  - Benzodiazepine and Opioid Combinations, 284
- General Anesthesia, 285**
- Pharmacotherapeutic Options, 285*
  - Barbiturates, 285
  - Opioid Antagonists, 286
  - Miscellaneous Injectables, 287
  - Reversal Drugs, 288
  - Neuromuscular Blockers, 288
  - Nondepolarizing Neuromuscular Blockers, 290
  - Inhalational Anesthesia, 291
- Clinical Reasoning, 294**
- Key Points, 297**
- CONTROVERSY Appropriateness of Increased Utilization of Propofol in Anesthesia, 288**
- Jonathan J. Wolfe*
- 

## **CHAPTER 19**

### **Antianxiety and Sedative-Hypnotic Drugs, 299**

*Kathleen Gutierrez*

---

- Anxiety, Sleep, and Other Disorders, 299**
- Epidemiology and Etiology, 299
  - Pathogenesis of Anxiety and Sleep Disorders, 302
  - Pharmacotherapeutic Options, 303*
  - Benzodiazepines, 303
  - Atypical Anxiolytic, 306
  - Other Sedative-Hypnotics, 310
  - Barbiturates, 311
- Clinical Reasoning, 311**
- Key Points, 318**

EVIDENCE-BASED PHARMACOTHERAPEUTICS	Use of Antidepressants in the Treatment of Generalized Anxiety Disorder, 305
CONTROVERSY	Appropriate Use of Antianxiety Drugs, 312 <i>Jonathan J. Wolfe</i>
CASE STUDY	Sedative-Hypnotics, 313

---

## CHAPTER 20 Antidepressant and Antimania Drugs, 320

*Kathleen Gutierrez*

Depression, 320	Epidemiology and Etiology, 320 Pathophysiology, 320 <i>Pharmacotherapeutic Options</i> , 321 <ul style="list-style-type: none"><li>Selective Serotonin Reuptake Inhibitors, 321</li><li>Serotonin-Norepinephrine Reuptake Inhibitors, 325</li><li>Tricyclic Antidepressants, 327</li><li>Monoamine Oxidase Inhibitors (MAOIs), 330</li><li>Miscellaneous Antidepressants, 330</li></ul>
Clinical Reasoning, 332	
Bipolar Disorder, 339	Epidemiology and Etiology, 339 Pathophysiology, 339 <i>Pharmacotherapeutic Options</i> , 339 <ul style="list-style-type: none"><li>Mood-Stabilizing Drugs, 339</li></ul>
Clinical Reasoning, 342	
Key Points, 346	
EVIDENCE-BASED PHARMACOTHERAPEUTICS	Continuation of SSRI Therapy Versus Therapy with TCAs, 322
CASE STUDY	Antidepressants, 333
CONTROVERSY	Antidepressants for Adolescents: Good or Bad? 335
CASE STUDY	Mood-Stabilizing Drugs, 343

---

## CHAPTER 21 Antipsychotic Drugs, 348

*Kathleen Gutierrez*

Schizophrenia, 348	Epidemiology and Etiology, 348 Pathophysiology, 348 <i>Pharmacotherapeutic Options</i> , 349 <ul style="list-style-type: none"><li>First-Generation Antipsychotic Drugs, 349</li><li>Second-Generation Antipsychotic Drugs, 353</li></ul>
Clinical Reasoning, 356	
Key Points, 361	
EVIDENCE-BASED PHARMACOTHERAPEUTICS	Antipsychotic Drug Therapy, 357
CONTROVERSY	Diagnostic Approach to Schizophrenia, 360

---

## CHAPTER 22 Central Nervous System Stimulants, 363

*Sean M. Reed*

Narcolepsy, 363	Epidemiology and Etiology, 363 Pathophysiology, 363
-----------------	--

Attention Deficit Hyperactivity Disorder, 363	Epidemiology and Etiology, 363 Pathophysiology, 365
Exogenous Obesity, 365	Epidemiology and Etiology, 365 Pathophysiology, 365 <i>Pharmacotherapeutic Options</i> , 365 <ul style="list-style-type: none"><li>Psychomotor Stimulants, 365</li><li>Anorexiants, 367</li><li>Analeptics, 367</li></ul>
Clinical Reasoning, 370	
Key Points, 372	
CASE STUDY	Central Nervous System Stimulants, 364
CONTROVERSY	Long-Term Safety and Effectiveness of CNS Stimulants, 370
EVIDENCE-BASED PHARMACOTHERAPEUTICS	Methylphenidate for Adults with Attention Deficit Hyperactivity Disorder, 372

---

## CHAPTER 23 Skeletal Muscle Relaxants, 374

*Kathleen Gutierrez*

Spasm Versus Spasticity, 374	Epidemiology and Etiology, 374 Pathophysiology, 374 <i>Pharmacotherapeutic Options</i> , 375 <ul style="list-style-type: none"><li>Centrally Acting Drugs, 375</li><li>Peripherally Acting Drugs, 378</li></ul>
Clinical Reasoning, 381	
Key Points, 387	
CONTROVERSY	Intrathecal Baclofen in Cerebral Palsy, 378 <i>Jonathan J. Wolfe</i>
CASE STUDY	Centrally Acting Skeletal Muscle Relaxants, 379
CASE STUDY	Peripherally Acting Skeletal Muscle Relaxants, 382
EVIDENCE-BASED PHARMACOTHERAPEUTICS	Noninvasive Treatments for Nonspecific Low Back Pain, 384

---

## CHAPTER 24 Drugs Used for Migraines, 389

*Kathleen Gutierrez*

Headaches, 389	Epidemiology and Etiology, 389 Pathophysiology, 389 <i>Pharmacotherapeutic Options</i> , 390 <ul style="list-style-type: none"><li>Serotonin Agonists, 390</li><li>Ergot Alkaloids, 394</li><li>Migraine Prophylaxis Drugs, 397</li></ul>
Clinical Reasoning, 397	
Key Points, 404	
CASE STUDY	Drugs Used for Migraines, 392
EVIDENCE-BASED PHARMACOTHERAPEUTICS	Neurotrophins and Migraines, 394

---

## CHAPTER 25

### Antiepileptic Drugs, 406

Kathleen Gutierrez

---

#### Epilepsy, 406

Epidemiology and Etiology, 406

Pathophysiology, 406

*Pharmacotherapeutic Options*, 407

Hydantoins, 407

Valproates, 413

Other Antiepileptic Drugs, 413

Barbiturates, 419

Benzodiazepines, 420

#### Clinical Reasoning, 420

#### Key Points, 426

### CONTROVERSY Drug Errors from Confusing Orders and New Drugs, 408

*Jonathan J. Wolfe*

### EVIDENCE-BASED PHARMACOTHERAPEUTICS Rapid

Versus Slow Withdrawal of Antiepileptic Drugs, 423

### CASE STUDY Antiepileptic Drugs, 424

---

---

## CHAPTER 26

### Drugs for Parkinson's Disease and Myasthenia Gravis, 427

Kathleen Gutierrez

---

#### Parkinson's Disease, 427

Epidemiology and Etiology, 427

Physiology and Pathophysiology, 427

*Pharmacotherapeutic Options*, 429

Dopaminergic Drugs, 429

Dopamine Agonists, 432

Anticholinergics, 434

Monoamine Oxidase B Inhibitors, 435

Catechol-O-Methyltransferase (COMT) Inhibitor, 436

#### Clinical Reasoning, 437

#### Myasthenia Gravis, 442

Epidemiology and Etiology, 442

Pathophysiology, 443

*Pharmacotherapeutic Options*, 445

Cholinesterase Inhibitors, 445

Corticosteroids, 446

Immunosuppressants, 448

#### Clinical Reasoning, 450

#### Key Points, 454

### CASE STUDY Drugs for Parkinson's Disease, 438

### EVIDENCE-BASED PHARMACOTHERAPEUTICS Coffee and Caffeine Intake and Risk for Parkinson's

Disease, 443

### CASE STUDY Drugs for Myasthenia Gravis, 450

---

## Unit V

### DRUGS INFLUENCING THE IMMUNE SYSTEM

---

---

## CHAPTER 27

### Antibiotics, 457

Kathleen Gutierrez

---

#### Bacterial Infections, 457

Epidemiology and Etiology, 457

Pathophysiology, 457

#### Principles of Antibiotic Therapy, 460

Site and Host Defenses, 460

The Infecting Organism, 460

Drug Action, 460

Susceptibility and Sensitivity, 460

Antibiotic Resistance, 460

*Pharmacotherapeutic Options*, 462

Penicillins, 462

Cephalosporins, 464

Sulfonamides, 468

Tetracyclines, 471

Aminoglycosides, 473

Quinolones, 475

Macrolides, 476

Carbepenems, 478

Miscellaneous Antibiotics, 480

#### Clinical Reasoning, 482

#### Key Points, 488

### CONTROVERSY Should Health Care Providers Perform

Diagnostic Tests on Patients Before Prescribing

Antibiotics? 483

*Jonathan J. Wolfe*

### CASE STUDY Antibiotics—Soft Tissue Infection, 484

---

---

## CHAPTER 28

### Antiviral and Antifungal Drugs, 490

Kathleen Gutierrez

---

#### Introduction to Viruses, 490

#### Influenza, 491

Epidemiology and Etiology, 491

Pathophysiology, 491

*Pharmacotherapeutic Options*, 492

Neuramidase Inhibitors, 492

Adamantane Derivatives, 493

#### Clinical Reasoning, 495

#### HIV and AIDS, 498

Epidemiology and Etiology, 498

Pathophysiology, 499

*Pharmacotherapeutic Options*, 501

Nucleoside and Nucleotide Reverse Transcriptase

Inhibitors, 501

Nucleotide Reverse Transcriptase Inhibitor (NtRTI), 501

Nonnucleoside Reverse Transcriptase Inhibitors

(NNRTIs), 503

Protease Inhibitors, 505

HIV Fusion Inhibitor, 506

#### Clinical Reasoning, 507

#### Herpes, Varicella, and CMV Retinitis, 514

Herpesvirus Infections, 514

Invasive CMV Retinitis, 515

#### Fungal Infections, 517

Epidemiology and Etiology, 517

Pathophysiology, 517

*Pharmacotherapeutic Options*, 518

Polyene Antifungals, 518

Triazole Antifungals, 519

Imidazole Antifungals, 525

Allylamines, 526

Glucan Synthesis Inhibitors, 527
Miscellaneous Antifungals, 527
<b>Clinical Reasoning, 528</b>
Key Points, 530
<b>EVIDENCE-BASED PHARMACOTHERAPEUTICS</b>
Virucidal Nasal Tissues, 498
<b>CASE STUDY</b> Antiviral Drugs, 508
<b>CONTROVERSY</b> Ethical Challenges in HIV Treatment of the Homeless, 513
<b>CONTROVERSY</b> Using Topical Antifungal and Antiviral Drugs, 529
<i>Jonathan J. Wolfe</i>

---

## CHAPTER 29

### Antitubercular and Antileprotic Drugs, 533

*Kathleen Gutierrez*

<b>Tuberculosis, 533</b>
Epidemiology and Etiology, 533
Pathophysiology, 533
<i>Pharmacotherapeutic Options, 535</i>
First-Line Drugs, 536
Second-Line Drugs, 540
<b>Clinical Reasoning, 541</b>
<b>Leprosy, 546</b>
Epidemiology and Etiology, 546
Pathophysiology, 547
<i>Pharmacotherapeutic Options, 548</i>
First-Line Drugs, 548
On the Horizon, 550

<b>Clinical Reasoning, 550</b>
<b>Key Points, 553</b>
<b>EVIDENCE-BASED PHARMACOTHERAPEUTICS</b>
Levofloxacin for Active Tuberculosis? 536
<b>CASE STUDY</b> Antitubercular Drugs, 543
<b>CONTROVERSY</b> Directly Observed Therapy for Tuberculosis, 546
<i>Sandra Franklin</i>
<b>CASE STUDY</b> Antileprotic Drugs, 551

---

## CHAPTER 30

### Anthelmintic, Antimalarial, and Antiprotozoal Drugs, 555

*Kathleen Gutierrez*

<b>Helminthiasis, 555</b>
Epidemiology and Etiology, 555
Pathophysiology, 558
<i>Pharmacotherapeutic Options, 558</i>
<b>Clinical Reasoning, 563</b>
<b>Malaria, 564</b>
Epidemiology and Etiology, 564
Pathophysiology, 564
<i>Pharmacotherapeutic Options, 564</i>
<b>Clinical Reasoning, 568</b>
<b>Amebiasis, 571</b>
Epidemiology and Etiology, 571
Pathophysiology, 571
<i>Pharmacotherapeutic Options, 571</i>
<b>Giardiasis, 572</b>
<i>Pharmacotherapeutic Options, 572</i>

<b>Leishmaniasis, 573</b>
<i>Pharmacotherapeutic Options, 573</i>
<b>Ectoparasites, 573</b>
Pediculosis, 573
Scabies, 574
<i>Pharmacotherapeutic Options, 574</i>
<b>Key Points, 576</b>
<b>CASE STUDY</b> Antimalarial Drugs, 569
<b>CASE STUDY</b> Antiprotozoal Drugs, 574

---

## CHAPTER 31

### Sera, Vaccines, and Other Immunizing Drugs, 578

*Elizabeth Wise Kissell*

<b>Immunity, 578</b>
Types of Immunity, 578
Drugs for Active Immunity, 580
Diseases and Drugs of Active Immunity, 582
Drugs for Passive Immunity, 589
Travel Immunizations, 590
<b>Clinical Reasoning, 592</b>
Legal Implications of Immunizing, 594
<b>Bioterrorism, 596</b>
Diseases and Drugs of Bioterrorism, 596
<b>Key Points, 600</b>
<b>CONTROVERSY</b> Immunization Policy Issues, 592
<i>Jonathan J. Wolfe</i>

---

## CHAPTER 32

### Biologic Response Modifiers, 603

*Sheryl J. Cator*

<b>Categories of BRMs, 605</b>
Pathogenesis, 605
<i>Pharmacotherapeutic Options, 607</i>
Interferons, 607
Interleukins, 608
Colony-Stimulating Factors, 612
Monoclonal Antibodies, 613
Miscellaneous BRMs, 614
<b>Clinical Reasoning, 618</b>
<b>Key Points, 620</b>
<b>CONTROVERSY</b> Tumor Necrosis Factor- $\alpha$ Antagonists: Helpful or Harmful? 619

## CHAPTER 33

### Antineoplastic Drugs, 622

*Reamer L. Bushardt*

<b>Cancer, 622</b>
<i>Epidemiology and Etiology, 622</i>
Pathophysiology, 623
Antineoplastic Dosing Regimens, 626
<i>Pharmacotherapeutic Options, 627</i>
Drugs Interacting with DNA Synthesis: Alkylating Drugs, 627
Drugs Damaging DNA: Antimetabolites, 632
Drugs Damaging DNA: Antimitotic Drugs, 634
Drugs Damaging DNA: Topoisomerase Inhibitors, 635
Drugs Damaging DNA: Antitumor Antibiotics, 636

Miscellaneous Antineoplastic Drugs, 637
Hormones and Hormone Antagonists, 638
Other Types of Cancer Drug Therapies, 640
<b>Clinical Reasoning, 641</b>
<b>Key Points, 647</b>

## Unit VI

### DRUGS INFLUENCING THE CARDIOVASCULAR SYSTEM

#### CHAPTER 34 Inotropic Drugs, 649

Kathleen Gutierrez

##### Heart Failure, 649

Epidemiology and Etiology, 649
Pathophysiology, 650
<i>Pharmacotherapeutic Options, 651</i>
Angiotensin-Converting Enzyme Inhibitors, 652
Angiotensin Receptor Blockers, 652
Beta Blockers, 652
Vasodilators, 654
Cardiac Glycoside, 654
Phosphodiesterase Inhibitors, 657
On the Horizon, 659

##### Clinical Reasoning, 659

##### Key Points, 663

##### CASE STUDY Inotropic Drugs, 660

##### EVIDENCE-BASED PHARMACOTHERAPEUTICS

##### Phosphodiesterase Inhibitors, 662

##### CONTROVERSY Inotropics: Expectations and Limitations, 663

*Jonathan J. Wolfe*

#### CHAPTER 35 Antianginal Drugs, 665

Kathleen Gutierrez

##### Angina Pectoris, 665

Epidemiology and Etiology, 665
Pathophysiology, 665
<i>Pharmacotherapeutic Options, 667</i>
Nitrates, 667
Beta Blockers, 671
Calcium Channel Blockers, 672
Angiotensin-Converting Enzyme Inhibitors, 673
Antianginal and Antiischemic Drug, 673

##### Clinical Reasoning, 674

##### Key Points, 680

##### CASE STUDY Antianginal Drugs, 674

#### CHAPTER 36 Antiarrhythmic Drugs, 681

Reamer L. Bushardt

##### Arrhythmias, 681

Epidemiology and Etiology, 681
<i>Pharmacotherapeutic Options, 684</i>
Class IA Antiarrhythmics, 684
Class IB Antiarrhythmics, 687
Class IC Antiarrhythmics, 693
Class II Antiarrhythmics, 694

Class III Antiarrhythmics, 695
Class IV Antiarrhythmics, 698
Miscellaneous Antiarrhythmics, 698

##### Clinical Reasoning, 699

##### Key Points, 704

##### EVIDENCE-BASED PHARMACOTHERAPEUTICS Cardiac

##### Arrhythmia Suppression Trial, 694

##### CASE STUDY Atrial Fibrillation, 700

##### CONTROVERSY Antiarrhythmics: Good versus Harm, 702

*Jonathan J. Wolfe*

#### CHAPTER 37 Antihypertensive Drugs, 706

Kathleen Gutierrez

##### Hypertension, 706

Epidemiology and Etiology, 706
Pathophysiology, 707
<i>Pharmacotherapeutic Options, 708</i>
Diuretics, 708
Beta-Adrenergic Blockers, 709
Angiotensin-Converting Enzyme Inhibitors, 711
Angiotensin II-Receptor Blockers, 714
Calcium Channel Blockers, 716
Alpha <sub>1</sub> Receptor Blockers, 716
Central Alpha <sub>2</sub> -Receptor Agonists, 716
Adrenergic Antagonists, 717
Direct-Acting Peripheral Vasodilators, 717
Newer Antihypertensives, 719

##### Clinical Reasoning, 721

##### Key Points, 731

##### CASE STUDY Antihypertensive Drugs, 723

##### CONTROVERSY Initial Use of Diuretics and Beta Blockers, 726

*Jonathan J. Wolfe*

##### EVIDENCE-BASED PHARMACOTHERAPEUTICS Depression and Hypertension, 731

#### CHAPTER 38 Antilipidemic Drugs, 733

Kathleen Gutierrez

##### Hyperlipoproteinemia, 733

Epidemiology and Etiology, 733
Pathophysiology, 733
<i>Pharmacotherapeutic Options, 737</i>
HMG-CoA Reductase Inhibitors, 737
Cholesterol Absorption Inhibitor, 738
Bile Acid Resins, 739
Fibric Acid Derivatives, 741
Niacin, 741
Omega-3 and Omega-6 Fatty Acids, 742
Miscellaneous Antilipidemic Drugs, 743

##### Clinical Reasoning, 744

##### Key Points, 750

##### CONTROVERSY Diet versus Drugs in Treating Hyperlipidemia, 746

*Jonathan J. Wolfe*

##### CASE STUDY Antilipemic Drugs, 747

## Unit VII

### DRUGS INFLUENCING THE HEMATOLOGIC SYSTEM

#### CHAPTER 39

##### Anticoagulant and Antiplatelet Drugs, 753

Kathleen Gutierrez

###### Thromboembolic Disease, 753

Epidemiology and Etiology, 753

Pathophysiology, 753

*Pharmacotherapeutic Options*, 754

Anticoagulants, 754

Newer Anticoagulants, 761

Antiplatelet Drugs, 763

###### Clinical Reasoning, 765

###### Key Points, 769

##### CASE STUDY Anticoagulant and Antiplatelet Drugs, 765

##### CONTROVERSY How Safe Is Anticoagulation Therapy? 767

*Jonathan J. Wolfe*

#### CHAPTER 40

##### Thrombolytic and Sclerosing Drugs, 771

Reamer L. Bushardt

###### Cardiovascular Disorders, 771

###### Cerebrovascular Accident, 771

Epidemiology and Etiology, 771

Pathophysiology, 771

###### Myocardial Infarction, 771

Epidemiology and Etiology, 771

Pathophysiology, 772

###### Pulmonary Embolism, 772

Epidemiology and Etiology, 772

Pathophysiology, 773

###### Peripheral Vascular Occlusion, 773

Epidemiology and Etiology, 773

Pathophysiology, 773

###### Central Venous Access Occlusion, 773

*Pharmacotherapeutic Options*, 773

Thrombolytics, 773

###### Clinical Reasoning, 776

##### Lower Extremity and Esophageal Varices, 779

Epidemiology and Etiology, 779

Pathophysiology, 779

*Pharmacotherapeutic Options*, 779

Sclerosing Drugs, 779

###### Clinical Reasoning, 780

###### Key Points, 783

##### CASE STUDY Thrombolytics, 781

## Unit VIII

### DRUGS INFLUENCING THE GENITOURINARY SYSTEM

#### CHAPTER 41

##### Urinary Antimicrobials and Related Drugs, 785

Sean M. Reed

###### Urinary Tract Infections, 785

Epidemiology and Etiology, 785

Pathophysiology, 786

*Pharmacotherapeutic Options*, 788

Sulfonamides, 788

Quinolones, 790

Urinary Tract Antiseptics, 791

###### Clinical Reasoning, 792

###### Key Points, 797

##### CASE STUDY Urinary Antimicrobial and Related Drugs, 793

##### EVIDENCE-BASED PHARMACOTHERAPEUTICS

Antibiotic Therapies for Urinary Tract Infections, 795

##### CONTROVERSY Cranberry Juice: Effective or

Ineffective? 796

#### CHAPTER 42

##### Diuretics, 799

Kathleen Gutierrez

###### Renal Function, 799

###### Fluid Volume Excess, 799

Epidemiology and Etiology, 799

Pathophysiology, 800

*Pharmacotherapeutic Options*, 802

Thiazides, 802

Thiazide-Like Diuretics, 802

Potassium-Sparing Diuretics, 806

Loop Diuretics, 807

Osmotic Diuretics, 808

###### Clinical Reasoning, 809

###### Key Points, 813

##### EVIDENCE-BASED PHARMACOTHERAPEUTICS

Thiazides and the Risk for Hip Fracture, 803

##### CASE STUDY Diuretics, 809

##### CONTROVERSY Diuretics: Drugs of Abuse? 811

#### CHAPTER 43

##### Drugs Used for Bladder, Prostate, and Erectile Dysfunction, 815

Kathleen Gutierrez

###### Overactive Bladder, 815

Epidemiology and Etiology, 815

Pathophysiology, 815

*Pharmacotherapeutic Options*, 815

Antimuscarinic Drugs, 815

###### Clinical Reasoning, 817

###### Benign Prostatic Hyperplasia, 820

Epidemiology and Etiology, 820

Pathophysiology, 820

*Pharmacotherapeutic Options*, 821

Alpha Blockers, 821

5 $\alpha$ -Reductase Inhibitors, 821

###### Clinical Reasoning, 822

###### Urinary Retention, 824

Epidemiology and Etiology, 824

Pathophysiology, 825

*Pharmacotherapeutic Options*, 825

Muscarinic Agonist, 825

###### Clinical Reasoning, 826

Miscellaneous Urinary Drugs, 827

Urinary Tract Antispasmodics, 827

Urinary Tract Analgesic, 828

###### Erectile Dysfunction, 828

Epidemiology and Etiology, 828

Pathophysiology, 828
<i>Pharmacotherapeutic Options</i> , 829
Phosphodiesterase Inhibitors, 829
Miscellaneous Drugs for Erectile Dysfunction, 831
Clinical Reasoning, 831
Key Points, 832
EVIDENCE-BASED PHARMACOTHERAPEUTICS The MTOPS Trial, 823
EVIDENCE-BASED PHARMACOTHERAPEUTICS Sildenafil for Pulmonary Hypertension, 830

---

## CHAPTER 44 Drugs Used for Renal Dysfunction, 834

Kathleen Gutierrez

Acute Renal Failure, 834
Epidemiology and Etiology, 834
Pathophysiology, 834
Chronic Renal Failure, 834
Epidemiology and Etiology, 834
Pathophysiology, 835
<i>Pharmacotherapeutic Options</i> , 836
Angiotensin-Converting Enzyme Inhibitors, 836
Angiotensin II-Receptor Blockers, 836
Antianemics, 837
Iron Supplements, 840
Antihemorrhagic Drugs, 843
Phosphate-Binding Drugs, 843
Vitamin D Supplements, 844
Heavy Metal Antagonist, 845
Cation-Exchange Resins, 845
Systemic Antacids, 846
Diuretics, 846
Renal Vasodilator, 846
Clinical Reasoning, 846
Key Points, 850
EVIDENCE-BASED PHARMACOTHERAPEUTICS BMI and Risk for ESRD, 850

## Unit IX

### DRUGS INFLUENCING THE GASTROINTESTINAL SYSTEM

## CHAPTER 45 Drugs for Hyperacidity, Gastroesophageal Reflux Disease, and Peptic Ulcer Disease, 853

Kathleen Gutierrez

Gastroesophageal Reflux Disease, 853
Epidemiology and Etiology, 853
Pathophysiology, 853
Peptic Ulcer Disease, 854
Epidemiology and Etiology, 854
Pathophysiology, 854
<i>Pharmacotherapeutic Options</i> , 855
Proton Pump Inhibitors, 855
Histamine <sub>2</sub> -Receptor Antagonists, 857
Nonsystemic Antacids, 861
Prostaglandin, 862
Prokinetic Drug, 863
Cytoprotective Drug, 863
Clinical Reasoning, 864

Key Points, 873
CONTROVERSY Self-Treating with OTC Antisecretory Drugs, 860
<i>Jonathan J. Wolfe</i>
EVIDENCE-BASED PHARMACOTHERAPEUTICS Short Term Treatment of Gastroesophageal Reflux, 868
CASE STUDY Proton Pump Inhibitors, 869
CASE STUDY <i>H. pylori</i> Drug Therapy, 871

---

## CHAPTER 46 Laxatives and Antidiarrheal Drugs, 875

Martha A. Spangler

Constipation, 875
Epidemiology and Etiology, 875
Pathophysiology, 875
<i>Pharmacotherapeutic Options</i> , 875
Bulk-Forming Laxatives, 875
Stool Softeners, 876
Osmotic Laxatives, 878
Stimulant Laxatives, 881
Miscellaneous Laxatives, 882
Clinical Reasoning, 883
Diarrhea, 885
Epidemiology and Etiology, 885
Pathophysiology, 886
<i>Pharmacotherapeutic Options</i> , 886
Opioid Antidiarrheals, 886
Absorbents, 887
Miscellaneous Antidiarrheal Drugs, 888
Clinical Reasoning, 889
Key Points, 892
EVIDENCE-BASED PHARMACOTHERAPEUTICS Therapy for Irritable Bowel Syndrome, 877
CASE STUDY Laxatives, 890
CONTROVERSY Pepto-Bismol, Loperamide, and Diarrhea, 892
<i>Jonathan J. Wolfe</i>

---

## CHAPTER 47 Antiemetics and Related Drugs, 894

Martha A. Spangler

Nausea and Vomiting, 894
Epidemiology and Etiology, 894
Pathophysiology, 894
<i>Pharmacotherapeutic Options</i> , 894
Antihistamines, 894
Serotonin Antagonists, 896
Phenothiazines, 900
Prokinetic Drug, 900
Cannabinoids, 901
Miscellaneous Drugs, 901
Benzodiazepines, 902
Corticosteroids, 902
Clinical Reasoning, 902
Key Points, 906
CASE STUDY Antiemetics, 905

Clinical Reasoning, 864

---

## CHAPTER 48

### Cation-Exchange Resins and Ammonia-Detoxifying Drugs, 908

Kathleen Gutierrez

---

#### Hyperkalemia, 908

- Epidemiology and Etiology, 908
- Pathophysiology, 908
- Pharmacotherapeutic Options*, 909
  - Cation-Exchange Resins, 909

#### Clinical Reasoning, 911

#### Hepatic Encephalopathy, 912

- Epidemiology and Etiology, 912
- Pathophysiology, 912
- Pharmacotherapeutic Options*, 913
  - Ammonia-Detoxifying Drugs, 913

#### Clinical Reasoning, 916

#### Key Points, 916

#### CASE STUDY Ammonia-Detoxifying Drugs, 914

---

---

## CHAPTER 49

### Alkalinating and Acidifying Drugs, 918

Kathleen Gutierrez

---

#### Acid-Base Balance and Imbalance, 918

- Bicarbonate-Carbonic Acid Buffer System, 918
- Hemoglobin, 918
- Phosphate Buffer System, 918
- Respiratory System, 918
- Renal System, 918
- Pathophysiology of Alkalosis and Acidosis, 920
- Pharmacotherapeutic Options*, 921
  - Alkalinating Drugs, 921
  - Acidifying Drugs, 922

#### Clinical Reasoning, 924

#### Key Points, 927

---

## Unit X

### DRUGS INFLUENCING THE RESPIRATORY SYSTEM

---

---

## CHAPTER 50

### Antiasthmatic and Bronchodilator Drugs, 929

Gail Ladean Cross

---

#### Asthma, 929

- Epidemiology and Etiology, 929
- Pathophysiology, 929
- Pharmacotherapeutic Options*, 930
  - Inhaled Corticosteroids, 930
  - Beta Agonists, 932
  - Leukotriene Antagonists, 936
  - Antiallergy Drugs, 937
  - Xanthine Derivatives, 937
  - Antimuscarinic Drugs, 938
  - Monoclonal Antibody, 939

#### Clinical Reasoning, 939

#### Key Points, 949

#### CASE STUDY Antiasthmatic and Bronchodilator Drugs, 942

---

## CHAPTER 51

### Antihistamines and Related Drugs, 951

Gail Ladean Cross

---

#### Rhinitis, 951

- Epidemiology and Etiology, 951
- Pathophysiology, 952
- Pharmacotherapeutic Options*, 953
  - Intranasal Corticosteroids, 953
  - H<sub>1</sub> Antagonists, 954
  - Cromolyn Sodium, 958

#### Clinical Reasoning, 958

#### Key Points, 962

#### EVIDENCE-BASED PHARMACOTHERAPEUTICS

- Pediatric Allergic Rhinitis and Nasal Irrigation, 959

#### CASE STUDY Antihistamines, 959

---

---

## CHAPTER 52

### Decongestants, Expectorants, Antitussives, and Mucolytics, 964

Martha A. Spangler

---

#### Common Cold, 964

- Epidemiology and Etiology, 964
- Pathophysiology, 964
- Pharmacotherapeutic Options*, 965
  - Oral and Intranasal Decongestants, 965
  - Expectorants, 966
  - Antitussives, 968
  - Mucolytics, 969
  - Miscellaneous Respiratory Drugs, 970

#### Clinical Reasoning, 970

#### Key Points, 976

#### CASE STUDY Common Cold, 973

#### CONTROVERSY Effectiveness of Over-the-Counter Drugs for Coughs and Congestion, 974

Jonathan J. Wolfe

#### EVIDENCE-BASED PHARMACOTHERAPEUTICS

- Over-the-Counter Formulations for Acute Cough, 975

---

## Unit XI

### DRUGS INFLUENCING THE ENDOCRINE SYSTEM

---

---

## CHAPTER 53

### Drugs Used in the Treatment of Diabetes Mellitus, 977

Margaret Elaine McLeod

---

#### Diabetes Mellitus, 977

- Epidemiology and Etiology, 977
- Pathophysiology, 977
- Pharmacotherapeutic Options*, 978
  - Insulins, 978
  - Recombinant Human Insulin Inhalation Powder, 981
  - Biguanides, 982
  - Thiazolidinediones, 983
  - Sulfonylureas, 984
  - Meglitinide Analogues, 988
  - Alpha-Glucosidase Inhibitors, 988

Amylin Agonists, 989	Epidemiology and Etiology, 1034
Incretin Mimetic, 990	<i>Pharmacotherapeutic Options, 1034</i>
Incretin Inhibitors, 992	Anterior Pituitary Hormone Replacement Drugs, 1034
Insulin Antagonist, 993	Posterior Pituitary Hormone Replacement Drugs, 1037
Nutritive Agents, 994	Hormone Inhibitor Drugs, 1039
Clinical Reasoning, 994	Clinical Reasoning, 1040
Key Points, 1001	Key Points, 1043
