

MANAGING THE CROWD

rethinking records management
for the web 2.0 world

STEVE BAILEY

Contents

Foreword	xi
-----------------------	-----------

Preface	xvii
----------------------	-------------

PART 1 THE NATURE OF THE CHANGING WORLD	1
--	----------

1 The big picture: Web 2.0 and current trends in IT	3
--	----------

Questions addressed in this chapter	3
---	---

What is Web 2.0?	3
------------------------	---

Similarities and differences compared to Web 1.0	6
--	---

IT trends: blurring the boundaries	8
--	---

IT trends: the exponential age	10
--------------------------------------	----

2 The reality check: surely change is endemic in IT? ...	17
---	-----------

Questions addressed in this chapter	17
---	----

Change as the only constant in IT	17
---	----

The familiarity of the office of 1997	19
---	----

The first IT paradigm	21
-----------------------------	----

The second IT paradigm	22
------------------------------	----

3 Web 2.0 and Office 2.0: enter the third paradigm	25
---	-----------

Questions addressed in this chapter	25
---	----

Blogs	26
-------------	----

Wikis	30
Collaborative editing tools	34
Social bookmarking and tagging.....	35
4 Welcome to the world of Office 2.0	39
Questions addressed in this chapter	39
The scenario.....	39
Outsourcing e-mail.....	40
Perceived limitations of the client-server based document management system	41
A successful wiki pilot.....	42
Online applications: the next logical step.....	43
Keeping up with insatiable user demand.....	46
Boundless potential	47
PART 2 IS RECORDS MANAGEMENT NO LONGER FIT FOR PURPOSE?	51
5 The need for critical professional self-examination.....	53
Questions addressed in this chapter	53
The importance of continued professional reinvention.....	53
The gulf between theory and practice	55
6 'Not all information sources are records	59
Questions addressed in this chapter.....	59
The inherent value of records.....	59
The consequences of our focus on records	60
The dangers of being cocooned from change.....	62
The power and value of information	63
7 The centralized command and control ethos.....	67
Questions addressed in this chapter.....	67
Records management as a bottleneck	67
The records manager as jack of all trades, master of none	69
Folksonomy vs taxonomy	71
The death of the classification scheme?	74

The difficulties of applying a classification scheme within the Web 2.0 enabled office	75
Problems of scalability.....	78

8 'Regardless of format'81

Questions addressed in this chapter.....	81
Did the concept of management 'regardless of format' ever really make sense?	81
A world of silos.....	84
The decline of the common underlying storage facility.....	85
Integrated Office 2.0 suites	86

9 Appraisal, retention and destruction89

Questions addressed in this chapter	89
Definitions	89
The origins and traditional rationale for retention management.....	90
The pros and cons of random selection.....	94
Why not keep everything?.....	97
What about the smoking gun?.....	102
But keeping everything is not a panacea either.....	104

10 The problems with applying existing approaches to appraisal in the Web 2.0 world.....109

Questions addressed in this chapter	109
Appraisal theory and reality	109
Scalability.....	111
Scope and detail.....	112
Failure to adequately assess information value alongside evidential value	114
The role of the user and demands placed on them.....	116
Conclusion: one size does not fit all	118

11 The 10 defining principles of Records

Management 2.0	123
Questions addressed in this chapter.....	123
The difficulties of being specific at this point in time	123
The 10 principles of Records Management 2.0.....	125

12 Expanding on the principles.....129

Questions addressed in this chapter.....	129
Principle 1: Scalable to an (almost) infinite degree	129
Principle 2: Comprehensive, with the potential to address all aspects of the management of information throughout its lifecycle.....	133
Principle 3: Independent of specific hardware, software or physical location	139
Principle 4: Extensible and able to absorb new priorities and responsibilities as they emerge	145
Principle 5: Potentially applicable to <i>all</i> recorded information.....	146
Principle 6: Proportionate, flexible and capable of being applied to varying levels of quality and detail as required by the information in question	147
Principle 7: A benefits-led experience for users that offers them a positive incentive to participate.....	151
Principle 8: Marketable to end users, decision makers and stakeholders	155
Principle 9: Self-critical and positively willing to embrace challenge and change	157
Principle 10: Acceptable to, and driven by, the records management community and its practitioners.....	160
