

GLASSES, GLASS-CERAMICS
AND CERAMICS FOR
IMMOBILIZATION OF
HIGHLY
RADIOACTIVE
NUCLEAR WASTES

D. CAURANT • P. LOISEAU
O. MAJERUS
V. AUBIN-CHEVALDONNET
I. BARDEZ • A. QUINTAS

CONTENTS

Acknowledgments		ix
Preface		xi
Chapter 1	Introduction	1
Chapter 2	Composition of HLW Solutions Arising from Nuclear Spent Fuel Reprocessing	9
Chapter 3	Immobilization of Non-Separated or Separated HLW: Principles and Examples	15
Chapter 4	Studies on Specific Matrices for the Immobilization of Long-Lived Radionuclides	43
Chapter 5	Studies on Glasses for the Immobilization of Non-Separated Highly Radioactive Solutions	139
References		321
Index		347
