

Fundamentals of **Basic** **EMERGENCY** **Care**

THIRD EDITION

Richard Beebe
Deborah Funk, MD
Jules Scadden

Table of Contents

<i>About the Authors</i>	xii
<i>Foreword to the Third Edition</i>	xiii
<i>Preface</i>	xv
<i>How to Use This Book</i>	xxiv

CHAPTER 1: FOUNDATIONS OF EMERGENCY MEDICAL SERVICES 2

Unit 1: Introduction to Emergency Medical Services.....	4
Introduction.....	5
History of Emergency Medical Services	6
Modern EMS	11
Conclusion	18
Unit 2: Roles and Responsibilities of the EMT	21
Introduction.....	22
Roles of the EMT.....	23
Responsibilities of the EMT.....	23
Job Description.....	25
Professional Attributes of an EMT	28
Conclusion	34
Unit 3: Legal Responsibilities of the EMT	37
Introduction.....	38
The Legal Responsibilities of an EMT.....	38
Common Allegations Against EMS.....	50
Protection Against Lawsuits.....	53
Conclusion	54
Unit 4: Stress and Wellness in EMS.....	58
Introduction.....	59
Stress Defined	59
Conclusion	73

CHAPTER 2: THE HUMAN BODY 76

Unit 5: Anatomy and Physiology of the Human Body.....	78
Introduction.....	79
Anatomy and Physiology.....	79
The Vital Systems.....	83
The Core Systems	96
Accessory Systems	102
Conclusion	117
Unit 6: Pathophysiology	123
Introduction.....	124
Disease	124
Cellular Injury.....	126

Respiratory System.....	128
Circulatory System	135
Conclusion	151

Unit 7: Life Span Development.....	157
Introduction.....	158
Human Development.....	158
Conception	159
Infancy.....	159
First Year Physical Development	160
Mental Development.....	160
Psychosocial Development	161
Toddler	161
Preschooler.....	162
School Age.....	163
Adolescence	164
Early Adulthood	165
Middle Adulthood	166
Late Adulthood	167
Conclusion	169

CHAPTER 3: ESSENTIALS OF EMERGENCY MEDICAL CARE 172

Unit 8: Infection Control	174
Introduction.....	175
Infectious Disease.....	175
Causes of Disease.....	178
Defense Against Disease.....	181
Infection Control Preparation	187
Legal Obligations	195
Conclusion	199
Unit 9: Basic Airway Control	206
Introduction.....	207
Anatomy Review	207
Physiology	210
Personal Protective Equipment.....	210
The Open Airway.....	210
Airway Assessment.....	212
Airway Suctioning.....	213
Securing the Airway.....	215
Conclusion	216
Unit 10: Respiratory Support	224
Introduction.....	225
Breathing Reviewed	225
Assessment of Breathing	226
Oxygen Therapy	230
Oxygen Delivery Systems	232
Oxygen Delivery Devices	235

Artificial Ventilation	238	Risk Mitigation	380
Conclusion	246	Conclusion	389
Unit 11: Circulation and Shock	255	Unit 16: Primary Assessment	395
Introduction	256	Introduction	396
Perfusion	256	The Primary Assessment	396
Hypoperfusion	257	Determine Patient Priority	403
Physiologic Response to Shock	261	Conclusion	404
Assessment	265	Unit 17: Therapeutic Communications	409
Management of Hypoperfusion	268	Introduction	410
Transport	271	Process of Communication	410
Conclusion	272	Interviewing Techniques	414
Unit 12: Baseline Vital Signs	277	Mistakes in Communication	417
Introduction	278	Obstructions to Communication	417
Baseline Vital Signs	278	Death and Dying	421
Reassessment of the Baseline Vital Signs	288	Conclusion	423
Conclusion	288	Unit 18: History Taking	426
Unit 13: Basic Pharmacology	296	Introduction	427
Introduction	297	Event History	427
Principles of Pharmacology	297	History Collection	428
Medication Administration Procedure	303	Components of Patient History	428
Administered and Assisted Medications	308	Techniques	430
Conclusion	316	Standardized Approach	430
Unit 14: Lifting and Moving Patients	322	Conclusion	439
Introduction	323	Unit 19: Secondary Assessment	442
Back Injuries	323	Introduction	443
Back Care	324	History	444
Body Mechanics	326	Physical Examination Approach	444
Planning a Move	329	Physical Examination Techniques	446
Emergency Moves	330	Detailed Physical Examination	450
Non-Urgent Moves	334	Conclusion	458
Off-Road Stretchers	337	Unit 20: Reassessment	463
Off-Road Carry	338	Introduction	464
Packaging the Patient	340	Reassessment	464
Transferring to the Ambulance	341	Conclusion	468
Transferring to the Hospital Bed	342	Unit 21: EMS System Communication	472
Conclusion	343	Introduction	474
CHAPTER 4:		Communications Systems	474
GENERAL PRINCIPLES		System Components	475
OF PATIENT ASSESSMENT	366	Basic Radio Operation	479
Unit 15: Scene Size-Up	368	Initial Radio Communications	480
Introduction	369	Hospital Communications	480
History of Safety in EMS	369	Interpersonal Communication	485
Scene Approach	371	Conclusion	485
Scene Size-Up	372	Unit 22: Medical Terminology	488
Identifying Hazardous Conditions	375	Introduction	489
		Anatomy of Medical Terminology	489

Pronunciation.....	494
Spelling.....	496
Topographic Anatomy.....	496
Abbreviations.....	498
Conclusion.....	503

Unit 23: Documentation 506

Introduction.....	507
The Record.....	507
Documentation Format.....	509
Principles of Documentation.....	515
Special Incident Reports.....	517
Multiple-Casualty Incident (MCI).....	520
Patient Refusal Documentation.....	520
Conclusion.....	523

CHAPTER 5: EMERGENCY MEDICAL CARE 526

Unit 24: Resuscitation 528

Introduction.....	529
Cardiac Arrest.....	529
Cardiac Arrest and CPR.....	535
The Automated External Defibrillator.....	545
Post-Response.....	552
Conclusion.....	553

Unit 25: Chest Pain..... 559

Introduction.....	560
Anatomy and Physiology Review.....	560
Coronary Artery Disease.....	562
Conclusion.....	572

Unit 26: Shortness of Breath..... 575

Introduction.....	576
Anatomy Review.....	576
Physiology Review.....	578
Normal Breathing.....	580
Respiratory Distress.....	581
Causes of Shortness of Breath.....	586
Conclusion.....	594

Unit 27: Altered Mental Status 598

Introduction.....	599
Mental Status.....	599
Causes of Altered Mental Status.....	600
Stroke.....	600
Diabetes Mellitus.....	608
Seizure Disorders.....	615
Headache.....	619
Conclusion.....	620

Unit 28: Abnormal Behavior 624

Introduction.....	625
Behavioral Emergency.....	625
Psychiatric Disorders.....	634
Conclusion.....	642

Unit 29: Abdominal Pain..... 646

Introduction.....	647
Anatomy Review.....	647
Types of Abdominal Pain.....	648
Causes of Abdominal Pain.....	649
Assessment.....	654
Management.....	656
Transport.....	656
Conclusion.....	656

Unit 30: Bariatrics..... 660

Introduction.....	661
History and Physical Examination.....	663
Treatment.....	664
Transportation.....	665
Conclusion.....	667

Unit 31: Rashes and Fevers 670

Introduction.....	671
Diseases Associated with Rash and Fever.....	674
EMS Outbreak Response.....	677
Conclusion.....	678

Unit 32: Poisoning 681

Introduction.....	682
Poisoning.....	682
Ingested Poisons.....	685
Inhaled Poisons.....	687
Injected Poisons.....	688
Absorbed Poisons.....	689
Allergic Reactions.....	690
Conclusion.....	694

CHAPTER 6: TRAUMA CARE 698

Unit 33: Trauma Overview: Kinematics and Mechanism of Injury 700

Introduction.....	701
Kinematics of Trauma.....	701
Mechanism of Injury.....	703
Assessment.....	703
Rapid Trauma Assessment.....	705
Management.....	714
Conclusion.....	716

Unit 34: Head, Face, and Traumatic

Brain Injury	722
Introduction.....	723
Anatomy Review.....	723
Types of Injuries.....	723
The Skull.....	732
Traumatic Brain Injury.....	733
Patient Presentation.....	738
Conclusion.....	744

Unit 35: Spinal Injuries.....**748**

Introduction.....	749
Anatomy Review.....	750
Spinal Column Instability.....	753
Mechanism of Injury.....	756
Types of Spinal Cord Injuries.....	759
Signs and Symptoms of Spinal Injury.....	760
Primary Assessment.....	763
Manual Stabilization.....	764
Spinal Immobilization Principles.....	768
Moving Patient to Long Backboard.....	771
Selective Spinal Immobilization.....	777
Transport.....	779
Conclusion.....	779

Unit 36: Chest and Abdominal Injuries.....**792**

Introduction.....	793
Anatomy Review.....	793
Chest Trauma.....	794
Specific Injuries.....	797
Abdominal Trauma.....	805
Conclusion.....	809

Unit 37: Soft Tissue Injuries.....**813**

Introduction.....	814
Anatomy Review.....	814
Bleeding.....	815
Types of Wounds.....	821
Bruising.....	831
Crush Injury.....	832
Burns.....	834
Chemical Burns.....	839
Electrical Burns.....	842
Conclusion.....	844

Unit 38: Bony Injuries.....**848**

Introduction.....	849
Anatomy Review.....	849
Injury.....	850
Injuries to the Shoulder Girdle.....	858
Injuries to the Pelvic Girdle.....	862
Conclusion.....	867

Unit 39: Environmental Emergencies.....**874**

Introduction.....	875
Temperature Regulation.....	875
Cold Exposure.....	880
Heat Exposure.....	883
Water-Related Emergencies.....	886
Altitude Emergencies.....	891
Lightning Strikes.....	891
Bites and Stings.....	893
Conclusion.....	896

CHAPTER 7:**MATERNAL HEALTH****900****Unit 40: Prenatal Complications**.....**902**

Introduction.....	903
Anatomy Review.....	903
Conception and Pregnancy.....	904
Abdominal Pain in Women of Childbearing Age.....	905
Complications Early in Pregnancy.....	907
Complications of Pregnancy.....	909
Blunt Abdominal Trauma.....	911
Conclusion.....	914

Unit 41: Emergency Childbirth and Newborn Care.....**917**

Introduction.....	918
Anatomy Review.....	918
Normal Childbirth.....	919
Emergency Childbirth.....	921
Special Delivery Scenarios.....	924
Postdelivery Care.....	929
Newborn Care.....	929
Primary Assessment of the Newborn.....	929
Secondary Assessment of the Newborn.....	932
Newborn Resuscitation.....	934
Conclusion.....	937

CHAPTER 8:**CHILDHOOD EMERGENCIES****944****Unit 42: Pediatric Medical Emergencies**.....**946**

Introduction.....	947
Normal Childhood Development.....	947
Anatomical Differences.....	950
General Considerations.....	951
Common Pediatric Illnesses.....	954
Airway Problems.....	955
Trouble Breathing.....	957
Hypoperfusion.....	961
Cardiac Arrest.....	962

SIDS	962
Altered Mental Status.....	962
Stress in Caring for Children.....	964
Conclusion	965

Unit 43: Pediatric Trauma Emergencies.....969

Introduction.....	970
Pediatric Trauma Assessment.....	970
Blunt Trauma.....	974
Conclusion	981

Unit 44: Child Abuse and Neglect.....984

Introduction.....	985
Child Abuse.....	986
Physical Examination.....	989
Assessment.....	992
Treatment.....	993
Disposition and Documentation.....	993
Conclusion	994

Unit 45: Children with Special Challenges.....997

Introduction.....	998
Children with Special Challenges.....	998
Technology-Assisted Devices.....	1002
Physical Disabilities.....	1006
Cognitive Disability.....	1009
Behavioral Disabilities.....	1011
Conclusion	1012

CHAPTER 9: GERIATRIC EMERGENCIES 1016

Unit 46: Medical Emergencies.....1018

Introduction.....	1019
The Aging of Society.....	1019
Physiologic Changes Associated with Aging.....	1020
Assessment of the Elderly Patient.....	1023
General Medical Considerations in the Elderly.....	1024
Common Illnesses in the Elderly.....	1025
Conclusion	1031

Unit 47: End of Life Issues.....1034

Introduction.....	1035
Advance Directives.....	1035
Standard Comfort Measures.....	1044
Conclusion	1045

CHAPTER 10: EMS OPERATIONS 1048

Unit 48: Emergency Vehicle Operations.....1050

Introduction.....	1051
Readiness.....	1051
Daily Preparation.....	1058
Response.....	1058
Arrival.....	1069
Conclusion	1074

Unit 49: Incident Command and Multiple-Casualty Incidents.....1077

Introduction.....	1078
Multiple Patient Encounters.....	1078
National Incident Management Systems.....	1079
Multiple-Casualty Incidents.....	1081
EMS Operations Sector.....	1084
Conclusion	1093

Unit 50: Hazardous Materials.....1097

Introduction.....	1098
Conclusion	1106

Unit 51: Emergency Response to Terrorism.....1110

Introduction.....	1111
Terrorism Defined.....	1111
Emergency Response to Terrorism.....	1112
Weapons of Mass Destruction.....	1113
Preparedness.....	1117
Conclusion	1121

Unit 52: Vehicle Extrication and Rescue Operations.....1125

Introduction.....	1126
Phases of the Rescue.....	1126
Vehicle Extrication.....	1130
Water Rescue.....	1135
Search and Rescue.....	1137
Conclusion	1142

Unit 53: Emergency Incident Rehabilitation.....1146

Introduction.....	1147
Fire Ground Hazards.....	1147
Conclusion	1155

Unit 54: Air Medical Transport.....1158

Introduction.....	1159
-------------------	------

History.....	1159
Current State of Air Medicine in the United States	1160
Scene Missions.....	1162
Interfacility Missions.....	1165
Contraindications for Air Medical Transport	1166
Operations.....	1166
Aircraft Capabilities.....	1171
Cost and Reimbursement.....	1173
Safety.....	1174
Conclusion	1175

Unit 55: Farm Emergency Operations..... 1178

Introduction.....	1179
Farm Emergencies.....	1179
Farm Rescue Principles.....	1183
Conclusion	1190

Glossary..... 1194

Index..... 1226
