

This INTERNATIONAL STUDENT EDITION is not to be sold or purchased in North America and contains content that is different from its North American version.

Seeley's
Principles of
Anatomy & Physiology

Philip Tate

McGraw-Hill INTERNATIONAL EDITION

Contents

Preface viii

Chapter 1 **The Human Organism**

Introduction 1
Anatomy and Physiology 2
Structural and Functional Organization 2
Characteristics of Life 4
Homeostasis 7
Terminology and the Body Plan 10

Chapter 2 **The Chemical Basis of Life**

Introduction 21
Basic Chemistry 22
Chemical Reactions 28
Acids and Bases 31
Inorganic Chemistry 32
Organic Chemistry 33

Chapter 3 **Cell Structures and Their Functions**

Introduction 45
Cell Organization and Functions 46
Plasma Membrane 48
Movement Through the Plasma Membrane 49
Cytoplasm 58
The Nucleus and Cytoplasmic Organelles 59
Protein Synthesis 65
Cell Division 69
Differentiation 72

Chapter 4 **Tissues, Glands, and Membranes**

Introduction 77
Tissues and Histology 78
Embryonic Tissue 78
Epithelial Tissue 78
Connective Tissue 86

Muscle Tissue 94
Nervous Tissue 96
Membranes 97
Inflammation 97
Tissue Repair 98
Tissues and Aging 101

Chapter 5 **Integumentary System**

Introduction 105
Functions of the Integumentary System 106
Skin 106
Subcutaneous Tissue 111
Accessory Skin Structures 112
Summary of Integumentary System Functions 116
The Integumentary System as a Diagnostic Aid 118
Skin Cancer 118
Effects of Aging on the Integumentary System 120

Chapter 6 **Histology and Physiology of Bones**

Introduction 123
Functions of the Skeletal System 124
Cartilage 124
Bone Histology 125
Bone Anatomy 128
Bone Development 130
Bone Growth 132
Bone Remodeling 136
Bone Repair 139
Calcium Homeostasis 140
Effects of Aging on the Skeletal System 141

Chapter 7 **Anatomy of Bones and Joints**

Introduction 147
General Considerations of Bones 148

Axial Skeleton 149
Appendicular Skeleton 165
Articulations 177
Classes of Joints 177
Types of Movement 182
Description of Selected Joints 185
Effects of Aging on the Joints 190

Chapter 8 **Histology and Physiology of Muscles**

Introduction 195
Functions of the Muscular System 196
General Functional Characteristics of Muscle 196
Skeletal Muscle Structure 197
Sliding Filament Model 200
Physiology of Skeletal Muscle Fibers 202
Physiology of Skeletal Muscle 209
Types of Skeletal Muscle Fibers 216
Muscular Hypertrophy and Atrophy 218
Effects of Aging on Skeletal Muscle 219
Smooth Muscle 219
Cardiac Muscle 222

Chapter 9 **Gross Anatomy and Functions of Skeletal Muscles**

Introduction 227
General Principles 228
Head and Neck Muscles 232
Trunk Muscles 239
Scapular and Upper Limb Muscles 244
Hip and Lower Limb Muscles 253
Bodybuilding 261

Chapter 10 **Functional Organization of Nervous Tissue**

Introduction 265
Functions of the Nervous System 266

Parts of the Nervous System 266
Cells of the Nervous System 267
Organization of Nervous Tissue 271
Electric Signals 271
The Synapse 283
Neuronal Pathways and Circuits 292

Chapter 11

Central and Peripheral Nervous Systems

Introduction 297
Spinal Cord 298
Reflexes 302
Nerves 306
Brainstem 314
Cerebellum 316
Diencephalon 317
Cerebrum 319
Meninges, Ventricles, and Cerebrospinal Fluid 322
Blood Supply to the Brain 327
Cranial Nerves 327

Chapter 12

Integration of Nervous System Functions

Introduction 341
Sensation 342
Control of Skeletal Muscles 350
Other Brain Functions 356
Effects of Aging of the Nervous System 361

Chapter 13

Special Senses

Introduction 367
Olfaction 368
Taste 369
Visual System 370
Hearing and Balance 387
Effects of Aging on the Special Senses 399

Chapter 14

Autonomic Nervous System

Introduction 405
Contrasting the Somatic and Autonomic Nervous Systems 406
Anatomy of the Autonomic Nervous System 406

Physiology of the Autonomic Nervous System 411

Regulation of the Autonomic Nervous System 416

Functional Generalizations About the Autonomic Nervous System 418

Chapter 15

Endocrine System

Introduction 423
Overview of the Endocrine System 424
Pituitary Gland and Hypothalamus 433
Thyroid Gland 439
Parathyroid Glands 444
Adrenal Glands 445
Pancreas 450
Hormonal Regulation of Nutrients 453
Testes and Ovaries 454
Pineal Body 454
Other Endocrine Organs 455
Hormonelike Substances 457
Effects of Aging on the Endocrine System 457

Chapter 16

Blood

Introduction 463
Functions and Composition of Blood 464
Plasma 465
Formed Elements 465
Preventing Blood Loss 470
Blood Grouping 475
Diagnostic Blood Tests 479

Chapter 17

The Heart

Introduction 487
Functions of the Heart 488
Location, Shape, and Size of the Heart 488
Anatomy of the Heart 489
Histology of the Heart 497
Electrical Activity of the Heart 498
Cardiac Cycle 503
Mean Arterial Blood Pressure 508
Regulation of the Heart 509

The Heart and Homeostasis 510
Effects of Aging on the Heart 513

Chapter 18

Blood Vessels and Circulation

Introduction 519
Functions of the Peripheral Circulation 520
General Features of Blood Vessel Structure 520
Pulmonary Circulation 525
Systemic Circulation: Arteries 525
Systemic Circulation: Veins 535
Physiology of Circulation 544
Control of Blood Flow 549
Regulation of Mean Arterial Pressure 551
Examples of Cardiovascular Regulation 557

Chapter 19

Lymphatic System and Immunity

Introduction 565
Lymphatic System 566
Immunity 572
Innate Immunity 574
Adaptive Immunity 578
Immune Interactions 589
Immunotherapy 589
Acquired Immunity 591
Effects of Aging on the Lymphatic System and Immunity 596

Chapter 20

Respiratory System

Introduction 601
Functions of the Respiratory System 602
Anatomy and Histology of the Respiratory System 602
Ventilation 613
Measurement of Lung Function 617
Gas Exchange in the Lungs 619
Oxygen and Carbon Dioxide Transport in the Blood 620
Regulation of Ventilation 626
Respiratory Adaptations to Exercise 631
Effects of Aging on the Respiratory System 631

Chapter 21

Digestive System

Introduction 639
Functions of the Digestive System 640
Histology of the Digestive Tract 640
Peritoneum 641
Oral Cavity 643
Pharynx 647
Esophagus 648
Swallowing 648
Stomach 650
Small Intestine 656
Liver and Gallbladder 659
Pancreas 664
Large Intestine 667
Digestion, Absorption, and Transport 671
Effects of Aging on the Digestive System 676

Chapter 22

Nutrition, Metabolism, and Temperature Regulation

Introduction 685
Nutrition 686
Metabolism 695
Carbohydrate Metabolism 696
Lipid Metabolism 703
Protein Metabolism 704
Interconversion of Nutrient Molecules 705
Metabolic States 707

Metabolic Rate 707
Body Temperature Regulation 710

Chapter 23

Urinary System and Body Fluids

Introduction 717
Functions of the Urinary System 718
Kidney Anatomy and Histology 718
Urine Production 723
Hormonal Regulation of Urine Concentration and Volume 734
Urine Movement 739
Effects of Aging on the Kidneys 742
Body Fluids 743
Regulation of Intracellular Fluid Composition 744
Regulation of Body Fluid Concentration and Volume 745
Regulation of Specific Electrolytes in the Extracellular Fluid 747
Regulation of Acid–Base Balance 752

Chapter 24

Reproductive System

Introduction 765
Functions of the Reproductive System 766
Meiosis 766
Anatomy of the Male Reproductive System 767
Physiology of the Male Reproductive System 776
Anatomy of the Female Reproductive System 781

Physiology of the Female Reproductive System 790
Effects of Aging on the Reproductive System 799

Chapter 25

Development and Genetics

Introduction 805
Prenatal Development 806
Labor 826
The Newborn 828
Lactation 831
Genetics 832

Appendices

- A** Periodic Table of the Elements A-1
- B** Scientific Notation A-2
- C** Solution Concentrations A-3
- D** pH A-4
- E** Answers to Review and Comprehension Questions A-5
- F** Answers to Critical Thinking Questions A-6
- G** Answers to Predict Questions A-18

Glossary G-1

Credits C-1

Index I-1
