

MRI of Bone and Soft Tissue Tumors and Tumorlike Lesions

Differential Diagnosis and Atlas

Steven P. Meyers

Table of Contents

Introduction.....	1
-------------------	---

Differential Diagnosis Tables

1 Tumors and tumorlike lesions involving the skull and facial bones.....	18
2 Tumors and tumorlike lesions involving the spine....	38
3 Paraspinal tumors and tumorlike lesions.....	64
4 Lesions involving the outer surface of bone.....	76
5 Lesions associated with thickening of bone cortex....	104
6 Intramedullary lesions associated with expansion of intact cortical margins.....	117
7 Intramedullary lesions associated with cortical destruction and extrasosseous extension.....	128
8 Solitary intramedullary lesions with well-circumscribed margins.....	140
9 Solitary intramedullary lesions with poorly defined margins of abnormal marrow signal.....	150
10 Solitary intramedullary lesions located near the ends of tubular bones.....	163
11 Solitary intramedullary metadiaphyseal lesions.....	176
12 Solitary intramedullary diaphyseal lesions.....	189
13 Osseous tumors and tumorlike lesions at the hands and feet.....	199
14 Diffuse, multiple, poorly defined and/or multifocal zones of abnormal marrow signal.....	211
15 Lesions that contain cartilage.....	236
16 Tumors and tumorlike lesions within joints.....	247
17 Solitary tumors and tumorlike lesions of the soft tissues located mostly deep to the subcutaneous fat.....	258
18 Tumors and tumorlike lesions of the superficial soft tissues including subcutaneous fat.....	280
19 Lesions involving peripheral nervous tissue.....	305
20 Lesions that contain fat.....	312

Atlas

A 1 Adamantinoma (Also Referred to as Extragnathic Adamantinoma, Adamantinoma of Long Bones, Juvenile Intracortical Adamantinoma).....	325
A 2 Aneurysmal Bone Cyst.....	328
A 3 Bone Cyst (Also Referred to as Simple Bone Cyst, Unicameral Bone Cyst, Solitary Bone Cyst).....	334
A 4 Angiofibroma (Also Referred to as Juvenile Nasopharyngeal Angiofibroma).....	340
A 5 Angiomatoid Fibrous Histiocytoma (Also Referred to as Angiomatoid Malignant Fibrous Histiocytoma).....	342
A 6 Angiosarcoma (Also Referred to as Malignant Hemangioendothelioma, High-Grade Hemangioendothelioma, Hemangiosarcoma, Angioendothelioma, Angiofibrosarcoma, and Hemangioendotheliosarcoma).....	344
A 7 Chondroblastoma.....	347

A 8 Chondroma, Intramedullary Type: Enchondroma (Also Referred to as Intra-osseous Chondroma or Central Chondroma).....	352
A 9 Chondroma, Periosteal or Juxtacortical Type (Also Referred to as Periosteal or Juxtacortical Chondroma, Surface Chondroma, and Juxtacortical/Parosteal Chondroma).....	359
A 10 Chondromyxoid Fibroma.....	364
A 11 Chondrosarcoma.....	368
A 12 Chordoma.....	379
A 13 Dermatofibrosarcoma and Dermatofibrosarcoma Protuberans.....	383
A 14 Dermatomyositis.....	386
A 15 Dermoid and Epidermoid.....	390
A 16 Desmoid Tumor (Also Referred to as Fibromatosis, Superficial and Deep Types Involving Soft Tissues; Desmoplastic Fibroma; Desmoid Tumor within Bone).....	396
A 17 Elastofibroma.....	404
A 18 Eosinophilic Granuloma (Also Referred to as Langerhans Cell Histiocytosis, Formerly Histiocytosis X).....	406
A 19 Erdheim-Chester Disease (Also Referred to as Chester-Erdheim Disease, Lipoid Granulomatosis, and Lipogranulomatosis).....	413
A 20 Ewing Sarcoma.....	416
A 21 Nodular Fasciitis (Also Referred to as Pseudosarcomatous Fasciitis, Proliferative Fasciitis, Infiltrative Fasciitis, and Pseudosarcomatous Fibromatosis).....	423
A 22 Fibrolipomatous Hamartoma (Also Referred to as Nerve Lipoma, Neural Fibrolipoma, Lipofibromatous Hamartoma, Perineural Lipoma, Intraneural Lipoma, Lipofibroma, and Lipomatous Hamartoma).....	426
A 23 Fibroma of the Tendon Sheath.....	428
A 24 Solitary Fibrous Tumor.....	430
A 25 Fibrosarcoma.....	433
A 26 Fibrous Cortical Defect and Nonossifying Fibroma (Also Referred to as Metaphyseal Fibrous Defect), Cortical Desmoid (Also Referred to as Periosteal Desmoid or Distal Femoral Cortical Irregularity), and Fibroxanthoma (Also Referred to as Benign Fibrous Histiocytoma).....	438
A 27 Fibrous Dysplasia (Also Referred to as Fibroosseous Dysplasia, Fibrocartilaginous Dysplasia, and Lichtenstein-Jaffe Disease).....	449
A 28 Geode (Also Referred to as Subchondral Cyst and Osteoarthritic Cyst); Soft Tissue and Intra-osseous Ganglion (Also Referred to as Intra-osseous Ganglion, Juxta-articular Bone Cyst, and Periosteal Ganglion).....	456
A 29 Giant Cell Tumor of Bone.....	462
A 30 Giant Cell Tumor of the Tendon Sheath and/or Soft Tissue (Also Referred to as Nodular Tenosynovitis, Fibrous Xanthoma, Tenosynovial Giant Cell Tumor, and Benign Synovioma).....	469

A 31	Glomus Tumor (Also Referred to as Glomangioma and Angiogliomoid Tumor).....	476	A 54	Myxoma	624
A 32	Gout	479	A 55	Neuroblastoma, Ganglioneuroblastoma, and Ganglioneuroma	627
A 33	Hemangioendothelioma (Also Referred to as Low-grade Hemangioendothelioma, Low-grade Hemangioendothelial Sarcoma, Low-grade Angiosarcoma, and Myxoid Angioblastoma).....	484	A 56	Neurofibroma and Malignant Peripheral Nerve Sheath Tumor	633
A 34	Hemangiomas (Also Referred to as Vascular Hamartomas)	491	A 57	Traumatic Neuroma	642
A 35	Hemangiopericytoma	502	A 58	Osteochondroma (Also Referred to as Osteo-cartilaginous Exostosis).....	645
A 36	Hematoma, Morel-Lavallee Lesion, and Hemophilic Pseudotumor.....	507	A 59	Osteofibrous Dysplasia (Also Referred to as Ossifying Fibroma of the Tibia and/or Fibula, Cortical Fibrous Dysplasia).....	654
A 37	Bone and Muscle Infarct (Also Referred to as Avascular Necrosis and Osteonecrosis).....	512	A 60	Osteoid Osteoma	660
A 38	Kaposi Sarcoma (Also Referred to as Angiosarcoma Multiplex, Kaposi Disease, Idiopathic Multiple Pigmented Sarcoma of the Skin, and Granuloma Multiplex Hemorrhagicum)	519	A 61	Osteoblastoma (Also Referred to as Ossifying Giant Cell Tumor and Giant Osteoid Osteoma).....	668
A 39	Leiomyoma	521	A 62	Osteoma, Enostosis, Osteopoikilosis, and Melorheostosis	674
A 40	Leiomyosarcoma	525	A 63	Osteomyelitis	679
A 41	Leukemia	531	A 64	Osteosarcoma (Also Referred to as Osteogenic Sarcoma and Osteoblastic Sarcoma).....	693
A 42	Lipoblastoma.....	540	A 65	Paget Disease (Also Referred to as Osteitis Deformans)	713
A 43	Lipoma, Atypical Lipoma, and Hibernoma.....	543	A 66	Paraganglioma (Also Referred to as Chemodectoma for Carotid Body Tumor and Glomus Jugulare Tumor for Jugulotympanic Paragangliomas)	721
A 44	Liposarcoma	554	A 67	Pigmented Villonodular Synovitis.....	726
A 45	Liposclerosing Myxofibrous Tumor (Also Referred to as Polymorphic Fibro-osseous Lesion of Bone and Polymorphic Fibrocystic Disease of Bone).....	563	A 68	Pleomorphic Hyalinizing Angiectatic Tumor	730
A 46	Lymphangioma (Also Referred to as Cystic Hygroma)	566	A 69	Rhabdomyosarcoma (Also Referred to as Myosarcoma, Malignant Rhabdomyoma, Rhabdosarcoma, and Embryonal Sarcoma).....	732
A 47	Lymphoma.....	570	A 70	Rheumatoid Arthritis.....	738
A 48	Malignant Fibrous Histiocytoma (Also Referred to as Malignant Histiocytoma, Xanthosarcoma, Malignant Fibrous Xanthoma, and Fibroxanthosarcoma).....	584	A 71	Sarcoid	744
A 49	Meningioma.....	594	A 72	Schwannoma (Also Referred to as Neurilemoma and Neurinoma)	747
A 50	Metastatic Lesions	601	A 73	Synovial Chondromatosis (Also Referred to as Primary and Secondary Chondromatosis, and Synovial Chondrometaplasia), and Synovial Osteochondromatosis	753
A 51	Morton Neuroma	609	A 74	Synovial Cyst	758
A 52	Multiple Myeloma (Also Referred to as Myeloma, Kahler Disease, and Plasma Cell Neoplasm; Plasmacytoma Represents a Solitary Neoplastic Variant).....	611	A 75	Synovial Sarcoma (Also Referred to as Carcinosarcoma and Spindle Cell Carcinoma of Soft Tissue)...	762
A 53	Myositis Ossificans (Also Referred to as Heterotopic Ossification, Reactive Mesenchymal Proliferation, Ossifying Hematoma, and Pseudomalignant Osseous Tumor of Soft Tissues)	618	A 76	Teratoma.....	769
			A 77	Xanthoma	773
				Subject Index.....	775
