

Fundamentals *of* Entomology

Sixth Edition

Richard J. Elzinga

Contents

	PREFACE	xi
1	THE ARTHROPOD PLAN	1
	Segmentation and Tagmosis	2
	Exoskeleton	4
	Species Numbers	9
	Key to the Common Adults of the Arthropod Classes	10
	Arthropod Classes	10
	Summary	27
	Questions	27
2	THE INSECT EXTERNALLY	28
	The Head	28
	The Thorax	46
	The Abdomen	60
	Summary	65
	Questions	67
3	THE INSECT INTERNALLY	68
	Digestive System	68
	Circulatory System	77
	Tracheal System and Respiration	79

	Muscular System	85
	Excretory System	88
	Fat Body	90
	Nervous System	91
	Reproductive System	95
	Summary	106
	Questions	107
4	DEVELOPMENT AND SPECIALIZATION	109
	Embryology	109
	Postembryonic Development	111
	Endocrine and Exocrine Systems	129
	Summary	139
	Questions	140
5	ECOLOGY	141
	Aquatic Environment	142
	Terrestrial Environment	156
	Population Dynamics	172
	Summary	181
	Questions	182
6	BEHAVIOR	183
	Rhythms	185
	Locating Food and Initiating Feeding	185
	Locating Mates and Copulation	189
	Oviposition	198
	Orientation	201
	Migration	201
	Protective Behavior	203
	Concealing Coloration	205
	Revealing Coloration	212
	Mimicry	218
	Summary	222
	Questions	222
7	FROM SOLITARY TO SOCIAL	223
	Isoptera (Termites)	228
	Hymenoptera (Social Wasps, Ants, Social Bees)	234

	Summary	250
	Questions	250
8	PARASITISM BY INSECTS	251
	Ectoparasites	253
	Endoparasites of Invertebrates	261
	Endoparasites of Vertebrates	266
	Social Parasites	268
	Summary	269
	Questions	269
9	PREDATION BY INSECTS	270
	Odonata	270
	Mantodea	273
	Hemiptera	274
	Megaloptera	276
	Neuroptera	277
	Coleoptera	280
	Hymenoptera	284
	Diptera	286
	Summary	288
	Questions	288
10	INSECTS, PLANTS, LIVESTOCK, DOMESTIC ANIMALS, AND HUMANS	289
	Beneficial Aspects	289
	Detrimental Aspects	307
	Insect Conservation	324
	Summary	326
	Questions	326
11	INSECT PEST MANAGEMENT	327
	Legal and Cultural Aspects	331
	Cultural Control	333
	Host-Plant Resistance	334
	Biological Control	337
	Genetic Control	341
	Pheromones and Growth Regulators	342
	Mechanical and Physical Control	343

	Insecticides	344
	Summary	348
	Questions	348
12	HOUSEHOLD INSECTS	349
	Termites	349
	Cockroaches	352
	Fleas	354
	Ants	356
	Stored-Product Insects	358
	Other Insect Pests	360
	Summary	360
	Questions	361
13	CLASSIFICATION	362
	Key to the Orders of Adult Insects Commonly Found in Insect Collections	365
	Key to the Orders of the Most Common Larval and Nymphal Insects Found in Insect Collections	369
	Protura	374
	Diplura	375
	Collembola	375
	Archeognatha	377
	Thysanura	377
	Ephemeroptera	378
	Odonata	380
	Key to the Suborders and Common Families of Adult Odonata	383
	Key to the Common Families of Nymphal Odonata	383
	Blattaria	383
	Mantodea	385
	Phasmida	386
	Orthoptera	387
	Key to the Common Families of Adult and Nymphal Orthoptera	389
	Isoptera	389
	Dermaptera	392
	Embioptera	392
	Plecoptera	393
	Psocoptera	394

Mallophaga	395
Anoplura	396
Thysanoptera	398
Hemiptera	399
Key to the Common Families of Nymph and Adult Hemiptera	401
Megaloptera	411
Neuroptera	412
Key to the Common Families of Adult Neuroptera	414
Key to the Common Families of Larval Neuroptera	414
Coleoptera	415
Key to the Common Families of Coleoptera	420
Key to the Common Families of Larval Coleoptera	426
Hymenoptera	429
Key to the Common Families of Hymenoptera	434
Key to the Common Families of Larval Hymenoptera	437
Mecoptera	438
Trichoptera	439
Lepidoptera	441
Key to the Most Easily Recognizable Families of Adult Lepidoptera	445
Key to the Most Common Families of Larval Lepidoptera	447
Siphonaptera	450
Diptera	451
Key to the Common Families of Adult Diptera	455
Key to the Common Families of Larval Diptera	463

14 MAKING AN INSECT COLLECTION 466

Where and How to Collect	466
Kill Bottle	468
Some Specialized Collecting Techniques	470
Relaxing	471
Pinning	472
Labeling	472
Display and Storage	473
Liquid Preservation	475

GLOSSARY 477
