Contents

Preface vi

Unit I The Context for Community Health Nursing 1

Chapter 1 Community Health Nursing as Advocacy 2

Community Health Nursing: What's in a Name? 4

Defining Community Health Nursing 5

The Mission of Community Health Nursing 5

Community Health Nursing and Advocacy 5

Defining Advocacy 5

Advocacy by Community Health Nurses 6

The Advocacy Process 6

Community Health Nurse Functions in the Advocacy Role 8

Trends in Community Health Nursing Practice 8

Principles of Community Health Nursing 9

Attributes of Community Health Nursing 10

Population Consciousness 10

Orientation to Health 10

Autonomy 11

Creativity 11

Continuity 11

Collaboration 11

Intimacy 11

Variability 12

Standards for Community Health Nursing Practice 12

Community Health Nursing Competencies 13

Roles and Functions of Community Health Nurses 14

Client-Oriented Roles 14

Delivery-Oriented Roles 17

Population-Oriented Roles 19

Chapter 2 The Population Context 25

Defining Populations as a Focus for Care 27

Defining Population Health 27

Changes in Approaches to Population Health 29

Levels of Population Health Care 30

Objectives for Population Health 30

Chapter 3 The Historical Context 37

Historical Roots 39

The Influence of Christianity 40

The Early Church 40

The Middle Ages 40

Other Religious Influences 41

The European Renaissance 41

A New World 41

The Colonial Period 41

Early Public Health Efforts 42

The Industrial Revolution 42

District Nursing in England 45

Visiting Nurses in America 45

Nursing and the Settlement Houses 46

Expanding the Focus on Prevention 47

Standardizing Practice 49

Educating Community Health Nurses 50

Federal Involvement in Health Care 51

The Latter Half of the 20th Century 54

The Present and Beyond 55

Chapter 4 Theoretical Foundations for Community Health Nursing 60

Epidemiologic Perspectives 62

Basic Concepts of Epidemiology 62

Epidemiologic Models 64

General Nursing Models 67

Community Health Nursing Models 69

The Dimensions Model of Community Health Nursing 69

The Interventions Wheel 75

The Los Angeles County Public Health Nursing Practice Model 77

The Community-as-Partner Model 77

Chapter 5 The U.S. Health System Context 82

Forces Influencing Health Care Systems 84

Health Care Delivery in the United States 85

The Popular Health Care Subsystem 85

The Complementary/Alternative Health Care Subsystem 85

The Scientific Health Care Subsystem 86

Levels of Health Care Delivery in the United States 91

Outcomes of Care 95

A National Health Care System? 97

Chapter 6 The Global Context 101

U.S. Involvement in Global Health 103

Essential Public Health Functions: An International Perspective 104

Comparing National Health Systems 105

Locus of Decision Making 105

Expenditures 105

Funding Mechanisms 106

Consumer Choice and Professional Autonomy 108

Access and Coverage 108

Health Outcomes	109
Consumer Satisfaction	111
International Health versus Global Health	111
Global/International Health Agencies	111
Globalization and Its Effects on Health	114
Globalization of Health Care	117
Global Determinants of Health	118
Challenges in the Globalization of Health	118
Building Health Capacity	120
Global Health Issues and Initiatives	120
Nursing and Global Health	129
Chapter 7 The Policy Context	135
Policy and Health	137
Professional Roles in Policy Development	138
Public Health Professionals and Policy Development	138
The Nursing Profession and Policy Development	139
Types of Policies	140
Avenues for Policy Development	141
Legislation	141
Regulation	144
Administrative and Judicial Decisions	144
The Policy Development Process	145
Models of Policy Development	145
Agenda Setting	146
Planning Health Care Policy	146
Evaluating Policy Development	152
Chapter 8 The Economic Context	156
Interrelationships among Economic Factors and Health	158
Societal Productivity and Stability	158
Health Care Spending	159
Socioeconomic Factors and Health Status	161
Financing Health Care Services	165
Financing Public Health Services	165
Financing Personal Health Services	165
Future Directions	175
Chapter 9 The Cultural Context	180
Culture, Race, and Ethnicity	182
Culture and Health	184
Ethnic/Societal Culture and Health	184
Biomedical Culture and Health	184
Ethnic Diversity in the United States	185
Assessing Cultural Influences on Health and Health Care	186
Principles of Cultural Assessment	186

Obtaining Cultural Information	187
Considerations in Cultural Assessment	188
Planning Culturally Competent Care and Delivery Systems	216
Cultural Competence	216
Modes of Culturally Competent Care	218
Evaluating Cultural Competence	223

Chapter 10 The Environmental Context 227

Environment and Health 229

Components of the Human Environment 229

The Natural Environment 229

The Built Environment 234

The Social Environment 236

Interactions among Environmental Components 238

Community Health Nursing and Environmental Health 239

Assessing Environmental Health in Populations 240

Planning to Improve Environmental Health 242

Evaluating Environmental Health Measures 246

Unit II Approaches to Community Health Nursing 251

Chapter 11 Health Promotion 252

Health Promotion and Population Health 254

Models for Health Promotion 256

The Precaution Adoption Process Model 256

The Theory of Reasoned Action 257

The Health Belief Model 257

Pender's Health Promotion Model 257

The PRECEDE-PROCEED Model 258

Strategies for Health Promotion 259

Empowerment 259

Social Marketing 260

Health Education 262

Evaluating Health Promotion Programs 271

Chapter 12 Case Management 275

Defining Case Management 277

Case Management Models 278

Goals of Case Management 279

Functions of Case Managers 279

Standards and Principles of Case Management Practice 281

Ethical and Legal Issues in Case Management 281

Designing Case Management Systems 283

The Case Management Process 284

- Case Selection 284
- Assessing the Case Management Situation 284
- Developing the Case Management Plan 285
- Implementing the Case Management Plan 288
- Evaluating the Process and Outcomes of Case Management 291

Chapter 13 Community Empowerment 296

Empowerment and Related Concepts 298

Levels of Empowerment 300

Models for Community Empowerment 300

Organizing for Community Empowerment 303

- Assessing Communities 303
- Planning Considerations 304
- Implementation Strategies 309
- Evaluating Community Empowerment 311

Community Health Nursing and Community Empowerment 312

Unit III Care of Special Populations 315

Chapter 14 Care of Families 316

Types of Families 318

- Nuclear Conjugal Families 318
- Extended Families 318
- Single-Parent Families 319
- Stepfamilies 319
- Cohabiting Families 320
- Gay and Lesbian Families 320
- Grandparent-Headed Families 320
- Foster Families 320
- Fragmentary Households 321

Theoretical Approaches to Family Nursing 321

- Systems Approaches 321
- Developmental Approaches 323
- Structural-Functional Approaches 324

Care of Families 327

- The Epidemiology of Family Health 327
- Assessing Family Health 338
- Diagnostic Reasoning and Care of Families 344
- Planning and Implementing Health Care for Families 344
- Evaluating Health Care for Families 346

Chapter 15 Care of Populations 349

The Epidemiology of Population Health 351

- Biophysical Considerations 351

Psychological Considerations 352

Physical Environmental Considerations 353

Sociocultural Considerations 354

Behavioral Considerations 355

Health System Considerations 355

Assessing Population Health 356

Incorporating Community Members in Population Health Assessment 356

Data Sources for Population Health Assessment 357

The Population Health Assessment Process 362

Diagnostic Reasoning and Population Health 363

Planning Health Care for Populations 364

- Defining and Prioritizing Population Health Issues 364
- Creating the Planning Group 365
- Analyzing the Issue and Choosing an Intervention 366
- Developing the Program 367
- Setting the Stage for Evaluation 370

Implementing Population Health Care 370

- Plan Acceptance 370
- Tasks of Implementation 371
- Strategies for Implementation 371

Evaluating Population-Based Health Care Programs 372

- Considerations in Program Evaluation 373
- The Evaluation Process 377

Chapter 16 Meeting the Health Needs of Child and Adolescent Populations 382

The Epidemiology of Child and Adolescent Health 384

- Biophysical Considerations 384
- Psychological Considerations 387
- Physical Environmental Considerations 389
- Sociocultural Considerations 390
- Behavioral Considerations 391
- Health System Considerations 394

Assessing the Health Status of Child and Adolescent Populations 395

Diagnostic Reasoning and the Health of Child and Adolescent Populations 398

Planning and Implementing Health Care for Child and Adolescent Populations 399

- Primary Prevention 399
- Secondary Prevention 405
- Tertiary Prevention 413

Evaluating Health Care for Child and Adolescent Populations 414

Chapter 17 Meeting the Health Needs of Women 421

The Epidemiology of Women's Health 423

- Biophysical Considerations 423
- Psychological Considerations 430
- Physical Environmental Considerations 432
- Sociocultural Considerations 432
- Behavioral Considerations 436
- Health System Considerations 437

The Epidemiology of Health for Lesbian, Bisexual, and Transgender Women 438

- Biophysical Considerations 439
- Psychological Considerations 439
- Sociocultural Considerations 441
- Behavioral Considerations 443
- Health System Considerations 443

Assessing Women's Health 444

Diagnostic Reasoning and Care of Women 449

Planning and Implementing Health Care for Women 449

- Primary Prevention 449
- Secondary Prevention 453
- Tertiary Prevention 456

Evaluating Health Care for Women 456

Chapter 18 Meeting the Health Needs of Men 463

The Epidemiology of Men's Health 465

- Biophysical Considerations 465
- Psychological Considerations 468
- Physical Environmental Considerations 469
- Sociocultural Considerations 470
- Behavioral Considerations 472
- Health System Considerations 473

The Epidemiology of Health for Gay, Bisexual, and Transgender Men 474

- Biophysical Considerations 474
- Psychological Considerations 475
- Sociocultural Considerations 476
- Behavioral Considerations 479
- Health System Considerations 480

Assessing the Health of the Male Population 481

Diagnostic Reasoning in the Care of Men 483

Planning and Implementing Health Care for Men 484

- Primary Prevention 484
- Secondary Prevention 486
- Tertiary Prevention 487

Evaluating Health Care for Men 489

Chapter 19 Meeting the Health Needs of Older Clients 494

Theories of Aging 496

The Epidemiology of Health for Older Clients 497

- Biophysical Considerations 498
- Psychological Considerations 504
- Physical Environmental Considerations 506
- Sociocultural Considerations 507
- Behavioral Considerations 512
- Health System Considerations 515

Assessing the Health of the Older Population 519

Diagnostic Reasoning and Care of Older Populations 521

Planning Health Care for Older Populations 522

- Primary Prevention 522
- Secondary Prevention 526
- Tertiary Prevention 534

Implementing Care for Older Populations 537

Evaluating Health Care for Older Populations 539

Chapter 20 Meeting the Needs of Poor and Homeless Populations 546

Overview of Poverty and Homelessness 548

- Defining Poverty and Homelessness 548
- The Magnitude of Poverty and Homelessness 549
- Epidemiologic Factors Affecting the Health of Poor and Homeless Populations 551

Community Health Nursing and Care of Poor and Homeless Populations 561

- Assessing the Health of Poor and Homeless Populations 563
- Diagnostic Reasoning and Care of Poor and Homeless Populations 564
- Planning and Implementing Health Care for Poor and Homeless Populations 565
- Evaluating Care for Poor and Homeless Populations 569

Unit IV Care of Populations in Specialized Settings 574

Chapter 21 Care of Clients in the Home Setting 575

Purposes of Home Visiting Programs 577

- Case Finding and Referral 577
- Health Promotion and Illness Prevention 577
- Care of the Sick 577
- Care of the Dying 578

The Home Visit Process 579

- Initiating the Home Visit 579

Conducting a Preliminary Health Assessment 580
Diagnostic Reasoning and the Home Visit 583
Planning the Home Visit 583
Implementing the Planned Visit 585
Evaluating the Home Visit 587
Documenting Home Visits 588

Advantages of Home Visits 589

Challenges of Home Visiting 590

Home Health and Hospice Care 593

Home Health and Hospice Clients and Services 594
Collaboration in Home Health and Hospice Care 595
Technology and Home Care Services 595
Funding Home Health and Hospice Services 596
Licensing of Home Health and Hospice Services 597
Standards for Home Health and Hospice Nursing 597
Terminating Home Health and Hospice Services 597
Evaluating Home Health and Hospice Services 598

Chapter 22 Care of Clients in Official and
Voluntary Health Agencies 603

**Community Health Nursing in an Official Agency: The
Local Health Department** 605

Legal and Regulatory Parameters of Public Health
Nursing 605
*Public Health Functions and Essential Services in Local
Health Departments* 606
Public Health Personnel 607
Public Health Nursing in a Local Health Department 607

**Community Health Nursing in a Voluntary Agency: A
Faith-based Organization** 616

Historical Foundations of Nursing in a Faith-based
Community 617
Philosophy of Nursing in a Faith-based Community 618
Standards and Competencies for Nursing in a
Faith-based Community 619
Models for Nursing in a Faith-based Community 620
Challenges of Nursing in a Faith-based Community 621
Preparation for Nursing in a Faith-based Community 622
Roles and Functions of Community Health Nurses in a
Faith-based Community 622
Developing Faith Community Nursing Programs 624
*Assessing the Outcomes of Nursing in a Faith-Based
Community* 624

Public Agency/Faith Community Collaboration 625

Chapter 23 Care of Clients in the School
Setting 629

Historical Perspectives 631

The School Health Program 632

Standards and Guidelines for School Health Services 634

Educational Preparation for School Nursing 635

The School Health Team 636

Nursing in School Settings 637

Assessing Health in School Settings 638
Diagnostic Reasoning and Care of Clients in School
Settings 650
Planning to Meet Health Needs in School Settings 650
Implementing Health Care in School Settings 659
Evaluating Health Care in School Settings 660

Chapter 24 Care of Clients in Work Settings 665

Advantages of Providing Health Care in Work Settings 667

Occupational Health Services 667

Occupational Health Nursing 668

Educational Preparation for Occupational Health
Nursing 668
Standards and Competencies for Occupational Health
Nursing 669
Occupational Health Nursing Roles 669

Care of Clients in Work Settings 670

Assessing Health in Work Settings 670
Diagnostic Reasoning and Care of Clients in Work
Settings 686
Planning Nursing Care in Work Settings 686
Implementing Health Care in Work Settings 694
Evaluating Health Care in Work Settings 695

Chapter 25 Care of Clients in Urban and Rural
Settings 701

What Is Urban? What Is Rural? 703

Urban and Rural Populations 704

**The Epidemiology of Health and Illness in Urban and
Rural Populations** 705

Biophysical Considerations 705
Psychological Considerations 707
Physical Environmental Considerations 708
Sociocultural Considerations 710
Behavioral Considerations 713
Health System Considerations 714

Urban and Rural Community Health Nursing 716

Assessing Factors Influencing Health in Urban and Rural
Populations 718
Diagnostic Reasoning and Care of Urban and Rural
Populations 718
Planning and Implementing Care for Urban and Rural
Populations 719
Evaluating Health Care for Urban and Rural
Populations 719

Chapter 26 Care of Clients in Correctional Settings 724

The Correctional Population 727

The Need for Health Care in Correctional Settings 727

The Epidemiology of Health and Illness in Correctional Settings 728

Biophysical Considerations 728

Psychological Considerations 733

Physical Environmental Considerations 734

Sociocultural Considerations 734

Behavioral Considerations 736

Health System Considerations 737

Community Health Nursing in Correctional Settings 740

Standards for Correctional Health Care 740

Ethical Concerns in Correctional Nursing 741

Assessing Health and Illness in Correctional Settings 744

Diagnostic Reasoning and Care of Clients in Correctional Settings 745

Planning and Implementing Health Care in Correctional Settings 745

Evaluating Health Care in Correctional Settings 755

Chapter 27 Care of Clients in Disaster Settings 759

Disaster Trends 761

Types of Disasters 761

Characteristics of Disasters 763

The Role of the Public Health System in a Disaster 764

Elements of a Disaster 765

The Temporal Element: Stages of Disaster Response 765

The Spatial Element 767

The Role Element 769

The Effects Element 773

Community Health Nursing and Disaster Care 773

Disaster-Related Assessment 773

Diagnostic Reasoning and Care of Clients in Disaster Settings 784

Planning: Disaster Preparedness 786

Implementing Disaster Care 796

Evaluating Disaster Care 798

Unit V Population Health Issues 803

Chapter 28 Communicable Diseases 804

Trends in Communicable Disease Occurrence and Effects 806

General Concepts Related to Communicable Diseases 811

Chain of Infection 811

Modes of Transmission 811

Portals of Entry and Exit 812

Incubation and Prodromal Periods 813

Immunity 813

The Epidemiology of Communicable Diseases 814

Biophysical Considerations 814

Psychological Considerations 816

Physical Environmental Considerations 817

Sociocultural Considerations 818

Behavioral Considerations 822

Health System Considerations 823

Community Health Nursing and Control of Communicable Diseases 825

Assessing Risk Factors for Communicable Diseases 825

Diagnostic Reasoning and Control of Communicable Diseases 825

Planning and Implementing Control Strategies for Communicable Diseases 826

Evaluating Communicable Disease Control Strategies 844

Chapter 29 Chronic Physical Health Problems 853

The Effects of Chronic Physical Health Problems 855

Personal and Family Effects 855

Population Effects 857

The Epidemiology of Chronic Physical Health Problems 860

Biophysical Considerations 861

Psychological Considerations 864

Physical Environmental Considerations 865

Sociocultural Considerations 866

Behavioral Considerations 868

Health System Considerations 870

Community Health Nursing and Control of Chronic Physical Health Problems 871

Assessing for Chronic Physical Health Problems 871

Diagnostic Reasoning and Control of Chronic Physical Health Problems 873

Planning and Implementing Control Strategies for Chronic Physical Health Problems 873

Evaluating Control Strategies for Chronic Physical Health Problems 892

Chapter 30 Community Mental Health Problems 900

Trends in Community Mental Health Problems 902

The Effects of Mental Health Problems 904

Personal Effects	904
Family Effects	905
Societal Effects	905
The Epidemiology of Mental Health Problems	906
Biophysical Considerations	906
Psychological Considerations	909
Physical Environmental Considerations	912
Sociocultural Considerations	912
Behavioral Considerations	915
Health System Considerations	915
Community Health Nursing and Control of Mental Health Problems	917
Assessing Community Mental Health Status	917
Diagnostic Reasoning and Community Mental Health Problems	918
Planning and Implementing Control Strategies for Community Mental Health Problems	918
Evaluating Control Strategies for Mental Health Problems	925
Chapter 31 Substance Abuse	930
Psychoactive Substances: Dependence and Abuse	932
Perspectives on Causation in Substance Abuse	933
Psychoactive Substances and Their Use	933
Alcohol	933
Sedatives, Hypnotics, and Anxiolytics	935
Opioids	935
Cocaine	936
Amphetamines	936
Hallucinogens	937
Cannabis	937
Inhalants	937
Steroids	937
Nicotine	938
Effects of Substance Abuse	938
Personal Effects	938
Family Effects	939
Societal Effects	939
The Epidemiology of Substance Abuse	940
Biophysical Considerations	940
Psychological Considerations	943

Sociocultural Considerations	944
Behavioral Considerations	946
Health System Considerations	947
Community Health Nursing and Control of Substance Abuse	948
Assessment	948
Diagnostic Reasoning and Control of Substance Abuse	951
Planning and Implementing Control Strategies for Substance Abuse	951
Evaluating Control Strategies for Substance Abuse	963
Chapter 32 Societal Violence	971
Trends in Societal Violence	973
Family Violence	973
Assault and Homicide	976
Suicide	977
The Epidemiology of Societal Violence	977
Biophysical Considerations	978
Psychological Considerations	982
Physical Environmental Considerations	984
Sociocultural Considerations	984
Behavioral Considerations	989
Health System Considerations	990
Community Health Nursing and Societal Violence	991
Assessing for Societal Violence	991
Diagnostic Reasoning and Societal Violence	991
Planning and Implementing Interventions for Societal Violence	991
Evaluating Control Strategies for Societal Violence	999
Appendices	
Appendix A Quad Council PHN Competencies	1006
Appendix B Cultural Influences on Health and Health-Related Behaviors	1011
Appendix C Nursing Interventions for Common Health Problems in Children	1023
Appendix D Suspected Abuse Report Forms	1025
Index	1027
