

Progress in Biological Control

Biological Control of Rice Diseases

by

Samuel S. Gnanamanickam

Springer

Contents

Preface	v
Acknowledgements	vii
1 Rice and Its Importance to Human Life	1
Origin, History and Spread	2
Nutritional Value of Rice	3
Cultivation Methods and Rice Farming Systems	4
Rice Production	4
Production and Export	4
Worldwide Consumption	5
Place of Rice in the Global Economy	6
Rice Germplasm and Cultivars	6
Potentials for the Future	7
Rice Improvement Towards Nutrition Security	8
Improving Vitamin A Deficiency (VAD): Golden Rice	8
Improving Iron Deficiency-Ferretin Rice	8
Improving Protein Content in Rice: Expression of Human Proteins	9
Rice Pests and Diseases	9
References	10
2 Major Diseases of Rice	13
Blast (Bl)	14
Pathogen: <i>Magnaporthe oryzae</i>	14
Causal Organism	14
Parts of Rice Plant Infected and Symptoms	15
Disease Cycle	16
Management of Blast	16
Resistant Cultivars	17
Crop Diversification as an Ecological Method of Blast Control (Zhu et al., 2000)	19

Sheath Blight (ShB)	20
Pathogen: <i>Rhizoctonia solani</i> Kuhn [<i>Thanatephorus cucumeris</i> (Frank) Donk]	20
Symptoms	20
Host Range	21
Distribution of the Disease	22
Disease Cycle	22
Characteristics of the Pathogen	22
Pathogen Populations	23
Disease Management	25
Chemical Control	26
Bacterial Blight (BB)	26
Pathogen: <i>Xanthomonas oryzae</i> pv. <i>oryzae</i>	26
BB Pathogen: Morphology and Taxonomy	26
Symptoms	27
Yield Losses	28
Disease Cycle	28
Bacterial Blight Management	29
Chemical Control	29
Host Resistance and R Genes	29
Pyramiding of R-Genes	30
Sheath-Rot	31
Pathogen: <i>Sarocladium oryzae</i> (Sawada) W. Gams and D. Hawksw	31
Rice Tungro Disease (RTD)	32
Pathogen: Rice Tungro Bacilliform Virus (RTBV) and Rice Tungro Spherical Virus (RTSV)	32
Pathogen	32
Symptoms	33
Yield Loss	33
Disease Management	34
Transgenic Rice for RTD Management	34
Other Diseases	34
Brown Leaf Spot (Pathogen: <i>Bipolaris oryzae</i> ; <i>Cochliobolus miyabeanus</i>)	34
Stem Rot (Pathogen: <i>Sclerotium oryzae</i>)	35
References	36

3 An Overview of Progress in Biological Control	43
Beginnings of Rice Biological Control Research and Recent Progress in Pathogens and Biocontrol Agents	43
Studies on the Development of Bacterial Biocontrol	
Agents for Rice Diseases	44
Mechanisms of Biological Disease Suppression: Recent Advances with PGPR Strains	46
Role of Antibiotics and Secondary Metabolites in Disease Suppression	46

Transgenic Plants in Rice Disease Management	48
References	48
4 Biological Control of Rice Blast	53
Antagonistic Bacteria as Biocontrol Agents	53
<i>Pseudomonas</i> and <i>Bacillus</i> spp.	53
<i>Erwinia ananas</i> Transformed with Chitinase Gene of <i>Serratia</i>	56
Other Biocontrol Agents	57
Method of Application of Bacterial Biocontrol Agent.....	57
Fungi as Biocontrol Agents	58
Non-Pathogens: Phylloplane Fungi and Freeze-Killed Mycelium	58
Avirulent/Weakly Virulent Isolates of <i>M. Oryzae</i>	58
Transformation of Rice for Blast Control	59
Transgenic Rices of Indica Rice Cultivars, IR50 and CO39 for Blast Control ..	60
Other Transgenic Rices for Chimeric and Non-rice Genes	62
References	63
5 Biological Control of Bacterial Blight of Rice	67
Pathogen: <i>Xanthomonas oryzae</i> pv. <i>oryzae</i>	67
Need for Biological Control	67
Plant-Associated Bacteria as Biocontrol Agents	67
Net-House and Field Experiments	69
Evaluation of DAPG-Producing <i>P. fluorescens</i> for Suppression of BB	70
Mechanism(s) of BB Suppression	70
Enhancement of Rice Growth due to <i>Bacillus</i> Treatments	72
Lysobacter	74
Bacteriocinogenic Strains of <i>X. oryzae</i> pv. <i>oryzae</i>	74
Epiphytic <i>Erwinia herbicola</i>	74
Transgenic Rices for BB Management	74
Bioassay for Bacterial Blight Resistance.....	75
References	76
6 Biological Control of Sheath Blight (ShB) of Rice	79
Pathogen: <i>Rhizoctonia solani</i> Kuhn AG1- IA (<i>Thanetophorus cucumeris</i>)	
(Frank) Donk	79
Biological Control Agents	79
Bacteria	79
Plant-Associated Bacteria	80
Fungi	85
Soil Amendments, AM Fungi and Their Integration	85
Cultural Practices/Soil Conditions	86
Transgenic Rice and ShB Control	86
References	87

7 Biological Control of Sheath-Rot and Other Fungal Diseases	91
Sheath-Rot (Sh-R)	91
Stem Rot	92
Bakanae	92
References	93
 8 Biological Control of Rice Tungro Disease (RTD)	95
Conventional Biocontrol Agents	95
Transgenic Rice for RTD Management	95
Rice Tungro Spherical Virus (RTSV)	96
Rice Tungro Bacilliform Virus (RTBV)	96
Cultural Practices for RTD Management	97
References	97
 Index	99
