Fourth Edition

# Motor Learning and Performance

## A Situation-Based Learning Approach

*Includes access to*
- *online study guide*
- *20 experiential labs*

Richard A. Schmidt
Craig A. Wrisberg

PART ONE

## INTRODUCTION TO MOTOR PERFORMANCE AND LEARNING 1

### Chapter 1 Getting Started 2

Preview 3
Overview 4
Motor Skill: What Is It? 4
The Chicken and the Egg: Motor Performance and Motor Learning 11
Situation-Based Approach to Motor Performance and Learning 15
Summary 21
From Principles to Practice 22

### Chapter 2 Processing Information and Making Decisions 24

Preview 25
Overview 26
Information-Processing Approach 26
Reaction Time and Decision Making 31
Information Processing Under Conditions of High and Low Arousal and Anxiety 39
Attentional Capacity: A Limitation to Information Processing 44
Three Memory Systems 54
Summary 57
From Principles to Practice 58

PART TWO

## PRINCIPLES OF HUMAN SKILLED PERFORMANCE 61

### Chapter 3 Sensory Contributions to Skilled Performance 62

Preview 63
Overview 64
Sources of Sensory Information 64
Closed-Loop Control Systems 68
Reflexive Modulations in Movement Skills 77
Role of Two Visual Systems in Movement Control 89
Visual Control of Motor Performance 90
Summary 101
From Principles to Practice 102

### Chapter 4 Movement Production and Motor Programs 104

Preview 105
Overview 106
Motor Program Concept 107
Open-Loop Control Within the Conceptual Model 110
*Generalized Motor Programs* 123
Summary 129
From Principles to Practice 130

### Chapter 5 Principles of Motor Control and Movement Accuracy 132

Preview 133
Overview 134
Relative Timing 134
Determinants of Accuracy in Rapid Movements 141
Combining the Principles: A Batting Example 152
Summary 157
From Principles to Practice 158

### Chapter 6 Individual Differences and Motor Abilities 160

Preview 161
Overview 162
Concept of Individual Differences 162
Abilities and Individual Differences 163
Summary 183
From Principles to Practice 184

PART THREE

## PRINCIPLES OF SKILL LEARNING 187

### Chapter 7 Preparing for the Learning Experience 188

Preview 189
Overview 190
Defining the Learning Experience 191
The Learner 195
Assessing Progress 203
Summary 214
From Principles to Practice 216

### Chapter 8 Supplementing the Learning Experience 218

Preview 219
Overview 220
Preliminary Considerations 220
Skill Presentation Techniques 228
Forms of Practice 238
Summary 250
From Principles to Practice 252

### Chapter 9 Structuring the Learning Experience 254

Preview 256
Overview 256
Practicing Several Skills 256
*Varied Practice: Practicing Several Versions of the Same Skill* 270
Random or Blocked Practice Versus Varied or Constant Practice 275
Combining Random and Varied Practice 276
Practicing for Consistent and Varied Mapping 277
Summary 278
From Principles to Practice 280

### Chapter 10 Providing Feedback During the Learning Experience 282

Preview 284
Overview 284
Classifying Feedback 284
Properties of Extrinsic Feedback 290
Practical Considerations When Providing Information Feedback 295
Summary 316
From Principles to Practice 318

PART FOUR

## INTEGRATION AND APPLICATIONS - - - - - - - - -321

### Chapter 11 Facilitating Learning and Performance 322

Preview 323
Overview 324
Working Strategy for Providing Instructional Assistance 324
Four Case Studies 328
Assessment of Learner Progress 346
Summary 347

### Chapter 12 Applying the Principles of Skill Learning 350

Preview 351
Overview 352
Now It's Your Turn 352
Example 356
Final Comment 363

Appendix 365
