

A Systems Approach

## SOLID NASIE

Analysis & Minimization

Matthew J. Franchetti

## **CONTENTS**

Preface	xiii
Part 1 Why Solid Waste Reduction?	
Chapter 1 Definition of Solid Waste Analysis and Minimization  1.1 Introduction 3	3
<ul><li>1.2 Definitions 5</li><li>1.3 The Hierarchy of Solid Waste Management 9</li><li>1.4 The Three Rs and the Two Es 10</li></ul>	
<ul><li>1.5 The Systems Approach for Waste Minimization 12</li><li>1.6 Summary 18</li></ul>	
Chapter 2 Background and Fundamentals of Solid Waste Analysis and Minimization	24
<ul> <li>2.1 Introduction 21</li> <li>2.2 A Brief History of Solid Waste Management 22</li> <li>2.3 Environmental Laws and Regulations 28</li> <li>2.4 Solid Waste Generation around the World 33</li> <li>2.5 An Overview of Environmental Concerns 39</li> <li>2.6 Industrial Ecology and Solid Waste Exchanges 44</li> <li>2.7 Life Cycle Assessment 49</li> <li>2.8 Fundamentals of Recycling Processes 53</li> <li>2.9 Common Problems and the Human Factors of Recycling Systems 58</li> <li>2.10 Related Research 61</li> <li>2.11 Summary 73</li> </ul>	21
Chapter 3 Benefits of Solid Waste Management and Minimization  3.1 Introduction 75 3.2 Environmental Benefits 76 3.3 Economic Benefits 78 3.4 Corporate Image Benefits 80 3.5 Personal and Social Benefits 80 3.6 Summary 80	75

## Part 2 Solid Waste Assessment Strategies

Chapter 4	Deployment Alternatives	83
4.1	The Deployment of Solid Waste Minimization 83	
	Choosing a Waste Minimization Provider or Partner 85	
	Essential Elements of the Deployment Plan 86	
	Summary 88	
Chanter 5	Creating a Successful Solid Waste	
	on Launch	89
		09
	Introduction 89	
	Executive Leadership 90	
	Strategic Goals 90	
	Resources 92	
	Metrics 94	
	Culture 95	
	Communications 95	
5.8	Lessons Learned 96	
5.9	Summary 97	
Chapter 6	The Six Sigma Systems Approach for Deployment	99
	Introduction 99	
6.2	Define 101	
6.3	Measure 106	
• • • •	Analyze 106	
	Improve 107	
	Control 108	
	Summary 109	
0.7	Summary 109	
Chapter 7	Motrice and Devicements Magazine	
Chapter 7	Metrics and Performance Measurement	
	#	111
	Introduction 111	
	Solid Waste Quantity Measurement 111	
	Business and Financial Measurement 113	
7.4	Customer and Stakeholder Satisfaction Measurements 115	
7.5	Summary 118	
Chapter 8	The General Approach for a Solid	
<b>Waste Ass</b>		119
8.1	Introduction to the Systems Approach Framework 119	
	Step 1: Establish the Team and Define the Project 120	
	Step 2: Existing Record Review 127	
9.5		
0.0	Step 4: Solid Waste Sorts 139	
	Step 5: Data Analysis 142	
	Step 6: Identify Major Waste Minimization Opportunities 149	
8.8	Step 7: Determine, Evaluate, and Select Waste	
2.5	Minimization Alternatives 151	
8.9	Case Study—Potential Recycling Strategies 170	

	Case Study—Major Waste Streams 172	
8.11	Step 8: Documentation and Development	
	of the Deployment Plan 191	
8.12	Implementation and Execution of the Solid Waste	
	Minimization Plan 198	
8.13	Validate the Program versus Goals 199	
8.14	Monitor and Continually Improve Performance 200	
Observation O	Tusining and lumismontation	0.00
-	Training and Implementation	203
	Introduction 203	
	Strategy 203	
9.3	Agendas for Training 205	
Chapter 16	Communicating and Leveraging Success	207
	The Role of Creativity, Invention, and	
Innovation	in Solid Waste Minimization	209
Part 3 9	iolid Waste Generation Modeling:	
	rization, Prediction, and Evaluation	
Ollai acte	ilzation, Frediction, and Evaluation	
Chapter 12	2 Introduction	215
	Mittoudellon	215
	Model Overview 215	
	Model Overview 215	
12.2	Functions of the Proposed Model 215	016
12.2		216
12.2 12.3	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses	·
12.2 12.3	Functions of the Proposed Model 215	216 <b>217</b>
12.2 12.3 <b>Chapter 1</b> 3	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses	·
12.2 12.3 <b>Chapter 1</b> 3	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology	217
12.2 12.3 Chapter 13 Chapter 14	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219	217
12.2 12.3 <b>Chapter 13</b> <b>Chapter 14</b> 14.1 14.2	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219	217
12.2 12.3 Chapter 13 Chapter 14 14.1 14.2 14.3	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219	217
12.2 12.3 <b>Chapter 13</b> <b>Chapter 14</b> 14.1 14.2 14.3 14.4	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219 Data Collection Process 224	217
12.2 12.3 <b>Chapter 13</b> <b>Chapter 14</b> 14.1 14.2 14.3 14.4 14.5	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219 Data Collection Process 224 Data Collection Results and Discussion 227 Existing Data Collection 230	217
12.2 12.3 Chapter 13 Chapter 14 14.1 14.2 14.3 14.4 14.5 Chapter 14	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219 Data Collection Process 224 Data Collection Results and Discussion 227 Existing Data Collection 230  Solid Waste Characterization	217
12.2 12.3 Chapter 13 Chapter 14 14.1 14.2 14.3 14.4 14.5 Chapter 14	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219 Data Collection Process 224 Data Collection Results and Discussion 227 Existing Data Collection 230	217
12.2 12.3 Chapter 13 Chapter 14.1 14.2 14.3 14.4 14.5 Chapter 15 by Busines	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219 Data Collection Process 224 Data Collection Results and Discussion 227 Existing Data Collection 230  Solid Waste Characterization	217 219
12.2 12.3 Chapter 13 Chapter 14.1 14.2 14.3 14.4 14.5 Chapter 15 by Busines	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219 Data Collection Process 224 Data Collection Results and Discussion 227 Existing Data Collection 230  Solid Waste Characterization S Activities	217 219
12.2 12.3 Chapter 13 Chapter 14.1 14.2 14.3 14.4 14.5 Chapter 15 by Busines 15.1 15.2 15.3	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219 Data Collection Process 224 Data Collection Results and Discussion 227 Existing Data Collection 230  Solid Waste Characterization S Activities Introduction 239 Data Consolidation and Initial Characterization 239 SIC Code Grouping Validation 244	217 219
12.2 12.3 Chapter 13 Chapter 14.1 14.2 14.3 14.4 14.5 Chapter 15 by Busines 15.1 15.2 15.3	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219 Data Collection Process 224 Data Collection Results and Discussion 227 Existing Data Collection 230  Solid Waste Characterization S Activities Introduction 239 Data Consolidation and Initial Characterization 239	217 219
12.2 12.3 Chapter 13 Chapter 14.1 14.2 14.3 14.4 14.5 Chapter 14 by Busines 15.1 15.2 15.3 15.4	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219 Data Collection Process 224 Data Collection Results and Discussion 227 Existing Data Collection 230  Solid Waste Characterization S Activities Introduction 239 Data Consolidation and Initial Characterization 239 SIC Code Grouping Validation 244	217 219
12.2 12.3 Chapter 13 Chapter 14 14.1 14.2 14.3 14.4 14.5 Chapter 14 by Busines 15.1 15.2 15.3 15.4 15.5	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219 Data Collection Process 224 Data Collection Results and Discussion 227 Existing Data Collection 230  Solid Waste Characterization Solid Waste Characterization Solid Consolidation and Initial Characterization 239 SiC Code Grouping Validation 244 Multivariate Cluster Analysis and Discussion 246 Summary of Waste Characterization Findings 253	217 219 239
12.2 12.3 Chapter 13 Chapter 14.1 14.2 14.3 14.4 14.5 Chapter 14 by Busines 15.1 15.2 15.3 15.4 15.5 Chapter 16	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219 Data Collection Process 224 Data Collection Results and Discussion 227 Existing Data Collection 230  Solid Waste Characterization S Activities Introduction 239 Data Consolidation and Initial Characterization 239 SIC Code Grouping Validation 244 Multivariate Cluster Analysis and Discussion 246 Summary of Waste Characterization Findings 253  Solid Waste Estimation and Prediction	217 219
12.2 12.3 Chapter 13 Chapter 14 14.1 14.2 14.3 14.4 14.5 Chapter 14 by Busines 15.1 15.2 15.3 15.4 15.5 Chapter 16	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219 Data Collection Process 224 Data Collection Results and Discussion 227 Existing Data Collection 230  Solid Waste Characterization S Activities Introduction 239 Data Consolidation and Initial Characterization 239 SIC Code Grouping Validation 244 Multivariate Cluster Analysis and Discussion 246 Summary of Waste Characterization Findings 253  Solid Waste Estimation and Prediction Introduction 261	217 219 239
12.2 12.3 Chapter 13 Chapter 14.1 14.2 14.3 14.4 14.5 Chapter 14 by Busines 15.1 15.2 15.3 15.4 15.5 Chapter 16.1	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219 Data Collection Process 224 Data Collection Results and Discussion 227 Existing Data Collection 230  Solid Waste Characterization S Activities Introduction 239 Data Consolidation and Initial Characterization 239 SIC Code Grouping Validation 244 Multivariate Cluster Analysis and Discussion 246 Summary of Waste Characterization Findings 253  Solid Waste Estimation and Prediction Introduction 261 Overview of Waste Group Data and Consolidation 261	217 219 239
12.2 12.3 Chapter 13 Chapter 14 14.1 14.2 14.3 14.4 14.5 Chapter 15 by Busines 15.1 15.2 15.3 15.4 15.5 Chapter 16 16.1 16.2 16.3	Functions of the Proposed Model 215 Theoretical Structure of the Model Concepts and Hypotheses  Research Methodology  Data Collection Introduction 219 Required Data Types 219 Data Collection Process 224 Data Collection Results and Discussion 227 Existing Data Collection 230  Solid Waste Characterization S Activities Introduction 239 Data Consolidation and Initial Characterization 239 SIC Code Grouping Validation 244 Multivariate Cluster Analysis and Discussion 246 Summary of Waste Characterization Findings 253  Solid Waste Estimation and Prediction Introduction 261	217 219 239

	8 Model Development and Integration	303
Chapter 1	9 Model Validation and Case Study Application	305
	Additional Data Collection from Other Existing Sources 305	
	Validation of the Developed Environmental Model 307	
	Demonstration of the Prediction of Solid Waste Generation	
	Using the Developed Model 309	
19.4	Performance Parameter Case Study 309	
19.5	Cost-Benefit Analysis Case Study 313	
	O Model Summary and Recommendations	
for Future	Research	315
20.1	Introduction 315	
	Hypothesis Testing Results 315	
20.3	Research Contributions 317	
	Research Limitations 318	
20.5	Recommendations for Future Research 318	
20.6	Summary 319	
Chapter 2	1 Introduction to Case Studios	303
_		323
Chapter 2:	2 Agricultural, Forestry, and Fishing Applications	323 327
<b>Chapter 2:</b> 22.1	2 Agricultural, Forestry, and Fishing Applications Industry Overview 327	-,
22.1 22.2	2 Agricultural, Forestry, and Fishing Applications Industry Overview 327 Waste Management Goals and Opportunities 328	-,

Chapter 38	Accommodations and Food Service Applications 479
	Industry Overview 479
	Waste Management Goals and Opportunities 482
	Constraints and Considerations 483
	Potential Technologies and Strategies 484
	Implementation and Approach 485
	Case Study 486
	Exemplary Performers—LEED Certification 486

Chapter 39 Automotive Service Applications	491
39.1 Industry Overview 491	
39.2 Waste Management Goals and Opportunities 493	
39.3 Constraints and Considerations 493	
39.4 Potential Technologies and Strategies 494	
39.5 Implementation and Approach 496	
39.6 Case Study 496	
39.7 Industry Leaders—The Automotive Recyclers Association 497	
Chapter 40 Education Applications	499
40.1 Industry Overview 499	
40.2 Waste Management Goals and Opportunities 501	
40.3 Constraints and Considerations 502	
40.4 Potential Technologies and Strategies 503	
40.5 Implementation and Approach 504	
40.6 Case Study 505	
40.7 Exemplary Performers—RecycleWorks School Recycling	
Award Program 509	
Chapter 41 International Manufacturing Applications	511
41.1 International Waste Management Goals and Opportunities 511	
41.2 Constraints and Considerations 512	
41.3 Potential Technologies and Strategies 513	
41.4 Implementation and Approach 514	
41.5 Case Study 515	
41.6 Exemplary Performers—European Employee Award Programs 516	<b>1</b>
Chapter 42 International Service Applications	519
42.1 International Waste Management Goals and	
Opportunities in Service 519	
42.2 Constraints and Considerations 519	
42.3 Potential Technologies and Strategies 520	
42.4 Implementation and Approach 521	
42.5 Case Study 522	
42.6 Industry Leaders—The International Solid Waste Association 523
