A Project to Identify Suitable Locations for the Establishment of Shipbuilding Industrial Estates

SUMMARY REPORT

TABLE OF CONTENT

1.	Introduction	-1-
2.	An Overview of the Shipbuilding Industry	-11-
3.	Demand Study	-22-
3.1	Expansion of New Registered Vessels	-8-
3.2	Ship Import and Export.....	-13-
3.3	Competitiveness of Thai Shipyards	-14-
3.4	Numbers of calls of sea going vessels	-17-
3.5	Forecasting.....	-18-
3.5.1	Shipbuilding.....	-18-
3.5.2	Ship Repairing.....	-23-
4.	Site Selection.....	-24-
4.1	Selection Criteria	-24-
4.2	Location of Choices	-25-
4.3	Primary Scan.....	-26-
4.4	Priority Setting	-30-
5.	Shipbuilding Industrial Estate Development Project	-37-
5.1	Bangpakong Shipbuilding Industrial Estate.....	-37-
5.2	Laem Sing Shipbuilding Industrial Estate	-42-
5.3	<i>Mahachai Shipbuilding Industrial Estate</i>	-47-
6.	Financial and Economic Study.....	-52-
6.1	Feasibility of a Shipyard Business.....	-52-
6.2	Feasibility of Shipbuilding Industrial Estate.....	-53-
6.3	Economic Study	-59-
7.	International Shipyard Industry.....	-64-
8.	Methods and Measures to Support Shipyard Industry	-65-

LIST OR TABLES

Table 1:	Large shipbuilding in Thailand.....	-3-
Table 2:	Large ship repairing in Thailand.....	-3-
Table 3:	Locations of shipyard and related industries	-4-
Table 4:	Business return of shipyard industry	-5-
Table 5:	Goods and services in Thailand certified by the Classification Society	-7-
Table 6:	Relationships between numbers of annual registered ship	-10-
	and time series	
Table 7:	Average gross tonnage of new registered ships.....	-11-
Table 8:	Forecasting of new registration vessels	-12-
Table 9:	Import and export of ships and floating structures, B.E.2543-2551	-13-
Table 10:	Vessels in the analyzed database	-15-
Table 11:	Acquirement by ship type determined form number of ship	-15-
Table 12:	Acquirement by ship type determined from ship tonnage.....	-15-
Table 13:	Assessment of revisited ships during B.E. 2549 - 2551	-19-
Table 14:	Demand forecast under conditions no shipbuilding industrial	-20-
	estate development project	
Table 15:	Ships over 25 years of age	-22-
Table 16:	Predictions of new building demand if shipbuilding	-23-
	industrial estate exist	
Table 17:	Assessment of ship repairing demands.....	-24-
Table 18:	Scoring system of primary scan.....	-27-
Table 19:	Calculations of weighting score.....	-28-
Table 20:	Score of each plot of land (Primary scan).....	-29-
Table 21:	Economical feasibility scores	-31-
Table 22:	Engineering feasibility scores.....	-32-
Table 23:	Environmental feasibility scores.....	-33-
Table 24:	Significant assessment of determined values.....	-34-
Table 25:	Significant assessment of the components within economic values.....	-34-
Table 26:	Significant assessment of the components within engineering values	-34-
Table 27:	Significant assessment of the components within environmental values	-35-
Table 28:	Economical suitability assessment.....	-35-
Table 29:	Engineering suitability assessment	-35-
Table 30:	Environmental suitability assessment.....	-36-
Table 31:	Attitudes of stakeholder's suitability assessment	-36-
Table 32:	Suitability assessment of the screened areas.....	-36-
Table 33:	General arrangement of the candidate – Bangpakong	-42-
	shipbuilding industrial estate	
Table 34:	General arrangement of Laem Sing shipbuilding industrial estate.....	-45-
Table 35:	General land arrangement of the Mahachai shipbuilding industrial estate....	-50-
Table 36:	Land price estimation.....	-53-
Table 37:	Estimation of shipyard related infrastructure.....	-54-
Table 38:	Estimation of general infrastructure	-55-
Table 39:	Industrial Estate Authority of Thailand Fee	-56-
Table 40:	Internal return rate under several supporting conditions	-58-
Table 41:	Estimation of import reduction if shipbuilding industrial estate exist.....	-59-
Table 42:	Chances of supporting industries	-60-
Table 43:	Value added of the lands.....	-61-
Table 44:	Economic internal rate of return of shipbuilding industrial estate.....	-62-
Table 45:	Shipyard industry development plan	-67-

LIST OF FIGURES

Figure 1:	Life cycle of ship and its relationship to the shipyard industry	-2-
Figure 2:	Expansion of import and export in section 89 ships..... and floating structures	-13-
Figure 3:	Numbers of ship calls at Thai ports	-17-
Figure 4:	Site selection concept.....	-25-
Figure 5:	Location of choices in the first working step.....	-26-
Figure 6:	Location of the candidate Bangpakong shipbuilding industrial estate	-38-
Figure 7:	Environmental monitoring stations of the candidate Bangpakong	-39-
	shipbuilding industrial estate	
Figure 8:	The primary layout of the candidate - Bangpakong	-41-
	shipbuilding industrial estate	
Figure 9:	The candidate - Laem Sing shipbuilding industrial estate.....	-43-
Figure 10:	Environmental monitoring stations of the candidate – Laem	-35-
	Sing shipbuilding industrial estate	
Figure 11:	Layout of the candidate - Laem Sing shipbuilding industrial estate.....	-46-
Figure 12:	The location of the candidate - Mahachai shipbuilding.....	-48-
	industrial estate	
Figure 13:	Environmental monitoring stations at Mahachai	-49-
	shipbuilding industrial estate	
Figure 14:	Primary layout of the candidate Mahachai shipbuilding	-51-
	industrial estate
