

# *100 Years* of Engine Developments

Edited by Daniel J. Holt

# TABLE OF CONTENTS

Preface.....	v
--------------	---

## Chapter 1 - Spark Plugs

170045	Spark-Plugs for High-Speed Engines .....	3
200015	Preignition and Spark-Plugs .....	13
400146	Ceramic Insulators for Spark Plugs .....	29
460016	Spark Plugs .....	37
480194	Factors Affecting Functioning of Spark Plugs .....	55
490001	Ignition and Spark Plug Design .....	69
510190	How Large Can the Gaps Be .....	75
520065	Operation of Spark Plugs in Present Day Engines .....	85
560125	New Engines Demand Tailored Spark Plugs .....	89
670149	Review of Spark-Plug Technical Developments .....	103
700081	Spark-Plug Design Factors and Their Effect on Engine Performance .....	123
760264	The Performance of A Multigap Spark Plug Designed for Automotive Applications .....	135
770853	New Aspects on Spark Ignition .....	147

## Chapter 2 – Carburetors

060003	Some Requirements of Carburetor Design .....	161
070009	The Carburetor and Its Functions .....	165
120020	Carburetors .....	179
120032	Carburetors and Fuels .....	191
130033	A Consideration of Certain Problems of Carburetion .....	195
160035	Carburetor Investigations .....	213
170018	A Standard of Carburetor Performance .....	247
190069	Heavy-Fuel Carburetor-Type Engines for Vehicles .....	263
200060	Factors Involved In Fuel Utilization .....	279
210047	Fundamental Points of Carburetor Action .....	295
250007	Best Location for Carburetor Intake .....	325
290020	Dual Carburetion and Manifold Design .....	337
310025	Influence of Carburetor Setting and Spark Timing on Knock Ratings .....	349
660114	Control of Auto Exhaust Emission By Modifications of The Carburetion System .....	355
670485	Vehicle Exhaust Emission Experiments Using a Premixed and Preheated Air-Fuel Charge .....	371
690137	A Study of Factors Affecting Carburetor Performance at Low Air Flows .....	385
690138	Process and Control for Producing Anti-Emission Carburetors .....	395
750371	Closed Loop Carburetor Emission Control System .....	401
760226	Emission Control With Lean Mixtures .....	411
760288	A Vaporized Gasoline Metering System for Internal Combustion Engines .....	427
770352	A Feedback Controlled Carburetion System Using Air Bleeds .....	443
854244	Engine Ignition and Carburetor Electronic Control .....	451
871293	Electronic Gaseous Fuel Carburetion System .....	461

## Chapter 3 - Ignition Timing

500025	Full Vacuum Controlled Ignition System .....	473
670115	Capacitor Discharge Ignition - A Design Approach .....	483
700083	Some Factors to Consider In the Design and Application of Automotive Ignition Systems .....	491
750346	HEI - A New Ignition System Through New Technology .....	507
770854	A Production Computerized Engine Timing Control System .....	519
780118	Microprocessor Engine Controller .....	527
780655	Electronic Spark Timing Control for Motor Vehicles .....	537
785133	Electronic Spark Timing Control for Motor Vehicles .....	555
820004	Electronic Control of Ignition Timing .....	593
854217	Evolution of Ignition Systems .....	599
860249	General Motors Computer Controlled Coil Ignition .....	609
870082	A Compact Microcomputer Based Distributorless Ignition System .....	615
871914	Crankshaft Position Measurement With Applications to Ignition Timing, Diagnostics and Performance Measurement .....	623

## Chapter 4 - Valve Timing

740102	Design and Development of A Variable Valve Timing (VVT) Camshaft .....	631
825056	Variable Valve Timing as a Means to Control Engine Load .....	641
850074	Effects of Intake-Valve Closing Timing on Spark-Ignition Engine Combustion .....	647
854241	Electronics ~ The Key To Engine Management .....	657
860537	Development of a Variable Valve Timed Engine to Eliminate the Pumping Losses Associated With Throttled Operation .....	661
885065	Adaptive Ignition and Knock Control .....	669
890673	Variable Valve Actuation Mechanisms and the Potential for Their Application .....	677
890674	A Review and Classification of Variable Valve Timing Mechanisms .....	695
910445	Perspectives on Applications of Variable Valve Timing .....	709
914173	A High Speed Variable Valve Timing Mechanism for Engines .....	723
960496	Spark-Ignition Engine Knock Control and Threshold Value Determination .....	731
960584	Comparison of Variable Camshaft Timing Strategies at Part Load .....	741
980769	VAST: A New Variable Valve Timing System for Vehicle Engines .....	761
890681	Application of A Valve Lift and Timing Control System to an Automotive Engine .....	769
2004-01-1869	Study on Variable Valve Timing System Using Electromagnetic Mechanism .....	779

## Chapter 5 - Fuel Injection

680043	New Fuel-Injection System and Its Potential for Reducing Exhaust Gas Emissions .....	789
741224	Electronic Fuel Injection in the U.S.A. ....	799
874345	The Ford Central Fuel Injection System .....	813
891330	Current Status of New Development in Electronic Fuel Injection System .....	819
921496	From the Simple Carburetor to the Electronic Fuel Injection SPI and MPFI .....	825
950228	Development of First Volume Production Thermoplastic Throttle Body .....	839
1999-01-0171	A Comparison of Gasoline Direct Injection Systems and Discussion of Development Techniques .....	849
1999-01-0174	Influence of Fuel Injection Timing Over the Performances of Direct Injection Spark Ignition Engine .....	863

## Chapter 6 – Emissions

620154	The General Motors Catalytic Converter.....	875
620397	Development and Evaluation of Automobile Exhaust Catalytic Converter Systems.....	891
620398	Catalytic Converter Development Problems.....	957
660106	Design and Development of the General Motors Air Injection Reactor System.....	965
680110	Exhaust Emission Control by Engine Design and Development.....	983
680123	Potentialities of Further Emissions Reduction by Engine Modifications.....	997
680242	Automobiles and Air Pollution.....	1013
690503	Performance of a Catalytic Converter That Operates With Nonleaded Fuel.....	1021
700151	Chrysler Cleaner Air System for 1970.....	1033
710013	Effectiveness of Exhaust Gas Recirculation With Extended Use.....	1045
720481	Methods for Fast Catalytic System Warm-Up During Vehicle Cold Starts.....	1079
720487	Toyota Status Report on Low Emission Concept Vehicles.....	1103
725029	Predicting Performance of Future Catalytic Exhaust Emission Control Systems.....	1125
730014	Gasoline Lead Additive and Cost Effects of Potential 1975-1976 Emission Control Systems.....	1137
730569	Thermal Response and Emission Breakthrough of Platinum Monolithic Catalytic Converters.....	1157
741159	Pre-Chamber Stratified Charge Engine Combustion Studies.....	1171
750414	The Effects of Exhaust Gas Recirculation and Residual Gas on Engine Emissions and Fuel Economy.....	1191
750178	Reliability Analysis of Catalytic Converter as an Automotive Emission Control System.....	1225
760199	NO X Catalytic Converter Development.....	1237
780006	The Fast Burn With Heavy EGR, New Approach for Low NO <sub>x</sub> and Improved Fuel Economy.....	1243
780203	Ford Three-Way Catalyst and Feedback Fuel Control System.....	1259
780624	Effect of Catalytic Emission Control on Exhaust Hydrocarbon Composition and Reactivity.....	1275
780672	Performance and Emission Predictions for A Multi-Cylinder Spark Ignition Engine With Catalytic Converter.....	1299
780843	Emission Control at GM.....	1321
790387	The Effects of Varying Combustion Rate in Spark Ignited Engines.....	1327
800053	GM Micro-Computer Engine Control System.....	1339
865033	Economy Increase for Otto Engines By Introducing Exhausts Into Carburettor.....	1355
874354	Implications of the Future European Emissions Scene for the Motor Industry ~ Effect on Overall Industry Costs and Complexity.....	1359
	About the Editor.....	1363
