

Advanced Brake Technology

Edited by Bert Breuer and Uwe Dausend

Contents

1	Introduction.....	1
	B. Breuer, U. Dausend, Darmstadt University of Technology	
2	TMD Friction – Company Profile	3
	TMD Friction Group, Corporate Communication	

Part I

Basics, Materials and Methods

3	Braking from the Behavioural Scientist's Viewpoint	25
	B. Spiegel, Spiegel Institute Mannheim	
4	New Material Technologies for Brakes	37
	T. Haug, K. Rebstock, DaimlerChrysler AG	
5	Investigation of the Thermal Behaviour of Vented Disc Brakes by Means of CFD	51
	C. Repmann, Volkswagen AG	
6	Future Utilization of Stationary Brake Design in Simulation and Analysis of Brake Systems.....	77
	U. Sailer, D. Mahnkopf, S. Knoll, Robert Bosch GmbH	
7	Controlling the Lateral Dynamics of Vehicles by Braking	105
	T. van Zanten, R. Erhardt, K. Landesfeind, G. Pfaff, Robert Bosch GmbH	
8	Development Tools to Assist in the Objective Description of Brake Pedal Feel	121
	K. Augsburg, R. Trutschel, Ilmenau University of Technology	

Part II

Brakes and Brake Systems

9	ABS for scooters	151
	B. Fischenich, FTE automotive GmbH	
10	BMW Motorrad's New Integral ABS in Practical Testing	161
	M. Braunsperger, S. Beulich, H.-A. Wagner, G. Heyl, BMW AG	

11	SBC – The Electro-Hydraulic Brake System from Mercedes-Benz	183
	U. Stoll, DaimlerChrysler AG	
12	New mechatronic part disc brake.....	205
	M. Semsch, Darmstadt University of Technology	
13	Introduction into the Technology of Airvehicle Braking Systems.....	229
	B. Ohly, formerly MBB, DASA (retired)	

Part III

Test and Experiences

14	The Air Disc Brake in Commercial Vehicles - Field Experiences	243
	A. Siebke, M. Gruber, R. Ober, Knorr-Bremse-Systeme für Nutzfahrzeuge GmbH	
15	Effectiveness and Acceptance of Brake Tests in Commercial Vehicles During Periodical Vehicle Monitoring (HU und SP)	259
	R. Staebler, H. Erhard, TÜV Verkehr und Fahrzeug GmbH	
16	Brake Noise – A Comparison of Subjective and Objective Evaluations	275
	W. Rumold, W. Keiper, Robert Bosch GmbH	
17	Porsche Brake Development „From the Race Track to the Road“	299
	D. Neudeck, R. Martin, N. Renzow, Dr.-Ing. h.c. F. Porsche AG	

Part IV

Future Aspects and Outlook

18	Research on Tribological Characteristics between Al–MMC Brake Disc and Friction Material.....	317
	K. Shibata, K. Kawasaki, Honda	
19	Thoughts on the chassis of the future	341
	U. Seiffert, Braunschweig University of Technology	
20	Total Chassis Management – Heading for the Intelligent Chassis	359
	H. A. Beller, P. E. Rieth, ContinentalTeves AG & Co. oHG	
21	Automotive Technology – Where are we going?.....	393
	W. Steiger, Volkswagen AG
