UNIT I

Understanding the Aging Experience

1 The Aging Population 3

- Views of Older Adults Through History 4
- Characteristics of the Older Adult
 - Population 4
 - Population Growth and Increasing Life Expectancy* 5
 - Marital Status and Living Arrangements* 7
 - Geographic Distribution* 7
 - Income and Employment* 7
 - Education* 9
 - Health Status* 9
- Implications of an Aging Population 9
 - Impact of the Baby Boomers* 10
 - Provision of and Payment for Services* 11

2 Theories of Aging 13

- Biological Theories of Aging 14
 - Genetic Theories* 15
 - Cross-Linking Theory* 15
 - Evolutionary Theories* 15
 - Free Radicals and Lipofuscin Theories* 16
 - Autoimmune Reactions* 16
 - Wear and Tear Theories* 16
 - Stress* 16
 - Biogerontology* 17
 - Neuroendocrine and Neurochemical Theories* 17
 - Radiation Theories* 17
 - Nutrition Theories* 17
 - Environmental Theories* 17
 - Implications of Biological Theories for Nursing* 17
- Psychosocial Theories of Aging 17
 - Disengagement Theory* 18
 - Activity Theory* 18

- Continuity Theory* 18
- Developmental Tasks* 19
- Gerotranscendence* 19
- Implications of Psychosocial Theories for Nursing* 19

Applying Theories of Aging to Nursing Practice 20

3 Diversity 23

- Increasing Diversity of the Older Adult Population 23
- Overview of Diverse Groups of Older Adults in the United States 24
 - Hispanic Americans* 24
 - Black Americans* 25
 - Asian Americans* 26
 - Jewish Americans* 28
 - Native Americans* 29
 - Older Prisoners* 30
- Nursing Considerations for Culturally Sensitive Care of Older Adults 30

4 Life Transitions and Story 33

- Ageism 34
- Changes in Family Roles and Relationships 34
 - Parenting* 35
 - Grandparenting* 35
- Loss of Spouse 36
- Retirement 37
 - Loss of the Work Role* 37
 - Reduced Income* 39
- Changes in Health and Functioning 39
- Cumulative Effects of Life Transitions 41
 - Shrinking Social World* 41
 - Awareness of Mortality* 42
- Responding to Life Transitions 42
 - Life Review and Life Story* 42
 - Self-Reflection* 44
 - Strengthening Inner Resources* 46

5 Common Aging Changes 49

Changes to the Body 50

Cells 50

Physical Appearance 50

Respiratory System 51

Cardiovascular System 51

Gastrointestinal System 53

Urinary System 54

Reproductive System 54

Musculoskeletal System 55

Nervous System 56

Sensory Organs 56

Endocrine System 59

Integumentary System 60

Immune System 60

Thermoregulation 61

Changes to the Mind 61

Personality 61

Memory 61

Intelligence 61

Learning 61

Attention Span 62

Nursing Implications of

Age-Related Changes 62

Health Challenges-Related Needs 84

Requisites to Meet Needs 85

Gerontological Nursing Interventions 85

Examples of Application 86

Assessing Needs: The Case of Mr. R 87

Applying the Holistic Model:

The Case of Mrs. D 87

8 Legal Aspects of Gerontological Nursing 95

Laws Governing Gerontological Nursing
Practice 96

Legal Risks in Gerontological Nursing 96

Malpractice 96

Confidentiality 99

Patient Consent 99

Patient Competency 100

Staff Supervision 101

Medications 101

Restraints 102

Telephone Orders 102

No-Code Orders 103

*Advance Directives and Issues Related
to Death and Dying* 103

Elder Abuse 104

Legal Safeguards for Nurses 104

9 Ethical Aspects of Gerontological Nursing 107

Philosophies Guiding Ethical Thinking 107

Ethics in Nursing 108

*External and Internal Ethical
Standards* 108

Ethical Principles 109

Ethical Dilemmas Facing Gerontological
Nurses 110

*Changes Increasing Ethical Dilemmas for
Nurses* 110

*Measures to Help Nurses Make Ethical
Decisions* 112

10 Continuum of Care in Gerontological Nursing 114

Services in the Continuum of Care for Older
Adults 115

Preventive Services 115

*Partial and Intermittent Care
Services* 118

*Complete and Continuous Care
Services* 120

*Complementary and Alternative
Services* 121

Matching Services to Needs 122

Settings and Roles for Gerontological
Nurses 123

UNIT 2

Foundations of Gerontological Nursing

6 The Specialty of Gerontological Nursing 69

Development of Gerontological
Nursing 70

Core Elements of Gerontological Nursing

Practice 71

Evidence-Based Practice 72

Standards 72

Principles 72

Gerontological Nursing Roles 75

Healer 75

Caregiver 76

Educator 76

Advocate 76

Innovator 76

Advanced Practice Nursing Roles 76

The Future of Gerontological Nursing 77

Lessons From the Past 77

Challenges for the Future 77

7 Holistic Model for Gerontological Nursing 82

Holistic Gerontological Care 83

Holistic Assessment of Needs 83

Health Promotion-Related Needs 83

11 Self-Care for the Gerontological Nurse 126

Characteristics of Nurse Healers 127

Presence 127

Availability 127

Connections 127

Models of Holism 127

Self-Care and Nurturing 128

Following Positive Health Care

Practices 128

Strengthening and Building

Connections 128

Committing to a Dynamic Process 131

UNIT 3

Fostering Connection and Gratification

12 Sexuality and Intimacy 135

Attitudes Toward Sex and Older Adults 135

Menopause as a Journey to Inner

Connection 137

Symptom Management and Patient

Education 137

Self-Acceptance 138

Realities of Sex in Older Adulthood 139

Sexual Behavior and Roles 139

Intimacy 140

Age-Related Changes and Sexual

Response 140

Identifying Barriers to Sexual Activity 141

Unavailability of a Partner 141

Psychological Barriers 141

Medical Conditions 145

Erectile Dysfunction 145

Medication Adverse Effects 145

Cognitive Impairment 147

Promoting Healthy Sexual Function 147

13 Spirituality 150

Spiritual Needs 151

Love 151

Meaning and Purpose 151

Hope 151

Dignity 151

Forgiveness 151

Gratitude 151

Transcendence 151

Expression of Faith 152

Assessing Spiritual Needs 152

Addressing Spiritual Needs 152

Being Available 152

Honoring Beliefs and Practices 152

Providing Opportunities for Solitude 152

Promoting Hope 156

Assisting in Discovering Meaning in

Challenging Situations 156

Facilitating Religious Practices 156

Praying With and For 156

Summary: The Importance of Spiritual

Care 157

UNIT 4

General Care Concerns

14 Nutrition and Hydration 161

Nutritional Needs of Older Adults 162

Quantity and Quality of Caloric

Needs 162

Nutritional Supplements 164

Special Needs of Women 165

Hydration Needs of Older Adults 166

Promotion of Oral Health 167

Threats to Good Nutrition 167

Indigestion and Food Intolerance 167

Anorexia 168

Dysphagia 168

Constipation 168

Malnutrition 168

Addressing Nutritional Status and Hydration

in Older Adults 171

15 Rest and Sleep 173

Age-Related Changes in Sleep 174

Circadian Sleep-Wake Cycles 174

Sleep Stages 174

Sleep Efficiency and Quality 174

Sleep Disturbances 174

Insomnia 174

Nocturnal Myoclonus and Restless Leg

Syndrome 175

Sleep Apnea 175

Medical Conditions That Affect Sleep 176

Drugs That Affect Sleep 176

Promoting Rest and Sleep

in Older Adults 176

Pharmacologic Measures to Promote

Sleep 176

Nonpharmacologic Measures to Promote

Sleep 178

Pain Control 180

16 Comfort and Pain Management 182

Comfort 182

Pain: A Complex Phenomenon 183

Prevalence of Pain in Older Adults 183

Types of Pain 183

Pain Perception 183

Effects of Unrelieved Pain 184

Pain Assessment 184
An Integrative Approach to Pain
Management 185
Complementary Therapies 186
Dietary Changes 187
Medication 188
Comforting 188

17 Safety 191

Aging and Risks to Safety 192
Importance of the Environment to Health
and Wellness 192
Impact of Aging on Environmental Safety
and Function 194
Lighting 195
Temperature 196
Colors 197
Scents 197
Floor Coverings 197
Furniture 198
Sensory Stimulation 198
Noise Control 199
Bathroom Hazards 199
Psychosocial Considerations 199
The Problem of Falls 200
Risks and Prevention 201
Risks Associated With Restraints 203
Interventions to Reduce Intrinsic Risks to
Safety 203
Reducing Hydration and Nutrition
Risks 203
Addressing Risks Associated With Sensory
Deficits 204
Addressing Risks Associated With Mobility
Limitations 205
Monitoring Body Temperature 205
Preventing Infection 205
Suggesting Sensible Clothing 205
Using Medications Cautiously 205
Avoiding Crime 205
Promoting Safe Driving 206
Promoting Early Detection of
Problems 206
Addressing Risks Associated With Functional
Impairment 206

18 Safe Medication Use 209

Effects of Aging on Medication Use 210
Polypharmacy and Interactions 210
Altered Pharmacokinetics 210
Altered Pharmacodynamics 214
Increased Risk of Adverse Reactions 214
Promoting the Safe Use of Drugs 215
Avoiding Potentially Inappropriate Drugs:
Beers' Criteria 215

Reviewing Necessity and Effectiveness of
Prescribed Drugs 216
Promoting Safe and Effective
Administration 217
Providing Patient Teaching 218
Alternatives to Drugs 218
Review of Selected Drugs 219
Analgesics 219
Antacids 220
Antianxiety Drugs (Anxiolytics) 221
Antibiotics 222
Anticoagulants 222
Anticonvulsants 223
Antidepressants 224
Antidiabetic Drugs 224
Antihypertensive Drugs 225
Anti-inflammatory Drugs,
Nonsteroidal (NSAIDs) 226
Antipsychotics 226
Cholesterol-Lowering Drugs 227
Cognitive Enhancing Drugs 228
Digoxin 229
Diuretics 229
Laxatives 230
Sedatives/Hypnotics 230

UNIT 5

Facilitating Physiological Balance

19 Respiration 235

Effects of Aging on Respiratory Health 236
Respiratory Health Promotion 238
Selected Respiratory Conditions 239
Asthma 239
Chronic Bronchitis 240
Emphysema 240
Lung Cancer 241
Lung Abscess 241
General Nursing Considerations for
Respiratory Conditions 243
Recognizing Symptoms 243
Preventing Complications 243
Ensuring Safe Oxygen
Administration 243
Performing Postural Drainage 244
Promoting Productive Coughing 244
Using Complementary Therapies 245
Promoting Self-Care 245
Providing Encouragement 246

20 Circulation 248

Effects of Aging on Cardiovascular
Health 249
Cardiovascular Health Promotion 249

<i>Proper Nutrition</i>	249	<i>Bladder Cancer</i>	288
<i>Adequate Exercise</i>	251	<i>Renal Calculi</i>	289
<i>Cigarette Smoke Avoidance</i>	251	<i>Glomerulonephritis</i>	289
<i>Stress Management</i>	251	General Nursing Considerations for	
<i>Proactive Interventions</i>	252	Urinary Conditions	289
Selected Cardiovascular Conditions	252	23 Reproductive System Health	291
<i>Hypertension</i>	252	Effects of Aging on the Reproductive	
<i>Hypotension</i>	255	System	292
<i>Congestive Heart Failure</i>	257	Reproductive System Health	
<i>Pulmonary Emboli</i>	257	Promotion	292
<i>Coronary Artery Disease</i>	257	Selected Reproductive System	
<i>Arrhythmias</i>	260	Conditions	293
<i>Peripheral Vascular Disease</i>	261	<i>Problems of the Female Reproductive</i>	
General Nursing Considerations		System	293
for Cardiovascular Conditions	263	<i>Problems of the Male Reproductive</i>	
Prevention	263	System	295
<i>Keeping the Patient Informed</i>	263	Summary	297
Preventing Complications	263	24 Movement	299
Promoting Circulation	265	Effects of Aging on Musculoskeletal	
Providing Foot Care	265	Function	300
<i>Managing Problems Associated With</i>		Musculoskeletal Health Promotion	300
Peripheral Vascular Disease	266	<i>Promotion of Physical Exercise in all Age</i>	
Promoting Normality	266	Groups	300
Integrating Complementary Therapies	266	<i>Exercise Programs Tailored for Older</i>	
21 Digestion and Bowel Elimination	269	Adults	301
Effects of Aging on Gastrointestinal		<i>The Mind–Body Connection</i>	306
Health	270	<i>Prevention of Inactivity</i>	306
Gastrointestinal Health Promotion	270	Nutrition	308
Selected Gastrointestinal Conditions		Selected Musculoskeletal Conditions	308
and Related Nursing Considerations	271	<i>Fractures</i>	308
<i>Dry Mouth (Xerostomia)</i>	271	<i>Osteoarthritis</i>	312
<i>Dental Problems</i>	271	<i>Rheumatoid Arthritis</i>	314
<i>Dysphagia</i>	273	<i>Osteoporosis</i>	315
<i>Hiatal Hernia</i>	274	<i>Gout</i>	316

Summary	280	<i>Cerebrovascular Accidents</i>	327
22 Urinary Elimination	282	General Nursing Considerations for	
Effects of Aging on Urinary		Neurologic Conditions	328
Elimination	283	Promoting Independence	328
Urinary System Health Promotion	283	Preventing Injury	330
Selected Urinary Conditions	284		
<i>Urinary Incontinence</i>	284		

26 Sensation 332

- Effects of Aging on Sensory Function 333
- Sensory Health Promotion 333
 - Promoting Vision* 333
 - Promoting Hearing* 334
 - Assessing Problems* 335
- Selected Sensory Conditions and Related Nursing Interventions 335
 - Visual Deficits* 335
 - Hearing Deficits* 342
- General Nursing Considerations for Sensory Deficits 344

27 Endocrine Function 346

- Effects of Aging on Endocrine Function 347
- Selected Endocrine Conditions and Related Nursing Considerations 347
 - Diabetes Mellitus* 347
 - Hypothyroidism* 354
 - Hyperthyroidism* 354
 - Hyperlipidemia* 355

28 Integumentary Function 358

- Effects of Aging on the Integument 359
- Integumentary Health Promotion 359
- Selected Integumentary Conditions 360
 - Pruritus* 360
 - Keratinosis* 360
 - Seborrheic Keratinosis* 360
 - Skin Cancer* 361
 - Vascular Lesions* 363
 - Pressure Ulcers* 363
- General Nursing Considerations for Integumentary Conditions 365
 - Promoting Normalcy* 365
 - Using Alternative Therapies* 365

29 Immune Function 367

- Effects of Aging on Immune Function 368
- Immunologic Health Promotion 368
 - Diet* 368
 - Exercise* 369
 - Immunization* 369
 - Stress Management* 370
 - Mind-Body Connection* 370
 - Careful Use of Antibiotics* 370

UNIT 6**Multisystemic Disorders****30 Infections 375**

- Unique Manifestations of Infection in Older Adults 376

Common Infections 376

- Urinary Tract Infection* 376
- Prostatitis* 377
- Pneumonia* 377
- Influenza* 378
- Tuberculosis* 379
- Vaginitis* 379
- Herpes Zoster* 380
- Scabies* 380
- HIV and AIDS* 380
- Clostridium difficile Infection* 382
- Antibiotic-Resistant Microorganisms* 383

31 Cancer 385

- Aging and Cancer 387
 - Unique Challenges for Older Persons With Cancer* 387
 - Explanations for Increased Incidence in Old Age* 387
- Cancer Risk Factors 387
 - Heredity* 387
 - Diet* 387
 - Drinking Water* 388
 - Tobacco* 388
 - Alcohol* 388
 - Radiation* 388
 - Ultraviolet Radiation* 388
 - Occupational Exposure to Carcinogens* 388
 - Radon* 388
 - Special Risks for Women* 389
 - Other Contributing Factors* 389
- Prevention and Screening 389
- Treatment 390
 - Conventional Treatment* 390
 - Complementary and Alternative Medicine* 390
- Nursing Considerations for Older Adults With Cancer 391
 - Providing Patient Education* 391
 - Promoting Optimum Care* 392
 - Providing Support to Patients and Families* 392

32 Mental Health Disorders 396

- Aging and Mental Health 397
- Promoting Mental Health in Older Adults 397
- Selected Mental Health Conditions 398
 - Depression* 398
 - Anxiety* 402
 - Alcohol Abuse* 404
 - Paranoia* 405
 - Hypochondriasis* 406

Nursing Considerations for Mental Health
Conditions 406
Monitoring Medications 406
Promoting a Positive Self-Concept 406
Managing Behavioral Problems 407

33 Delirium and Dementia 411

Delirium 412
Dementia 413
Alzheimer's Disease 413
Other Dementias 415
Caring for Persons With Dementia 416

UNIT 7 Gerontological Care Issues

34 Living in Harmony With Chronic Conditions 425

Chronic Conditions and Older
Adults 426
Goals for Chronic Care 426
Assessment of Chronic Care Needs 429
Maximizing the Benefits of Chronic
Care 430
Selecting an Appropriate Physician 430
Using a Chronic Care Coach 430
Increasing Knowledge 431
Locating a Support Group 431
Making Smart Lifestyle Choices 432
*Using Complementary and Alternative
Therapies* 432
Factors Affecting the Course of Chronic
Care 432
*Defense Mechanisms and
Implications* 433
*Impact of Ongoing Care on the
Family* 433
The Need for Institutional Care 434
Chronic Care: A Nursing Challenge 434

35 Rehabilitative Care 436

The Need for Rehabilitation 437
Living With Disability 438
*Importance of Attitude and Coping
Capacity* 438
Losses Accompanying Disability 438
Principles of Rehabilitative Nursing 438
Functional Assessment 439
Interventions to Facilitate and Improve
Functioning 439
Facilitating Proper Positioning 439
*Assisting With Range-of-Motion
Exercises* 441
Teaching About Mobility Aids 444

*Teaching About Bowel and Bladder
Training* 448
*Maintaining and Promoting Mental
Function* 448
Using Community Resources 449

36 Acute Care 451

Risks Associated With Hospitalization of
Older Adults 452
Surgical Care 452
Special Risks for Older Adults 452
Preoperative Care Considerations 452
*Operative and Postoperative Care
Considerations* 455
Emergency Care 456
Infections 459
Discharge Planning for Older
Adults 462

37 Long-Term Care 464

Development of Long-Term Institutional
Care 465
Before the 20th Century 465
During the 20th Century 466
Lessons to Be Learned From History 467
Long-Term Institutional Care Today 468
Nursing Facility Standards 468
Facility Residents 468
Nursing Roles and Responsibilities 468
Assisted Living Facilities 471
Looking Forward: A New Model of Long-
Term Care 472

38 Family Caregiving 476

The Older Adult's Family 477
Identification of Family Members 477
Family Member Roles 477
*Family Dynamics and
Relationships* 478
Scope of Family Caregiving 479
Protecting the Health of the Older Adult and
Caregiver 479
Family Dysfunction and Abuse 481
Rewards of Family Caregiving 483

39 End-of-Life Care 485

Definitions of Death 486
Family Experience With the Dying
Process 486
Supporting the Dying Individual 487
*Stages of the Dying Process and Related
Nursing Interventions* 488
Physical Care Needs 491
Spiritual Care Needs 493

<i>Signs of Imminent Death</i>	493
<i>Advance Directives</i>	494
Supporting Family and Friends	494
<i>Supporting Through the Stages of the Dying Process</i>	494

<i>Helping Family and Friends After a Death</i>	495
Supporting Nursing Staff	495
Index	499
