CONTENTS

Contributing Authors xi
Series Preface xv

Preface xvii
Acknowledgment xix

SECTION I: EVALUATION AND MANAGEMENT OF MUSCULOSKELETAL ONCOLOGY PROBLEMS

1 Evaluation of Bone Tumors 3

Timothy A. Damron

2 Evaluation of Soft Tissue Tumors 28

Carol D. Morris

3 Biopsy of Musculoskeletal Tumors 37

Edward A. Athanasian

4 Treatment Principles 50

4.1 Surgical Margins 50

Robert Quinn

4.2 Benign Tumors of Bone 54

Cynthia M. Kelly

4.3 Malignant Bone Lesions 60

Francis R. Patterson, Timothy A. Damron, and
Carol D. Morris

4.4 Soft Tissue Tumors 87

John Heiner and Jeremy White

4.5 Pathologic Fractures 92

Timothy A. Damron

SECTION II: SPECIFIC BONE NEOPLASMS AND SIMULATORS

5 Benign Bone Tumors 117

5.1 Bone Lesions 117

Felasfa M. Wodajo

5.2 Cartilage Lesions 126

Felasfa M. Wodajo

5.3 Cystic Lesions 140

Sung Wook Seo, Young Lae Moon, and
Francis Young-In Lee

5.4 Myogenic, Lipogenic, and Neural Tumors 147

Sean V. McGarry and C. Parker Gibbs

5.5 Fibrous Lesions of Bone 149

Sung Wook Seo, Young Lae Moon, and
Francis Young-In Lee

5.6 Giant Cell Tumor of Bone 159

Sean V. McGarry and C. Parker Gibbs

5.7 Vascular Lesions 164

Sean V. McGarry and C. Parker Gibbs

5.8 Other Tumors of Undefined Neoplastic Nature 170

Sean V. McGarry and C. Parker Gibbs

6 Bone Sarcomas 177

6.1 Osteosarcoma 177

Francis R. Patterson

6.2 Ewing Sarcoma and Primitive Neuroectodermal Tumor of Bone 187

Bruce Rougraff

- 6.3 Chondrosarcoma 192**
R. Lor Randall and Kenneth J. Hunt
- 6.4 Fibrous, Fibrohistiocytic, and Giant Cell Tumor Malignancies 201**
Hannah D. Morgan
- 6.5 Notochordal Tumors 204**
Hannah D. Morgan
- 6.6 Vascular Sarcomas of Bone 206**
Hannah D. Morgan
- 6.7 Myogenic, Lipogenic, and Epithelial Bone Sarcomas 209**
Hannah D. Morgan
- 7 Congenital and Inherited Bone Conditions 212**
- 7.1 Familial Adenomatous Polyposis 212**
Kathryn Palomino
- 7.2 Beckwith-Wiedemann Syndrome 214**
Danielle A. Katz
- 7.3 Skeletal Dysplasias 215**
Danielle A. Katz
- 7.4 Retinoblastoma Syndrome 224**
Timothy A. Damron
- 7.5 Rothmund-Thomson Syndrome 226**
Kathryn Palomino
- 7.6 Werner Syndrome 227**
Kathryn Palomino
- 8 Metastatic Disease 229**
Timothy A. Damron
- 9 Hematologic Malignancies 244**
Valerae O. Lewis
- 10 Metabolic Bone Diseases 251**
Susan V. Bukata

SECTION III: SPECIFIC SOFT TISSUE NEOPLASMS AND SIMULATORS

- 11 Benign Soft Tissue Tumors 263**
Timothy A. Damron and Gustavo de la Roza
- 12 Soft Tissue Sarcomas 294**
Carol D. Morris

SECTION IV: BASIC SCIENCE

- 13 Cellular and Molecular Biology 309**
Matthew J. Allen
- 14 Growth and Development of the Musculoskeletal System 321**
Donald E. Sweet and Thomas V. Smallman
- 15 Genetic Basis of Musculoskeletal Disorders 347**
Sathappan S. Sathappan, Kirill Ilalov, and Paul E. Di Cesare
- 16 Biomechanics 367**
Frederick W. Werner and Joseph A. Spadaro
- 17 Biomaterials 373**
Joseph A. Spadaro, Michael T. Clarke, and Julie M. Hasenwinkel
- 18 Principles of Orthopaedic Pharmacology 387**
Carol D. Morris
- 19 Bone Form, Function, Injury, Regeneration, and Repair 393**
Alexia Hernandez-Soria and Mathias Bostrom
- 20 Articular Cartilage Structure, Composition, and Repair 405**
Peter J. Roughley and Thomas V. Smallman
- 21 Diarthrodial Joints 418**
Thomas V. Smallman, Kris Shekitka, and Donald Flemming
- 22 Meniscal Structure, Function, Repair, and Replacement 443**
Mark C. Drakos and Answorth A. Allen

23 Intervertebral Disk Structure, Composition, and Mechanical Function 452

Samuel A. Joseph, Jr., and Patrick Boland

24 Tendon and Ligament Anatomy, Biology, and Biomechanics 463

Brian J. Harley and Joseph W. Bergman

25 Peripheral Nerve Physiology, Anatomy, and Pathology 474

Shikha Sethi, Brian J. Harley, Christian Custodio, and Michael Stubblefield

26 Skeletal Muscle Anatomy, Physiology, and Mechanics 484

Bryan T. Kelly and William J. Robertson

27 Infectious Disorders of Bone and Joint 495

Thomas V. Smallman, Kris Shekitka, Donald Flemming, and Brian J. Harley

27.1 Bacterial Infection 496

27.2 Granulomatous Infection 508

27.3 Infection Associated with Neuropathy 521

27.4 Viral Disorders 524

28 Neoplasia 525

Matthew J. Allen
