

TRAUMA NURSING

From Resuscitation Through Rehabilitation

Fourth Edition

*Karen A. McQuillan
Mary Beth Flynn Makic
Eileen Whalen*

SAUNDERS
ELSEVIER

PART I General Concepts in Trauma Nursing

- 1 Evolution of the Trauma Cycle, 1**
Mary Beachley
Trauma Systems Development, 1
The Evolution of Trauma Nursing, 10
Trauma Nursing Today, 15
The Trauma Cycle—Conceptual Development, 17
- 2 Economic and Administrative Issues
 in Trauma Care, 19**
Eileen Whalen
The Financing of Trauma Care, 19
Strategies for Economic Solutions, 21
Administrative Issues in Trauma Care, 24
Trauma Center Accreditation, 26
Summary, 27
- 3 Performance Improvement and Patient Safety
 in Trauma Care, 29**
Mary Kate FitzPatrick and Janet McMaster
Historical Perspective of Performance Improvement
 in Trauma Care, 29
Patient Safety, 29
Trauma Performance Improvement Plan, 30
Integration of Trauma Performance Improvement
 With Institution and System Performance
 Improvement, 30
Patient/Issue Identification, 31
Trauma Performance Improvement Process: Levels
 of Review, 32
Performance Improvement Forums, 32
Performance Indicators: Audit Filters, Occurrences,
 and Complications, 34
Outcomes, 36
Deaths, 36
Missed Injuries, 38
Accountability, 39
Corrective Action Plan, 39
Reevaluation (Loop Closure), 39
Recordkeeping, 39
Practice Management Guidelines, 41
Registry: Performance Improvement
 Integration, 41
Technology, 42
Looking to the Future, 42
- 4 Ethics in Trauma Nursing, 44**
Joan M. Pryor-McCann
The Difference Between Ethics and Law, 44
The Code of Ethics for Nurses, 45
Ethics, 46
Moral Principles, 46
Moral Theories, 48
The Ethics of Caring, 50
Ethical Decision-Making Approaches, 51
New Issues in Trauma Care, 52
Summary, 55
- 5 Legal Concerns in Trauma Nursing, 57**
Robert W. Heilig
Sources of Law, 57
Legal Issues of Trauma Nursing, 59
Discussion, 65
Summary, 66
- 6 Injury Prevention, 67**
Carolyn J. Fowler
An Overview of Injury Prevention, 68
Identifying and Defining the Injury Problem, 70
Measuring the Injury Problem, 72
Identifying Key Determinants, 73
Identifying Potential Intervention Strategies, 75
Selecting a Strategy to Implement, 79
Planning the Implementation, 83
Program Evaluation, 85
Challenges to Implementation, 88
- 7 Prehospital Care of the Trauma Patient, 91**
Will Chapleau
The Prehospital Care Team, 91
The Trauma Scene, 95
Initial Care of the Trauma Victim, 97
Prehospital Trauma Care: How Much and When? 98
Transport of the Trauma Patient, 102
Summary, 106
- 8 Rural Trauma, 108**
Daniel G. Judkins, John Bleicher, and Rifat Latifi
Definition of Rural/Frontier, 108
Unique Nature of Rural Trauma, 108
Prehospital Care, 109
Limitations on Hospital Resources, 110
Improving Rural Trauma Care, 111
Summary, 120

- 9 Mass Casualty Incidents, 122**
Daniel G. Judkins and Frank G. Walter
 Initial Response, 123
 Sustained Response, 129
 Lessons Learned, 131
 Government Involvement, 131
 Disaster Preparedness, 132
- 10 Nursing Practice Through the Cycle of Trauma, 136**
Kathryn Truter Von Rueden
 Trauma Nursing Practice, 136
 Crucial Considerations Throughout the Cycle of Trauma, 138
 Phase I: Field Stabilization and Resuscitation, 142
 Phase II: In-Hospital Resuscitation and Operative Phase, 144
 Phase III: Critical Care, 150
 Phase IV: Intermediate and Acute Care, 154
 Phase V: Rehabilitation, 156
 Phase VI: Prevention, 158
 Summary, 158
- 11 Rehabilitation of the Trauma Patient, 161**
Valerie Summerlin
 Definition of Rehabilitation, 161
 History of Trauma Rehabilitation, 161
 Trauma Populations That Require Rehabilitation, 162
 Components of Rehabilitation, 163
 Availability of Rehabilitation for the Trauma Patient, 167
 Current and Future Rehabilitation Alternatives, 168
 Focus of Rehabilitation Throughout the Cycle, 169
 Issues in Trauma Rehabilitation, 172
 Summary, 173

PART II Clinical Management Concepts

- 12 Mechanism of Injury, 178**
John A. Weigelt, Karen J. Brasel, and Jorie Klein
 Risk Factors, 178
 Initial Assessment and History, 179
 Mechanism of Injury, 181
 Blunt Injury, 183
 Penetrating Trauma, 190
 Smoke Inhalation and Pulmonary Burns, 193
 Explosive Blasts, 193
 Terrorism, 194
 Injury Scoring, 194
 Summary, 195
- 13 Shock and Multiple Organ Dysfunction Syndrome, 200**
Kathryn Truter Von Rueden, Pamela J. Bolton, and Thomas C. Vary
 Categories of Shock, 200
 Common Shock Pathways, 202
 Compensatory Responses to Hemorrhage, 203
 Systemic Inflammatory Response Syndrome, 208
 Clinical Evaluation of Sepsis and Hypovolemic Shock, 211
 Nutrient Substrate Flux in Trauma and Sepsis, 215
 Metabolic Dysfunction During MODS, 220
 Summary, 223
- 14 Initial Management of Traumatic Shock, 228**
Sharon A. Boswell and Thomas M. Scalea
 Oxygen Transport, 228
 Pathophysiology of Shock, 229
 Diagnosis and Treatment of Shock, 233
 Special Considerations, 244
 The Future of Trauma Resuscitation, 246
 Summary, 248
- 15 Infection and Infection Control, 252**
Patricia B. Casper, Manjari Joshi, and Marilyn C. Algire
 Host Defense Mechanisms, 252
 Infection, 256
 The Microbiologic Reservoir, 258
 Surveillance and Identification of Infection, 262
 Principles of Antimicrobial Therapy, 263
 Antimicrobial Resistance, 265
 Antimicrobial Prophylaxis for Surgery, 268
 Strategies for Prevention of Infection, 270
 Infections Related to Disruption of the Skin, 271
 Infections Related to Orthopedic Injuries, 273
 Infections of the Cardiovascular System, 277
 Central Nervous System Infections, 281
 Infections of the Respiratory Tract, 283
 Infections of the Intraabdominal Region or Caused by Altered Intraabdominal Organ Function, 286
 Infections of the Urinary Tract, 289
 Infection Control in the Health Care Setting, 291
 Summary, 299

- 16 **Wound Healing and Soft Tissue Injuries, 306**
Mary Beth Flynn Makic and Karen A. McQuillan
Anatomy of Skin, 306
Physiology of Wound Healing, 308
Types of Traumatic Wounds and Soft Tissue Injuries, 311
Determinants of the Healing Process, 314
Principles of Wound Assessment Throughout the Trauma Cycle, 316
Wound Management Throughout the Trauma Cycle, 320
Alterations in Healing, 327
Summary, 328
- 17 **Metabolic and Nutritional Management of the Trauma Patient, 330**
Catherine J. Klein and Gena Stiver Stanek
Overview of Metabolism and Nutrition in Trauma, 330
Metabolism, 330
The Nutrition Care Process, 337
The ABCs of Assessment, 340
Goals of Nutrition Care, 347
The Transition to Nutrition Support, 352
Enteral Support and Monitoring, 354
Parenteral Support and Monitoring, 358
Nutritional Considerations for Special Populations, 361
Interdisciplinary Strategies, 363
Summary, 365
- 18 **Analgesia, Sedation, and Neuromuscular Blockade in the Trauma Patient, 371**
T. Catherine Bower and Jameson P. Reuter
Introduction, 371
Negative Consequences of Undertreated Pain, 371
Definitions/Classifications/Physiologic Pathways, 372
Pain Assessment in the Adult Trauma Patient, 375
Opioids, 379
Other Analgesics and Adjunctive Agents, 387
Selection of Analgesic Agents, 388
Multimodal Analgesic Techniques, 389
Nonpharmacologic Pain Interventions, 389
Sedation, 390
ICU Delirium, 399
Neuromuscular Blocking Agents, 400
Special Patient Populations, 406
Nursing Care Through the Phases of Trauma, 408
Summary, 413

- 19 **Psychosocial Impact of Trauma, 422**
Ruby J. Martinez
Trauma as a Crisis, 422
Crisis Intervention, 422
Prevention, 424
Resuscitation Phase, 426
Critical Care Phase, 431
Intermediate Care Phase, 437
Rehabilitation Phase, 440
Mental Illness Related to Trauma, 441
Special Situations, 443
Research Indications, 445
Summary, 445

PART III Single System Injuries

- 20 **Traumatic Brain Injuries, 448**
Karen A. McQuillan and Paul A. Thurman
Epidemiology, 448
Correlative Neuroanatomy and Physiology, 449
Etiology, 456
Pathophysiology of Traumatic Brain Injury, 457
Neurologic Assessment, 469
Management, 487
Outcome From Traumatic Brain Injury, 507
Summary, 508
- 21 **Maxillofacial Trauma, 519**
Suzanne Frey Sherwood and Karen A. McQuillan
Introduction, 519
Etiology and Mechanism of Injury, 519
Assessment of Maxillofacial Injuries With Correlative Facial Anatomy, 519
Specific Types of Maxillofacial Injuries, 525
Management, 529
Summary, 539
- 22 **Ocular Injuries, 541**
Martha A. Conlon
Anatomy and Physiology, 541
Prevention, 546
Trauma Management, 547
Summary, 564

- 23 Spinal Cord Injuries, 565**
Tammy A. Russo-McCourt
Epidemiology, 565
Prevention, 566
Basic Spinal Anatomy, 566
Mechanism of Injury, 571
Spinal Column Injuries, 573
Prehospital Phase, 579
Resuscitation Phase, 579
The Operative Phase, 588
The Critical Care Phase, 588
Intermediate Care and Rehabilitation Phases, 595
Summary, 606
- 24 Thoracic Trauma, 614**
P. Milo Frawley
Introduction, 614
Epidemiology of Thoracic Injuries, 614
Thoracic Assessment in Trauma, 614
Injuries, 622
Nursing Therapeutics for the Patient With Thoracic Trauma, 652
Nursing Therapeutics in the Intermediate and Rehabilitation Care Phases, 668
Summary, 671
- 25 Abdominal Injuries, 678**
Kimmith M. Jones
The Abdomen: Anatomy and Physiology, 678
Mechanism of Injury, 687
Abdominal Assessment, 689
Diagnostic Studies, 691
Laboratory Data, 694
Monitoring, 695
Abdominal Organ Injury, 696
Intermediate and Rehabilitation Phases of Care, 702
Complications of Abdominal Trauma, 703
Summary, 704
- 26 Genitourinary Injuries
and Renal Management, 706**
Kara A. Snyder and Victoria R. Veronese
Epidemiology, 706
Mechanism of Injury, 707
Resuscitation Phase, 708
Specific Organ Injury, 711
Critical Care Phase, 721
Intermediate/Rehabilitation Phases, 730
Summary, 731

- 27 Musculoskeletal Injuries, 735**
Colleen R. Walsh
Anatomy and Physiology, 735
Epidemiology, 737
Resuscitation Phase, 737
Operative Phase, 765
Critical Care Phase, 768
Intermediate Care and Rehabilitation Phases, 771
Summary, 774

PART IV Unique Patient Populations

- 28 The Pregnant Trauma Patient, 780**
Lynn Gerber Smith
Epidemiology, 780
Nursing Database, 781
Resuscitation Phase, 784
Intraoperative Phase, 798
Critical Care Phase, 800
Intermediate Care and Rehabilitation Phase, 803
Community Reintegration Phase, 805
Future Trends and Prevention, 805
Nursing Research and Education, 806
- 29 Pediatric Trauma, 810**
Patricia A. Moloney-Harmon
Epidemiology/Incidence, 810
Patterns of Injury, 810
Trauma and Child Abuse, 811
Prevention Strategies, 811
Resuscitation Phase, 812
Clinical Management, 820
Critical Care Phase, 826
Intermediate Care and Rehabilitation Phases, 830
Summary, 832
- 30 Trauma in the Elderly, 835**
Ellen Plummer
Epidemiology, 835
Patterns of Injury, 836
Injury Threshold, 836
Resuscitative Phase, 837
Perioperative Phase, 842
Critical Care Phase, 842
Intermediate Care and Rehabilitative Phases, 845
Nursing Research Implications, 846
Prevention, 846
Summary, 847

31 Trauma in the Bariatric Patient, 850

Sheryl L. Szczensiak

Epidemiology, 850

Nursing Database, 851

Resuscitation Phase, 853

Intraoperative Phase, 859

Critical Care Phase, 859

Intermediate Care/Rehabilitation, 862

Community Reintegration Phase, 862

Future Trends and Prevention, 863

Nursing Research and Education, 863

32 Burn Injuries, 865

Mary Beth Flynn Makic and Elizabeth A. Mann

Pathophysiologic Features of Burn Injury, 865

Management of the Patient With a Burn Injury, 870

Nursing Management of the Burn Patient, 877

Evidence-Based Nursing Management of the Burn
Patient, 885

Summary, 886

33 Substance Abuse and Trauma Care, 889

Christopher Welsh, Kurt Haspert, Mary C.

Hirsch, and Janet M. Beebe

Terminology and Classification, 889

Substance Use and Injury Epidemiology, 889

Etiology of Substance Use Disorders, 891

Pharmacologic, Physiologic, and Clinical Effects
of Psychoactive Drugs, 892

Resuscitation Phase, 901

Perioperative Phase, 907

Critical Care Phase, 907

Intermediate Care and Rehabilitation Phases, 913

Community Reintegration, 916

Future Needs in Substance Use Disorders and
Trauma, 916

Summary, 917

34 The Organ and Tissue Donor, 923

*Cheryl Edwards, Franki L. Chabalewski,
and Stephanie Raine*

The Critical Shortage, 923

Donor Profile, 924

Brain Death, 925

The Organ Donation Process, 926

The National System for Organ Allocation
and Research, 935

Donation After Cardiac Death, 936

National Initiative Improves Organ Donation
Rates, 938

Tissue Donation, 939

Medical Examiner Cases, 939

Transplant Recipients as Trauma Patients, 940
Summary, 940
