TABLE OF CONTENTS

	Page
Introduction	A
Preface	B
Acknowledgement	C
Abstract	D
Table of Contents	G
List of Figures	J
Chapter 1 Introduction	1
1.1 Background and rationale	1
1.2 Objectives of impact Project evaluation	2
Chapter 2 Background of the PHAMIT Project	3
2.1 Rationale for PHAMIT	3
2.2 Objectives and expected results	5
Chapter 3 Methodology	11
3.1 Target population	11
3.2 Sampling methodology and selection of respondents	11
3.3 Questionnaire development	13
3.4 Data collection	14
3.5 Data tabulation and analysis	14
Chapter 4 General characteristics of the migrant workers	15
4.1 Age and sex distribution	15
4.2 Marital status	16
4.3 Ethnicity and religion	16
4.4 Education	14
4.5 Occupation	17
4.6 Possession of a work permit	17
4.7 Duration of current employment	17
4.8 Salary and wages	18
4.9 Duration of stay in Thailand and current province	19
4.10 Migration during the past year	20
4.11 Housing and living arrangements of the migrants	20
4.12 Mixing and interaction with the local Thai community	20
Chapter 5 Knowledge, opinions, attitudes regarding HIV/AIDS, condoms and STIs	21
5.1 Knowledge, understanding, and attitudes toward HIV/AIDS	21
5.2 Level of risk for contracting/transmitting HIV	25
5.3 Knowledge, acceptance and attitude toward condoms	25
5.4 Knowledge, prevalence, and treatment of STIs	29

	Page
Chapter 6 Migrant sexual behavior and condom use	33
6.1 Sexual behavior	33
6.2 Age at first sex	34
6.3 Current sex partners: regular, non-regular, commercial	34
6.3.1 Regular sex partner(s)	34
6.3.2 Non-regular sex partner(s)	35
6.3.3 Commercial sex partner(s)	35
6.4 Consistency of condom use in the past 12 months with regular, non-regular and commercial sex partners	37
6.5 Access to condoms	39
6.5.1 Source of condom supply	39
6.5.2 Speed of access to condoms when needed	40
6.5.3 Ease of access to condoms each time needed	40
6.6 Factors affecting failure to use condoms	40
6.6.1 Use of alcohol or other drugs prior to sex	40
6.6.2 Preference for sex without condoms	42
6.6.3 Skill in persuading sex partner(s) to use condoms	42
Chapter 7 Migrant access to general health services, family planning and reproductive health services	45
7.1 Access to health care when ill or needing treatment	45
7.2 Sense of quality of the health care services	47
7.3 Right to access health care	48
7.4 Use of contraception	48
7.4.1 Knowledge of modern contraception	48
7.4.2 Ever use of contraception	49
7.4.3 Current use of contraception	49
7.5 Reproductive health of migrants aged 15 - 49	51
7.5.1 Size and formation of families	51
7.5.2 Birth delivery in Thailand and country of origin	52
7.5.3 Complications of delivery in Thailand	52
7.5.4 Ante-natal care for women delivering in Thailand	53
7.5.5 Post-natal care for women delivering in Thailand	53
7.5.6 Access to formal education for children	53
7.5.7 Access to health care for children	54
Chapter 8 Information and knowledge about HIV/AIDS and condom use	55
8.1 Information from general sources: TV, radio, newspaper	55
8.2 Information and knowledge on HIV/AIDS gained before migrating to Thailand	57
8.3 Sources of knowledge about becoming infected with HIV and/or STIs	57
8.4 Experience in gaining AIDS knowledge	57
8.5 Experience in gaining knowledge about condom use	58
8.6 Experience in participating in HIV/AIDS/STIs awareness campaigns or meetings	59
8.7 Ever screened for STIs	59
8.8 Knowledge of HIV test sites and experience with HIV testing	59
8.9 Knowledge of anti-retroviral drugs for treating AIDS (ARV)	61
8.1 Participation in blood donation campaign	61

	Page
Chapter 9 Knowledge of service outlets or NGOs in the neighborhood	63
9.1 Knowledge of service outlets, organizations, or personnel, and knowledge of the service providers' name	63
9.2 Duration of knowledge of the organization or service provider in the neighborhood	64
9.3 Source or channel of access to knowledge about the local service provider	64
9.4 Experience of using the services of the local organization or service provider	65
9.5 Services used by the migrants	65
9.6 Services which the migrants would like to see added	66
9.7 Experience of receiving knowledge from the service provider, NGO, or personnel, and the nature of the knowledge received	66
9.8 Print media received from the local service provider or NGO	68
9.9 Services received from the local organization or NGO	68
9.10 Were services the result of the local organization or NGO?	69
9.11 Recommendations for improvement	69
9.12 Sexual behavior modification	69
Chapter 10 Summary	73
10.1 Methodology	73
10.2 General characteristics of the migrant workers	74
10.3 Knowledge, opinions, attitudes regarding HIV/AIDS, condoms and STIs	74
10.4 Migrant sexual behavior and condom use	75
10.5 Migrant access to general health services, family planning and reproductive health services	76
10.6 Information and knowledge about HIV/AIDS and condom use	78
10.7 Knowledge of service outlets or NGOs in the neighborhood	79
10.8 Recommendations	80
