## UNIT 1 PRACTICE IN TODAY'S CRITICAL CARE ENVIRONMENT

---

### Chapter 1 The Critical Care Environment, 3

*Vicki S. Good*

- Synergy Model Overview, 4
- Healthy Work Environment Standards, 4
  - Skilled Communication, 5
  - True Collaboration, 11
  - Effective Decision Making, 12
  - Appropriate Staffing, 14
  - Meaningful Recognition, 16
  - Authentic Leadership, 17

### Chapter 2 Alternative Settings for Critical Care, 22

*Margaret M. Ecklund and Lori A. Dambaugh*

- Moving Critical Care Beyond Traditional Critical Care, 22
- The Patient's Journey to Progressive Care, 23
- Progressive Care in the Hospital Setting, 24
- Out-of-Hospital Venues, 29
  - Skilled Nursing Facilities/Long Term Care Facilities, 29
  - Ambulatory Settings, 30
  - Home Care, 30

### Chapter 3 Comorbid Conditions, 33

*Denise Buonocore and Polly Sather*

- Critical Care Predictive Scoring Systems, 33
  - Scoring Systems Defined, 33
  - Comorbidities Within the Scoring Systems, 33
  - Additional Scoring Systems and Their Identified Comorbidities, 34
  - Impact of Comorbidities on Length of Stay and Treatment, 34
- Comorbidities Used in Scoring Systems, 35
  - Metastatic Cancer/Hematologic Malignancy, 35
  - HIV, AIDS, and Immunosuppression, 36
  - Hepatic Failure and Cirrhosis, 36
  - Renal Insufficiency and End-Stage Renal Disease, 37
- Other Comorbidities as Predictors of Outcome, 37
  - Respiratory Conditions, 37
  - Cardiovascular Disease, 38
  - Diabetes Mellitus, 39
    - Age, 39
    - Obesity, 40
    - Social and Psychological Comorbidities, 40
- Care of Patients With Multiple Comorbidities, 40

### Chapter 4 Pain and Sedation, 44

*Sandra L. Siedlecki*

- Patients at Risk, 44
- Acute Versus Chronic Pain, 46
  - Peripheral Versus Central Pain, 47
  - Pain Theory, 47
  - Nociception and Inflammation, 47
- Response to Pain, 48
  - Stress Response Theory, 49
  - Guidelines Proposed by the Joint Commission on Accreditation of Healthcare Organizations, 50
- Measuring and Assessing Pain, 52
- Management of Pain and Discomfort, 58
  - Nonpharmacologic Interventions, 58
  - Pharmacologic Interventions, 63
  - Recognizing and Managing Opioid Side Effects, 68
    - Co-Analgesics, 70
- Assessment and Management of Sedation, 70
  - Sedating Agents, 77
- Neuromuscular Blockade, 79

## UNIT 2 ELEMENTS OF CARE

---

### Chapter 5 Symptom Management, 91

*Mary Beth Flynn Makic and Karen K. Carlson*

- Patients at Risk, 91
- Nausea and Vomiting, 91
  - Pathophysiology of Nausea and Vomiting, 93
    - Causes Involving the Bowel, 93
    - Causes Involving Toxins, 93
    - Specific Causes, 93
  - Assessment and Treatment, 95
- Diarrhea, 100
  - Definition, 100
  - Types of Diarrhea, 100
    - Osmotic Diarrhea, 100
    - Malabsorption Diarrhea, 100
    - Secretory Diarrhea, 102
    - Infectious Diarrhea, 102
    - Exudative and Hypermotile Diarrhea, 102
  - Diarrhea as a Side Effect of Medications, 103
  - Diarrhea as the Result of Disease, 103
  - Management, 103
- Dyspnea, 104
  - Definition, 104
  - Types of Dyspnea, 104
  - Assessment and Management, 105

- Delirium, 106
  - Definition, 106
  - Types of Delirium, 106
  - Assessment and Management, 107
  - Multidisciplinary Plan of Care, 109

## **Chapter 6 Nutrition, 111**

*Molly Clark*

- Normal and Altered Metabolism, 111
  - Carbohydrate Metabolism, 111
  - Protein Metabolism, 111
  - Lipid Metabolism, 112
- The Metabolic Response, 112
- Nutrition Support, 114
  - Total Parenteral Nutrition, 114
  - Enteral Nutrition, 116
- Nutrition Assessment, 119
  - Indirect Calorimetry, 120
  - Predictive Equations, 120
  - Obesity, 121
  - Overfeeding, 122
  - Protein Needs, 122
  - Serum Proteins, 122
- Micronutrients, 124
  - Antioxidants and Critical Illness, 124
  - Wound Healing, 125
  - Immunonutrition, 126
- Multidisciplinary Care, 127

## **Chapter 7 Thermoregulation, 130**

*Richard Henker*

- Physiology of Thermoregulation, 130
- Fever, 131
  - Definition, 131
  - Patients at Risk, 132
  - Pathophysiology, 132
  - Fever Management, 134
- Hypothermia, 136
  - Patients at Risk, 136
  - Definition, 137
  - Pathophysiology, 137
  - Multidisciplinary Plan of Care, 137
- Hyperthermia, 140
  - Patients at Risk, 140
  - Definition, 141
  - Pathophysiology, 141
  - Multidisciplinary Plan of Care, 142

## **Chapter 8 Families in Critical Care, 145**

*Nancy C. Molter*

- Theoretical Foundations for Family-Centered Critical Care, 146
  - Chaos/Complexity Theory, 146
  - Theory of Human Relatedness, 146
  - Family Systems Theory, 147
  - Role Theories, 147
  - Crisis Theory, 150
  - Maslow's Theory of the Hierarchy of Needs, 150

- Evidence-Based Care for Families of the Critically Ill, 151
  - Family Needs, 151
  - Family Presence, 152
  - Family-Centered Interventions and Outcomes, 152
- Implementing Family-Centered Critical Care, 153
  - Unit and Organizational Assessment, 153
  - Strategies and Tools for Implementing Family-Centered Care, 154
- Evaluation of Outcomes, 155

## **Chapter 9 Improving Outcomes Through Prophylaxis, 158**

*Denise M. Lawrence, Vicki S. Good, and Karen K. Carlson*

- Rapid Response Teams, 158
- Venous Thromboembolism, 159
- Stress-Related Erosive Syndrome, 161
- Bloodstream Infection Related to Central Lines, 162
- Ventilator-Associated Pneumonia, 164
  - Definition, 164
- Patient Outcomes of VAP, 165
- Ventilator Bundle of Care, 165

## **UNIT 3 CARDIAC**

### **Chapter 10 Advanced Dysrhythmias, 173**

*Kristine J. Peterson*

- The Cardiac Action Potential, 173
  - Normal Cardiac Cell Function, 173
  - Action Potential of Ventricular Muscle Cells, 173
  - Action Potential of Pacemaker Cells, 174
  - Ionic Channels and Pumps, 174
  - Implications for Patient Care, 175
- Dysrhythmogenic Mechanisms, 176
  - Alterations in Impulse Formation, 176
  - Alterations in Impulse Conduction, 183
- Supraventricular Tachycardias, 184
  - Wolff-Parkinson-White Syndrome, 184
  - Atrioventricular Nodal Reentry Tachycardia, 185
  - AV Reciprocating Tachycardia, 187
  - Clinical Presentation of AVNRT and AVRT, 188
  - Management of AVNRT and AVRT, 188
- Ventricular Tachycardias, 189
  - Monomorphic Ventricular Tachycardia, 189
  - Polymorphic Ventricular Tachycardia, 190
- Disorders of Repolarization, 192
  - The QT Interval, 192
  - Long QT Syndrome, 192
  - Brugada Syndrome, 194
- Aberrancy Versus Ectopy, 195
  - Mechanisms of Aberrancy, 195
  - General Principles of Diagnosis, 195
- Digitalis Toxicity, 196
  - Digitalis Dysrhythmias, 196
  - Management of Digitalis Dysrhythmias, 199
- Atrial Fibrillation, 199
  - Electrophysiologic Features, 199
  - Management of Atrial Fibrillation, 200

- Heart Rate Variability, 202
  - Measurement, 202
  - Clinical Significance, 202
- Monitoring in Critical Care, 202
  - Accurate Lead Placement, 202
  - Choosing a Monitoring Lead, 202

## **Chapter 11 Acute Coronary Syndromes, 207**

*Nancy Munro*

- Pathophysiology, 207
- Patients at Risk, 209
- Classic (Stable) Angina, 210
  - Physical Assessment, 210
  - Laboratory Tests, 210
  - Other Diagnostic Tests, 211
- Unstable Angina and Non-ST Segment Elevation Myocardial Infarction, 212
- Multidisciplinary Plan of Care, 213
  - Anti-Ischemic Nursing Interventions and Bedside Monitoring, 213
  - Anti-Ischemic Medication Therapy, 216
  - Antiplatelet and Anticoagulation Therapy, 219
  - Preventive Nursing Interventions, 221
  - Revascularization Therapy, 222
  - Nursing Interventions for Patients Treated With Percutaneous Coronary Interventions, 223
- ST Segment Elevation Myocardial Infarction, 226
  - Physical and Laboratory Assessment, 226
  - Other Diagnostic Tests, 226
- Reperfusion Therapy, 226
  - Pharmacologic Reperfusion Therapy, 227
  - Interventional Reperfusion Therapy, 229
  - Complications of STEMI, 229
  - Emergency Interventions, 231
- Prevention of Coronary Artery Disease, 233
  - Lipid Management, 233
  - Smoking Cessation, 233
  - Blood Pressure Control, 234
  - General Preventive Interventions, 234

## **Chapter 12 Heart Failure, 237**

*Debra K. Moser, Barbara Riegel, Sara Paul, Terry A. Lennie, and Peggy L. Kirkwood*

- Prevention of Acute Decompensated Heart Failure, 237
  - Definition, 237
  - Pathophysiology of Heart Failure, 238
- Pathophysiology of Acute Decompensation in the Setting of Chronic Heart Failure, 245
- Stages and Types of Heart Failure, 245
- Patients at Risk, 247
- Assessment, 249
- Multidisciplinary Plan of Care, 252
- Pharmacologic Therapy: Acute Management, 254
- Diuretics, 257
- Vasodilators, 257
- Inotropic Agents, 258
- Other Vasoactive Agents, 259

- Device Therapy, 259
- Managing Comorbidities, 261
- Assessing Stability for Hospital Discharge, 262
- Pharmacologic Therapy: Chronic Management, 262
- Nonpharmacologic Therapy, 263
- Heart Failure Disease Management, 266

## **Chapter 13 Heart Disease in Women, 276**

*Peggy L. Kirkwood*

- Primary Prevention, 276
  - Assess Risk, 277
  - Lower Risk With Lifestyle Changes, 279
  - Other Risk-Reducing Interventions, 280
  - Highest Risk Priority Interventions, 281
  - Avoid Unhelpful Interventions, 281
  - Depression, 282
- Applied Pathophysiology, 285
  - Vessel Size, 285
  - Plaque, 285
  - Endothelial Integrity, 285
  - Lipids, Apolipoproteins, and Lipoproteins, 286
  - Hormones, 286
- Presentation, 286
  - Angina With "Normal" Coronary Arteries, 287
- Assessment, 287
- Interventions, 289
  - Medications, 290
  - Hormone Replacement Therapy, 291
  - Percutaneous Coronary Interventions, 291
  - Coronary Artery Bypass Surgery, 292

## **Chapter 14 Cardiac Surgery, 297**

*Joni L. Dirks*

- Coronary Artery Bypass Grafting, 297
  - Indications, 297
  - Selection of Conduits, 297
  - Surgical Procedure, 299
  - Cardiopulmonary Bypass, 300
  - "Off-Pump" Surgery, 301
- Transmyocardial Revascularization, 302
  - Indications, 303
  - Procedure, 303
- Ventricular Aneurysm Repair, 303
  - Procedure, 303
- Ventricular Septal Defect, 303
  - Procedure, 303
- Multidisciplinary Plan of Care, 304
  - Hypothermia, 304
  - Bleeding, 308
  - Dysrhythmias, 311
  - Myocardial Depression, 311
  - Pulmonary Support, 314
  - Sedation/Analgesia, 315
  - Prevention of Infection, 317
  - Complications, 318

## **Chapter 15 Valvular Disease and Surgery, 322**

*Barbara Leeper*

- Prevalence, 322
- Etiology, 322
  - Rheumatic Fever, 322
  - Endocarditis, 322
  - Other Etiologies, 323
- Emerging Trends in Surgical Management of Valvular Heart Disease, 323
  - Valve Repair Versus Valve Replacement, 323
- Aortic Regurgitation, 326
  - Pathophysiology, 327
  - Testing, 327
  - Signs and Symptoms, 327
  - Management, 327
- Aortic Stenosis, 328
  - Pathophysiology, 328
  - Testing, 328
  - Signs and Symptoms, 328
  - Management, 329
- Mitral Regurgitation, 330
  - Pathophysiology, 332
  - Testing, 332
  - Signs and Symptoms, 332
  - Management, 332
- Mitral Stenosis, 333
  - Pathophysiology, 334
  - Testing, 334
  - Signs and Symptoms, 334
  - Management, 334
- Tricuspid Valve, 335
  - Pathophysiology, 335
  - Testing, 335
  - Signs and Symptoms, 335
  - Management, 336
- Pulmonic Valve, 336
  - Testing, 336
  - Signs and Symptoms, 336
  - Management, 336
- Multivalvular Disease, 336
- Postoperative Management, 336
- Patient Education Issues, 341
  - Subacute Bacterial Endocarditis Prophylaxis, 341
  - Anticoagulation Issues, 341
  - Echocardiography Following Valve Surgery, 345

## **Chapter 16 Vascular Emergencies, 347**

*Joni L. Dirks and June Howland-Gradman*

- Emergencies Involving the Aorta, 347
  - Aortic Dissection, 347
  - Aortic Aneurysm, 350
  - Traumatic Injury to the Aorta, 352
- Treatment Strategies, 352
  - Surgical Treatment, 352
  - Interventional Therapies, 355
  - Medical Management, 357
- Multidisciplinary Plan of Care, 359
  - Assessment, 359
  - Blood Pressure Control, 359

- Pain Control, 359
- Postoperative Management, 363
- Emergencies Involving Arteries and Veins, 365
  - Acute Peripheral Arterial Occlusions, 365
  - Acute Peripheral Venous Occlusions, 371
- Vascular Injuries of the Extremities, 377
  - Clinical Presentation, 377
  - Scoring Systems, 378
  - Diagnostic Workup, 378
  - Management, 381

## **Chapter 17 Cardiomyopathy, 384**

*Nancy Albert*

- Cardiomyopathy Definitions and Classifications, 384
- Stages of Cardiomyopathy, 390
- Differentiating Cardiomyopathy Etiology, 391
- Prevention and Treatment of Cardiomyopathy, 393
  - Exercise Restrictions, 396
  - Pharmacologic Therapy in Hypertrophic Obstructive Cardiomyopathy, 396
  - Interventional Therapy in Hypertrophic Obstructive Cardiomyopathy, 396

## **Chapter 18 Heart and Lung Transplantation, 399**

*Julie A. Stanik-Hutt, Debra J. Carter and Diane Vail Skojec*

- Evaluation and Candidacy for Thoracic Transplantation, 399
- Surgical Approaches to Thoracic Transplantation, 402
  - Heart Transplantation, 402
  - Lung Transplantation, 405
- Altered Physiology in the Transplanted Heart and Lung, 406
  - The Denervated Transplanted Heart, 407
  - Interrupted Pulmonary Lymphatics After Lung Transplant, 409
  - Pulmonary Ciliary Dysfunction After Lung Transplant, 409
  - The Denervated Transplanted Lung, 409
- The Immune System and Transplantation, 410
- Immunosuppression, 411
- Rejection, 414
- Surgical Complications After Thoracic Transplant, 415
  - Infections, 416
  - Early Graft Failure, 418
    - Airway Problems, 419
    - Dysrhythmias, 420
    - Right Ventricular Failure, 421
- Additional Postoperative Problems After Thoracic Transplantation, 422
  - Diabetes Mellitus, 422
  - Nutrition, 423
  - Hypertension, 424
- General Postoperative Care, 424
  - Immediate Care, 424
  - Pulmonary Care, 440
  - Hemodynamic Care, 441
  - Recovery, 441

## UNIT 4 PULMONARY

### Chapter 19 Acute Respiratory Failure and Acute Lung Injury, 447

*Laurie Baumgartner*

- Definition, 447
- Mechanism of Hypoxemic Acute Respiratory Failure, 447
  - Ventilation/Perfusion Mismatching, 447
  - Intrapulmonary Shunt, 447
  - Alveolar Hypoventilation, 448
  - Impaired Diffusion, 448
  - Low Partial Pressure of Inspired Oxygen, 449
- Mechanisms of Hypercapnic Acute Respiratory Failure, 449
- Acute Lung Injury/Acute Respiratory Distress Syndrome, 453
- Epidemiology and Risk of Acute Lung Injury/Acute Respiratory Distress Syndrome, 453
  - Pathophysiology of Acute Lung Injury/Acute Respiratory Distress Syndrome, 454
  - Physical Assessment Findings, 456
- Diagnostic Evaluations, 457
  - Laboratory and Microbiology Studies, 458
- Multidisciplinary Plan of Care, 458
  - Mechanical Ventilation, 458
  - Positive End-Expiratory Pressure, 461
  - Permissive Hypercapnia, 461
  - Inverse Ratio Ventilation, 461
  - Recruitment Maneuvers, 461
  - High-Frequency Oscillatory Ventilation, 461
  - Inhaled Nitric Oxide, 461
  - Liquid Ventilation, 462
- Other Interventions, 462
  - Noninvasive Positive Pressure Ventilation, 462
  - Prone Positioning, 462
  - Medication/Fluid Use in ALI/ARDS, 463
- Resolution of Acute Lung Injury and Acute Respiratory Distress Syndrome, 465

### Chapter 20 Mechanical Ventilation and Weaning, 469

*Suzanne M. Burns*

- Volume Versus Pressure Modes, 469
  - Characteristics of Volume Ventilation, 469
  - Characteristics of Pressure Ventilation, 470
- Volume Versus Pressure Modes: The Science, 471
  - Ventilating the Noncompliant Lung, 471
  - Ventilating Patients With Severe Airflow Limitation, 472
  - Permissive Hypercapnia, 473
- Ventilator Parameters, 473
- Invasive Modes of Ventilation, 473
  - Volume Modes, 473
  - Pressure Modes, 475
  - Volume-Guaranteed Pressure Modes, 475
  - High-Frequency Oscillation, 477
- Noninvasive Ventilator Modes, 477
  - CPAP, 477
  - BiPAP, 477
- Respiratory Waveform Monitoring, 478
  - Pressure-Time and Flow-Time Waveforms, 478
  - Pressure-Volume Loops, 480

- Flow-Volume Loops, 481
  - Additional Uses of Respiratory Waveforms, 481
- Weaning From Mechanical Ventilation, 481
  - Assessment, 483
  - Respiratory Muscle Fatigue, Rest, Work, and Conditioning, 484
  - Modes and Methods, 486
  - Components of Weaning Protocols, 486
    - Criteria for Entry ("Wean Screen"), 486
    - Timing of Tracheostomy and Weaning Trials, 488
  - Multidisciplinary Plan of Care, 488

### Chapter 21 Thoracic Surgery, 493

*Jo Ann Brooks*

- THORACIC SURGERIES, 493
  - Pulmonary Resection, 493
    - Indications, 493
    - Diagnostic Evaluation, 494
    - Preoperative Evaluation, 495
  - Approaches and Procedures, 496
    - Wedge Resection, 496
    - Segmentectomy, 500
    - Lobectomy, 500
    - Pneumonectomy, 501
  - Pleural Surgery, 503
    - Problems of the Pleural Space, 504
    - Pleural Space Procedures, 505
  - Mediastinal Disease, 506
  - Diaphragmatic Surgery, 506
    - Diaphragmatic Abnormalities, 507
  - Chest Wall Disorders, 507
  - Complications of Thoracic Surgery, 507
    - Intraoperative, 507
    - Postoperative, 508
    - Pulmonary Complications, 508
    - Cardiac Complications, 511
    - Neurologic Complications, 511
    - Other Complications, 511
  - Multidisciplinary Care, 512
    - Principles of Care, 512
    - Preoperative Preparation, 512
    - Intraoperative Management, 513
    - Chest Drainage Management, 513
    - Pain Management, 514
    - Nutrition, 514
    - Mechanical Ventilation, 517
    - Respiratory Care, 517
    - Mobilization, 517
    - Critical Pathway, 517
- ESOPHAGEAL SURGERIES, 519
  - Esophageal Disease, 519
  - Esophageal Cancer, 519
    - Diagnosis, 520
    - Esophageal Resection Procedures, 520
    - Preoperative Evaluation, 520
    - Preoperative Preparation, 522
    - Postoperative Care, 522
    - Complications Related to Esophageal Surgery, 523
    - Other Esophageal Surgery, 524

## UNIT 5 NERVOUS SYSTEM

### Chapter 22 Head Injury and Dysfunction, 529

*Jan Powers and Christine Smith Schulman*

- Applied Physiology, 529
  - Cerebral Hemodynamics, 530
- Mechanism of Injury, 531
- Types of Traumatic Brain Injury, 533
  - Focal Injuries, 533
  - Skull Fractures, 533
  - Contusions, 535
  - Hematomas, 536
  - Diffuse Injuries, 538
- Pathophysiology, 539
  - Ischemia, 539
  - Impaired Metabolism, 540
  - Inflammatory Factors, 541
  - Types of Cerebral Edema, 542
- Intracranial Pressure and Cerebral Perfusion, 544
- Herniation, 545
- Multidisciplinary Plan of Care for the Traumatic Brain Injury Patient, 546
  - Prehospital Phase, 546
  - Early Hospital Management, 546
  - Continued Critical Care Management, 547
  - Rehabilitation, 548
- Monitoring, 548
  - Intracranial Pressure Monitoring, 548
  - Neuroimaging, 549
  - Cerebral Oxygen Monitoring, 552
  - Microdialysis, 553
  - Continuous Electroencephalography, 553
- TREATMENT OF TRAUMATIC BRAIN INJURY, 555
  - Management of Hypoxia and Hypotension, 555
  - Management of Intracranial Pressure, 555
    - First-Level Approaches for Intracranial Pressure Management, 556
    - Second-Level Approaches for Intracranial Pressure Management, 559
  - Strategies for Neuroprotection, 562
- Complications After Traumatic Brain Injury, 562
  - Immunosuppression, 562
  - Coagulopathy, 562
  - Electrolyte Disturbances, 562
  - Volume Depletion, 564
  - Metabolic Response, 565
  - Infectious Complications, 565
  - Pulmonary Complications, 567
  - Complications Related to Immobility, 567
  - Seizures, 567
- Other Medications Used for Traumatic Brain Injury, 568
  - Lidocaine, 568
  - Furosemide, 568
  - Steroids, 568
- Outcomes, 569

### Chapter 23 Cerebrovascular Disorders, 576

*Patricia Ann Blissitt*

- Patients at Risk, 576
  - Stroke Across the Life Continuum, 577

- Prevention, 578
- Definition, 578
- Pathophysiology, 580
  - Ischemic Stroke, 580
  - Subarachnoid Hemorrhage, 582
  - Intracerebral Hemorrhage, 586
- Assessment, 589
  - Laboratory Findings, 590
  - Radiographic Findings, 593
- Management, 599
  - Initial Management, 599
  - Critical Care Management, 599
  - Ischemic Stroke, 615
  - Subarachnoid Hemorrhage, 619
  - Intracerebral Hemorrhage, 626
- Evidence-Based Care, 627
- Ethical Considerations, 628

### Chapter 24 Spinal Cord Injury, 637

*Patricia Ann Blissitt*

- Patients at Risk, 637
- Prevention, 637
- Definition, 637
- Applied Pathophysiology, 641
- Assessment, 650
- Management, 656
  - Critical Care Management, 660
    - Neurologic, 661
    - Pulmonary, 666
    - Cardiac, 668
    - Gastrointestinal, 668
    - Genitourinary, 670
    - Endocrine, 671
    - Musculoskeletal, 671
    - Integumentary, 673
    - Pain, 673
    - Psychosocial, 673
- Evidence-Based Care, 675
- Research, 675
- Outcomes, 675
- Ethical Considerations, 677

### Chapter 25 Special Neurologic Patient Populations, 681

*Jeannette Richardson*

- Neurodiagnostic Testing, 681
  - Computed Tomography Scan, 681
  - Computed Tomography Angiography, 687
  - Magnetic Resonance Scan, 688
  - Cerebral Angiogram, 688
  - Positron Emission Tomography Scan, 688
  - Single Photon Emission Computed Tomography Scan, 688
  - Electroencephalogram, 688
  - Electromyography, Nerve Conduction Studies, and Neuromuscular Junction Studies, 689
  - Evoked Potentials, 689
- Seizure Disorders, 689
  - Status Epilepticus, 689
- Other Seizure-Related Admissions to Critical Care, 695

Brain Tumors, 696  
 Incidence and Classification, 697  
 Clinical Presentation and Diagnosis, 697  
 Management and Treatment, 700  
 Infections of the Central Nervous System, 705  
 Meningitis, 705  
 Encephalitis, 708  
 Brain Abscess, 708  
 Neurocysticercosis, 710  
 Creutzfeldt-Jakob Disease, 712  
 Ventriculostomy-Related Infections, 714  
 Neuromuscular Disorders, 715  
 Myasthenia Gravis, 715  
 Guillain-Barré Syndrome, 717  
 Critical Illness Polyneuropathy/Myopathy, 720  
 Therapeutic Hypothermia After Cardiac Arrest, 721  
 Determination of Death by Neurologic Criteria, 722  
 Multidisciplinary Plan of Care, 727

## UNIT 6 GASTROINTESTINAL

### Chapter 26 Gastrointestinal Bleeding, 737

*Michael W. Day*

Applied Physiology and Pathophysiology, 737  
 Prevention, 741  
 Assessment, 743  
 Physical Assessment Findings, 743  
 Laboratory Findings, 745  
 Radiology Findings, 746  
 Diagnostic Evaluations, 746  
 Multidisciplinary Plan of Care, 747

### Chapter 27 Liver Dysfunction and Failure, 754

*Rhonda K. Martin and Tarek Hassanein*

Acute Liver Failure, 754  
 Acute-on-Chronic Liver Dysfunction and Failure, 754  
 Applied Physiology, 755  
 Cirrhosis, 756  
 Hepatic Encephalopathy, 759  
 Multidisciplinary Plan of Care, 768  
 Referral/Listing for Liver Transplantation, 769  
 Liver Support Devices, 770

### Chapter 28 Pancreatitis, 774

*Eleanor Fitzpatrick*

Definition, 774  
 Patients at Risk, 774  
 Applied Physiology, 776  
 Assessment of Severity and Early Risk Stratification, 778  
 Laboratory Findings, 779  
 Radiology Findings, 780  
 Complications of Acute Pancreatitis, 781  
 Cardiopulmonary Complications, 781  
 Pulmonary Complications, 782  
 Renal Complications, 782  
 Gastrointestinal Complications, 782  
 Hematologic and Coagulation Derangements, 782  
 Multiple Organ Dysfunction Syndrome, 782

Local and Systemic Infectious Complications, 783  
 Multidisciplinary Plan of Care, 783

### Chapter 29 The Gut in Critical Illness, 792

*Andrea P. Marshall*

Normal Gastrointestinal Physiology, 792  
 Alterations to Normal Gastrointestinal Physiology in Critical Illness, 792  
 Gastrointestinal Mucosal Hypoperfusion, 792  
 Gastric Tonometry, 796  
 Historical Development, 796  
 Principles of Gastric Tonometry, 796  
 Physiologic Underpinnings of Gastric Tonometry, 796  
 Physiologic Influences on the Measurement of Carbon Dioxide Within the Tonometer Balloon, 797  
 Clinical Evaluation of Tonometrically Derived Measurements, 797  
 Technical Limitations of Gastric Tonometry, 800  
 Procedural Errors, 800  
 Semi-Continuous Measurement of PtcO<sub>2</sub>, 800  
 Stress-Related Mucosal Disease in Critically Ill Patients, 802  
 Prevalence, 802  
 Pathophysiology, 802  
 Risk Factors, 803  
 Stress-Related Mucosal Disease: Prophylaxis, 803  
 Antacids, 805  
 Histamine-2 Receptor Antagonists, 805  
 Proton Pump Inhibitors, 805  
 Sucralfate, 806  
 Enteral Nutrition, 806  
 Abdominal Compartment Syndrome, 806  
 Etiology, 806  
 Pathophysiology, 806  
 Measurement of Intra-Abdominal Pressure, 807  
 Management of Abdominal Compartment Syndrome, 810  
 Multidisciplinary Plan of Care, 812

### Chapter 30 Liver, Kidney, and Pancreas Transplantation, 818

*Patricia Radovich*

Liver Recipient Before Transplant, 818  
 Liver Transplantation, 819  
 Types of Liver Donors, 819  
 Preoperative Care, 820  
 Postoperative Care, 820  
 Primary Graft Nonfunction, 820  
 Assessment of the Liver Transplant Patient, 827  
 Liver and Kidney Transplantation, 828  
 Multidisciplinary Plan of Care, 828  
 Conclusions, 832  
 Renal Transplantation, 832  
 Patients at Risk, 832  
 Postoperative Care, 832  
 Kidney-Pancreas or Pancreas-Only Transplantation, 834  
 Patients at Risk, 834  
 Postoperative Complications, 835  
 Assessment, 836  
 Multidisciplinary Plan of Care, 836  
 Hospitalizations for Nontransplant Concerns, 836

## UNIT 7 RENAL

---

### Chapter 31 Electrolyte Emergencies, 841

*Michael W. Day and Rhonda S. Milam*

- Applied Physiology, 841
- Multidisciplinary Plan of Care, 842
- Potassium, 842
  - Applied Physiology, 842
  - Hyperkalemia, 843
  - Hypokalemia, 846
- Sodium, 849
  - Applied Physiology and Pathophysiology, 849
  - Hypermnatremia, 850
  - Hyponatremia, 851
- Calcium, 854
  - Applied Physiology and Pathophysiology, 854
  - Hypercalcemia, 856
  - Hypocalcemia, 857
- Magnesium, 859
  - Applied Physiology and Pathophysiology, 859
  - Hypermagnesemia, 859
  - Hypomagnesemia, 860
- Phosphorus, 861
  - Applied Physiology and Pathophysiology, 861
  - Hyperphosphatemia, 861
  - Hypophosphatemia, 862

### Chapter 32 Complex Acid-Base Disorders and Associated Electrolyte Imbalances, 865

*Kathleen H. Toto*

- Patients at Risk, 865
- Acid-Base Physiology, 865
  - Definitions and Normal Values, 865
  - Understanding Compensation, 866
  - Application of Acid-Base Principles, 866
  - The Anion Gap, 867
- Primary Acid-Base Disorders, 869
  - Metabolic Acidosis, 869
    - Causes of Metabolic Acidosis, 870
    - Manifestations of Metabolic Acidosis, 871
    - Electrolyte Imbalances Associated With Metabolic Acidosis, 872
    - Treatment of Metabolic Acidosis, 872
  - Metabolic Alkalosis, 876
    - Causes of Metabolic Alkalosis, 876
    - Manifestations of Metabolic Alkalosis, 877
    - Electrolyte Imbalances Associated With Metabolic Alkalosis, 877
    - Treatment of Metabolic Alkalosis, 879
- Respiratory Acidosis, 880
  - Causes of Respiratory Acidosis, 880
  - Manifestations of Respiratory Acidosis, 880
  - Treatment of Respiratory Acidosis, 880
- Respiratory Alkalosis, 881
  - Causes of Respiratory Alkalosis, 881
  - Manifestations of Respiratory Alkalosis, 882
  - Treatment of Respiratory Alkalosis, 882
- Mixed Acid-Base Disorders, 882

### Chapter 33 Acute Renal Failure, 886

*Robert Rothwell and Karen K. Carlson*

- Prevention of Renal Failure, 886
- Definition, 887
- APPLIED PATHOPHYSIOLOGY, 888
- Types of Renal Failure, 888
  - Prerenal Renal Failure, 889
  - Intrarenal Renal Failure, 891
  - Postrenal Renal Failure, 892
- Assessment, 892
  - Uremic Complications, 893
    - Cardiovascular Manifestations, 893
    - Respiratory Manifestations, 894
    - Hematologic Manifestations, 894
    - Gastrointestinal Manifestations, 894
    - Neurologic Manifestations, 895
- Interventions, 895
  - Fluid Balance, 895
    - Alterations in Electrolyte Balance, 901
    - Metabolic Acidosis, 901
- Renal Replacement, 901
  - Peritoneal Dialysis, 901
  - Hemodialysis, 902
    - Continuous Renal Replacement Therapies, 903
- Nutrition in Acute Renal Failure With Renal Replacement Therapy, 909
- Multidisciplinary Plan of Care, 910

## UNIT 8 ENDOCRINE

---

### Chapter 34 Glycemic Control, 915

*Carol S. Manchester and Mary Fran Tracy*

- Patients at Risk, 916
- Definition, 916
- Classification of Diabetes Mellitus, 917
- Physiology of Glucose Metabolism, 917
  - Functions of the Pancreatic Hormones, 919
- Pathophysiology of Diabetes Mellitus and Hyperglycemia, 920
- Acute Complications of Diabetes Mellitus, 921
  - Diabetic Ketoacidosis, 921
    - Causes or Precipitating Factors of Diabetic Ketoacidosis, 921
  - Hyperosmolar Hyperglycemic Nonketotic Syndrome, 926
- Hypoglycemia, 932
- Hyperglycemia, 933

### Chapter 35 Pituitary, Thyroid, and Adrenal Disorders, 939

*Diane Byrum and Peggy L. Kirkwood*

- Applied Pathophysiology, 939
- Disorders of Antidiuretic Hormone, 942
  - Diabetes Insipidus, 942
  - Syndrome of Inappropriate Antidiuretic Hormone, 946
- Thyroid Gland Disorders, 950
  - Hyperthyroidism (Thyrotoxicosis/Thyroid Storm), 950
  - Hypothyroidism and Myxedema Coma, 956
- Adrenal Insufficiency in Critical Illness, 957
  - Definition of Adrenal Insufficiency, 957

## UNIT 9 HEMATOLOGIC

### Chapter 36 Blood Conservation and Blood Component Replacement, 969

*Dana M. Kyles*

- Controversies in Transfusion, 969
- Blood Conservation, 970
  - Increasing Erythropoiesis, 971
  - Minimizing Perioperative and Iatrogenic Blood Loss, 971
  - Optimizing Hemostasis and Blood Transfusion Practices, 971
- Alternatives to Transfusion, 971
  - Recombinant Human Erythropoietin, 971
  - Vitamin K, 971
  - Recombinant Activated Factor VIIa, 971
- Blood Component Review, 975
  - Whole Blood, 976
  - Red Blood Cells, 977
  - Fresh Frozen Plasma, 977
  - Thawed Plasma, 978
  - Cryoprecipitate, 978
  - Platelets, 978
    - Apheresis Platelets, 979
    - Pooled Platelets, 979
    - Granulocytes, 979
- Blood Component Modification, 980
  - Leukocyte Reduction, 980
  - Plasma Volume Reduction, 981
  - Cytomegalovirus-Negative Components, 981
  - Gamma Irradiation, 981
  - Artificial Red Blood Cell Substitutes (Modified Hgb Blood Substitutes, Perfluorochemicals), 981
  - Hemoglobin-Based Oxygen Carriers, 981
  - Perfluorochemicals, 981
- Considerations in Blood Transfusion, 981
  - ABO/Rh Compatibility, 981
  - Rhesus (Rh) System, 982
  - Autologous Transfusion, 982
  - Preoperative Autologous Donation, 982
  - Perioperative Blood Salvage, 982
  - Acute Normovolemic Hemodilution, 982
  - Postoperative Blood Collection, 983
  - Directed Donor Transfusion, 983
  - Massive Transfusions, 983
  - Use of Blood Warmers, 983
- Adverse Effects Related to Transfusion of Blood Components, 984
  - Transfusion-Related Acute Bacteremia/Bacterial Contamination, 985
  - Transfusion-Associated Graft-Versus-Host Disease, 985
  - Delayed Hemolytic Transfusion Reaction, 985
  - Febrile Nonhemolytic Transfusion Reaction, 985
  - Allergic Transfusion Reactions, 988
  - Nonimmune-Related Hemolysis Transfusion Reaction, 988
  - Acute Hemolytic Transfusion Reaction, 989
- Other Blood-Related Issues, 991
  - Red Blood Cell Storage Lesion, 991
  - 2,3-Diphosphoglyceric Acid and Adenosine Triphosphate, 991
  - Red Blood Cell Deformability, 991
  - Red Blood Cell Adhesion, 991

- Transfusion-Related Immune Modulation, 991
- Transfusion-Related Acute Lung Injury, 991
- Post-Transfusion Purpura, 992
- Disease Transmission, 993

### Chapter 37 Coagulopathies, 995

*Diane K. Dressler*

- Normal Hemostasis and the Pathways to a Clot, 995
- Disseminated Intravascular Coagulation, 998
  - Pathophysiology of DIC, 998
  - Clinical Manifestations of DIC, 1001
  - Laboratory Features of DIC, 1001
  - Management of DIC, 1002
- Postoperative Coagulopathy, 1004
- Bleeding Resulting From Anticoagulation, 1005
  - Platelet inhibitors, 1007
  - Warfarin, 1008
  - Heparin, 1008
    - Direct Thrombin Inhibitors, 1009
    - Inhibitors of Factor Xa, 1010
    - Thrombolytic Agents, 1010
  - Thrombocytopenia, 1010
  - Heparin-Induced Thrombocytopenia, 1010
  - Pathologic Fibrinolysis, 1011
  - Vitamin K Deficiency, 1011
  - Bleeding Associated With Liver Disease, 1011
  - Bleeding Associated With Uremia, 1012
  - Bleeding Associated With Head Injury, 1012
  - Circulating Inhibitors of Coagulation, 1012
  - Thrombotic Disorders, 1012
    - Deep Venous Thrombosis, 1013
    - Pulmonary Emboli, 1013
  - Multidisciplinary Plan of Care, 1013

## UNIT 10 CRITICAL CARE IMMUNOLOGY

### Chapter 38 Caring for the Immunocompromised Patient, 1021

*Brenda K. Shelton*

- Definitions, 1021
- Patients at Risk, 1022
- Assessment, 1027
  - Physical Findings, 1027
  - Diagnostic Test Results, 1027
- Multidisciplinary Plan of Care, 1030
  - Prevention of Infection, 1030
  - Enhancement of Immune Function, 1036
  - Treatment of Infection, 1038

### Chapter 39 Bone Marrow Transplantation, 1042

*Carol E. Jacoby and Christine Smith Schulman*

- Autologous Stem Cell Transplantation, 1042
- Allogeneic Stem Cell Transplantation, 1042
- Pretransplant Considerations, 1043
  - Recipient Evaluation and Preparation, 1043
  - Conditioning Regimen, 1045
  - Donor Evaluation, 1046
  - Stem Cell Harvesting, Mobilization, and Collection, 1047

Transplantation and Engraftment, 1048  
Psychosocial Implications, 1049  
Complications of Transplant, 1053  
  Graft-Versus-Host Disease, 1053  
  Infection, 1056  
  Anemia, 1058  
  Thrombocytopenia, 1058  
  Mucositis, 1058  
  Nutritional Issues, 1059  
  Veno-Occlusive Disease of the Liver, 1060  
  Pulmonary Complications, 1060  
  Relapse of Primary Disease, 1061

## **UNIT 11 MULTISYSTEM DISORDERS**

### **Chapter 40 Shock and End Points of Resuscitation, 1067**

*John J. Gallagher*

APPLIED PHYSIOLOGY OF CELLULAR METABOLISM, 1067  
Oxygen Delivery, Consumption, and Extraction, 1067  
Oxygen Consumption, 1068  
Oxygen Delivery Dependence and Oxygen Debt, 1068  
Classifications of Shock, 1070  
  Hypovolemic Shock, 1070  
  *Obstructive Shock, 1070*  
  Cardiogenic Shock, 1071  
  Vasogenic Shock, 1071  
  Neurogenic Shock, 1071  
  Septic Shock, 1071  
  Anaphylactic Shock, 1072  
General Phases of Shock, 1072  
  Compensatory Phase, 1073  
  *Decompensated Phase, 1073*  
  Irreversible Shock Phase, 1074  
Resuscitation Measures in Shock, 1074  
  Initial Evaluation, 1074  
  Fluid Resuscitation, 1075  
  Colloid Solutions, 1076  
Nutritional Support in Shock, 1077  
End Points of Resuscitation, 1078  
  Blood Pressure, 1079  
  Urine Output, 1080  
  Serum Lactate Levels, 1080  
  Arterial Base Deficit, 1080  
  Monitoring Technology, 1081  
  Oxygen Monitoring, 1081  
  Mixed Venous Oxygen Saturation, 1082  
  Hemodynamic Indices, 1082  
  Preload, 1083  
  Right Ventricular End-Diastolic Volume Index, 1083  
  Afterload, 1084  
  Contractility, 1084  
  End-Tidal Carbon Dioxide, 1085  
Regional Resuscitation End Points, 1086  
  Intramucosal pH, 1086  
  Sublingual Capnometry, 1087  
  Near-Infrared Spectroscopy, 1088  
Multidisciplinary Plan of Care, 1088  
Complications of Shock, 1094

### **Chapter 41 Optimizing Hemodynamics: Strategies for Fluid and Medication Titration in Shock, 1099**

*Deborah Tuggle*

Hypoperfusion States and Systemic Responses, 1099  
The Truth About Blood Pressure, 1100  
Identifying and Interpreting Hemodynamic Measures, 1103  
  Arterial Blood Pressure, 1104  
  *Preload Measures, 1104*  
  Afterload Measures, 1105  
  Contractility Measures, 1105  
  Overall Cardiovascular Performance and Perfusion Indicators, 1107  
  Putting It Together: Differentiating Shock States, 1109  
Shock-Specific Therapy, 1109  
  Hypovolemic Shock, 1109  
  Cardiogenic Shock, 1112  
  Vasogenic Shock, 1113  
Titratable Medications Used in Managing Shock, 1115  
  Inotropic Agents, 1122  
  Vasopressor Agents, 1125  
  Vasodilator Agents, 1126  
Nursing Care of the Shock Patient, 1128

### **Chapter 42 Trauma, 1134**

*Christine Smith Schulman*

Epidemiology, 1134  
Development of the Trauma System, 1134  
Mechanisms of Injury, 1134  
  *Laws of Motion and Energy (Kinematics), 1135*  
Blunt Trauma, 1137  
  Motor Vehicle Crash, 1137  
  Other Types of Collisions, 1137  
Falls, 1140  
Blast Injuries, 1140  
Penetrating Trauma, 1140  
  Gunshot Wounds, 1140  
  *Stab Wounds and Impalements, 1142*  
Applied Pathophysiology, 1142  
Physiologic Responses to Shock, 1142  
  Shock, 1142  
  Systemic Inflammatory Response During Traumatic Shock, 1143  
  Hypermetabolic Response to Trauma, 1143  
  Physiologic Sequelae During Trauma Resuscitation, 1144  
  Abdominal Compartment Syndrome, 1148  
  Rhabdomyolysis, 1148  
Pathophysiology of Specific Injuries, 1149  
  Brain and Spinal Cord Injury, 1149  
  Facial Trauma, 1149  
  Chest Trauma, 1149  
  Abdominal Trauma, 1151  
  Musculoskeletal Injuries, 1152  
ASSESSMENT AND INTERVENTION, 1154  
  Primary Survey, 1155

- Airway, 1155
- Breathing, 1155
- Circulation, 1155
- Disability, 1157
- Secondary Survey, 1157
  - Assessment and intervention of Specific Injuries, 1159
- Early Critical Care Resuscitation, 1159
  - Continued Resuscitation, 1171
  - Reversing the Lethal Triad of Hypothermia, Acidosis, and Coagulopathy, 1173
  - Managing Abdominal Compartment Syndrome, 1176
  - Identifying, Preventing, and Managing Rhabdomyolysis, 1176
  - Providing Analgesia and Sedation, 1177
- Critical Care Management of Complications Following Trauma, 1177
  - Acute Respiratory Distress Syndrome, 1177
  - Providing Nutritional Support, 1179
  - Assessing and Treating Infection, 1180
  - Preventing Deep Venous Thrombosis, 1181
  - Providing Psychosocial Support, 1183

### **Chapter 43 Systemic Inflammatory Response Syndrome and Multiple Organ Dysfunction Syndrome, 1189**

*Dennis J. Cheek, Sophia Chu Rodgers, and Christine Smith Schulman*

- Definitions and Patient Identification, 1189
- Epidemiology, 1190
- Pathophysiology of Multiple Organ Dysfunction Syndrome, 1190
  - Inflammation, 1190
  - Activation of Coagulation, 1191
  - Impairment of Fibrinolysis, 1191
  - Role of the Endothelium, 1193
- Mechanisms of Organ Dysfunction in MODS, 1193
  - Cardiovascular System, 1193
  - Respiratory System, 1194
  - Gastrointestinal System, 1194
  - Hepatic System, 1195
  - Renal System, 1195
  - Neurologic System, 1195
  - Hematologic System, 1195
- Assessment of Multiple Organ Dysfunction Syndrome, 1196
- Interventions, 1198
  - Initial Resuscitation, 1199
  - Management of Infection, 1205
  - Additional Hemodynamic Support, 1205

### **Chapter 44 Burns, 1212**

*Louis R. Stout*

- Applied Physiology, 1214
- Initial Assessment, 1214
- Burn Stress Response, 1216
- Sympathetic Nervous System, 1216
  - Use of Medications to Reduce Metabolic Demands, 1217
- Causative Agents, 1217
  - Thermal Burns, 1217
  - Electrical Burns, 1218

- Chemical Burns, 1218
  - Inhalation Injury, 1219
- Zones of Burn Wounds, 1221
- Depth of Burns, 1222
  - First-Degree Burns (Superficial), 1223
  - Second-Degree Burns (Partial Thickness), 1224
  - Third-Degree Burns (Full Thickness), 1226
  - Fourth-Degree Burns, 1226
- Severity of Burns, 1226
  - Rule of Nines, 1227
  - Rule of Palms, 1228
  - Lund and Browder Chart, 1229
- Resuscitation, 1229
  - Fluid Resuscitation in the First 24 Hours, 1229
  - Pediatric Resuscitation, 1233
  - Difficult Resuscitation, 1234
  - Fluid Resuscitation in the Second 24 Hours (Hours 24 to 48), 1234
  - Fluid Resuscitation in the Third 24 Hours (Hours 48 to 72), 1234
- Specific Burn Injury Interventions, 1235
  - Electrical Injury, 1235
  - Chemical Burns, 1236
  - Circumferential Burns, 1238
  - Compartment Syndrome, 1240
  - Abdominal Compartment Syndrome, 1240
- Specific Anatomic Burns, 1242
  - Extremity Burns, 1242
    - Facial Burns, 1242
    - Burns of the Eyes, 1242
    - Burns of the Ears, 1242
    - Burns of the Hands and Feet, 1243
    - Burns of the Genitalia and Perineum, 1243
    - Other Burn Center Patients, 1243
- Appropriate Diagnostic Evaluations, 1243
  - Laboratory Testing, 1243
  - Radiologic Testing, 1243
  - Fiberoptic Bronchoscopy, 1243
  - Other Diagnostic Interventions, 1243
- Patient Transport, 1244
- Topical Antimicrobial Therapy, 1244
- Monitoring, 1245
  - Hemodynamic Monitoring, 1245
  - Indwelling Urinary Catheter, 1245
- Mechanical Ventilation, 1246
  - Carboxyhemoglobin, 1246
  - Interventions for Inhalation Injury, 1246
- Intravenous Fluid, 1246
- Analgesia, 1246
- Nutritional Support, 1247
- Wound Care, 1250
  - Primary Approaches to Wound Care, 1250
  - Surgical Excision and Grafting, 1251
  - Vacuum-Assisted Closure, 1252
- Identification of Targeted/Expected Outcomes, 1257

### **Chapter 45 Mass-Casualty Competencies, 1261**

*Michael L. Schlicher*

- Mass-Casualty Preparation, 1265
- Triage and Decontamination, 1265
- Personal Protective Equipment, 1266

- Command and Control, 1266
- Critical Care Unit Planning and Management, 1267
- Chemical-Biological-Radiologic-Nuclear Review, 1269
  - Chemical Attack, 1270
  - Biological Attack, 1270
  - Nuclear and Radiologic Attacks, 1279
- Educational Competencies for Registered Nurses Related to Mass-Casualty Incidents, 1280

## **UNIT 12 SPECIAL PATIENT POPULATIONS**

### **Chapter 46 Caring for the Patient in the Immediate Postoperative Period, 1289**

*Denise O'Brien and Sharon Dickinson*

- Patients at Risk for Postoperative Complications, 1289
- OVERVIEW OF ANESTHESIA AND THE ANESTHETIC AGENTS, 1290
  - General Anesthesia, 1290
  - Intravenous Agents, 1291
  - Neuromuscular Blocking Agents, 1293
  - Regional Anesthesia, 1293
    - Local Anesthetics, 1293
- Patient Transfer to Postanesthesia Care From the Operating Room, 1298
  - Respiratory Complications, 1300
  - Cardiovascular Complications, 1301
  - Central Nervous System Complications, 1302
  - Electrolytes, 1302
  - Nutrition, 1303
  - Thermoregulation, 1303
  - Postanesthesia Shivering, 1304
  - Acute Postoperative Pain and Comfort Management, 1305
  - Postoperative Nausea and Vomiting, 1305
  - Other Complications: Risks Associated With the Use of Herbal or Vitamin Supplements, 1305
- The Surgical Care Improvement Project, 1306
- Multidisciplinary Plan of Care, 1307

### **Chapter 47 Caring for the Critically Ill Pregnant Patient, 1313**

*Julene B. Kruihof*

- Pregnancy and Critical Illness, 1313
- Normal Physiologic Changes in Pregnancy, 1315
  - Reproductive System, 1315
  - Cardiovascular System, 1315
  - Pulmonary System, 1316
  - Gastrointestinal System, 1317
  - Renal System, 1317
- Monitoring of the Critically Ill Obstetric Patient, 1317
  - Maternal Monitoring, 1317
  - Fetal Monitoring, 1318
  - Multidisciplinary Plan of Care, 1318
  - Environment of Safety, 1319
  - Psychosocial Care, 1322
  - Maintenance of Cardiac Output, 1322
  - Airway and Oxygenation Support, 1322
  - Infection Control, 1323
  - Pharmacologic Concerns, 1323

- Nutritional Considerations/Glycemic Control, 1326
- Prevention of Deep Venous Thrombosis, 1327
- Labor and Delivery Considerations, 1327
  - Pain Management, 1329
- Postdelivery Care, 1329
  - Prevention of Hemorrhage, 1329
  - Support of Breast-Feeding, 1330
  - Support of Maternal-Infant Bonding, 1330
- Cardiac Disease in Pregnancy, 1330
  - General Considerations, 1330
  - Pregnancy in Women With Preexisting Valvular Heart Disease, 1331
  - Pregnancy in Women With Congenital Heart Disease, 1331
  - Cardiac Disease Arising During Pregnancy, 1332
  - Hypertensive Disease, 1333
- Pulmonary Dysfunction in Pregnancy, 1334
  - Mechanical Ventilation, 1335
  - Asthma, 1335
  - Acute Respiratory Distress Syndrome, 1335
  - Pulmonary Embolism, 1335
  - Amniotic Fluid Embolism/Anaphylactoid Syndrome of Pregnancy, 1335
- Acute Fatty Liver of Pregnancy, 1336
- Trauma in Pregnancy, 1336
  - General Pregnancy Considerations, 1336
  - Cardiovascular Considerations, 1336
  - Abdominal and Pelvic Considerations, 1337
  - Reproductive System Considerations, 1337
  - Neurologic System Considerations, 1337
  - Multisystem Considerations, 1337

### **Chapter 48 Caring for the Pediatric Patient in an Adult Critical Care Unit, 1340**

*Mary Frances D. Pate*

- Levels of PICU Care, 1340
- Models of Co-Residence, 1340
  - Service Line Model, 1340
  - Geographic Model, 1340
- Regionalization of Care, 1340
  - Pediatric Intensivist Coverage, 1341
  - Tiered Care, 1341
  - Localized Community Care, 1341
- Standardizing Care for Children, 1341
  - Standardized Equipment, 1347
  - Standardizing Emergency Equipment, 1349
  - Standardizing Documentation Across the Institution, 1350
- Child and Family-Centered Care, 1350
  - Decreasing Family Stressors, 1351
  - Family Presence, 1353
  - Siblings and Childhood Friends, 1353
- Quality Monitoring, 1353
- The Child's Response to Critical Care, 1354
- Considerations in Pediatric Care, 1355
  - Pediatric Assessment, 1355
  - Fluid Balance in Children, 1356
  - Medication Administration in Children, 1357
- Pain in Children, 1358
  - Neuromuscular Blockade, 1360
- Intentional Injuries in the Pediatric Patient, 1361

- Role of the Nurse, 1361
- Parental Permission and Child Assent, 1361
- Transitions for the Child and Family in Critical Care, 1364
  - Out of the PICU, 1364
  - Palliative Care, 1364
- Pediatric Resuscitation Priorities, 1364
- Competent Pediatric Intensive Care Nursing, 1364
  - Initial Pediatric Orientation, 1367
  - Ongoing Competencies, 1367

## **Chapter 49 Caring for the Critically Ill Elderly Patient, 1372**

*Laura M. Criddle*

- The Aging Population, 1372
  - Demographics, 1372
- Factors That Influence Aging, 1372
  - Age-Related Changes, 1372
  - Social and Environmental Factors, 1373
  - Cumulative Health History, 1373
  - Comorbidities, 1373
- The Geriatric Critical Care Patient, 1373
  - Demographics, 1373
  - Traumatic Injury, 1374
  - Minimizing Potential Critical Care Problems, 1375
- Cardiovascular System, 1375
  - Age-Related Changes, 1375
  - Common Problems and Management Strategies, 1377
- Respiratory System, 1378
  - Age-Related Changes, 1378
  - Common Problems and Management Strategies, 1379
- Neurologic System, 1381
  - Age-Related Changes, 1381
  - Common Problems and Management Strategies, 1382
- Musculoskeletal System, 1384
  - Age-Related Changes, 1384
  - Common Problems and Management Strategies, 1385
- Integumentary System, 1385
  - Age-Related Changes, 1385
  - Common Problems and Management Strategies, 1385
- Urinary System, 1386
  - Age-Related Changes, 1386
  - Common Problems and Management Strategies, 1387
- Gastrointestinal System, 1388
  - Age-Related Changes, 1388
  - Common Problems and Management Strategies, 1389
- Endocrine/Metabolic System, 1391
  - Age-Related Changes, 1391
  - Common Problems and Management Strategies, 1392
- Thermoregulation, 1392
  - Age-Related Changes, 1392
  - Common Problems and Management Strategies, 1393
- Drug Metabolism, 1393
  - Age-Related Changes, 1394
  - Common Problems and Management Strategies, 1394
- Psychosocial and Functional Factors, 1394
  - Age-Related Changes, 1394
  - Common Problems and Management Strategies, 1394
- Multidisciplinary Plan of Care, 1395

## **Chapter 50 Caring for the Critically Ill Patient With a Neuropsychiatric Disorder, 1401**

*Charles A. Walker and Kathleen M. Baldwin*

- Definitions, 1401
- At-Risk Patients, 1402
- Types of Neuropsychiatric Disorders, 1402
  - The Three Ds: Delirium, Dementia, and Depression, 1402
  - Schizophrenia, Mania, and Anxiety, 1411
- Multidisciplinary Plan of Care, 1413
  - The Anxious Patient, 1414
  - The Confused Patient, 1414
  - The Elated Patient, 1415
  - The Hostile Patient, 1415
  - The Manipulative Patient, 1416
  - The Suicidal Patient, 1416
  - The Suspicious Patient, 1417
  - The Withdrawn Patient, 1417

## **Chapter 51 Caring for the Bariatric Patient, 1420**

*Sandra L. Schutz*

- Defining and Classifying Obesity, 1420
- The Physiologic Effects of Obesity, 1421
- Complications of Obesity, 1422
  - Metabolic Complications, 1424
  - Pulmonary Complications, 1424
  - Cardiovascular Complications, 1426
  - Renal Complications, 1428
  - Gastrointestinal Complications, 1428
  - Mobility Complications, 1428
  - Gynecologic Complications, 1428
  - Cancer Risk, 1428
  - Genitourinary Complications, 1428
  - Dermatologic Complications, 1429
  - Cerebrovascular Effects, 1429
  - Hematologic Effects, 1429
  - Immunologic Effects, 1430
  - Psychosocial Impacts, 1430
- Treatment of Obesity, 1430
  - Medical Treatment, 1430
  - Surgical Treatment, 1433
- Patient Selection for Bariatric Surgery, 1433
- Bariatric Surgical Procedures, 1435
  - Surgical Risks and Complications of Bariatric Surgery, 1438
- Management of the Critically Ill Obese Patient, 1440
- Unique Care Requirements, 1444

## **Chapter 52 Oncologic Emergencies, 1453**

*Roberta Kaplow*

- Hypercalcemia of Malignancy, 1453
  - Patients at Risk, 1453
  - Pathophysiology, 1453
  - Physical Assessment Findings, 1453
  - Laboratory Findings, 1454
  - Diagnostic Evaluation, 1454
  - Multidisciplinary Plan of Care, 1454
- Acute Tumor Lysis Syndrome, 1456

- Patients at Risk, 1456
- Pathophysiology, 1457
- Physical Assessment Findings, 1457
- Laboratory Findings, 1457
- Multidisciplinary Plan of Care, 1458
- Syndrome of Inappropriate Antidiuretic Hormone Secretion, 1459
- Patients at Risk, 1459
- Pathophysiology, 1459
- Physical Assessment Findings, 1460
- Laboratory Findings, 1460
- Multidisciplinary Plan of Care, 1460
- Spinal Cord Compression, 1461
- Patients at Risk, 1461
- Pathophysiology, 1461
- Assessment Findings, 1461
- Radiology Findings, 1463
- Multidisciplinary Plan of Care, 1463
- Superior Vena Cava Syndrome, 1465
- Patients at Risk, 1465
- Pathophysiology, 1465
- Assessment Findings, 1465
- Radiology Findings, 1465
- Multidisciplinary Plan of Care, 1465
- Cardiac Tamponade, 1468
- Patients at Risk, 1468
- Pathophysiology, 1468
- Assessment Findings, 1469
- Radiology Findings, 1470
- Diagnostic Evaluation, 1470
- Multidisciplinary Plan of Care, 1470

### **Chapter 53 Chemical Dependency, 1476**

*Sandra L. Schutz*

- Patient Assessment, 1476
- Alcohol Addiction, 1476
  - Pathophysiology of Alcohol Addiction, 1477
  - Acute Alcohol Withdrawal Syndrome, 1477
  - Management of Acute Alcohol Withdrawal, 1479
  - Medical Sequelae of Alcohol Exposure, 1484
  - Alcohol Dependence in the Older Adult, 1486
- Drug Addiction, 1487
  - Pathophysiology of Drug Addiction, 1487
  - Acute Drug Withdrawal Syndrome, 1487
  - Management of Acute Opiate Withdrawal, 1490
  - Medical Sequelae of Drug Exposure, 1492
  - Psychiatric Disorders and Addiction, 1492
- Illicit Drug Abuse and Toxic Overdose, 1493
- Multidisciplinary Plan of Care, 1500

### **Chapter 54 End-of-Life Care, 1507**

*Debra J. Lynn-McHale Wiegand and Laura D. Williams*

- Predicting Death in Critical Care, 1507
- End-of-Life Considerations, 1509
  - Do Not Resuscitate Decisions, 1509
  - Defining Life-Sustaining Therapy, 1509
  - Defining Death, 1510
  - Organ Donation, 1510
- Ethical Palliative and End-of-Life Care, 1510
  - A Patient's Right to Self-Determination, 1510
  - Family Advocacy and Decision Making, 1511
  - Benefit Versus Burden of Therapy, 1511
  - Medical Futility, 1512
  - Withholding and Withdrawing Life-Sustaining Therapy, 1512
    - Neuromuscular Blockade, 1512
    - The Principle of Double Effect, 1512
- Palliative Symptom Management, 1513
  - Pain, 1513
  - Dyspnea, 1514
  - Anxiety, 1514
  - Delirium, Agitation, and Confusion, 1514
- Family Care, 1515
  - Patients, Families, and the Healthcare Team, 1515
- Withdrawal of Life-Sustaining Therapy, 1517
  - Withdrawal of Life-Sustaining Therapy—Is It an Option? 1517
  - Withdrawal of Life-Sustaining Therapy—What Should Be Withdrawn? 1517
  - Withdrawal of Life-Sustaining Therapy—How Should It Be Withdrawn? 1518
- Preparing for Withdrawal of Life-Sustaining Therapy, 1518
  - Preparing for the End of Life, 1520
  - Preparing the Environment, 1520
  - Preparing the Patient, 1520
  - Preparing the Family, 1520
- Care at the Time of Death, 1520
- Bereavement, 1521
- End of Life and the Critical Care Nurse, 1521

### **Appendix A: Answers to Decision Point Questions, 1527**

### **Illustration Credits, 1567**

### **Index, 1569**
