HOW TO CHEAT AT ADMINISTERING

Office Communications Server 2007

The Perfect Reference for the Multitasked Administrator

- Master the New Features of Communicator 2007, Including Voice over IP and Web Conferencing
- Troubleshooting Difficult Applications Such As Telephone Services
- Install, Configure, and Integrate with Outlook and Exchange Server

Anthony Piltzecker Technical Editor

Ron Barrett

Rabon Bussey

Adam Gent

Dustin Hannifin

Mohan Krishnamurthy

Matt McGillen

Paul Summitt

Contents

Chapter 1 Unified Communications	1
Introduction	2
History of Communication	2
Software Communication	5
IP Communication: How It Works and Why	
It's Revolutionizing Communication	7
Switching in the Voice World	7
Quality of Service	9
Understanding Presence	10
IM and Presence	12
Presence in Other Applications	13
Microsoft and Unified Communications	14
Exchange 2000 and IM	14
LCS 2003	15
LCS 2005	16
Secure IM	17
Public IM Connectivity	18
Archiving	18
Exchange Integration	18
PBX Integration	18
Exchange 2007	19
Summary	21
Solutions Fast Track	21
Frequently Asked Questions	23
Chapter 2 Microsoft Office Communications Server 2007	25
Introduction	26
What's New in OCS 2007?	26
New Features	26
On-Premises Web Conferencing	26
Group IM	28
Audio and Video	28
Enterprise Voice	29
Microsoft RoundTable Communications and Archival System	31
Enhanced Presence	32
Federation Enhancements	34

Client Applications	35
Simplified Deployment and Management	36
Deployment Planning Improvements	36
Installation Improvements	36
Management Improvements	37
Administration Improvements	37
Monitoring and Troubleshooting Improvements	37
New Deployment Tool	37
Management Console Improvements	38
Universal Group Support	38
Enhanced In-Band Provisioning	39
Integrated Address Book Server	39
Meeting Policies	39
CDRs	40
Improved Features	41
Improved Client	43
Comparing the Editions	45
Standard Edition	45
Enterprise Edition	45
OCS 2007 Server Roles	45
Front-End Server	46
Edge Server	46
Mediation Server	48
Archiving and CDR Server	49
Communicator Web Access	49
Planning an OCS 2007 Installation	52
“Net-New” Installation	53
Live Communications Server 2005 Upgrade	60
Summary	62
Solutions Fast Track	62
Frequently Asked Questions	64
Chapter 3 Installing the First OCS 2007 Front-End Server	67
Introduction	68
Addressing the Prerequisites	68
Forest/Domain Levels	69
Certificate Authorities	71
Database Server	74
Preparing Active Directory	78

Preparing the Schema	78
Preparing the Forest	80
Preparing the Domain	81
Installing and Configuring OCS 2007 Enterprise Edition	82
Installing the Software.	82
Configuring the Software	84
Installing the Front-End Server Role.	86
Working with Certificates.	87
Addressing DNS Requirements.	91
Verifying the Installation Summary	92
Summary	94
Solutions Fast Track	94
Frequently Asked Questions	95
Chapter 4 Microsoft Office Communicator 2007	97
Introduction	98
What's New with MOC 2007?	98
The Overall User Experience	98
Presence	98
Contact Management.	101
Instant Messaging.	101
Conversation History.	102
Alerts	102
Voice Features	102
Other New Features in MOC 2007	103
Enterprise Voice	104
Calling Features	105
Conferencing.	106
Switching Communication Modes	106
Automatic Setup for Audio and Video Devices	107
USB Audio Devices.	107
Installing MOC 2007.	107
Single-User Installation.	108
Group Policy Installation.	108
Other Installation Methods	112
Configuring a User for MOC 2007	112
Configuring Active Directory User Objects.	113
Enabling Users.	113
Using the Configuration Wizard.	114

Setting Individual User Properties	116
Additional Options	118
Configuring Multiple Users	119
Global Properties and Voice Properties	119
Enabling Multiple Users in Active Directory	122
Configuration Wizard	124
Configuring the MOC Client	124
Configuring Personal Options	124
Configuring Phone Options	125
Configuring Alerts	126
Configuring General Options	126
More Customization Options	126
Working with the MOC 2007 Administrative Template	127
Summary	130
Solutions Fast Track	130
Frequently Asked Questions	132

Chapter 5 Configuring the Edge Server 135

Introduction	136
Installing the Edge Server	136
Planning Edge Server Hardware	137
Planning for Network Interface Cards	137
Planning DNS and IP Addressing	137
Creating DNS Entries	137
Obtaining Public IP Addresses	139
Assigning IP Addresses	140
Creating Static Routes on the Edge Server	141
Installing the Software	142
Installing Edge Server Program Files	142
Activating the Edge Server	144
Configuring the Edge Server	146
Configuring the Front-End Server for	
Communication with the Edge	153
Finishing the Front-End Configuration	158
Finishing the Edge Deployment	160
Working with Certificates	160
Configuring the Internal Interface Certificate	160
Requesting the Certificate	161
Assigning the Internal Certificate	165
Requesting and Assigning the External Certificates	167

Dealing with Security Issues	167
Firewall Setup	167
External Connectivity	167
DMZ Connectivity	168
Using Network Address Translation (NAT)	168
Using ISA Server	169
Testing the Edge Server	170
Testing the Access Edge	170
Testing the A/V Service	172
Testing the Web Conferencing Service	172
Summary	173
Solutions Fast Track	173
Frequently Asked Questions	174
Chapter 6 Configuring the Mediation Server	175
Introduction	176
Installing the Configuration Server	180
Configuring the Gateway	192
Configuring Dialing Rules	200
Configuring Users for Voice Functionality	212
Testing Voice Functionality	214
Summary	216
Solutions Fast Track	216
Frequently Asked Questions	218
Chapter 7 Configuring Archiving	219
Introduction	220
Addressing Compliance Requirements	220
Types of Compliance	220
HIPAA	220
Sarbanes-Oxley Act	220
Other Compliance Requirements	221
How OCS Addresses Compliance	221
Archiving Conversations and Instant Messages	222
IM Archiving	222
Meeting Archiving	223
Call Detail Records	223
Ensuring Compliance	224
Handling Failure	225
Modifying WMI Settings for Archiving	225
Archive Retention	226

Archiving Topology	227
Standard Edition Topology	228
Enterprise Edition Topology	229
Installing the Archiving Server	231
Installation	231
Activation	232
Configuration.	234
Forest Configuration	234
Front-End Configuration	235
User Configuration	237
Summary	240
Solutions Fast Track	240
Frequently Asked Questions	242

Chapter 8 Configuring Conferencing Servers 243

Introduction	244
Understanding On-Premises Conferencing	244
On-Premises vs. Hosted Live Meeting	245
On-Premises Live Meeting.	245
Hosted Live Meeting	247
Using On-Premises Conferencing.	249
MOC-Based Videoconferencing	249
Setting Up Audio and Video.	249
Starting a Videoconference with MOC	252
Outlook Integration	254
MOC Integration with Outlook	255
Live Meeting Integration with Outlook	255
Ad Hoc Escalation	255
Configuring the Live Meeting Client	256
Configuring the Live Meeting Client for Hosted Live Meetings	256
Configuring the Live Meeting Client for On-Premises Live Meetings.	257
Using the Live Meeting Client's Meet Now Option	259
Overview of Live Meeting Features	260
Types of Participants	260
Inviting Other Meeting Participants via E-mail	260
Sharing Content	260
Sharing Applications and Desktops	261
Sharing a Whiteboard	261

Conducting Polls and Displaying Results during the Session	262
Allowing Attendees to Ask Questions	264
Microsoft RoundTable	264
What Is RoundTable?.	265
How Does RoundTable Work?	265
Why Use RoundTable?	265
Installing Conferencing	266
Configuring Global Settings	266
Configuring Server Settings	269
Summary	274
Solutions Fast Track	274
Frequently Asked Questions	275

Chapter 9 Integration with PBX and IP-PBX Systems 277

Introduction	278
Gateway Access to Non-OCS Solutions	278
Remote Call Control	278
Using a Gateway	279
Supported Gateways	280
Configuring an AudioCodes Gateway	280
Configuring Cisco CallManager As a Gateway	280
Understanding Partitions and Calling Search Spaces	281
Understanding Route Patterns	282
Understanding Gateways	283
Understanding SIP Trunks	283
Configuring Cisco CallManager	284
Configuring a Partition and Calling Search Spaces	284
Assigning Phone Numbers to a Partition	287
Configuring the SIP Trunk	290
Configuring the Route Pattern	294
Testing the Configuration	296
Configuring OCS	296
Configuring a Normalization Rule for Four-Digit Numbers	297
Configuring the Mediation Server	300
Configuring a Route to CallManager via the Mediation Server	301
Testing and Call Flow	302
Routing to the PSTN via CallManager	303

CSTA/SIP Gateways	303
What Does CSTA Do?	303
Cisco Unified Presence Server	304
Configuring CallManager for a CUPS Integration	304
Configuring a SIP Trunk	304
Configuring CallManager Users	306
Configuring Application Dial Rules	308
Configuring CUPS for an OCS Integration	310
Configuring OCS for a CUPS Integration	311
Configure OCS to Listen on Port 5060	311
Solutions Fast Track	312
Frequently Asked Questions	313
Chapter 10 Integration with Exchange 2007 Unified Messaging	315
Introduction	316
Exchange 2007 Unified Messaging	316
What Is It?	316
How Does It Work?	316
What Does It Work With?	317
Exchange 2007 Architecture	317
Requirements	319
Server Roles	319
Mailbox Server Role	320
Hub Transport Server Role	320
Client Access Server Role	320
Edge Transport Server Role	320
Unified Messaging Server Role	320
Configuring Exchange 2007 Unified Messaging	320
Installation	321
Auto-Attendant and Dial Plan Configuration	323
Mailbox Configuration: Combining OCS and Exchange 2007	
Unified Messaging	324
Benefits	324
Configuration	324
Summary	326
Solutions Fast Track	326
Frequently Asked Questions	327
Chapter 11 Upgrading to Office Communications Server 2007	329
Introduction	330
Understanding the Migration from LCS 2005 to OCS 2007	330

Understanding the Coexistence of LCS 2005 and OCS 2007	330
Feasibility of a Short Coexistence Time Frame	331
Comfort Factor of a Long Coexistence Time Frame	331
Choosing a Coexistence Time Frame That Works for You	331
Choosing the Migration Path from LCS 2005 to OCS 2007	331
Performing a “Big Bang” Migration to OCS 2007.	332
Performing a Phased Migration to OCS 2007.	332
Choosing the Right Time to Migrate from MOC 2005 to MOC 2007	332
Migrating Immediately to MOC 2007	333
Waiting to Migrate to MOC 2007	333
Planning Your Migration from LCS 2005 to OCS 2007.	334
Identifying Existing LCS 2005 Servers.	334
Identifying Existing LCS 2005 Server Roles	335
Mapping the Path of Communications between LCS 2005 Servers.	337
Understanding User Distribution on Existing Servers.	338
Determining Your Ability to Update Client Software Packages	339
Designing Your New OCS 2007 Environment.	340
Choosing a “Big Bang” Migration or a Phased Migration to OCS 2007	340
Upgrading Perimeter Servers	340
Preparing DNS	341
Preparing Certificates	342
Exporting a Certificate from LCS 2005	342
Importing a Certificate into OCS 2007	344
Installing a New Certificate onto an OCS 2007 Edge Server	345
Installing and Configuring the Edge Server	347
Redirecting Internal LCS 2005 Servers through the New Edge Server	348
Redirecting Inbound Traffic to the New Edge Server.	349
Upgrading Front-End Servers and Performing User Migration.	350
Installing a New OCS 2007 Front-End Server.	350
Adding a User Account and Testing Front-End Server Operations	350
Moving Pilot User Accounts from LCS 2005 to OCS 2007	351
Testing Pilot Users on OCS 2007	352
Moving and Testing the Balance of UserAccounts from LCS 2005 to OCS 2007	353
Removing LCS 2005 from the Network Environment	353
Validating That All Users Have Been Migrated Off of LCS 2005	354
Removing LCS 2005 Standard Edition	355
Removing LCS 2005 Enterprise Edition	357

What to Do Once You've Completed Your Migration to OCS 2007	358
Summary	359
Solutions Fast Track	359
Frequently Asked Questions	362
Chapter 12 Managing and Monitoring OCS 2007	365
Introduction	366
Using Call Detail Records	366
Conference Usage	371
IM Usage	371
Phone Usage	372
Using the Client Version Filter	372
OCS Troubleshooting Tools	375
Diagnostics	375
Diagnostics Headers	375
Runtime Server Diagnostics	376
Logging Tool	377
Route Helper	382
Snooper Tool	384
Best Practice Analyzer	386
Quality of Experience Server	391
Validation Wizard	396
System Center Operations Manager 2007	399
OCS 2007 Management Pack	400
Summary	401
Solutions Fast Track	401
Frequently Asked Questions	402
Appendix A Customizing the MOC Client	403
Introduction	404
Adding Custom Presence States	404
Adding Tabs	409
Adding Menu Commands	413
Summary	418
Solutions Fast Track	418
Frequently Asked Questions	419
Appendix B Working with SharePoint and Project Servers	421
Introduction	422
System Requirements	423
Installing Project Server 2007	423

Project Professional 2007	427
System Requirements	428
Installing Project Professional 2007	428
Sharing Projects with Project 2007	429
Sharing Documents and Version Control	434
Project Server Management Tasks	436
Manage Users.	437
