

Reviews: Methods and Technologies in Fish Biology and Fisheries

# Selective Breeding in Aquaculture: An Introduction

Trygve Gjedrem · Matthew Baranski

# Contents

|          |   |           |
|----------|---|-----------|
| <b>1</b> | <b>Introduction . . . . .</b>   | <b>1</b>  |
| 1.1      | Historic Development of Aquaculture . . . . .   | 1         |
| 1.2      | Definition of a Breeding Program . . . . .  | 3         |
| <b>2</b> | <b>Domestication and the Application of Genetic Improvement<br/>in Aquaculture . . . . .</b>  | <b>5</b>  |
| 2.1      | Domestication of Animals . . . . .  | 5         |
| 2.2      | Selective Breeding . . . . .  | 6         |
| 2.3      | Quality Traits . . . . .  | 7         |
| 2.4      | Better Utilization of Resources . . . . .   | 7         |
| 2.5      | Genetic Improvement is Accumulative . . . . .   | 7         |
| 2.6      | Genetic Improvement Produces Permanent Gains . . . . .  | 8         |
| 2.7      | Initiating a Selective Breeding Program . . . . .   | 9         |
| 2.8      | Selective Breeding Programs in Aquaculture . . . . .  | 10        |
| 2.9      | Prerequisites for a Breeding Program . . . . .  | 11        |
| <b>3</b> | <b>The Success of Selective Breeding in Aquaculture . . . . .</b>                             | <b>13</b> |
| 3.1      | Introduction . . . . .  | 13        |
| 3.2      | Atlantic Salmon . . . . .   | 13        |
| 3.3      | Rainbow Trout . . . . .   | 15        |
| 3.4      | Coho Salmon . . . . .   | 16        |
| 3.5      | Tilapia . . . . .   | 17        |
| 3.6      | Carp . . . . .  | 18        |
| 3.7      | Channel Catfish . . . . .   | 19        |
| 3.8      | Sea Bream . . . . .   | 20        |
| 3.9      | Shrimp . . . . .  | 20        |
| 3.10     | Oysters . . . . .   | 21        |
| 3.11     | Scallops . . . . .  | 21        |
| 3.12     | Genetic Improvement in Aquatic Species Compared to<br>Terrestrial Livestock Species . . . . . | 22        |
| 3.13     | Summary and Conclusion . . . . .  | 22        |
| <b>4</b> | <b>The Theoretical Basis for Breeding and Selection . . . . .</b>                             | <b>25</b> |
| 4.1      | Introduction . . . . .  | 25        |
| 4.2      | The Cell . . . . .  | 25        |
