Contents

| | |
|---|-----------|
| <i>Foreword</i> | <i>xi</i> |
| Chapter 1 An Overview of the Short Animation Process | 1 |
| Creating a Short Animation | 1 |
| Avoiding Death By Natural Causes | 1 |
| Preproduction | 2 |
| Production | 4 |
| Postproduction | 9 |
| The Importance of Following the Work Flow | 10 |
| Chapter 2 Story Story Story | 13 |
| What Makes an Engaging Story | 13 |
| Writing It Down | 19 |
| Story Scope, Your Resources, and Reality | 21 |
| Scope Example: Adding a Second Character | 22 |
| Scope Example: Adding a Second Location | 23 |
| Scope Example: Adding Length | 23 |
| How Long Is My Story? | 23 |
| Chapter 3 Organization | 25 |
| Your Digital Assets | 25 |
| The Way That Blender Handles Assets | 25 |
| A Suggested Organizational Structure | 26 |
| Chapter 4 Storyboarding and the Story Reel | 29 |
| Storyboarding Basics | 29 |
| Suggested Tools | 35 |
| Pen Tablets | 36 |
| Paint Software | 37 |
| Blender's Image Editor | 38 |
| Creating the Storyboards | 40 |
| Telling the Story | 42 |
| Recording a Temporary Soundtrack for Timing | 43 |
| Assembling a Story Reel in Blender's Sequence Editor | 44 |
| Sequencer Tools for Working with Image Strips | 50 |
| Watching and Exporting the Story Reel | 54 |

| | |
|--|------------|
| Chapter 5 Character Design and Creation | 57 |
| <i>Designing in Line with Your Theme and Reality</i> | 57 |
| The Beast | 59 |
| The Mom | 60 |
| The Dogs | 61 |
| Modeling Based on Storyboard Requirements | 62 |
| Faces, Hands, and Clothes | 62 |
| Level of Detail | 63 |
| Normal Mapping for Greater Detail at Lower Resolutions | 64 |
| Mesh Animation Issues | 67 |
| Quads, Edge Loops, and Joints | 68 |
| Bind Pose | 72 |
| Polygon Count | 73 |
| Preparing the Model for Future Work | 75 |
| Chapter 6 Libraries and Linking | 77 |
| Libraries, and Why You Should Bother | 77 |
| Linking Assets That Do Not Animate | 81 |
| Linking Assets for Object-Level Animation | 86 |
| Creating an Animation Proxy | 86 |
| Creating and Linking a Dupligrpoup | 87 |
| Which Method to Choose? | 90 |
| Linking Assets for Character Animation | 90 |
| Managing Your Links and Libraries | 92 |
| Finding and Fixing Broken Links | 93 |
| Moving a Shot File and Maintaining Its Links | 94 |
| Moving an Asset File | 95 |
| Chapter 7 Rough Sets, Blocking, and an Animatic | 97 |
| Creating Rough Sets | 97 |
| Preparing the File for the Rough Set | 98 |
| Building Your Template Scene File | 101 |
| Matching Camera Angles to Storyboards | 102 |
| Placing Your Characters | 106 |
| Proceeding Through the Story Reel | 109 |
| Special Case: Reusing Cameras | 110 |
| Additional Detail: Moving Cameras, Moving Characters | 110 |
| Creating an Animatic | 112 |
| Replacing Storyboards in the Story Reel | 112 |
| Chapter 8 Good Sound | 117 |
| Finding Decent Equipment and Environments | 117 |
| What to Use | 118 |

| | |
|---|------------|
| Where to Record | 119 |
| Making the Recording | 119 |
| The Goal of the Recording Session | 120 |
| Some Sound Processing Basics | 121 |
| Removing Noise and Adjusting Levels | 124 |
| Previewing the Recorded Sound | 125 |
| Chapter 9 Rigging and Skinning | 127 |
| An Iterative Method for Rigging, Skinning, and Testing | 127 |
| Control Structures | 128 |
| Deformers | 129 |
| Helpers | 129 |
| General Rigging and Skinning Work Flow | 129 |
| Building the Rig in Layers | 132 |
| A Practical Example | 133 |
| Inverse Kinematics/Forward Kinematics | 133 |
| Auto IK | 141 |
| Another Rigging Example: The Fingers | 141 |
| Binding the Rig to the Mesh | 142 |
| To Deform or Not? | 142 |
| The Armature Modifier and Vertex Groups | 143 |
| The Mesh Deform Modifier | 146 |
| Lattices | 148 |
| Combining Different Deformation Methods with Vertex Groups | 152 |
| Testing Your Rig | 154 |
| A Final Example of Fixing a Rigging Problem | 155 |
| A Checklist for Preparing Rigged Characters for Life as a Library | 157 |
| Chapter 10 Facial Motion and Controls | 161 |
| Blender's Method for Controlling Facial Expressions | 161 |
| Creating a Library of Shapes | 164 |
| Different Ways to Construct Expressions | 165 |
| Expression Fragments | 165 |
| Splitting Expressions | 166 |
| Tips for Creating the Shapes | 170 |
| Mouth Shapes for Lip Syncing | 173 |
| Constructing Shape Controls | 175 |
| Rigging and Controlling Eyes | 182 |
| Spherical Eyes | 182 |
| Flattened, Squashed or Otherwise Nonspherical Eyes | 183 |

| | |
|--|------------|
| Chapter 11 Animation | 187 |
| Creation of Per-Shot Working Files from the Scene Template | 187 |
| Animation Basics | 189 |
| Animating in Blender | 192 |
| Working in the Action Editor | 193 |
| Straight Ahead Animation | 195 |
| Pose to Pose Animation | 196 |
| A Practical Example | 197 |
| Timing | 201 |
| Overlap | 202 |
| Anticipation and Follow Through | 204 |
| Fine Tuning Your Animation | 204 |
| Analyzing Motion with Arcs | 205 |
| Facial Expressions | 206 |
| “Automatic” Motion: Breathing and Blinking | 206 |
| Production Techniques | 208 |
| Pick it Up | 208 |
| Hold On! | 209 |
| Walk This Way | 210 |
| A Final Note | 214 |
| Chapter 12 Lip Sync | 215 |
| Adding Audio Strips to Shot Files | 215 |
| Creating the Sync | 217 |
| Mixing and Exporting Sound for the Final Edit | 219 |
| Chapter 13 Final Sets and Backgrounds | 223 |
| Work Flow | 223 |
| Quality versus Render Time | 224 |
| Geometry | 224 |
| Matching the Rough Set | 224 |
| Movable Objects and Construction | 225 |
| Materials | 226 |
| Raytracing, of Course | 226 |
| Subsurface Scattering | 228 |
| Full OSA | 229 |
| Lighting | 230 |
| What Not to Use | 230 |
| Lighting Exterior Shots | 231 |
| Lighting Interior Shots | 234 |
| Layering | 236 |
| Getting Help | 238 |

| | |
|---|------------|
| Chapter 14 Simulation | 243 |
| Blender's Simulators | 243 |
| Fluids | 243 |
| Common Methods of Faking Water and Fluids | 248 |
| Cloth | 253 |
| Cloth Pinning | 255 |
| Rigid Bodies | 258 |
| Particles | 262 |
| Fire and Smoke | 262 |
| Bits o' Stuff | 266 |
| Strands—Hair and Fur | 270 |
| Setting Up and Adding Parent Strands for Grooming | 271 |
| Filling it Out with Children | 275 |
| Materials | 276 |
| Soft Bodies | 281 |
| Blubber | 281 |
| Hair | 283 |
| Linking Issues with Simulators | 285 |
| Chapter 15 Rendering and Compositing | 287 |
| Goals and Overview | 287 |
| Lighting Your Shot Files | 288 |
| Compositing for Better, Faster Renders | 290 |
| Faster Renders | 290 |
| Better Renders | 302 |
| Contrast Boost | 302 |
| Midtone Brightness | 303 |
| Combining the Techniques | 304 |
| Color Adjustment | 305 |
| Motion Blur | 307 |
| Getting a Good Render on Your Local Machine | 309 |
| Final Animation Review | 311 |
| Preparing for Render Farming | 312 |
| Setting Up and Using a Render Farm | 313 |
| Using Render Farm Software: Farmerjoe | 314 |
| Running Farmerjoe Remotely | 321 |
| Checking the Final Frames | 322 |
| Staying Organized | 322 |
| Chapter 16 Final Edit and Output | 325 |
| Putting All of the Renders Together | 325 |
| Color Correction and More Post Effects | 330 |

| | |
|-------------------------|------------|
| Editing for Timing | 332 |
| Sound, Music, and Foley | 333 |
| Music | 334 |
| Sound Effects and Foley | 336 |
| Output Formats | 336 |
| The Wrappers | 336 |
| Web Distribution | 337 |
| Audio | 339 |
| DVD | 340 |
| <i>Afterword</i> | <i>345</i> |
| <i>Index</i> | <i>347</i> |
