

# TABLE OF CONTENTS

---

<b>CHAPTER 1</b>	<b>Aircraft Structural Assembly and Rigging</b>	<b>1-1</b>
	Section A Aircraft Design and Construction	1-1
	Section B Airplane Assembly and Rigging	1-3
	Section C Fundamentals of Rotary-Wing Aircraft	1-8
<b>CHAPTER 2</b>	<b>Sheet Metal Structures</b>	<b>2-1</b>
	Section A Metallic Aircraft Construction	2-1
	Section B Sheet Metal Tools and Fasteners	2-4
	Section C Sheet Metal Fabrication	2-6
	Section D Inspection and Repair of Metallic Aircraft Structures	2-8
<b>CHAPTER 3</b>	<b>Wood, Composite, and Transparent Plastic Structures</b>	<b>3-1</b>
	Section A Aircraft Wood Structures	3-1
	Section B Composite Structures	3-2
	Section C Transparent Plastic Materials	3-7
<b>CHAPTER 4</b>	<b>Aircraft Welding</b>	<b>4-1</b>
	Section A Welding Processes	4-1
	Section B Advanced Welding and Repairs	4-3
	Section C Basic Gas Welding	4-4
<b>CHAPTER 5</b>	<b>Aircraft Fabric Covering</b>	<b>5-1</b>
	Section A Fabric Covering Processes	5-1
	Section B Covering Procedures	5-2
	Section C Inspection and Repair of Fabric Covering	5-4
<b>CHAPTER 6</b>	<b>Aircraft Painting and Finishing</b>	<b>6-1</b>
	Section A Fabric Finishing Processes	6-1
	Section B Aircraft Painting Processes	6-2
	Section C Finishing Equipment and Safety	6-4
<b>CHAPTER 7</b>	<b>Airframe Electrical Systems</b>	<b>7-1</b>
	Section A Airborne Sources of Electrical Power	7-1
	Section B Aircraft Electrical Circuits	7-5
	Section C Wiring Installation	7-6
	Section D Electrical System Components	7-7
<b>CHAPTER 8</b>	<b>Hydraulic and Pneumatic Power Systems</b>	<b>8-1</b>
	Section A Principles of Hydraulic Power	8-1
	Section B Hydraulic System Components and Design	8-3
	Section C Hydraulic Power Systems	8-4
	Section D Aircraft Pneumatic Systems	8-6

<b>CHAPTER 9</b>	<b>Aircraft Landing Gear Systems</b>	<b>9-1</b>
	Section A Landing Gear Systems and Maintenance	9-1
	Section B Aircraft Brakes	9-3
	Section C Aircraft Tires and Tubes	9-4
<b>CHAPTER 10</b>	<b>Position And Warning Systems</b>	<b>10-1</b>
	Section A Antiskid Brake Control Systems	10-1
	Section B Indicating and Warning Systems	10-2
<b>CHAPTER 11</b>	<b>Aircraft Instrument Systems</b>	<b>11-1</b>
	Section A Principles of Instrument Systems	11-1
	Section B Instrument System Installation and Maintenance Practices	11-5
<b>CHAPTER 12</b>	<b>Aircraft Avionics Systems</b>	<b>12-1</b>
	Section A Avionics Fundamentals	12-1
	Section B Autopilots And Flight Directors	12-4
	Section C Installation And Maintenance of Avionics	12-5
<b>CHAPTER 13</b>	<b>Airframe Ice And Rain Control</b>	<b>13-1</b>
	Section A Airframe Ice Control Systems	13-1
	Section B Rain Control Systems	13-3
<b>CHAPTER 14</b>	<b>Cabin Atmosphere Control</b>	<b>14-1</b>
	Section A Flight Physiology	14-1
	Section B Oxygen And Pressurization Systems	14-1
	Section C Cabin Climate Control Systems	14-3
<b>CHAPTER 15</b>	<b>Aircraft Fuel Systems</b>	<b>15-1</b>
	Section A Aviation Fuels and Fuel System Requirements	15-1
	Section B Fuel System Operation	15-2
	Section C Fuel System Repair, Testing, and Servicing	15-5
<b>CHAPTER 16</b>	<b>Fire Protection Systems</b>	<b>16-1</b>
	Section A Fire Detection	16-1
	Section B Fire-Extinguishing Systems	16-3
<b>CHAPTER 17</b>	<b>Aircraft Airworthiness Inspection</b>	<b>17-1</b>
	Section A Required Airworthiness Inspections	17-1
	Section B Inspection Guidelines and Procedures	17-3
	Section C Aircraft Maintenance Records	17-4
