

IEA Scoreboard

2009

35 Key Energy Trends over 35 Years

International
Energy Agency

Table of contents

Executive summary	7
-------------------------	---

IEA in the world

Population and gross domestic product	14
Energy production: total, coal and oil	16
Energy production: natural gas, nuclear and renewables	18
Energy imports	20
Energy exports	22
Total primary energy supply by region	24
Primary energy supply by fuel	26
Total primary energy supply by region and by fuel	28
Electricity production	30
Electricity consumption	32
CO ₂ emissions from fuel combustion	34

Diversity within the energy sector

1 Diversification in energy production	38
2 Diversification in total primary energy supply	40
3 Diversification in oil supply and consumption	42
4 Diversification in coal supply and consumption	44
5 Diversification in gas supply and consumption	46
6 Diversification in industry consumption	48
7 Diversification in transport consumption	50
8 Diversification in residential consumption	52
9 Diversification in commercial and public services consumption	54
10 <i>Diversification in electricity production</i>	56
11 Diversification in sectoral electricity consumption	58

Ability to respond promptly to energy emergencies

12 Net energy imports	62
13 Self-sufficiency	64
14 Emergency oil stockholding	66

Development of economic non-fossil fuels: *nuclear and renewables*

15 Share of nuclear in TPES and electricity production	70
16 Share of renewables in TPES	72
17 Share of renewables in electricity production	74
18 Hydro	76
19 Non-hydro renewables	78
20 Biofuels	80

Improved energy efficiency

21	TPES per capita	84
22	TPES per GDP	86
23	Energy efficiency savings in IEA member countries	88
24	Energy intensity in manufacturing industries	90
25	Energy efficiency in freight transport	92
26	Energy efficiency in passenger transport	94
27	Energy efficiency in households	96
28	Power plant efficiency	98

Environmentally sustainable provision and use of energy

29	CO ₂ emissions from fuel combustion	102
30	CO ₂ emissions from the electricity sector	104
31	CO ₂ emission intensities	106

Undistorted energy prices

32	Prices and taxes of selected products	110
-----------	---	-----

Continued research, development and market deployment

33	RD&D budgets in the energy sector	114
34	RD&D budgets for renewable energy	116
35	IEA Implementing Agreements	118

Annexes

Annex 1	IEA Shared Goals	122
Annex 2	Geographical coverage	123
Annex 3	Selected graphs for the world	124
Annex 4	Selected key indicators for 140 countries, economies and regions	128
Annex 5	Glossary	132
Annex 6	Units and conversions	136
Annex 7	Abbreviations	139
