C contents

1	Background.....	1
1.1	Historical Development	1
1.2	Structure and Morphology	9
1.2.1	Introduction	9
1.2.2	PET	10
1.2.3	PTT	11
1.2.4	PBT	12
1.2.5	PCT	13
1.2.6	PEN.....	14
1.2.7	LCP	15
2	Thermal Degradation	21
2.1	Poly(ethylene terephthalate) (PET).....	21
2.2	Poly(butylene terephthalate) (PBT)	35
2.3	Poly(trimethylene terephthalate) (PTT).....	42
2.4	Other Poly(alkylene terephthalate)s	44
2.5	Poly(alkylene naphthalate)s (PAN)	47
2.6	Poly(alkylene phthalate)s and Poly(alkylene isophthalate)s.....	48
2.7	Poly(<i>p</i> -phenylene alkanedioate)s.....	48
2.8	Highly Aromatic Polyesters	49
3	Thermo-Oxidative Degradation	65
3.1	Poly(ethylene terephthalate) (PET).....	65

3.2	Poly(butylene terephthalate) (PBT)	73
3.3	Poly(trimethylene terephthalate) (PTT)	77
3.4	Other Aromatic Polyesters	80
4	Photodegradation and Radiation Degradation	85
4.1	Photodegradation and Oxidation of Poly (ethylene terephthalate) (PET).....	85
4.2	Photodegradation and Oxidation of Other <i>Poly(alkylene terephthalate)s</i>	93
4.3	Photodegradation and Oxidation of Poly(alkylene naphthalate)s	94
4.3.1	Formation of a naphthalic acid end group.	95
4.4	Radiation Degradation	96
5	Chemical Degradation and Recycling	107
5.1	Hydrolytic Degradation	107
5.2	Ester Interchange	109
5.3	Aminolysis	110
5.4	Biodegradation	110
5.5	Chemical Recycling	112
6	Thermal and Hydrolytic Stabilisation	143
6.1	Introduction	143
6.2	Thermal Stabilisation.....	144
6.3	End-capping	153
6.4	Chain Extension	156
6.4.1	Without Additives	156
6.4.2	Chain Extenders	157
7	Thermo-oxidative Stabilisation.....	181
7.1	Introduction	181
7.2	Studies on Antioxidants.....	183
7.3	Potential New Chemistries.....	187

7.4	Patents	188
8	Stabilisation Against Ultraviolet and Ionising Radiation...	199
8.1	Introduction to Ultraviolet (UV) Stabilisation	199
8.2	UV Screeners and Absorbers	200
8.2.1	Background	200
8.2.2	Salicyclates	202
8.2.3	Benzophenones	203
8.2.4	Benzotriazoles.	204
8.2.5	Cinnamates and Related Types	206
8.2.6	Oxanilides	209
8.2.7	Cyclic Imino Esters	209
8.2.8	Triazines	210
8.2.9	Miscellaneous	211
8.3	Excited State Quenching	212
8.4	Radical Scavengers	213
8.4.1	Background	213
8.4.2	HALS	214
8.4.3	Other Radical Scavengers	219
8.5	Ionising Radiation Stabilisation	219
	Appendix – Commercial Additive Structures	241
	Abbreviations	261
	Index	263
