

A&P TECHNICIAN AIRFRAME

TEST GUIDE WITH ORAL AND
PRACTICAL STUDY GUIDE

TABLE OF CONTENTS

Preface	ix
Introduction	x
CHAPTER 1 Aircraft Structural Assembly and Rigging	1-1
Section A - Aircraft Design and Construction	1-1
Section B - Airplane Assembly and Rigging	1-4
Section C - Fundamentals of Rotary-Wing Aircraft	1-18
CHAPTER 2 Sheet Metal Structures	2-1
Section A - Metallic Aircraft Construction	2-1
Section B - Sheet Metal Tools and Fasteners	2-4
Section C - Sheet Metal Fabrication	2-12
Section D - Inspection and Repair of Metallic Aircraft Structures	2-23
CHAPTER 3 Wood, Composite, and Transparent Plastic Structures	3-1
Section A - Aircraft Wood Structures	3-1
Section B - Composite Structures	3-4
Section C - Transparent Plastic Materials	3-12
CHAPTER 4 Aircraft Welding	4-1
Section A - Welding Processes	4-1
Section B - Advanced Welding and Repairs	4-4
Section C - Basic Gas Welding	4-6
CHAPTER 5 Aircraft Fabric Covering	5-1
Section A - Fabric Covering Process	5-1
Section B - Covering Procedures	5-3
Section C - Inspection and Repair of Fabric Covering	5-5
CHAPTER 6 Aircraft Painting and Finishing	6-1
Section A - Fabric Finishing Processes	6-1
Section B - Aircraft Painting Processes	6-2
Section C - Finishing Equipment and Safety	6-5
CHAPTER 7 Airframe Electrical Systems	7-1
Section A - Airborne Sources of Electrical Power	7-1
Section B - Aircraft Electrical Circuits	7-11
Section C - Wiring Installation	7-16
Section D - Electrical System Components	7-23

CHAPTER 8 Hydraulic and Pneumatic Power Systems	8-1
Section A - Principles of Hydraulic Power	8-1
Section B - Hydraulic System Components and Design	8-4
Section C - Hydraulic Power Systems	8-14
Section D - Aircraft Pneumatic Systems	8-29
CHAPTER 9 Aircraft Landing Gear Systems	9-1
Section A - Landing Gear Systems and Maintenance	9-1
Section B - Aircraft Brakes	9-9
Section C - Aircraft Tires and Tubes	9-15
CHAPTER 10 Position and Warning Systems	10-1
Section A - Antiskid Brake Control Systems	10-1
Section B - Indicating and Warning Systems	10-4
CHAPTER 11 Aircraft Instrument Systems	11-1
Section A - Principles of Instrument Systems	11-1
Section B - Instrument System Installation and Maintenance	11-8
CHAPTER 12 Aircraft Avionics Systems	12-1
Section A - Avionics Fundamentals	12-1
Section B - Autopilots and Flight Directors	12-6
Section C - Installation and Maintenance of Avionics	12-10
CHAPTER 13 Airframe Ice and Rain Control	13-1
Section A - Airframe Ice Control Systems	13-1
Section B - Rain Control Systems	13-7
CHAPTER 14 Cabin Atmosphere Control Systems	14-1
Section A - Flight Physiology	14-1
Section B - Oxygen and Pressurization Systems	14-2
Section C - Cabin Climate Control Systems	14-14
CHAPTER 15 Aircraft Fuel Systems	15-1
Section A - Aviation Fuels and Fuel System Requirements	15-1
Section B - Fuel System Operation	15-5
Section C - Fuel System Repair, Testing, and Servicing	15-19
CHAPTER 16 Fire Protection Systems	16-1
Section A - Fire Detection	16-1
Section B - Fire-Extinguishing Systems	16-6
CHAPTER 17 Aircraft Airworthiness Inspection	17-1
Section A - Required Airworthiness Inspections	17-1
Section B - Inspection Guidelines and Procedures	17-4
Section C - Aircraft Maintenance Records	17-5

APPENDIX A Learning Statement Codes and Learning Statements	A-1
Learning Statement Codes and Learning Statements for Inspection Authorization	A-1
Learning Statement Codes and Learning Statements for Aviation Mechanic - General Exams	A-3
Learning Statement Codes and Learning Statements for Aviation Mechanic - Airframe Exam	A-6
Learning Statement Codes and Learning Statements for Aviation Mechanic - Powerplant Exam	A-9
 APPENDIX B Airframe Oral and Practical Exam Study Guide	 B-1
Requirements For Certification	B-2
The Oral and Practical Exam	B-3
Suggestions for Military Applicants	B-7
Chapter 1 — Aircraft Structural Assembly and Rigging	B-8
Chapter 2 — Sheet Metal Structures	B-12
Chapter 3 — Wood, Composite, and Transparent Plastic Structures	B-15
Chapter 4 — Aircraft Welding	B-19
Chapter 5 — Aircraft Fabric Covering	B-22
Chapter 6 — Aircraft Painting and Finishing	B-25
Chapter 7 — Airframe Electrical Systems	B-28
Chapter 8 — Hydraulic and Pneumatic Power Systems	B-32
Chapter 9 — Aircraft Landing Gear Systems	B-35
Chapter 10 — Position and Warning Systems	B-38
Chapter 11 — Aircraft Instrument Systems	B-41
Chapter 12 — Aircraft Avionics Systems	B-45
Chapter 13 — Airframe Ice and Rain Control	B-48
Chapter 14 — Cabin Atmosphere Control Systems	B-51
Chapter 15 — Aircraft Fuel Systems	B-54
Chapter 16 — Fire Protection Systems	B-57
Chapter 17 — Aircraft Airworthiness Inspection	B-61
